Celebrity Biographies - The Amazing Life of Gerard Butler and Aaron Eckhart - Famous Stars Matt Green, Ever wondered how Gerard Butler and Aaron Eckhart rose to stardom? Gerard James Butler was born November 13, 1969 in Paisley in Renfrewshire, Scotland, United Kingdom to Margaret and Edward Butler, an Irish bookmaker. The youngest of three children, Butler was mostly raised in his hometown of Paisley, with a short stay in Montreal, Québec, Canada between the ages of six months and eighteen months until his mother moved back to Scotland. Aaron Eckhart is simply one of the brilliant actors to be found in Hollywood. When talking about Eckhart one would picture an incredibly handsome guy with a small dimple in the middle of his chin. He showed his interests in acting early on by taking part in school plays and by also following a major in Fine Arts at Brigham Young University. The Epic Film in World Culture Robert Burgoyne, 2010-09-13 With the recent release of spectacular blockbuster films from *Gladiator* to *The Lord of the Rings* trilogy, the epic has once again become a major form in contemporary cinema. This new volume in the AFI Film Readers series explores the rebirth of the epic film genre in the contemporary period, a period marked by heightened and conflicting appeals to national, ethnic, and religious belonging. The original essays in this volume explore the tension between the evolving global context of film production and reception and the particular provenance of the epic as an expression of national mythology and aspirations, challenging our understanding of epics produced in the present as well as our perception of epic films from the past. The contributors will explore new critical approaches to contemporary as well as older epic films, drawing on ideas from cultural studies, historiography, classics, and film studies.

Navigating Insanity Larry Bentley, 2011-04-25 Navigating Insanity is a complex overview of an average person, with not so average views and questions. We live in a multifaceted world. A world of politics, religion, laws, government, economics, and science and many individual beliefs all wrapped up in this thing we call life. Have you ever read the paper, magazine, or watched the news and sat there and just shook your head and wondered why? Have you ever wondered who decided what to

name the days of the week, or how they got their names? This may answer some of your questions. It may give you reason to ask others. If you agree with my views; I hope I gave you some facts that you were not aware of. If you disagree: I would hope that you read this with an open mind. I am not trying to tell anyone what to think, or to believe. I wish only to give you something to think about. Finally: If I am successful at all, it will give you some interesting things to discuss with family or friends. No ones opinion is valid, unless they are willing to listen to someone elses.

Deixis and Frames of Reference in Hellenistic Dedicatory Epigrams Flavia Licciardello,2022-10-24 The book presents an analysis of communicative structures and deictic elements in Hellenistic dedicatory epigrams. Moving from the most recent linguistic theories on pragmatics and considering together both Stein- and Buchepigramme, this study investigates the linguistic means that are employed in texts transmitted on different media (the stone and the book) to point to and describe their spatial and temporal context. The research is based on the collection of a new corpus of Hellenistic book and inscribed dedicatory epigrams, which were compared to pre-Hellenistic dedicatory epigrams in order to highlight the crucial changes that characterise the development of the epigrammatic genre in the Hellenistic era. By demonstrating that the evolution of the epigrammatic genre moved on the same track for book and stone epigrams, this work offers an important contribution to the ongoing debate on the history of the epigrammatic genre and aims to stimulate further reflection on a poetic genre, which, since its origins in the Greek world, has been successful both in ancient and modern literary traditions.

Cognitive Narrative Thematics Daniel Candel,2023-12-22 Cognitive Narratives Thematics proposes a new way in which narrative works organise their thematic material. It rehabilitates the study of what books are about by providing a cognitive narrative thematic model (CNT). Part I presents CNT by combining different approaches to narrative, such as evolutionary theory, semiotics, possible worlds theory, or rhetorical criticism. Part II applies CNT to a variety of well-known narratives in different modalities, such as Robert Browning's *My Last Duchess*, Julia Donaldson's *The Gruffalo*, Maurice Sendak's *Where the Wild Things Are*, Frank Miller's *300*, or Mike Mignola's *Hellboy*. It also considers literary histories and digital humanities.

Daniel Candel shows that CNT deserves greater attention and that thematics generates its own forms and adds to the aesthetic pleasure of the text. Candel illustrates that CNT improves the established interpretations of the narrative works it studies. This innovative study reveals how CNT offers readers a deeper understanding, and how readers and critics are often using CNT intuitively without being aware of it. It is an invaluable resource for students and scholars of narrative theory.

Dual Narrative Dynamics Dan Shen, 2022-12-30 Combining narratological and stylistic methods, this book theorizes dual narrative dynamics consisting of plot development and covert progression and demonstrates the consequences for the interpretation of literary works. In narratives with such dynamics, writers work simultaneously with overt and covert trajectories of signification, establishing a range of relationships between them. The two parallel narrative movements may complement, contradict or even subvert each other, and these relationships significantly influence readers' understanding not just of events but also of characters, themes, and aesthetic values. The book provides a systematic theoretical account of such previously neglected dual narrative dynamics, substantiated and enriched by the textual analysis of works by Ambrose Bierce, Kate Chopin, Franz Kafka, and Katherine Mansfield. The study explores the many ways that these authors have used dual dynamics to increase the power of their narratives. In addition, the book identifies the challenges such dual dynamics present not only for narratology but also for stylistics and translation studies, and it develops sound and provocative proposals for meeting those challenges. In taking an interdisciplinary approach, this book will appeal to scholars and students in the fields of narrative and literary theory, literary criticism, literary stylistics, and translation studies.

Ancient Greek Women in Film Konstantinos P. Nikoloutsos, 2013-11-28 This volume examines cinematic representations of ancient Greek women from the realms of myth and history. It discusses how these female figures are resurrected on the big screen by different filmmakers during different historical moments, and are therefore embedded within a narrative which serves various purposes, depending on the director of the film, its screenwriters, the studio, the

country of its origin, and the sociopolitical context at the time of its production. Using a diverse array of hermeneutic approaches (such as gender theory, feminist criticism, psychoanalysis, viewer-response theory, and personal voice criticism), the essays aim to cast light on cinema's investments in the classical past and decode the mechanisms whereby the women under examination are extracted from their original context and are brought to life to serve as vehicles for the articulation of modern ideas, concerns, and cultural trends. The volume thus aims to investigate not only how antiquity on the screen depicts, and in this process distorts, compresses, contests, and revises, antiquity on the page but also, more crucially, why the medium follows such eclectic representational strategies vis-à-vis the classical world.

Modernism's Mythic Pose Carrie J. Preston, 2011-09-05 The ancient world served as an unconventional source of inspiration for a generation of modernists. Drawing on examples from literature, dance, photography, and film, *Modernism's Mythic Pose* argues that a strain of antimodern-classicism permeates modernist celebrations of novelty, shock, and technology. The touchstone of Preston's study is Delsartism--the popular transnational movement which promoted mythic statue-posing, poetic recitation, and other hybrid solo performances for health and spiritual development. Derived from nineteenth-century acting theorist Francois Delsarte and largely organized by women, Delsartism shaped modernist performances, genres, and ideas of gender. Even Ezra Pound, a famous promoter of the new, made ancient figures speak in the old genre of the dramatic monologue and performed public recitations. Recovering precedents in nineteenth-century popular entertainments and Delsartism's hybrid performances, this book considers the canonical modernists Pound and T. S. Eliot, lesser-known poets like Charlotte Mew, the Russian filmmaker Lev Kuleshov, Isadora Duncan the international dance star, and H.D. as poet and film actor. Preston's interdisciplinary engagement with performance, poetics, modern dance, and silent film demonstrates that studies of modernism often overemphasize breaks with the past. Modernism also posed myth in an ambivalent relationship to modernity, a halt in the march of progress that could function as escapism, skeptical critique, or a figure for the death of gods and civilizations.

Myth, Truth, and Narrative in Herodotus Emily Baragwanath, Mathieu de Bakker, 2012-09-06 Herodotus, the 'Father of History', is infamously known for having employed elements more akin to mythological tales than to unvarnished 'truth' in translating his historical research into narrative form. While these narratives provide valuable source material, he could not have surmised the hostile reception his work would receive in later generations. This mythical aspect of the *Histories* led many successors, most notoriously Plutarch, to blame Herodotus for spinning far-fetched lies, and to set him apart as an untrustworthy historian. Echoes of the same criticism resounded in twentieth-century scholarship, which found it difficult to reconcile Herodotus' ambition to write historical stories 'as they really happened' with the choices he made in shaping their

form. This volume brings together 13 original articles written by specialists in the fields of ancient Greek literature and history. Each article seeks to review, re-establish, and rehabilitate the origins, forms, and functions of the Histories' mythological elements. These contributions throw new light on Herodotus' talents as a narrator, underline his versatility in shaping his work, and reveal how he was inspired by and constantly engaged with his intellectual milieu. The Herodotus who emerges is a Herculean figure, dealing with a vast quantity of material, struggling with it as with the Hydra's many-growing heads, and ultimately rising with consummate skill to the organisational and presentational challenges it posed. The volume ultimately concludes that far from being unrelated to the 'historical' aspects of Herodotus' text, the 'mythic' elements prove vital to his presentation of history.

Classical Masculinity and the Spectacular Body on Film D. O'Brien, 2014-10-29 The muscle-bound male body is a perennial feature of classically-inflected action cinema. This book reassesses these films as a cinematic form, focusing on the depiction of heroic masculinity. In particular, Hercules in his many incarnations has greatly influenced popular cultural interpretations of manliness and the exaggerated male form.
