**Progress in Artificial Intelligence** Francisco Pereira, Penousal Machado, Ernesto Costa, Amílcar Cardoso, 2015-08-26

This book constitutes the refereed proceedings of the 17th Portuguese Conference on Artificial Intelligence, EPIA 2015, held in Coimbra, Portugal, in September 2015. The 45 revised full papers presented together with 36 revised short papers were carefully reviewed and selected from a total of 131 submissions. EPIA 2015, following the standard EPIA format, covers a wide range of AI topics as follows: ambient intelligence and affective environments, artificial intelligence in medicine, artificial intelligence in transportation systems, artificial life and evolutionary algorithms, computational methods in bioinformatics and systems biology, general artificial intelligence, intelligent information systems, intelligent robotics, knowledge discovery and business intelligence, multi-agent systems: theory and applications, social simulation and modelling, text mining and applications.

**Memory, Trauma and Narratives of the Self** Edmundo Balsemão Pires, Cláudio A.S. Carvalho, Joana

Ricarte, 2024-08-06 This insightful book explores the impact of traumatic experiences on the constitution of narrative identity. Editors Edmundo Balsemão Pires, Cláudio Alexandre S. Carvalho, and Joana Ricarte bring together multidisciplinary experts to examine the epistemic and ethical-political value of narrative memory, demonstrating its significance in forming essential aspects of the self and collective identity.

**Cruises** Ana Lúcia Rodrigues da Silva, 2024-05-09 The book consists of three parts. The first deals with different types of trips and companies, including mini cruises, themed itineraries, crossings, and river cruises. The second part of the book is dedicated to around-the-world itineraries, with objective criteria to make it easier to choose between different ships and itineraries, the necessary arrangements before and during the trip, the routine on board, details of the destinations visited by the author, as well as curiosities about this experience. The third part of the book is dedicated to the cruise industry in international academia, identifying the most studied and researched topics associated with the cruise industry, as well as the participation of different countries and geographical regions in the production of this knowledge, in addition to a chapter with the experience of the research group on sea and river cruises coordinated by PUC Rio.

*Social work in XXI Century St. Challenges for academic and professional training.* Concepción Nieto-Morales, 2018-08-03

The book that you hold in your hands or on the screen of any technological device is the result of the effort made by a group

of professors with the collaboration of professionals in different universities and study centres in twenty-five countries. Its title is already revealing: *Social Work in the 21st Century*. It is remarkable the coordination of professors Concepción Nieto-Morales and Monica Solange De Martino Bermúdez for readers to know not only the curriculum of Social Work in each of the countries that appear, but also the profile of the student body and the identification and reflection on the challenges that the 21st century poses to the teaching of the profession, among other elements. Being a social worker in these times requires a previous awareness before starting the long road that begins with academic training and ends with the daily work linked to people who need help; they need us to help them to conquer their rights. There is something else. Social problems over the years seem not to change their name: homeless; drug addicts, minors... but we must know that the internal dynamics of these marginalized groups evolve over time. We must act according to today's situation, with today's schemes, otherwise the essence of social work will disappear.

Private Troubles or Public Issues? Walter Lorenz, Ian Shaw, 2018-11-09 This book bears testimony to the value of a progressive form of academisation of social work education in most European countries, including former communist countries which had to re-establish social work education. It also manifests the confidence of contributors in belonging to a serious academic discipline, and the fruitfulness of bringing research 'home' from neighbouring disciplines such as sociology, psychology, social policy, or pedagogy into the mainstream of social work. The contributions to this book converge on a small number of core issues for contemporary social work. These are methodologically the conceptualisation of different and interacting dimensions of diversity, and practically the defence of professionalism and discretion against encroachment by neo-liberal ideologies and cost-cutting regulations. In so doing, this underscores that theory matters in social work. Authentic social work research can demonstrate that social work practice has no reason to shy away from basing itself on evidence and being professionally accountable as long as its notion of evidence recognises and does justice to the complexity of social problems and acknowledges the value of inter-subjectivity in producing useable and ethically grounded evidence. This book was originally published as a special issue of the *European Journal of Social Work*.

*Advances in Design, Music and Arts III* Daniel Raposo, João Neves, Ricardo Silva, Luísa Correia Castilho, Rui Dias, 2024-12-01 This book presents cutting-edge methods and findings that are expected to contribute to significant advances in the areas of communication design, fashion design, interior design and product design, as well as musicology and other related areas. It especially focuses on the role of digital technologies, and on strategies fostering creativity, collaboration, education, as well as sustainability and accessibility in the broadly-intended field of design. Gathering the first volume of the proceedings of the 9th EIMAD conference, held in hybrid format from 27 to 29 June 2024, and organized by the School of Applied Arts of the Polytechnic Institute of Castelo Branco, in Portugal, this book offers a timely guide and a source of inspiration for designers of all kinds, advertisers, artists, and entrepreneurs, as well as educators and communication

managers.

Advances in Ergonomics in Design Francisco Rebelo, Marcelo Soares, 2017-06-22 This book provides readers with a timely snapshot of ergonomics research and methods applied to the design, development and prototyping – as well as the evaluation, training and manufacturing – of products, systems and services. Combining theoretical contributions, case studies, and reports on technical interventions, it covers a wide range of topics in ergonomic design including: ecological design; educational and game design; cultural and ethical aspects in design; user research and human-computer interaction in design; as well as design for accessibility and extreme environments, and many others. The book places special emphasis on new technologies such as virtual reality, state-of-the-art methodologies in information design, and human-computer interfaces. Based on the AHFE 2017 International Conference on Ergonomics in Design, held on July 17-21, 2017, in Los Angeles, California, USA, the book offers a timely guide for both researchers and design practitioners, including industrial designers, human-computer interaction and user experience researchers, production engineers and applied psychologists.

Living, Aging, Motion, Cognition, Emotion and Learning.

**Encyclopedia of Social Networks** George A. Barnett, 2011-09-07 Request a FREE 30-day online trial to this title at [www.sagepub.com/freetrial](http://www.sagepub.com/freetrial) This two-volume encyclopedia provides a thorough introduction to the wide-ranging, fast-developing field of social networking, a much-needed resource at a time when new social networks or communities seem to spring up on the internet every day. Social networks, or groupings of individuals tied by one or more specific types of interests or interdependencies ranging from likes and dislikes, or disease transmission to the old boy network or overlapping circles of friends, have been in existence for longer than services such as Facebook or YouTube; analysis of these networks emphasizes the relationships within the network. This reference resource offers comprehensive coverage of the theory and research within the social sciences that has sprung from the analysis of such groupings, with accompanying definitions, measures, and research. Featuring approximately 350 signed entries, along with approximately 40 media clips, organized alphabetically and offering cross-references and suggestions for further readings, this encyclopedia opens with a thematic Reader's Guide in the front that groups related entries by topics. A Chronology offers the reader historical perspective on the study of social networks. This two-volume reference work is a must-have resource for libraries serving researchers interested in the various fields related to social networks.

Encyclopedia of Social Media and Politics Kerric Harvey, 2013-12-20 The Encyclopedia of Social Media and Politics explores how the rise of social media is altering politics both in the United States and in key moments, movements, and places around the world. Its scope encompasses the disruptive technologies and activities that are changing basic patterns in American politics and the amazing transformations that social media use is rendering in other political systems heretofore resistant to democratization and change. In a time when social media are revolutionizing and galvanizing politics in the United States and around the world, this encyclopedia is a must-have reference. It reflects the changing landscape of politics where old modes and methods of political communication from elites to the masses (top down) and from the masses to elites (bottom up) are being displaced rapidly by social media, and where activists are building new movements and protests using social media to alter mainstream political agendas. Key Features: This three-volume A-to-Z encyclopedia set includes 600 short essays on high-interest topics that explore social media's impact on politics, such as Activists and Activism, Issues and Social Media, Politics and Social Media, and Popular Uprisings and Protest. A stellar array of world renowned scholars have written entries in a clear and accessible style that invites readers to explore and reflect on the use of social media by political candidates in this country, as well as the use of social media in protests overseas Unique to this book is a detailed appendix with material unavailable anywhere else tracking and illustrating social media usage by U.S. Senators and Congressmen. This encyclopedia set is a must-have general, non-technical resource for students and researchers who seek to understand how the changes in social networking through social media are affecting politics, both in the United States and in selected

countries or regions around the world. Key Themes: Opening Essays Celebrities and Pioneers in Social Media and Politics Congressional Social Media Usage (Most Active Members) Measuring Social Media's Political Impact Misuse of Social Media in the Political Arena: Issues and Ethics Social Media, Candidates, and Campaigns Social Media, Politics, and Culture Social Media and Networking Websites Social Media and Political Unrest Social Media and Social Issues, Activism, and Movements Social Media Concepts and Theorie Social Media Regulation, Public Policy, and Actual Practice Social Media Types, Innovation and Technology

**Digital Marketing Strategies and Models for Competitive Business** Pinto, Filipe Mota, Guarda, Teresa, 2020-03-27 Modern marketing practices have evolved to become a dynamic meeting point for technology practitioners and business professionals. Digital technologies have added a new paradigm to the way businesses are projected, communicated, and developed through their marketing activities, from message delivery to content production. Digital Marketing Strategies and Models for Competitive Business is a collection of innovative research that seeks to connect theory with application, identifying best practices over digital marketing to business purposes. While highlighting topics including consumer analysis, search engine marketing, and marketing communications, this book is ideally designed for marketers, managers, executives, advertisers, graphic designers, researchers, practitioners, entrepreneurs, policymakers, and educators.

**The Social World after COVID-19** Paulo Alexandre e Castro, 2022-11-09 This collection discusses different aspects of the COVID-19 pandemic, which began in December 2019 in Wuhan, China, brought together under the slogan of "social worlds". It is a book dedicated to thinking a posteriori about the implications and consequences of the pandemic, bearing in mind that it was a challenge (political, social, economic and philosophical) that tested the limits of human nature and the condition of humans in a world whose logic seems to slip away. In this sense, this volume brings together different approaches to this topic, ranging from philosophy to sociology, and from politics to social work, thus constituting an original work on such a delicate issue.

**The Case of Social Emotional Learning: Evidence-Based Practices** Pedro Rosário, Carmel Cefai, 2024-09-20 At the end of the last century, social emotional learning (SEL) emerged as a relevant theme in education all over the world. What is SEL? SEL may be defined as a multidimensional construct orchestrating individuals' ability to identify and manage emotions, feelings, and concern for others, as well as to organize and manage behaviors toward goals, solve problems and develop positive relationships. SEL has been gaining growing popularity among researchers and practitioners. Still, there is a reasonable degree of ambiguity regarding the concept. In fact, the term is often used as an umbrella for many types of

programs and interventions from distinct areas such as school, public health, mental health or character education, addressing the vulnerability of children and youth to various social and psychological problems. What is more, topics covered under the SEL umbrella are diverse as follows: emotions, cognition (including multiple intelligences), motivation, socialization in schools and families, and self-regulation and its effects.

**The Future of Audiences** Ranjana Das,Brita Ytre-Arne,2018-04-05 This book brings together contributions from scholars across Europe to present findings from a foresight analysis exercise on audiences and audience analysis, looking towards an increasingly datafied world and anticipating the ubiquity of the internet of things. The book uses knowledge emerging out of three foresight exercises, produced in co-operation with more than 50 stake-holding organisations and building on systematic reviews of audience research. It works through these exercises to arrive at a renewed agenda for audience studies within communication scholarship in the context of intrusive and connected interfaces and emerging communicative practices.

**New Trends for the Governance of Non-Profit Organizations** Remondes, Jorge,Remondes, Fernando,Serrano, Vicente,2024-12-20 New trends in the governance of non-profit organizations change how these entities operate and fulfill their missions in complex and dynamic environments. As various organizations face new challenges, from financial sustainability to demands for transparency and accountability, innovative governance practices have emerged to address these issues. This includes emphasis on data-driven decision-making, stakeholder engagement, and diversity in leadership. The integration of technology in governance processes helps non-profits improve efficiency, enhance collaboration, and measure their intended impact. With a focus on adaptability, ethical leadership, and community involvement, these new trends empower non-profit organizations to navigate changing landscapes while staying true to their core values and objectives. New Trends for the Governance of Non-Profit Organizations offers techniques and strategies needed to make sustainable decisions in the governance of non-profit organizations. It delves into the knowledge, skills and processes underlying organizational sustainability. This book covers topics such as market disruption, sustainability, and social enterprises, and is a useful resource for government officials, policymakers, non-profit organizations, business owners, academicians, and researchers.

*Smart Marketing With the Internet of Things* Simões, Dora,Barbosa, Belem,Filipe, Sandra,2018-07-20 The internet of things (IoT) enhances customer experience, increases the amount of data gained through connected devices, and widens the scope of analytics. This provides a range of exciting marketing possibilities such as selling existing products and services more effectively, delivering truly personalized customer experiences, and potentially creating new products and services. Smart Marketing With the Internet of Things is an essential reference source that discusses the use of the internet of things in marketing, as well as its importance in enhancing the customer experience. Featuring research on topics such as

augmented reality, sensor networks, and wearable technology, this book is ideally designed for business professionals, marketing managers, marketing strategists, academicians, researchers, and graduate-level students seeking coverage on the use of IoT in enhancing customer marketing outcomes.
