

The Brain In A Vat

Keith DeRose, Ted A. Warfield

The Brain in a Vat Sanford C. Goldberg, 2016-06-13 The scenario of the brain in a vat, first aired thirty-five years ago in Hilary Putnam's classic paper, has been deeply influential in philosophy of mind and language, epistemology, and metaphysics. This collection of new essays examines the scenario and its philosophical ramifications and applications, as well as the challenges which it has faced. The essays review historical applications of the brain-in-a-vat scenario and consider its impact on contemporary debates. They explore a diverse range of philosophical issues, from intentionality, external-world scepticism, and the nature of truth, to the extended mind hypothesis, reference magnetism, and new versions of realism. The volume will be a rich and valuable resource for advanced students in metaphysics, epistemology, and philosophy of mind and language, as well as anyone interested in the relations between language, thought and the world.

The Brain in a Vat Sanford Goldberg, 2016-06-23 This collection of new essays examines the brain-in-a-vat scenario and its implications. Reviewing the history and contributions of debates on this thought experiment, as well as discussing the impact of contemporary philosophical debates, the volume is a valuable resource for advanced students and readers in philosophy of mind and language, epistemology and metaphysics.

Global Anti-realism James O. Young, 1995 This text seeks to provide an answer to the perennial question what is truth? According to the global anti-realist the truth conditions of all classes of sentences are detectable by speakers. The author argues that the only way to be a global anti-realist is to maintain that the truth conditions of all sentences are the conditions under which they cohere with a system of beliefs. Global anti-realism is a form of coherence theory of truth. Realists are committed to some form of correspondence theory. Both camps are opposed to deflationary accounts of truth according to which truth is not a property of sentences.

Science, Mind, and Psychology Mary Lou Maxwell, Wade C. Savage, 1989-10-19 To find more information on Rowman & Littlefield titles, please visit us at www.rowmanlittlefield.com.

There are Two Errors in the the Title of this Book Robert M. Martin, 1992 Martin provides fascinating discussions of each problem or puzzle, and appends suggestions for further reading in each case. Where the puzzle or problem admits of a right answer, Martin provides it in a separate section. But he also often ends with a question; for many of these puzzles and paradoxes, there is no answer that is universally accepted as being correct. As this book richly and entertainingly demonstrates, philosophy is as much the search for the right questions as it is for right answers. /

Skepticism and Externalist Theories of Thought Content Kirk Alan Ludwig, 1990

Philosophical Inquiry, 1993

Canadian Journal of Philosophy, 1987

Dream, Death, and the Self J. J. Valberg, 2007 Publisher description

Skepticism Keith DeRose, Ted A. Warfield, 1999 Skepticism: Contemporary Reader brings together the most important recent contributions to the discussion of skepticism. Covering major approaches to the skeptical problem, it features essays by Anthony Brueckner, Keith DeRose, Fred Dretske, Graeme Forbes, Christopher Hill, David Lewis, Thomas Nagel, Robert Nozick, Hilary Putnam, Ernest Sosa, Gail Stine, Barry Stroud, Peter Unger, and Ted Warfield.

Realism with a Human Face Hilary Putnam, 1990 skepticism. It is aimed primarily at philosophers but should appeal to a wide range of humanists and social scientists.

Critica, 2010

A Beginner's Guide to Reality J. E. Baggott, 2006 An essential guide to reality, this work examines what it is, what it means and how it has been interpreted through the ages. Jim Baggott takes us through different levels of reality around us, asking: Are the things we take for granted in our everyday lives real, or just elaborate constructions that exist only in our minds?

Decoding **The Brain In A Vat**: Revealing the Captivating Potential of Verbal Expression
