**A Longing Like Despair** Alan Grob, 2002 A major aim of Grob's study is to show Arnold as poet to be possessed of far greater philosophic depth and subtlety than his critics have usually credited him with by identifying the deep affinities and shared weltanschauung of his poetic vision with the metaphysical pessimism of Schopenhauer, the major European philosopher whose insistence on the cosmic opposition between the world as will and the world as idea provided the most important philosophic alternative in the nineteenth century to the age's otherwise dominant progressive historicism.--Jacket.

An Historical Summary of English Literature Edward William Edmunds, 1920

Poetry, Catastrophe, and Hope in the Vision of Isaiah Francis Landy, 2023-06-21 The book of Isaiah is one of the longest and strangest books of the Hebrew Bible, composed over several centuries and traversing the catastrophe that befell the two kingdoms of Israel and Judah in the 8th and 6th centuries BCE. Francis Landy's book tells the story of the poetic response to catastrophe, and the hope for a new and perfect world on the other side. The study traces two parallel developments: the displacement of the Davidic promise onto the Persian Empire, Israel, and the prophet himself; and the transition from exclusively male images of the deity to the matching of male and female prototypes, whereby YHWH takes the place of the warrior goddess. Poetry, Catastrophe, and Hope in the Book of Isaiah consists of close readings of individual passages in Isaiah, commencing with Chapter One and the problems of beginning, and ending with Deutero-Isaiah, composed subsequent to the Babylonian exile. The volume is arranged thematically as well as sequentially: the first chapter following the introduction concerns gender, the second death, the third the Oracles about the Nations. At the centre there is what Landy calls 'the constitutive enigma', Isaiah's commission in his vision to speak so that people will not understand. This renders the entire book potentially incomprehensible; the more we try to understand it, the greater the difficulty. For Landy, this creates a model of reading and writing, the challenge and the risk of going up blind alleys, of trying to make sense of a disastrous world. Isaiah's commission pervades the book. Throughout there is a promise of an age of clarity as well as social and political transformation, which is always deferred beyond the horizon. Hence it is a book without an ending, or with multiple endings. In the final chapters, the author turns to the central Chapter Thirty-Three, a mise-en-abyme of the book and a prayer for deliverance, and the issues of exile and the possibility of return. Like every poetic work, particularly in an era of cultural collapse, it is a critique of the past and a hope for a new humanity.

**Time-Spirit of Matthew Arnold** R. H. Super, 2025-10-01 The Time-Spirit of Matthew Arnold—his remarkable grasp of the main intellectual currents of the day—is the quality of mind that most recommends Arnold to the modern reader. Trained in the classics and theology, Arnold was able to evaluate the writings of his contemporaries in terms of the main traditions of Western thought, and by plotting the direction of intellectual currents in the past he could project the course of the main streams into the future. Dr. Super focuses on Arnold's achievement as a poet, a social political thinker, and a religious mind. He gives detailed treatment to Arnold's major poetical work, *Empedocles on Etna*; he analyzes Arnold's liberalism and contrasts it with the Utilitarianism of John Stuart Mill; and he examines Arnold's approach to Christianity in a penetrating discussion of Arnold's book *Literature and Dogma*. The Time-Spirit of Matthew Arnold demonstrates the impact such figures as Carlyle, Mill, and Newman had upon Arnold, as well as the more enduring cast his mind took from Goethe and Spinoza. Throughout, the book reveals the essential homogeneity of Arnold's work and its continued usefulness in dealing with twentieth-century problems in politics, education, and religion.
