**Marshall R. Pihl**

**The Singer of Tales** Albert Bates Lord, Stephen Arthur Mitchell, Gregory Nagy, 2000 Discusses the oral tradition as a theory of literary composition and its applications to Homeric and medieval epic.

The Singer of Tales in Performance John Miles Foley, 1995 Building on his work in *Traditional Oral Epic* and *Immanent Art*, the author aims to dissolve the perceived barrier between oral and written, creating a theory from oral-formulaic theory and the ethnography of speaking and ethnopoeitics. He argues that a work's word-power derives from its performance and its implied traditional context.

**The Korean Singer of Tales** Marshall R. Pihl, 2024-11-01 P'ansori, the traditional oral narrative of Korea, is sung by a highly trained soloist to the accompaniment of complex drumming. The singer both narrates the story and dramatizes all the characters, male and female. Performances require as long as six hours and make extraordinary vocal demands. In the first book-length treatment in English of this remarkable art form, Pihl traces the history of p'ansori from its roots in shamanism and folktales through its nineteenth-century heyday under highly acclaimed masters and discusses its evolution in the twentieth century. After examining the place of p'ansori in popular entertainment and its textual tradition, he analyzes the nature of texts in the repertoire and explains the vocal and rhythmic techniques required to perform them. Pihl's superb translation of the alternately touching and comic Song of Shim Ch'ong—the first annotated English translation of a full p'ansori performance text—illustrates the emotional range, narrative variety, and technical complexity of p'ansori literature. *The Korean Singer of Tales* will interest not only Korean specialists, but also students of comparative literature, folklore, anthropology, and music.

Japanese Singers of Tales: Ten Centuries of Performed Narrative Alison McQueen Tokita, 2017-03-02 Alison McQueen Tokita presents a series of case studies that demonstrate the persistence of Japanese sung narratives in a multiplicity of genres over ten centuries, including the way they flourished and declined, together with factors contributing to development and change in narrative performance. Performed narratives are examples of a shared cultural heritage, which in the past have given people a sense of belonging to a community. Narratives that were continually re-told and recycled in different versions and formats over a long period of time served to build people's sense of a common identity over space (the

geographical extent of 'Japan') and time (the enduring power of many specific narratives such as The Tale of the Heike). Much scholarly attention has focused on Japanese pre-modern literature and drama, but the tradition of oral narrative has barely been touched. Tokita argues that it is possible to identify a continuous tradition of performed narrative in Japan from the tenth to the twentieth centuries. The elements of variation and change relate to the move away from oral narrative to text-based performance, and from a simple narrative situation with one performer to complex theatrical narratives with dancers, singers and other musicians. The resulting complexity led to the pre-eminence of the musical aspects in some cases, and of dramatic or dance aspects in others. Tokita includes substantial musical analysis and exploration of theoretical issues, as well as documentation of important performance traditions, all of which are extant.

**The Singer Resumes the Tale** Albert Bates Lord, 1995 Edited by Mary Louise Lord after the author's death, *The Singer Resumes the Tale* focuses on the performance of stories and poems within settings that range from ancient Greek palaces to Latvian villages. Lord expounds and develops his approach to oral literature in this book, responds systematically for the first time to criticisms of oral theory, and extends his methods to the analysis of lyric poems. He also considers the implications of the transitional text - a work made up of both oral and literary components. Elements of the oral tradition - the practice of storytelling in prose or verse, the art of composing and transmitting songs, the content of these texts, the kinds of songs composed, and the poetics of oral literature - are discussed in the light of several traditions, beginning in the ancient world, through the Middle Ages, to the present. Throughout, the central figure is always the singer. Homer, the Beowulf poet, women who perform lyric songs, tellers of folktales, singers of such ballads as Barbara Allen, bards of the Balkans: all play prominent roles in Lord's book, as they have played central roles in the creation of this fundamental literature.

**The Singers of Lamentations** Nancy Lee, 2021-10-01 The author analyzes the poetic songs of biblical Lamentations with oral-poetic folkloric method for the first time with surprising results. Contemporary lament poems are then compared from recent post-war Croatia and Bosnia-Herzegovina about suffering in cities under siege. Oral-poetic and socio-rhetorical methods illumine two lead singers in dialogue in a mourning context, employing formulas and themes of dirge, psalmic and prophetic traditions in their compositions, but infusing these with their individual artistry to respond to Jerusalem's destruction. Poets through history and across cultures share common ground in how they render the suffering of their war-torn cities. The prophet Jeremiah emerges in Lamentations as one lead singer by virtue of how he modifies traditional formulas (imagery, themes, terms) in response to the context. A woman emerges as another lead singer who pushes the limits of current theology in crisis.

**Albanian Identities** Stephanie Schwandner-Sievers, Bernd Jürgen Fischer, 2002 The contributors to this study critically

de-construct Albanian myths and offer insights into Albanian history and politics. They conclude with contemporary Albanian critiques of the origins and functions of Albanian politics and ideologies.

*In Search of the Trojan War* Michael Wood, 1998 For 3,000 years, tales of Troy and its heroes - Achilles and Hector, Paris and the legendary beauty Helen - have fired the human imagination. With *In Search of the Trojan War*, Michael Wood brings vividly to life the legend and lore of the Heroic Age in an archaeological adventure that sifts through the myths and speculation to provide a privileged view of the riches and the reality of ancient Troy. This edition includes a new preface, a new final chapter, and an addendum to the bibliography that take account of dramatic new developments in the search for Troy with the rediscovery, in Moscow, of the so-called Jewels of Helen and the re-excavation of the site of Troy which began in 1988 and is yielding new evidence about the historical city.

Mighty in Word and Deed Stephen Hultgren, 2025-05-06 This book is the first of a two-volume work on the origins of the gospel form from a social memory approach. Social memory takes account of both the individual and the community in the formation of the gospels by considering social frameworks and socially significant narrative patterns that individuals use to remember and recount the past. Part 1 reviews the history of scholarship and then develops a social memory approach and a method of textual study, drawing on insights from recent research on orality, memory, and narrative. Part 2 offers a series of textual studies, focusing on Capernaum and Nazareth, illustrating factors that might have contributed to the construction of a gospel as an extended narrative, inclusive of Jesus's words and deeds, and why such a narrative was essential to early Christian memory of Jesus.

Homer in the Twentieth Century Barbara Graziosi, Emily Greenwood, 2010-07-29 This collection of essays explores the crucial place of Homer in the shifting cultural landscape of the twentieth century. It argues that Homer was viewed both as the founding father of the Western literary canon and as sharing important features with poems, performances, and traditions which were often deemed neither literary nor Western: the epics of Yugoslavia and sub-Saharan Africa, the keening performances of Irish women, the spontaneous inventiveness of the Blues. The book contributes to current debates about the nature of the Western literary canon, the evolving notion of world literature, the relationship between orality and the written word, and the dialogue between texts across time and space. *Homer in the Twentieth Century* contends that the Homeric poems play an important role in shaping those debates and, conversely, that the experiences of the twentieth century open new avenues for the interpretation of Homer's much-travelled texts.

**Oral Performance and the Veil of Text** Ben F. van Veen, 2024-01-26 It is common opinion in biblical scholarship that the biblical documents functioned in a sociocultural context dominated by the spoken word. Detextification is the result of addressing the complex relation between this formally acknowledged functioning in its original oral delivery and the daily

praxis of biblical scholarship in which these documents function as autonomous texts in an ever-expanding universe of texts. The argument in this book is that in addition to acknowledging the difference in media (oral performance there and then versus reading text here and now), it is crucial to differentiate and explicate the mindsets behind these media. A literate reader in the present structures thought, vis-à-vis text, differently from someone intensively formed by oral-aural communication, in the moment of exposure to a performing orator. The latter perspective was Paul's in the process of his letter composition. Therefore, this is a leading question in detextification: How can a contemporary biblical scholar relate to the text of Paul's letters in such a way as to understand how the apostle envisioned his original addressees structuring their thoughts during the event of a letter's oral-aural delivery? Two test cases are provided from the Letter to the Galatians (Gal 2-3).

**Oral Tradition and Synoptic Verbal Agreement** Travis Derico, 2016-06-28 New Testament scholars routinely claim that verbal agreement among parallel Synoptic pericopae is a reliable indicator of literary borrowing by the Synoptic Evangelists. In *Oral Tradition and Synoptic Verbal Agreement*, T. M. Derico presents a critical assessment of that claim through a consideration of the most recent empirical evidence concerning the kinds and amounts of verbal agreement that can be produced among independent performances of oral traditions.

Old English Literature John D. Niles, 2016-02-18 This review of the critical reception of Old English literature from 1900 to the present moves beyond a focus on individual literary texts so as to survey the different schools, methods, and assumptions that have shaped the discipline. Examines the notable works and authors from the period, including Beowulf, the Venerable Bede, heroic poems, and devotional literature Reinforces key perspectives with excerpts from ten critical studies Addresses questions of medieval literacy, textuality, and orality, as well as style, gender, genre, and theme Embraces the interdisciplinary nature of the field with reference to historical studies, religious studies, anthropology, art history, and more

*Recovering the Original Gospel of Thomas* April D. DeConick, 2006-06-01 This book explores the fascinating and enigmatic collection of 114 sayings of Jesus, the 'Gospel of Thomas' that was discovered in the sands of Nag Hammadi, Egypt, in the 1940's. Since its discovery, scholars and the public alike have been intrigued to know what the Gospel says and what light it sheds on the formation of early Christianity. Here, DeConick provides a new English translation of the entire Gospel of Thomas, which includes the original 'kernel' of the Gospel and all the sayings. A unique feature of this book is that translations to the parallels of the Gospel are also included.

**The Oral Traditional Background of Ancient Greek Literature** Gregory Nagy, 2020-11-26 Edited with an introduction by an internationally recognized scholar, this nine-volume set represents the most exhaustive collection of

essential critical writings in the field, from studies of the classic works to the history of their reception. Bringing together the articles that have shaped modern classical studies, the set covers Greek literature in all its genres--including history, poetry, prose, oratory, and philosophy--from the 6th century BC through the Byzantine era. Since the study of Greek literature encompasses the roots of all major modern humanities disciplines, the collection also includes seminal articles exploring the Greek influence on their development. Each volume concludes with a list of recommendations for further reading. This collection is an important resource for students and scholars of comparative literature, English, history, philosophy, theater, and rhetoric as well as the classics.
