Vostell Wolf Vostell,1999 Contributions by: Valerio Deho, Jose Antonio Agundez Garcia.

Aesthetics and Anthropology Ina-Maria Greverus,Ute Ritschel,2009 Aesthetics and Anthropology is a collection of contributions by an international and interdisciplinary team of authors from the fields of anthropology, performance studies, curatorial studies and the arts. The title refers to the paths that lead to the in-betweens and the beyonds of aura and trace in the representation of life that is performed in aesthetic reflexivity. Aesthetic reflexivity refers not only to the authors' attempts at an interdisciplinary encounter with one another, but also to their encounter with the readers, and with the recipients of an intended message in an aesthetic dialogue. Our approach is innovative in that it looks upon aesthetics as a topos of the living. We seek to capture the present discourse of ethnographic and aesthetic disciplinary turns with the intent of bringing them together in theory and practice. Here, academics and artists approach one another's respective forms of representation in a Gesamtkunstwerk of texts and images. The book presents experimental approaches and interdisciplinary turns, and hoped-for interactions between anthropologists and artists, and recipients of aesthetic encounters. We believe this is presently the most innovative pathway to interdisciplinary encounters with aesthetics. You, the readers, meet us, the artists and authors of an aesthetic reflexivity. Are we tricksters in an aesthetic turn toward performing life and reflecting performed lives in the in-betweens?

Alcohol and Tobacco Otto-Michael Lesch, Henriette Walter, Christian Wetschka, Michie N. Hesselbrock, Victor Hesselbrock, Samuel Pombo, 2020-04-29 This updated and revised second edition of “Alcohol and Tobacco” reflects the new ICD 11 and DSM V classifications and provides comprehensive descriptions of new therapeutic approaches, outlining the different interactions between personality, environment and the effects of the respective substance. In addition to new data on prevention-based therapies, especially for smoking addiction, the book also presents essential psychological and sociological strategies, and medication-based therapies. Particular attention is given to new medications and new compounds for e-cigarettes, while a broad overview of the American and European epidemiology of alcohol and nicotine addictions rounds out the coverage. Given the breadth and depth of its coverage, the book will appeal to a wide readership, from professionals to researchers and students.
