

Triads Are Secret Organizations From Which Country

K Payea

Secret Societies John Lawrence Reynolds, 2011-09-01 Provides a behind-the-scenes glimpse into the world's most notorious secret societies, chronicling their origins, history, initiations, rituals, beliefs, activities, secret signs, members, and influence.

The Secret Societies of All Ages and Countries Charles William Heckethorn, 1897

Asian Organized Crime United States. Congress. Senate. Committee on Governmental Affairs. Permanent Subcommittee on Investigations, 1992

Knowledge & Discourse Colin Barron, Nigel Bruce, David Nunan, 2014-06-06 Knowledge and Discourse presents an ecological approach to the study of discourse in social, academic and professional practices. It brings together distinguished scholars from diverse cultures - India, China, Australia, Canada among others - and disciplines - linguistics, anthropology, sociology, philosophy. The chapters collectively illustrate the ecological approach by exploring how language makes connections between subjective experiences as people construct meaning and action. This book offers the reader a holistic, interdisciplinary approach to the study of language as discourse, questioning traditional views of disciplinary knowledge and the role of discourse in the pursuit, construction and compartmentalisation of such knowledge. Through the variety of disciplines, experiences and approaches, the contributors show how the world and word are contingent on each other. The notions of connectivity, contingency and change are themes that run through the book, and in the interweaving of these themes readers will find persuasive illustrations of an ecological approach to applied linguistics.

Maonomics Loretta Napoleoni, 2011-10-11 The end of the cold war was thought to signal the triumph of Western capitalism over Communism. In Maonomics: Why Chinese Communists Make Better Capitalists than We Do, Napoleoni argues just the opposite: what we are witnessing instead is the beginning of the collapse of capitalism and the victory of communism with a profit motive. Maonomics charts the prodigious ascent of the Chinese economic miracle and the parallel course of the West's ongoing insistence on misconstruing China and its economy even as we acknowledge its growing influence and importance. Maonomics is a warning call whereby Western governments can avoid economic collapse by learning how to understand more clearly what the lessons of the Chinese economy really are. Based on first-hand reporting from China during frequent visits in the last several years, Maonomics lends credence to the Chinese view and translates it

for Western readers. For example, the Chinese too are attached to their vision of democracy, but it is different from ours. It isn't focused as much on voting as it is economic opportunity and the fair distribution of wealth and prosperity. Napoleoni also separates failed Leninist political ideology from true Marxist theory, showing that Marx's writings do not reject profit so long as it is used to benefit the people. Marx's dictatorship of the proletariat is being realized in China, she argues, where giant steps forward are being made in the name of progress and the wellbeing and prosperity of the Chinese people. Looking at the Chinese economy up close, any economist would be hard pressed to say that they are not on the right track. Here Loretta Napoleoni offers a front row seat on the greatest show on earth: the peaceful economic revolution that is shifting the balance of power in the world from West to East.

Street Gangs Throughout the World Herbert Covey, 2021-07-01 This new third edition provides an update on what is known about street gangs throughout the world and summarizes some of the major works on street gang phenomena. It focuses on those countries that have a greater presence in the literature. Chapter 1 introduces the reader to the topic of street gangs throughout the world. Chapter 2 identifies some of the challenges faced by scholars when studying gangs in different countries. Chapter 3 reviews some of the basic research on street gangs in the United States and Canada. Chapter 4 covers what is known about street gangs in Europe and Russia. Chapter 5 reviews the literature on street gangs in one of the hottest areas of the world for gangs, Central America. In addition, this chapter examines South American and Caribbean gangs. Street gangs in Brazil, El Salvador, Guatemala, Jamaica, Brazil, Mexico, Nicaragua, Trinidad, and other countries are covered. The presence of street gangs and gang violence in these and other countries has been identified as a major factor in the mass migration of refugees to the United States. Chapter 6 reports on the street gangs of Africa. Research on gangs in South Africa goes back decades and the country has a unique history on how gangs evolved. Other countries, such as Egypt, Nigeria, and Kenya are developing a body of literature that highlights the distinctive nature of gangs and gang members in these countries. Chapter 7 addresses street gangs in Asia, including China, India, Hong Kong (post-reunification), Japan, and other countries. This chapter provides rare glimpses of gangs in China, a relatively secretive country. Although different in many ways from gangs in Asia, information is also included here about gangs in Australia and New Zealand. Practitioners in the criminal justice and juvenile justice fields will find this book to be a valuable resource.

The Everything Mafia Book Scott M Dietche, 2009-03-18 Millions of television and movie viewers have shown that Americans continue to be fascinated by the remarkable—and often sordid—world of the Mafia. This book takes you beyond fiction and tabloid accounts and relates the true-life accounts of all the major players in the American Mafia. From Al Capone to John Gotti, you will come away with a better understanding of America's most notorious crime families. This book features colorful information on: The Sicilian Mafia The "First Family" of the American Mafia The "real" Untouchables The mob and politicians The five New York families Packed full of up-to-date gangster information, this guide will satisfy even the

most ardent true-crime enthusiasts.

Rough Guide to Conspiracy Theories, The (3rd) James McConnachie, Robin Tudge, 2013-02-01 Fully revised and updated, The Rough Guide to Conspiracy Theories sorts the myths from the realities, the allegations from the explanations and the paranoid from the probable. Who might be trying to convince us that climate change is or isn't real? What is the truth behind the death of Osama bin Laden and is he still alive? When did the CIA start experimenting with mind control? Where is the HAARP installation and did it have anything to do with the Japanese tsunami disaster? Why is surveillance in our cities and online so widespread and what are the real benefits? This definitive guide to the world's most controversial conspiracies wanders through a maze of sinister secrets, suspicious cover-ups hidden agendas and clandestine operations to explore all these questions - and many many more. Now available in ePub format.

Strenuous Decades Chi-cheung Choi, Tomoko Shiroyama, Venus Viana, 2022-03-07 The movement of goods and passengers between port cities not only stimulates growth in coastal trading networks and centers but also inevitably changes the social and economic lives of people in these port cities and, subsequently, of their fellow compatriots farther inland. Studies of port cities have focused on the interactive political and economic relationship between trading centers. The center of attention in this book is socioeconomic life and cultural identity, which are shaped by the movement of goods, people, knowledge, and information, particularly when the community faces a crisis. Transnational studies focus on cross-border connections between people, institutions, commodities, and ideas, with an emphasis on their global presence. This book looks at the responses of different localities to the same global crisis. It gathers a selection of the fifty papers presented at the conference on Coping with Transnational Crisis: Chinese Economic and Social Lives in East Asian Port Cities, 1850-1950, held in Hong Kong on June 7-11, 2016. The period from the 1850s to the outbreak of war in the Pacific in the late 1930s encompasses two major transnational crises with significant impacts on the Chinese population in Southeast Asian port cities in terms of their way of living and the construction of their identity: the emergence of bubonic plague in the 1880s and 1920s and the global economic crisis in the late 1920s and early 1930s. The authors discuss the social and economic lives in various South East Asian port cities where many residents had to cope with these transnational crises. They do so through examining institutional measurements, rituals and festivals, communication, knowledge and information exchange as well as identity (re)construction. In addition, they explore how local communities responded to knowledge and information between the port cities and cities as well as inland locations. The chapters in this book offer solid grounds for future comparisons, not only based on a specific time or event but also on how society reacted over time, space, and various types of crises.

The New Era in U.S. National Security Jack A. Jarmon, 2014-03-21 The New Era in U.S. National Security focuses on the emerging threats of the second decade of the twenty-first century, well after 9/11, and well into the age of globalization. It is

a thorough, technically competent survey of the current arena of conflict and the competition for political and economic control by state and non-state actors. Starting with the current national security establishment, it discusses the incompatibility between the threats and the structure organized to meet them. It then looks at the supply chain, including containerization and maritime security as well as cybersecurity, terrorism, and transborder crime networks. The last section of the book focuses on existing industrial and defense policy and the role the private sector can play in national security. Pulling together different areas, such as the logistics of the supply chain, the crime-terrorist nexus, and cyberwarfare, the book describes the landscape of today's new battlefields. It shows how the logistics of asymmetrical warfare, the rise of the information age, the decline of the importance and effectiveness of national borders, the overdependence on fragile infrastructures, and the global reach of virtual, paramilitary, criminal, and terrorist networks have created new frontlines and adversaries with diverse objectives. This core text for international security, strategy, war studies students is technical yet accessible to the non-specialist. It is a timely and comprehensive study of the realities of national security in the United States today.

Life Comes in Three Parts Dan Brien, 2019-03-13 This is a walk through more than 5,500 years of the importance of threes in Irish medieval history and Celtic cultures. It reveals the importance of threes in today's modern society, from big business in movies to television and advertising. This is a brief story of how I discovered the three particle principle and some incredible proof of threes supporting my theory, from amazing brain puzzles, atoms, the English language, and many other subjects. The book also reveals fascinating Bible numbers—3, 7, 12, and 24—along with the seemingly ominous numerology number 23 and the magical number 9 in mathematics. There's no coincidence the Almighty God of the Bible reveals himself as a trinity. The empty void of space is composed of three primary dimensions. Atoms are composed of three primary subatomic particles. The English language is founded on three basic words forming all stories we read: nouns, verbs and adjectives.

Social Organization in South China, 1911-1949 Yuen-fong Woon, 2020-08-06 Bridging the collapse of the Confucian state and the establishment of the People's Republic of China, the period 1911-49 is particularly fascinating to historians, anthropologists, sociologists and political scientists. Unfortunately, it is also a very confusing period, full of shifts and changes in economic, social, and political organizations. The social implications of these changes, and the relationships between officials on the subdistrict level, the unofficial leaders, and the bulk of the peasantry remain inadequately known. South China, which nurtured the Communist Party in its formative years, is a particularly interesting case. In this study I use the Kuan lineage of K'ai-p'ing as a case study to show the effects of demographic, economic, administrative, and educational changes after the Treaty of Nanking (1842) on patrilineal kinship as a principle of social organization in South China. [vii]

Global Organized Crime Mitchel P. Roth, 2017-01-20 In the maelstrom of globalization and cyberspace, organized crime

continues to defy definition. A diverse array of activities is perpetuated by criminal organizations, criminal groups and associations, and gangs, and it is clear that one specific label is no longer adequate. This book offers a uniquely global approach to organized crime and the multitude of forces that shape it in the 21st century. As well as discussing definitions of and the historical roots of organized crime, this book examines various forms of organized crime around the world in the US, Mexico, Latin America and the Caribbean, Russia and Europe, Asia and Africa. This revised and updated new edition includes coverage of: the rise of the 'Ndrangheta in Italy and their global expansion; the impact of drug legalization on organized crime and the problem of methamphetamine; organ trading, money laundering, and animal poaching; changes in gang traditions and gangland penitentiaries; the decentralization of Mexican cartels, the growth of opium production in Myanmar, and the drug war in Africa; and the advancement of ISIS and the emergence of the Silk Road and the Dark Net. This book is essential reading for students engaged in the study of global and transnational organized crime, with features including chapter overviews, key terms, critical thinking questions, and case studies.

Bloodlines Of The Illuminati Daniel Lazar,

Opium Production, Narcotics Financing and Trafficking in Southeast Asia United States. Congress. House. Select Committee on Narcotics Abuse and Control, 1977

An Introduction to Organized Crime in the United States, 1993

The Triads as Business Yiu-kong Chu, 2002-01-04 There is no doubt that the triads have become recognized as a sophisticated and international criminal force and, following the handover of Hong Kong to China, there have been increasing fears that their influence will spread to the West through emigration. This book investigates the reality behind the myth with a study of the Hong Kong triads, generally regarded as the headquarters of triad societies throughout the world. Yiu Kong Chu examines their origins, their organized extortion from legitimate businesses large and small, and their more recent moves into illegal activities such as drug trafficking, human smuggling and gambling. Contrary to the popular belief that Hong Kong triads are replacing the Italian Mafia as the most powerful criminal organization in the world, this book argues that Hong Kong triads may be declining, as other ethnic Chinese crime gangs emerge as powerful crime groups in Western societies. Based on interviews with ex triad members and victims of the triads, police from Hong Kong, mainland China and Europe, as well as documentary evidence *The Triads as Business* gives a vivid and compelling picture of the triads as part of a wider society.

The Encyclopedia of Political Revolutions Jack A. Goldstone, 2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history. Suitable for students and interested lay readers yet authoritative enough for scholars, its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in-depth treatment of events and trends

accompanying revolutions. Includes descriptions of specific revolutions, important revolutionary figures, and major revolutionary themes such as communism and socialism, ideology, and nationalism. Illustrative material consists of photographs, detailed maps, and a timeline of revolutions.

Introduction to Criminology Frank E. Hagan, Leah E. Daigle, 2018-11-29 Introduction to Criminology, Tenth Edition, is a comprehensive introduction to the study of criminology, focusing on the vital core areas of the field—theory, method, and criminal behavior. With more attention to crime typologies than most introductory texts, authors Frank E. Hagan and Leah Elizabeth Daigle investigate all forms of criminal activity, such as organized crime, white collar crime, political crime, and environmental crime. The methods of operation, the effects on society and policy decisions, and the connection between theory and criminal behavior are all explained in a clear, accessible manner. New to the Tenth Edition: New “Applying Theory” scenarios are included with the theory chapters in Part II. These application exercises encourage critical thinking by asking you to use criminological theory to explain the criminal behavior of Aileen Wuornos. Updated “Crime and the Media” boxes highlight the effect that the media has on public perception of crime. New topics include the #MeToo movement, media coverage of the opioid crisis, popular shows like Breaking Bad and The Wire, online dating fraud, and cyberbullying. Over 170 new “Learning Check” questions and answers have been added throughout the book to help you review your understanding of key concepts and increase reading comprehension. Examination of important new topics, like what works in criminology, the relationship between immigration and crime, the impact of neuroscience and genetic studies on criminology, recent shootings and terrorist attacks, and the continuing battle between over-criminalization and under-criminalization, deepens your understanding of the field. Updated figures, tables, and statistics throughout the book ensure that you have access to the most current information available.

The Mafia Encyclopedia Carl Sifakis, 2006 More than 500 alphabetical entries provide information on the people, places and events associated with the Mafia.

Triads Are Secret Organizations From Which Country Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Triads Are Secret Organizations From Which Country**," compiled by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and

assess its overall influence on its readership.
