A woman can maintain a healthy lifestyle throughout her life by following some simple health tips. This edition, unlike her first edition is diverse in many ways. The chapter related to lifestyle disorders has thrown light on the subjects of PCOD and hypothyroidism; that have become very common. Writer and nutritional expert Rujita Diwekar claims that PCOD has become a common occurrence in the last few years only. Before this it used to

be a rare phenomenon. Rijuta Diwekar tells the readers to explore this chaotic disorder that has seeped into our lifestyle and make necessary changes in our lifestyle before conditions become worse. The book tells the readers to finally take charge of their bodies and their lifestyle, instead of shifting the blame on the hormones. It talks about the importance of a balanced diet and maintaining a harmony between health and work, so that the women of today can prevent future generations to suffer from increasing bouts of hormonal diseases. It comes as a reality check in the form of a small handbook, answering all your questions about weight and hormones as well as providing solutions. The author explains the science behind it all and explains in detail the nutritional qualities and flaws of the most commonly consumed food items.
