Tests sobre la Constitución Española de 1978, 2020-05-03

Constitución española Editorial Tecnos, 2019-10-30 Por primera vez en la historia de España, un texto constitucional de signo inequívocamente democrático ha podido mantener su vigencia durante un dilatado período mostrando no solo una notable estabilidad en sus contenidos, sino también una innegable capacidad para conseguir que los mandatos y principios integrados en su texto se traduzcan, efectivamente, a la realidad jurídica y social. La presente edición de la Constitución española de 1978 -actualizada con la reforma del artículo 135 publicada en el BOE con fecha 27 de septiembre de 2011, y que se une a la primera, efectuada en el artículo 13.2- persigue el objetivo de facilitar la consulta del texto fundamental en relación con las principales normas que completan o desarrollan sus preceptos. Para todo ello, se acompaña un conjunto de notas relativas a la normativa legal y reglamentaria de más inmediata relevancia para la comprensión del significado de cada artículo constitucional en nuestro ordenamiento. Se incluye, por su estrecha conexión con el texto constitucional, la Ley Orgánica 2/1979, del Tribunal Constitucional, además de un índice analítico y una introducción dirigida a situar la Constitución en relación con el resto de las normas jurídicas.

La Constitución española en 100 preguntas Ignacio Fernández Sarasola, 2019-03-28 Conozca y comprenda la Constitución Española con amenidad y rigor. Qué es la democracia, el Estado social y democrático de derecho, la monarquía parlamentaria, la organización territorial del Estado, las características del procedimiento electoral, los derechos fundamentales de los ciudadanos, las posibilidades de reforma, etc. Solo conociendo lo que en verdad dice la Constitución un ciudadano es verdaderamente libre. ¿Pueden los tratados de la Unión Europea contradecir la Constitución? ¿Es verdaderamente moderna nuestra democracia? ¿Qué puede hacer (y qué no) una Comunidad Autónoma? ¿Por qué un partido con más votos que otros puede tener menos escaños en las Cortes? ¿Puede juzgarse a los diputados y senadores? ¿Qué diferencia existe entre una moción de censura y una cuestión de confianza? ¿Por qué se dice que los jueces son independientes? ¿Somos realmente todos iguales ante la ley? ¿Obliga la Constitución a pagar impuestos? ¿Hasta qué punto

pueden los padres elegir la educación de sus hijos? ¿Puede segregarse una parte del territorio nacional?

Constitucion Española. Cuestionarios Y Casos Practicos Para Oposiciones Ebook Francisco Enrique Rodríguez Rivera, 2005-03-08

La función de gobierno en la Constitución española de 1978 Ignacio Fernández Sarasola, 2002 ¿Existe realmente una función de gobernar?. Si la primera parte de este libro se dedica a realizar la definición jurídica de la función de gobierno, las restantes partes se ocupan de analizar cómo se configura dicha función en nuestra norma magna. Así, se tratará de responder al gran interrogante, ¿quién ejerce la función de gobierno es España?. Los principios de Estado Social y Democrático de Derecho, los procesos de descentralización ad intra y ad extra, y la Monarquía Parlamentaria, conducen a un concreto diseño constitucional de la titularidad y extensión de la dirección política estatal.

Comentarios a la Constitución española Varios autores, 2018-10-01 La presente obra, coedición de la AEBOE con la Fundación Wolters Kluwer, el Tribunal Constitucional y el Ministerio de Justicia, cuenta con la dirección y supervisión de Miguel Rodríguez-Piñero y Bravo-Ferrer y María Emilia Casas Baamonde, y fue una contribución destacable, en el ámbito editorial, a la conmemoración del XL aniversario de la Constitución española de 1978, celebrado en 2018. Esta obra se caracteriza por el rigor científico de sus contenidos y por el prestigio de los autores intervenientes; son más de 170 expertos los que, artículo por artículo, llevan a cabo una exégesis de todos los preceptos constitucionales, recapitulando la más destacada jurisprudencia constitucional en la materia, sistematizando las reflexiones de la doctrina científica española y relacionando la bibliografía más destacable existente en la materia. Con una extensión de 3.836 páginas, la publicación se divide en dos tomos: en el primero incorpora los comentarios hasta el artículo 65 (Título II) y en el segundo, del artículo 66 (Título III) a la disposición final, incluyéndose en cada uno de ellos un índice alfabético de autores y otro analítico, que vincula materias con artículos. A pesar de su gran extensión, es una obra que, de manera clara, concisa y fácilmente manejable, recapitula el significado de nuestra Constitución durante sus cuarenta años de existencia. Sistemas políticos constitucionales en el mundo José Escribano Úbeda-Portugués, 2011-11-01 El presente libro analiza los principales sistemas político-constitucionales y socio-políticos existentes en el mundo. Para ello, el Autor emprende un estudio sobre la evolución y tipología de los sistemas políticos contemporáneos, analizando el proceso de democratización del Estado liberal. El Autor presta especial atención al análisis del Estado social y democrático de Derecho. En este contexto, se analizan las estructuras políticas del mundo contemporáneo. Supuestos prácticos de Derecho constitucional Miguel Ángel Sevilla Duro, Yolanda López Nieto, El método del caso consiste en el planteamiento de un supuesto práctico real o, cuanto menos, verosímil sobre el que el estudiantado reflexiona y discute con la dirección del profesor para, a partir de las conclusiones alcanzadas sobre el caso concreto, comprender las nociones básicas, generales y teóricas de un determinado tema. Sobre esta premisa se construye la segunda edición de estos Supuestos prácticos de Derecho constitucional, que contiene setenta casos elaborados por más de cincuenta profesores de multitud de universidades españolas con el objetivo de abordar la totalidad de los contenidos de las asignaturas de la

disciplina. El objetivo de la obra es doble: por un lado, constituir un material docente para implementar el método del caso en la enseñanza del Derecho constitucional; por otro, ser un material de práctica y estudio para los alumnos, con la expectativa de que sirva como referencia a la hora de resolver cualesquiera supuestos, constitucionales o no, que se les pudieran plantear. En consecuencia, los casos desarrollados a lo largo del libro sirven, desde la óptica del docente, para enseñar la materia; y, desde la del estudiantado, para aprender, interiorizar y aplicar la teoría.

Supuestos prácticos de Derecho Constitucional Miguel Ángel Sevilla Duro, 2023-10-25 Se dice de Sócrates que adoptó el diálogo como método de enseñanza: el aprendizaje como una conversación dirigida donde, de pregunta en pregunta, se lleva al interlocutor a la conclusión deseada. El secreto es, por tanto, saber hacer las preguntas correctas que permitan abordar un tema en concreto. De esta forma, en el método socrático se practica la inducción en un determinado contexto: a partir de la observación de un hecho o supuesto se reflexiona y discierne lo variable de lo fijo, lo accidental de lo sustancial, y se intenta hallar el trasfondo común, definible y permanente del asunto. Este método del caso, en síntesis, consiste en el planteamiento de un supuesto práctico, preferiblemente real o, cuanto menos, verosímil, sobre el que los estudiantes reflexionan y discuten con la dirección del profesor para, mediante las conclusiones a las que se alcancen, exponer las nociones básicas, generales y teóricas de un determinado tema. De esta forma, a la vez que los estudiantes participan tratando de resolver los supuestos prácticos de Derecho Constitucional planteados con sus conocimientos previos o a partir de lecturas propuestas antes del comienzo de la clase, van descubriendo el trasfondo jurídico de la materia sobre la que se va a profundizar. Tras la aproximación o resolución del caso por parte de los alumnos, este se reorienta, corrige y completa por el profesor.

Introducción a la Constitución española de 1978. Alfonso Arévalo Gutiérrez, 2018-12-31 La obra constituye el modesto homenaje de sus autores a la Constitución española de 1978, que ha cumplido sus primeros cuarenta años de vigencia. La propia etimología de la palabra expresa así la interrelación inherente a toda Constitución entre la "constituere" y la "constitutio", habida cuenta que la primera muestra un estadio -la norma puesta- y la segunda una dinámica -la norma vivida-. Si consideramos el significado de la Constitución conjugando ambos sentidos llegaremos a la conclusión de que -conforme pretende de forma sintética esta obra- aprehender el significado político-institucional de la Constitución española de 1978 exige considerar conjuntamente la norma puesta, a través de la cual el Poder Constituyente convirtió en la Transición su supremacía política en supremacía jurídica, y la norma vivida durante estos cuarenta años de democracia, en los que los Poderes constituidos han interpretado y aplicado aquella norma, adaptándola a las exigencias de la sociedad en cada momento. La Constitución es, pues, algo más que una simple ley, por más que sea la ley de leyes, y nuestra finalidad es intentar acercarla a los ciudadanos en su cuadragésimo aniversario, con la intención de que éstos la conozcan y sean conscientes de sus derechos e, incluso, si lo estiman oportuno y con el exigible consenso social, procedan a impulsar su

reforma.

EMU Integration and Member States' Constitutions Stefan Griller,Elisabeth Lentsch,2021-02-25 In this book, legal scholars from the EU Member States (with the addition of the UK) analyse the development of the EU Member States' attitudes to economic, fiscal, and monetary integration since the Treaty of Maastricht. The Eurozone crisis corroborated the warnings of economists that weak economic policy coordination and loose fiscal oversight would be insufficient to stabilise the monetary union. The country studies in this book investigate the legal, and in particular the constitutional, pre-conditions for deeper fiscal and monetary integration that influenced the past and might impact on the future positions in the (now) 27 EU Member States. The individual country studies address the following issues: - Main characteristics of the national constitutional system, and constitutional culture; - Constitutional foundations of Economic and Monetary Union (EMU) membership and related instruments; - Constitutional obstacles to EMU integration; - Constitutional rules and/or practice on implementing EMU-related law; and - The resulting relationship between EMU-related law and national law Offering a comprehensive and detailed assessment of the legal and constitutional developments concerning the Economic and Monetary Union since the Treaty of Maastricht, this book provides not only a study of legal EMU-related measures and reforms at the EU level, but most importantly sheds light on their perception in the EU Member States.

La dignidad de la persona. Alberto Oehling de los Reyes,2010-05-29 La dignidad de la persona es una noción que se ha ido afianzando a lo largo del devenir histórico¹. La recepción en la CE de 1978 de la dignidad de la persona es un resultado muy perfeccionado de la forma tradicional de comprensión de dicha noción a lo largo de la historia, pues aun cuando su acogida por el constituyente encierra ya un logro normativo excepcional, sobre todo en orden a su difícil reversibilidad², éste se puede observar como el producto de un largo proceso de consolidación determinado por la intermitente permeabilidad del legislador ante un constante esfuerzo intelectual filosófico que se inicia muchísimo tiempo atrás. Se percibe así históricamente y en primer lugar como un mero reconocimiento de cierta dignidad individual limitada a unos pocos, gradualmente se expande a más, para finalmente generalizarse a todos como una noción considerablemente más amplia y vinculada al disfrute de los derechos fundamentales³. Tal amplificación se observa pues en dos direcciones, en cuanto a contenido de su significado y en cuanto a titularidad, como una progresión que ha ido de menos a más, desde una dignidad individual «condicional» a una dignidad de la persona comprendida en general...
