**George Steiner**

Después de Babel George Steiner,2005-04 Despues de Babel ensaya una larga historia, más extensa que la de cualquier imperio y tan remota como la de las más antiguas lenguas conocidas. Una historia que no se limita a la de ningún pueblo y que, en rigor, debería abarcar la de todos. De la filosofía y la historia de las ideas a la cábala, la gnosis, la antropología, la literatura comparada, la música y la filosofía del lenguaje, Despues de Babel deslinda una geografía, recuerda una historia, la de la traducción en Occidente. Y para Steiner, en todo movimiento del saber va implícita la traducción. Proyección plural de una sola sombra, la extensión, número y caudal de temas, cuestiones, lugares y obras tratados traduce una teoría, un modo general de pensar el ubicuo problema de la traducción. George Steiner hilvana los hilos conductores capaces de guiarnos por los intrincados y a veces recónditos laberintos de la torre demolida: los misterios hermanos del lenguaje y la gnosis, la comprensión como un caso a un tiempo particular y general de la traducción, la querella perenne de las palabras y las cosas, los meandros seguidos por el trayecto hermenéutico, la vida perpleja de una palabra que es simultáneamente objeto y sujeto de sí misma y la topología de una cultura que, para decirlo de una vez, ve materializarse su historia en el activo puñado de troncos originales cuyas sucesivas versiones, adaptaciones, alusiones y paráfrasis constituyen el tejido de nuestra cultura. -

**Después de Babel** George Steiner,1995-01-01

**After Babel** George Steiner,1998 'Translation has long needed a champion, and at last in George Steiner it has found a scholar who is a match for the task.' Sunday Times First published in 1975, After Babel constituted the first systematic investigation of the theory and processes of translation since the eighteenth century. In mapping out its own field, it quickly established itself as both controversial and seminal, and gave rise to a considerable, and still-growing, body of secondary literature. Even today, with its status as a modern classic beyond question, many of the books insights remain provocative and challenging. For the second edition of After Babel, George Steiner entirely revised the text, added new and expanded notes, provided a substantially updated bibliography (including much Russian and Eastern European material), and wrote a new preface setting the book in the present context of hermeneutics, poetics, and translation studies. 'Steiner's subject is extravagantly rich and he ponders it on the most generous scale...his language and his ideas display even-handedness, seriousness without heaviness, learning without pedantry, and sober charm.' New Yorker

**George Steiner: entrar en sentido** González Valdés, Ronaldo,2021-05-26 La obra de George Steiner subraya la necesidad de la búsqueda del sentido, más perentoria que nunca en estos tiempos marcados por el surgimiento de mil relativismos. El ensayo de Ronaldo González tiene la peculiaridad de explorar la faceta crítica tanto como la narrativa de la literatura steineriana. Con ello, el lector podrá apreciar los vínculos que unen los ensayos con los cuentos y las novelas del polímata, un abordaje apenas emprendido por sus comentaristas. Las glosas y el epílogo del libro presentan esta panorámica desde la revisión de la narrativa, la crítica literaria y las fecundas conjeturas históricas y filosóficas que, a lo largo de su viaje por los más diversos territorios de las lenguas y las culturas, elaboró uno de los más originales pensadores de nuestro tiempo.

**Historiografía de la traducción en el espacio ibérico** Pilar Ordóñez López,José Antonio Sabio Pinilla,2015-12-07 Este libro nace como resultado de una reflexión en torno al estudio histórico de la traducción en el espacio ibérico. Dejando aparte las connotaciones políticas del término, lo «ibérico» surge como una categoría supranacional en cierto modo periférica con respecto al eurocentrismo tradicional, que nos ayuda a encuadrar la historia de un conjunto de sistemas lingüísticos y literarios dentro de un espacio cultural común. A partir de la selección de quince lecturas publicadas entre 1994 y 2013, los responsables de esta obra pretenden ofrecer una evolución de los enfoques historiográficos que han marcado la investigación en traducción durante las dos últimas décadas en la Península. El objetivo principal es resaltar la singularidad de este tipo de investigación señalando la pujanza de su estudio y la riqueza de los temas tratados en la Península Ibérica.

**Iberian and Translation Studies** Esther Gimeno Ugalde,Marta Pacheco Pinto,Ângela Fernandes,2021-08-15 Iberian and Translation Studies: Literary Contact Zones offers fertile reflection on the dynamics of linguistic diversity and multifaceted literary translation flows taking place across the Iberian Peninsula. Drawing on cutting-edge theoretical perspectives and on a historically diverse body of case studies, the volume's sixteen chapters explore the key role of translation in shaping interliterary relations and cultural identities within Iberia. Mary Louise Pratt's contact zone metaphor is used as an overarching concept to approach Iberia as a translation(al) space where languages and cultural systems (Basque, Catalan, Galician, Portuguese, and Spanish) set up relationships either of conflict, coercion, and resistance or of

collaboration, hospitality, and solidarity. In bringing together a variety of essays by multilingual scholars whose conceptual and empirical research places itself at the intersection of translation and literary Iberian studies, the book opens up a new interdisciplinary field of enquiry: Iberian translation studies. This allows for a renewed study of canonical authors such as Joan Maragall, Fernando Pessoa, Camilo José Cela, and Bernardo Atxaga, and calls attention to emerging bilingual contemporary voices. In addition to addressing understudied genres (the entremez and the picaresque novel) and the phenomena of self-translation, indirect translation, and collaborative translation, the book provides fresh insights into Iberian cultural agents, mediators, and institutions.

La historia, la traducción y el control del pasado Samuel López Alcalá,2001 La versión de un idioma a otro siempre ha sido una herramienta clave para la tarea del historiador. Pero sin duda se ha utilizado como herramienta clave de control del pasado. Quien conoce las leguas del pasado guarda la llave del presente y del futuro. Este estudio presenta, asimismo, una breve historia de la historia de la traducción y algunos comentarios de estudiosos sobre el estado de la cuestión metodológica de la Historia de la Traducción

**Enigmas de la modernidad-mundo** Octávio Ianni,2000 El mundo moderno comprende siglos de modernidad, así como de sus múltiples manifestaciones en todo el mundo. Éste es un libro en el que está presente un amplio diálogo sobre el mundo moderno. Un diálogo que incluye a escritores, científicos sociales y filósofos, con quienes se hace posible formular y desarrollar algunos de los problemas que tensan a la modernidad. En él participan profesores, alumnos y otros interlocutores de diferentes universidades y países. El libro es un diálogo múltiple, polifónico: una posible expresión más de la modernidad-mundo

Poéticas de la enfermedad en la literatura moderna Utrera Torremocha, María Victoria,2015-04-20 En este libro se aborda el problema del lenguaje y la identidad literaria en relación con la inestabilidad del yo y sus cauces expresivos, desde los desdoblamientos y las poéticas de la pesadilla hasta las formulaciones espaciales del sujeto en autores como Hölderlin, Baudelaire, Rimbaud, Dostoievski o Kafka, entre otros. La defensa de la enfermedad como génesis y metáfora de una nueva literatura es característica de la poética moderna. Los principios estéticos de novedad y ruptura respecto de la tradición clásica tienden a asociar el genio creativo y libre con el auténtico artista, enfermo y rebelde, cuya grandeza espiritual dependería claramente del desorden físico o mental. La importancia que entonces cobran conceptos como lo sublime, lo inconsciente, lo onírico o lo misterioso y oculto favorece un entendimiento del arte y del creador artístico en el que el caos y lo extraño tienen un papel activo en la desarticulación de la forma clásica. La búsqueda de una nueva estética acorde con los movimientos del alma tiene un sólido asiento en las literaturas del yo y el problema de la identidad personal, una identidad no unitaria que ha de vincularse estrechamente con la crisis y la revolución del lenguaje literario.

**Barroco** VV.AA.,2013-04-24 Esta nueva salida de la edición española de la Estética krauseana pasa a integrarse en esta colección junto a la Estética y Teoría literaria de Milá y Fontanls, que es el lugar que por vinculación histórica y de dialéctica intelectual le corresponde. El pensamiento estético de Krause ha de entenderse por relación a Kant-Fichte y a Hegel tanto en el sentido de reinicio como de diálogo filosófico y controversia. Su punto de partida, necesariamente el sujeto kantiano, gira sin embargo en otro sentido que el “romántico” de Fichte. Krause también se sirve de las experiencias de Schiller y Schelling, posibilitando un orden filosófico más comprehensivo. De ahí el aspecto último de gran relieve krauseano, su especificidad neoplatónica conducente a una eficiente perspectiva de la organicidad del Todo. Esta nueva edición del Compendio de Estética incorpora un Prefacio que da cuenta con brevedad y precisión de la ‘cuestión estética’ en España. Se trataba de estudiar y editar en lengua española, de una parte, algunas obras clave del pensamiento estético moderno, ampliando ese propósito a las fundamentales creadoras de la Estética como disciplina en nuestro país, lo cual por otra parte permite acceder con naturalidad en el caso de Krause a un lugar de encuentro entre ambos puntos de mira. La idea es avanzar en la resolución de tres problemas muy diversos pero igualmente graves, mediante (1) la contribución, desde el ámbito español, a un allegamiento de relaciones entre filosofía y filología como única resolución humanística posible; (2) ofrecer una perspectiva para los estudios estéticos diversa de la dispersión dominante y la unilateralidad plástica; y (3) discernir el origen de la disciplina en España, cosa que estaba aún pendiente de dilucidar por raro que pueda parecer.
