The Library Friends, Foundations, and Trusts Handbook Diane P. Tuccillo, 2024-04-24 The Library Friends and Foundations Handbook is a must-have resource for members of Friends groups, Foundations, library staff members, administrators, and others who wish to begin or enhance such support group partnerships. Its background details build a knowledge base of what such groups are all about and its helpful recommendations can be put into practice as it: Focuses upon the history of such groups and how their contributions matter to the vitality of library institutions of all kinds—public, school, state, college/university, and special. Describes the various kinds of Friends and Foundation groups (sometimes combined), how they are organized and run, and ways they partner with the libraries they support so that readers may consider how they too might design and form or augment their own groups. Carefully explains how groups can effectively market their membership options and purposes to their communities. Gives practical advice on recruiting volunteers of all ages and providing training for them to beneficially aid their libraries both financially and with hands-on assistance. Describes ways library support groups can advocate for their libraries. Presents a wide variety of fundraising and donation ideas, procedures, and examples that readers can emulate, reflecting current trends such as online book sales, grab bag book sales, gala events, and securing grants along with equitable methods of monetary distribution. Offers a selected bibliography, a webliography, and an appendix with sample documents. The book covers the history of such groups, how their contributions matter to the vitality of libraries and library institutions of all kinds—public, school, state, college/university, and special. It describes the various kinds of Friends and Foundation groups, how they are organized and run, ways they partner with the libraries they support, how they can effectively market their membership options and purposes to the community to which they are dedicated, and ways to advocate for their libraries. It explains how volunteers of all ages (yes, including teenagers) are recruited, trained, and used successfully to aid their libraries both financially and with hands-on assistance. A wide variety of fundraising and donation ideas, procedures, and examples are featured that reflect current trends in such activities as online and grab bag book sales, gala events, securing grants, and methods of monetary distribution.

The Last Bookseller Gary Goodman,2021-12-07 A wry, unvarnished chronicle of a career in the rare book trade—now in paperback When Gary Goodman wandered into a run-down, used-book shop that was going out of business in East St. Paul in 1982, he had no idea the visit would change his life. He walked in as a psychiatric counselor and walked out as the store's new owner. In *The Last Bookseller* Goodman describes his sometimes desperate, sometimes hilarious career as a used and rare book dealer in Minnesota—the early struggles, the travels to estate sales and book fairs, the remarkable finds, and the bibliophiles, forgers, book thieves, and book hoarders he met along the way. Here we meet the infamous St. Paul Book Bandit, Stephen Blumberg, who stole 24,000 rare books worth more than fifty million dollars; John Jenkins, the Texas rare book dealer who (probably) was murdered while standing in the middle of the Colorado River; and the eccentric Melvin McCosh, who filled his dilapidated Lake Minnetonka mansion with half a million books. In 1990, with a couple of partners, Goodman opened St. Croix Antiquarian Books in Stillwater, one of the Twin Cities region's most venerable bookshops until it closed in 2017. This store became so successful and inspired so many other booksellers to move to town that Richard Booth, founder of the “book town” movement in Hay-on-Wye in Wales, declared Stillwater the First Book Town in North America. The internet changed the book business forever, and Goodman details how, after 2000, the internet made stores like his obsolete. In the 1990s, the Twin Cities had nearly fifty secondhand bookshops; today, there are fewer than ten. As both a memoir and a history of booksellers and book scouts, criminals and collectors, *The Last Bookseller* offers an ultimately poignant account of the used and rare book business during its final Golden Age.

Integrating Literacy Naturally Kim Pinkerton,Amelia Hewitt,2020-09-01 *Integrating Literacy Naturally* is a guide for nurturing a love of literacy in both teachers and young children. More than a hundred children's book titles and other resources serve as springboards for cultivating that love and meeting individual literacy needs in developmentally appropriate ways. And, educator spotlight stories show how theories move to practice. Pinkerton and Hewitt draw on their love of literacy and over four decades of combined experience to help readers navigate individualized instruction, purposeful play, literacy integration, classroom libraries, and a reimagined workshop approach. Examples for how to do all of this with children's texts are presented throughout the book. Eight guiding principles provide an easy path to becoming an intentional, authentic teacher who focuses on the individual needs of children and avoids one-sized literacy instruction. The principles

grew from heart to heart conversations the authors had about joyful reading and writing experiences being reduced to worksheets and rote memorization in many classrooms. This book moves teachers far away from drill the skill literacy. Use it as a guide on your path to making literacy learning both playful and intentional in the early childhood classroom.

An Introduction to Web Mining Ulrich Matter,2025-09-08 This book is devoted to the art and science of web mining — showing how the world's largest information source can be turned into structured, research-ready data. Drawing on many years of teaching graduate courses on Web Mining and on numerous large-scale research projects in web mining contexts, the author provides clear explanations of key web technologies combined with hands-on R tutorials that work in the real world — and keep working as the web evolves. Through the book, readers will learn how to - scrape static and dynamic/JavaScript-heavy websites - use web APIs for structured data extraction from web sources - build fault-tolerant crawlers and cloud-based scraping pipelines - navigate CAPTCHAs, rate limits, and authentication hurdles - integrate AI-

driven tools to speed up every stage of the workflow - apply ethical, legal, and scientific guidelines to their web mining activities Part I explains why web data matters and leads the reader through a first “hello-scrape” in R while introducing HTML, HTTP, and CSS. Part II explores how the modern web works and shows, step by step, how to move from scraping static pages to collecting data from APIs and JavaScript-driven sites. Part III focuses on scaling up: building reliable crawlers, dealing with log-ins and CAPTCHAs, using cloud resources, and adding AI helpers. Part IV looks at ethical, legal, and research standards, offering checklists and case studies, enabling the reader to make responsible choices. Together, these parts give a clear path from small experiments to large-scale projects. This valuable guide is written for a wide readership — from graduate students taking their first steps in data science to seasoned researchers and analysts in economics, social science, business, and public policy. It will be a lasting reference for anyone with an interest in extracting insight from the web — whether working in academia, industry, or the public sector.

LIFE BY LINE. Life is a Story - story.one Anna Kleinschmidt,2022-09-03 A collection of loosely connected observations about life and stories, written for everyone in particular.

The Path Through the Trees Christopher Milne,2014-06-19 The need to outgrow one's childhood influences and establish an individual identity is common to us all, but for Christopher Milne it was an especially difficult experience in view of the unique problems he faced as the son of A. A. Milne. In this warm, honest, and often amusing autobiography, he traces the path which, after several wrong turnings, ultimately led him and his wife, Lesley, to establish the successful Harbour Bookshop in Dartmouth - a path which led not to spectacular achievements, but to modest success and contentment. Wise, humble, and philosophical, The Path Through the Trees is Christopher Milne's search as a young man for his own place in life, told with the same sincerity and vividness that distinguished his first book, The Enchanted Places. ' . . . it is readily, and with the utmost pleasure, I give this alpha-plus.' Bookseller ' . . . it has great charm, and is most enjoyable.' Daily Telegraph 'An irresistibly attractive candour informs this book.' Economist

Divorce Bootcamp for Low- and Moderate-Income Women (6th Edition) Anna T. Merrill, Esq.,2018-12-16 According to the U.S. Census Bureau, the average woman's family income drops by 37% after divorce. Do you know what assets or how much alimony or child support you are entitled to receive? Has your spouse threatened to leave you penniless? Have you spoken to an attorney and gotten sticker-shock? Do you earn too much money to qualify for free legal aid? This book was written to help the low- and moderate-income women the legal system has abandoned by walking a hypothetical self-represented woman step-by-step through the divorce process, including: -- How to prepare financially to stand on your

own two feet; -- What the court can, and cannot do for you; -- 'Legwork' that can save you money on legal fees and help you get a better outcome; -- How much child support and alimony you might be entitled to receive; -- Custody disputes ... 'fatal flaws' and how you can fix them. -- How to show a judge that your spouse is lying about their assets and income; -- What property you are entitled to receive ... and should ask for; -- Ways vindictive ex-spouses can hide money ... and how to prove they are lying; -- Real life dirty tricks, traps, and pitfalls highlighted so you can avoid them; -- How to find a good attorney (if you can afford one), save money on legal fees, or combine "a la carte" legal advice with your own efforts if you can't afford to hire a full-service attorney; -- Mediation and court-connected Alternative Dispute Resolution ... benefits and pitfalls; -- How to dig up information your spouse doesn't want you to know (discovery) like an attorney; -- Common court forms and how to fill them out; -- Separation Agreements dissected and clarified; including two blank fill-in-the form boilerplates which you can download and use in your own divorce; -- Sample discovery requests and motions - we'll dissect each motion and show what information you can use it to get; -- Sample hearing scripts for common court hearings (including Restraining Order hearings, Temporary Order hearings, Custody Dispute hearings, Contempt hearings, and parts of a mock-Trial); -- Restraining orders ... how to get one ... how to keep one; Filled with helpful examples of common court forms and legal pleadings, this book will introduce you to everything you NEVER wanted to know about divorce ... but need to come up to speed ... FAST!!! This is the only self-help legal book written by a woman who was once in your shoes who later went back to school to become an attorney! BONUS: links to download, edit and print blank Separation Agreement forms. The 6th Edition has been completely updated with the latest case law, including ways to sensitively handle a Christian divorce, caveats regarding same-sex couple custody disputes post-Obergefell, and a completely rewritten Separation Agreement chapter with suggested clauses for unusual situations such as extraordinary school fees, private school or homeschooling. Book 1 of the Divorce Bootcamp Self-Help Legal series . KIRKUS: "A solid, informative self-help divorce guide. This exhaustive...guide covers a range of topics related to contested and uncontested divorces, including how to gather documentation of assets, estimate child support and alimony, and even, if necessary, obtain restraining orders. She discusses many topics related to asset division and child custody, including marital debt and visitation rights. The book is aimed at the broadest possible audience, but also discusses variations in state laws." (Review of the 5th Edition). . Legal Disclaimer: This book is not meant to constitute legal advice. The author is licensed to practice law in Massachusetts. Links have been provided to direct women to their local court resources in all 50 states, but the court forms, case histories and property division examples used are loosely based upon Massachusetts examples. This book is NOT a replacement for consultation with a licensed local attorney.

The Whispering Roots Cecil Day Lewis,1970

Trampled by Unicorns Maelle Gavet,2020-10-06 A Wall Street Journal Bestseller An insider's revealing and in-depth examination of Big Tech's failure to keep its foundational promises and the steps the industry can take to course-correct in

order to make a positive impact on the world. *Trampled by Unicorns: Big Tech's Empathy Problem and How to Fix It* explores how technology has progressed humanity's most noble pursuits, while also grappling with the origins of the industry's destructive empathy deficit and the practical measures Big Tech can take to self-regulate and make it right again. Author Maëlle Gavet examines the tendency for many of Big Tech's stars to stray from their user-first ideals and make products that actually profoundly damage their customers and ultimately society. Offering an account of the world of tech startups in the United States and Europe—from Amazon, Google, and Facebook to Twitter, Airbnb, and Uber (to name a few)—*Trampled by Unicorns* argues that the causes and consequences of Big Tech's failures originate from four main sources: the Valley's cultural insularity, the hyper-growth business model, the sector's stunning lack of diversity, and a dangerous self-sustaining ecosystem. However, the book is not just an account of how an industry came off the rails, but also a passionate call to action on how to get it back on track. Gavet, a leading technology executive and former CEO of Ozon, an executive vice president at Priceline Group, and chief operating officer of Compass, formulates a clear call to action for industry leaders, board members, employees, and consumers/users to drive the change necessary to create better, more sustainable businesses—and the steps Western governments are likely to take should tech leaders fail to do so. Steps that include reformed tax codes, reclassification of platforms as information companies, new labor laws, and algorithmic transparency and oversight. *Trampled by Unicorns'* exploration of the promise and dangers of technology is perfect for anyone with an interest in entrepreneurship, tech, and global commerce, and a hope of technology's all-empowering prospect. An illuminating book full of insights, *Trampled by Unicorns* describes a realistic path forward, even as it uncovers and explains the errors of the past. As Gavet puts it, "we don't need less tech, we need more empathetic tech." And how that crucial distinction can be achieved by the tech companies themselves, driving change as governments actively pave the road ahead.

Green Guide for Artists Karen Michel, 2009-06-01 The *Green Guide for Artists* inspires artists to make better eco-conscious choices within their work and their studios and shows them how. The book has four sections: The first contains recipes for DIY art supplies such as ones for mixing your own non-toxic paints and adhesives and making your own papers from recycled paper. The second offers safe and green practices for the workspace. The next section shares a fresh look at using recycled materials through creative step-by-step projects and a gallery section. The final section contains a resource guide for eco-friendly materials and supplies, including websites and forum links.
