Wheeler, 2010-04-01 Both traditions recognize and draw theological and historical lessons from some of the same narrative sources, but this is the first comparative resource to provide interdisciplinary coverage of the history and textual sources associated with prophets and prophecy. This thorough treatment of a difficult and increasingly controversial subject area will encourage and cultivate knowledge and understanding. Entries are drawn from five main fields: 1. Ancient Near Eastern Studies 2. Bible and Biblical Studies 3. Judaism and Jewish Studies 4. The Quran and Quranic Studies 5. Islam and Islamic Studies The A to Z of Prophets in Islam and Judaism treat each entry as a compilation of relevant data culled from these different traditions in order to take the reader beyond the expected parameters of research. **Prophets, Gods and Kings in Sirat Sayf ibn Dhī Yazan** Helen Blatherwick, 2016-05-09 This book is a literary, intertextual study of an Egyptian popular epic. In this innovative study, Helen Blatherwick investigates how various sources, including Islamic *qīṣaṣ al-anbiyā'* ('tales of the prophets'), Pharaonic, Graeco-Roman and Coptic Egyptian myths and narratives, and recensions of the Alexander Romance function as intertexts within *Sirat Sayf*. Blatherwick argues that these

intertexts are deployed as narrative devices which are readily recognisable to the story's audience, and that they are significant carriers of meaning and theme. Crucially, these intertexts also interact within Sirat Sayf to bring a conceptual continuity to its discussion of kingship and society that stretches from this late-medieval epic back to ancient Egyptian narratives.

**Islam** Cenap Çakmak, 2017-05-18 This expansive four-volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. One of the most popular and widespread religions in the world, Islam has attracted a great deal of attention in recent times, particularly in the Western world. With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans, there is ever increasing need to examine and understand Islam as a religion and historical force. Islam: A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time. The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition. Each entry begins with a basic introduction, followed by a general discussion of the subject and a conclusion. Each entry also features a further readings list for readers. In addition to supplying a comprehensive, authoritative overview of Islam, this work also specifically addresses many controversial related

issues, including jihad, violence in Islam, polygamy, and apostasy.

**A Dictionary of Islam** Thomas Patrick Hughes, 1895

*The Character of David in Judaism, Christianity and Islam*, 2021-11-29 King David is one of the most central figures in all of the major monotheistic traditions. He generally connotes the heroic past of the (more imagined than real) ancient Israelite empire and is associated with messianic hopes for the future. Nevertheless, his richly ambivalent and fascinating literary portrayal in the Hebrew Bible is one of the most complex of all biblical characters. This volume aims at taking a new, critical look at the process of biblical creation and subsequent exegetical transformation of the character of David and his attributed literary composition (the Psalms), with particular emphasis put on the multilateral fertilization and cross-cultural interchanges among Jews, Christians and Muslims.

*The Nativist Prophets of Early Islamic Iran* Patricia Crone, 2012-06-28 Patricia Crone's book is about the Iranian response to the Muslim penetration of the Iranian countryside, the revolts subsequently triggered there and the religious communities that these revolts revealed. The book also describes a complex of religious ideas that, however varied in space and unstable over time, has demonstrated a remarkable persistence in Iran across a period of two millennia. The central thesis is that this complex of ideas has been endemic to the mountain population of Iran and occasionally become epidemic with major consequences for the country, most strikingly in the revolts examined here and in the rise of the Safavids who imposed Shi'ism on Iran. This learned and engaging book by one of the most influential scholars of early Islamic history casts entirely new light on the nature of religion in pre-Islamic Iran and on the persistence of Iranian religious beliefs both outside and inside Islam after the Arab conquest.

**Al-Islam** Iftikhar Ahmed Mehar, 2003 This book details the reasons and circumstances which brought about the creation of the humanity; its' purpose of life in this Universe and the absolute guidance for its social and economical survival against the ever-present forces of the Evil!

**Islam as Education** Aaron J. Ghiloni, 2019-08-01 Motivated by the intellectual historian Shahab Ahmed's observation that "the history of Islamic paideia has yet to be written," *Islam as Education* explores multiple forms that the search for knowledge and the transmission of wisdom have taken in Islam, focusing on the classical period (800–1500 CE). Ghiloni draws on a wide range of Islamic primary source material, ranging from sacred texts and parables to neglected pedagogical literature and paintings. He depicts three Islamic religious practices—pilgrimage, prophecy, and jihad—as modes of pedagogy: embodied ways of defining, defusing, and defending sacred knowledge. *Islam as Education's* educational heuristic not only aids in understanding Islam, but also provides guidance for intercultural and interreligious relations. Ghiloni argues that Islam's grand (knowledge) tradition serves as a bridge between Muslims and non-Muslims, and compares it with the educational theory of John Dewey, the celebrated American pragmatist. Based on this discussion, a final chapter develops

practical tools for learning from cultural and religious difference.

**Philosophy in the Islamic World** Peter Adamson, 2016 Peter Adamson presents the first full history of philosophy in the Islamic world for a broad readership. He traces its development from early Islam to the 20th century, from Spain to Persia. He introduces Jewish and Christian thinkers as well as Muslim; theology, mysticism, and the history of science all feature here in this rich and lively story.

**Prophet Muhammad in French and English Literature** Ahmad Gunny, 2015-07-02 Gunny, a pioneer in the study of French and European literary and theological representations of Islam in the modern period, offers a survey of over 350 years, which is both a cross cultural history and a discussion of the intellectual changes in the representation of the Prophet's life based on the examination of original published and unpublished manuscripts. -Islamic Horizons Ahmad Gunny has been a pioneer in the study of French and European literary and theological representations of Islam in the modern period. Thanks to his acclaimed critical studies, students and scholars alike have found in his work new and important directions for research. —Nabil Matar, professor, University of Minnesota This magisterial survey of the Prophet Muhammad over three hundred and fifty years is both a cross cultural history and a discussion of the intellectual changes in the representation of the Prophet's life based on the close examination of original published and unpublished manuscripts. Ahmad Gunny is fellow and senior associate at the Oxford Centre for Islamic Studies.

Mir'āt al-quds (Mirror of Holiness): A Life of Christ for Emperor Akbar Pedro Moura Carvalho, 2011-11-25 Emperor Akbar's exceptional interest in Christianity is reflected in many ways. Among these was his commissioning in 1602 of a Life of Christ from his guest, the Jesuit priest Jerome Xavier, thus marking a singular moment in the relations between one of the greatest Muslim rulers and Catholicism. This fascinating text—translated into English for the first time—draws mostly on Biblical and apocryphal sources, but also reveals that in order not to antagonize his Muslim hosts, Father Jerome occasionally made concessions in his work. Of the three illustrated copies, the one used in this study and now in the Cleveland Museum of Art is the most important. Its twenty-seven high-quality miniatures were inspired by the text itself, resulting in unique

interpretations of episodes that often do not find parallels in a European context.
