*The Insider's Guide to the Colleges, 2011* Staff of the Yale Daily News,2010-06-15 For more than thirty-five years, The Insider's Guide to the Colleges has been the favorite resource of high school students across the country because it is the only comprehensive college reference researched and written by students for students. In interviews with hundreds of peers on campuses from New York to Hawaii and Florida to Alaska, our writers have sought out the inside scoop at every school on everything from the nightlife and professors to the newest dorms and wildest student organizations. In addition to the in-depth profiles of college life, this 37th edition has been revised and updated to include: \* Essential statistics for every school, from acceptance rates to the most popular majors \* A College Finder to help students zero in on the perfect school \* Insider's packing list detailing what every college student really needs to bring \* FYI sections with student opinions and outrageous off-the-cuff advice. The Insider's Guide to the Colleges cuts through the piles of brochures to get to the things that matter most to students, and by staying on top of trends and attitudes it delivers the straight talk students and parents need to choose the school that's the best fit.

Rise Of The Red Hand Olivia Chadha,2021-01-19 "Steeped in elements from real-life South Asian cultures, the worldbuilding is original and intriguing, incorporating dystopian and utopian elements along with current hot issues such as societal inequities, digital surveillance, and technology's impact on humanity. . . . [A] strong and intricate story." —Kirkus Reviews This 2022 Colorado Book Award Winner is a rare, searing portrayal of the future of climate change in South Asia. A streetrat turned revolutionary and the disillusioned hacker son of a politician try to take down a ruthlessly technocratic government that sacrifices its poorest citizens to build its utopia. The South Asian Province is split in two. Uplanders live in a luxurious, climate-controlled biodome, healthy and artificially youthful forever. Outside, the poor and forgotten scrape by with black-market robotics, in slums threatened by rising sea levels, unbreathable air, and deadly superbugs. Ashiva works for the Red Hand, an underground network of revolutionaries fighting the government, which is run by a merciless computer algorithm. As a smuggler with the best robotic arm and cybernetic enhancements the slums can offer, her cargo includes the

city's most vulnerable abandoned children. When the brilliant Uplander hacker Riz-Ali stumbles into the Red Hand's dangerous activities, he and Ashiva uncover a horrifying conspiracy that the government will do anything to bury. As armed guardians kidnap children, massive robots flatten the slums, and a pandemic threatens to decimate the city, Ashiva and Riz must put aside their differences to fight the system and save the communities they love.

Facets of an Academic's Life Michael Wertheimer, 2019-12-06 This is the life story of the oldest living member of the famous Wertheimer family, beautifully narrated and richly illustrated from the author's vast stock of memorabilia and his unfailing memory. It is a memoir, but at the same time a document of the exodus of German-speaking psychologists to the New World, which left the homeland scientifically shattered. This lovingly-written pictorial archive of 80 years of the history of modern psychology, shaped by the momentous events of WWII, belongs on the shelf of every psychologist, theoretical, experimental, and clinical, as it gives us the story of how the scientific heritage in Europe and America merged to form the broad and strong disciplines now in our hands, told by one of its premier historical representatives. Prof. em. Lothar Spillmann, University of Freiburg, Germany

Reading the Church Fathers Morwenna Ludlow, Scot Douglass, 2011-04-28 Reading the corpus of texts written by the Fathers of the Church has always been a core area in Christian theology. However, scholars and academics are by no means united in the question how these important but difficult authors should be read and interpreted. Many of them are divided by implicit (but often unquestioned) assumptions about the best way to approach the texts or by underlying hermeneutical questions about the norms, limits and opportunities of reading Ancient Christian writers. This book will raise profound hermeneutical questions surrounding the reading of the Fathers with greater clarity than it has been done before. The contributors to this volume are theologians and historians who have used contemporary post-modern approaches to illuminate the Ancien corpus of texts. The chapters discuss issues such as What makes a 'good' reading of a church Father? What constitutes a 'responsible' reading? Is the reading of the Fathers limited to a specialist audience? What can modern thinkers contribute to our reading of the Fathers?

Peace Education for Violence Prevention in Fragile African Societies Maphosa, Sylvester B., Keasley, Alphonse, 2019-02-10 Though conflicts among (African) nations diminished at the end of the last millennium, the need for peace remains a perennial concern for African citizens within their communities and countries. Once again, Maphosa and Keasley have engaged a collection of scholar practitioners to address the query 'What's Going to Make a Difference in Contemporary Peace Education around Africa?' The contributing authors draw from daily headlines as well as African literature to unearth twenty-first century quandaries with which educators in formal and informal contexts are called upon to grapple. The 'What's Going to Make a Difference' authors offer insights to educators, peace education practitioners and parents for everyday living. The authors probe the wisdom of the recent and ancient past and bring forth pearls for

contemporary moments. All in discerning effort to respond to the guiding question, the editors and their contributing colleagues deliver a compelling set of revelations for Making a Difference in Peace Education for African and world citizens.

*Communication and Community* Gregory J. Shepherd, Eric W. Rothenbuhler, 2000-12-01 This distinctive volume combines synthetic theoretical essays and reports of original research to address the interrelations of communication and community in a wide variety of settings. Chapters address interpersonal conversation and communal relationships; journalism organizations and political reporting; media use and community participation; communication styles and alternative organizations; and computer networks and community building; among other topics. The contents offer synthetic literature reviews, philosophical essays, reports of original research, theory development, and criticism. While varying in theoretical perspective and research focus, each of the chapters also provides its own approach to the practice of communication and community. In this way, the book provides a recurrent thematic emphasis on the pragmatic consequences of theory and research for the activities of communication and living together in communities. Taken as a whole, this collection illustrates that communication and community cannot be adequately analyzed in any context without considering other contexts, other levels of analysis, and other media and modes of communication. As such, it provides important insights for scholars, students, educators, and researchers concerned with communication across the full range of contexts, media, and modes.

**America's Forgotten Founders, second edition** Gary L. Gregg, Mark David Hall, 2023-05-30 Beyond Washington and Jefferson: Ranking the Founders. Even as Americans devour books about our Founding Fathers, the focus seldom extends past a half dozen or so icons—Franklin, Washington, Adams, Jefferson, Madison, Hamilton. Many of the men (and women) who made prodigious contributions to the American founding have been all but forgotten. America's Forgotten Founders corrects this injustice. Editors Gary L. Gregg II and Mark David Hall surveyed forty-five top scholars in history, political science, and law to produce the first-ever ranking of the most neglected contributors to the American Revolution and our constitutional order. This unique book features engaging short biographies of the top ten most important Founders whose contributions are overlooked today: James Wilson, George Mason, Gouverneur Morris, John Jay, Roger Sherman, John Marshall, John Dickinson, Thomas Paine, Patrick Henry, and John Witherspoon. Part of the Lives of the Founders series, America's Forgotten Founders reshapes our understanding of America's founding generation.

**The Dynamics of Masculinity in Contemporary Spanish Culture** Lorraine Ryan, Ana Corbalan, 2016-11-03 This collection of essays explores cultural phenomena that are shaping masculine identities in contemporary Spain, asking and striving to answer these compelling questions: what does it mean to be a man in present-day Spain? How has masculinity evolved since Franco's dictatorship? What are the dynamics of masculinity in contemporary Spanish culture? How has hegemonic masculinity been contested in cultural productions? This volume is comprised of sixteen essays that address these very questions by examining literary, cultural and film representations of the configurations of masculinities in contemporary Spain. Divided into three thematic units, starting with the undermining of the monolithic Francoist archetype of masculinity, continuing with the reformulation of hegemonic masculinity and finishing with regional emergent masculinities, all of the volume's essays focus on the redefinition of Spanish masculinities. Principal themes of the volume include alternative families, queer masculinities, performative masculinities, memory and resistance to hegemonic discourses of manliness, violence and emotions, public versus private masculinities, regional masculinities, and marginal masculinities. This exploration not only produces new insights into masculinity, but also yields nuanced insights into the recuperation of memory in contemporary Spain, the reconfiguration of the family, the status of women in Spanish society, and regional identities.
