*Lovingkindness* William R. Miller, 2017-07-14 Lovingkindness--acting with selfless compassion toward others--is a widely recognized virtue that is honored across world religions. But what does it look like in practice? How can we more fully and consistently live this calling, to be a loving presence in the world? This book explores the promise and challenge of living with lovingkindness, a concept with deep ancient roots. It offers a framework of twelve dimensions along which people make choices in daily life. Short chapters explore each of these dimensions of lovingkindness, including opportunities for practice. The structure is suitable for self-study or for use in discussion groups. In truth, lovingkindness is not something that you can achieve or perfect. It is more like a star by which to guide your life journey, a distant goal toward or away from which you move through countless choices that you make each day. This book is about that journey.

**Human Rights, Ownership, and the Individual** Rowan Cruft,2019-09-12 Is it defensible to use the concept of a right? Can we justify rights' central place in modern moral and legal thinking, or does the concept unjustifiably side-line those who do not qualify as right-holders? Rowan Cruft develops a new account of rights. Moving beyond the traditional 'interest theory' and 'will theory', he defends a distinctive 'addressive' approach that brings together duty-bearer and right-holder in the first person. This view has important implications for the idea of 'natural' moral rights - that is, rights that exist independently of anyone's recognizing that they do. Cruft argues that only moral duties grounded in the good of a particular party (person, animal, group) are naturally owed to that party as their rights. He argues that human rights in law and morality should be founded on such recognition-independent rights. In relation to property, however, matters are complicated because much property is justifiable only by collective goods beyond the rightholder's own good. For such property, Cruft argues that a new non-rights property system, that resembles markets but is not conceived in terms of rights, would be possible. The result of this study is a partial vindication of the rights concept that is more supportive of human rights than many of their critics (from left or right) might expect, and is surprisingly doubtful about property as an individual right.

Human Nature GEORGE SCOVILLE HAMLIN,2020-06-02 FORCE, in ever giving birth to new manifestations of her individuality, has been enabled to continue to advance her own cause through example, which in turn has led to an increasing love and devotion on the part of her favorite offspring and chief admirer, -Human Nature. This blind love on the part of humanity is as the intense interest of the child; it cannot be held within bounds, and having once overstepped the mark, calls upon bitter experience to lead the way to a fuller understanding of life.
