The Case and the Canon Alessandra Calanchi, Gastone Castellani, Gabriella Morisco, Giorgio Turchetti, 2011 The concept of a constant reformulation of the canon due to the notion of singularity or irreducibility of the case can be applied in both scientific and literary fields. In this volume, dynamics of interconnections between the case and the canon are analysed by scholars belonging to different disciplines such as physics, medicine, biology, psychoanalysis, and literature. Particular attention has been given to the science of detection since the techniques of investigation are based on the scientific acquisition of evidence and often imply a scientific (abductive) process. The book is divided into two sections: Part I concentrates mainly on literary contributions and psychological issues, while part II concentrates on scientific enquiries. The contributions have been selected according to two main guidelines: The first covers anomalies, discontinuities, metaphors between science and literature. The second focus lies on the case in crime fiction: The scientist as detective and the detective as scientist.

Raphael in Early Modern Sources (1483-1602) John K. G. Shearman,Bibliotheca Hertziana Staff,2003-01-01 Every known document concerning Raphael, covering a period of 120 years from his birth in 1483, is included in this chronologically organized collection.

1583-2000 Jacqueline Lillo,2008 Questo repertorio è il risultato del lavoro di un'équipe di trentacinque ricercatori che hanno esplorato più di quattrocento biblioteche pubbliche e private in Francia, Gran Bretagna, Italia, Paesi Bassi e Spagna. Sono state redatte 784 schede analitiche che forniscono delle informazioni generali (autore/i, frontespizio, editore, anno di edizione, ecc.) e specifiche sul paratesto e sul lemmario. Particolare cura è stata data alla descrizione della struttura delle voci. Numerosi indici e grafici facilitano la lettura dei dati. Questo repertorio permette di cogliere l'evoluzione della lessicografia bilingue italo-francese, e della relativa editoria, dal primo dizionario rinvenuto, apparso nel 1583, al 2000. Accanto ai più importanti lessicografi (Oudin, Veneroni, D'Alberti Di Villanova, Cormon e Manni, Ghiotti, Boch, ecc.), lo studioso scoprirà un gran numero di opere anonime e di autori di un solo dizionario. Sul fondo si scorge inoltre lo stato della società in un dato periodo storico e la fortuna alterna dei rapporti tra le due nazioni.

Board Governance in Bank Foundations Chiara Leardini,Gina Rossi,Sara Moggi,2014-01-08 Bank foundations serve an important purpose in the Italian nonprofit sector. This book presents the legal grounds, areas of intervention, and basic tools involved in the asset management and grant-making activities that such organizations undertake. A special emphasis focuses on the analyses of the organizational structure of bank foundations and the relevant aspects of governance, particularly with regard to the composition, roles, and responsibilities of bank foundation boards. The general reduction in the resources to which they have access requires a new strategy that clearly defines long-term goals and the necessary procedures to achieve them. The topic of strategic planning is therefore also central to this text, which examines its peculiarities, content and governing bodies. The analysis of some case studies provides a better understanding of the manner in which foundations interpret strategic planning and reveals strengths and weaknesses that demand careful attention.
