Chevy in the Hole Kelsey Ronan,2022-03-15 A New York Times Book Review Editors' Choice Named a Michigan Notable Book for 2023 Finalist for the 2022 Heartland Booksellers Award A gorgeous, unflinching love letter to Flint, Michigan, and the resilience of its people, Kelsey Ronan's *Chevy in the Hole* follows multiple generations of two families making their homes there, with a stunning contemporary love story at its center. In the opening pages of *Chevy in the Hole*, August “Gus” Molloy has just overdosed in a bathroom stall of the Detroit farm-to-table restaurant where he works. Shortly after, he packs it in and returns home to his family in Flint. This latest slip and recommitment to sobriety doesn’t feel too terribly different from the others, until Gus meets Monae, an urban farmer trying to coax a tenuous rebirth from the city’s damaged land. Through her eyes, he sees what might be possible in a city everyone else seems to have forgotten or, worse, given up on. But as they begin dreaming up an oasis together, even the most essential resources can’t be counted on. Woven throughout their story are the stories of their families—Gus’s white and Monae’s Black—members of which have had their own triumphs and devastating setbacks trying to survive and thrive in Flint. A novel about the things that change over time and the things that don’t, *Chevy in the Hole* reminds us again and again what people need from one another and from the city they call home.

Hidden History of Flint Gary Flinn,2017 Beneath Flint's auto history lies a buried past. Local Civil War hero Franklin Thompson was actually Sarah Edmonds in disguise. Thread Lake's Lakeside Amusement Park offered seaplane rides and a giant roller coaster partly built over the water before closing in 1931. Smith-Bridgman's, the largest department store in town, reigned supreme for more than a century at the same location. And the city's most prolific inventor, Lloyd Copeman, created the electric stove, flexible ice cube tray and automatic toaster. Gary Flinn showcases the obscure and surprising elements of the Vehicle City's past, including how the 2014 water crisis was a half century in the making.-- Page [4] of cover.

Lost Flint Gary Flinn,2021-05-10 The city of Flint waxed and waned with the automotive industry of the twentieth century. Where they have not vanished completely, crumbling signs of past opulence stand as painful reminders of more recent struggles. Hardly a trace remains of the Buick City factory complex that sprawled across the city's north side. The placid waters of Flint Park Lake once echoed with the sounds of an amusement park--games, dancing, circus acts and even a roller coaster. Flint Community Schools pioneered a model for how schools can function outside regular hours, but too many

now are closed and deteriorating. Local author Gary Flinn uncovers the abandoned places and lost traditions from the Vehicle City's past.

Hole in One! Chris Rodell, 2012-12-11 The golfer lines up the shot. It's a long one, and the chances of acing it are nil. He says a prayer, swings, and - hallelujah! - he scores a hole in one. Many golfers confess to murmuring earnest prayers that they, too, may join the 42,000 people a year who catch lightning in a bottle and score a hole in one. It's an excitement that many lucky golfers say they remember with more clarity than their first kiss. That's because nothing in the grand old game is as mysterious yet mundane as the ace. Scott Hoch has had 26; fellow pro Fred Couples just two. Blind men and women have hit them, as have first-time golfers, three-year-old toddlers, and hundred-year-old widows. Richard Nixon is the only president to have scored one and he said it was a greater thrill than winning an election. Filled with fun facts and anecdotes, *Hole in One!* is a comprehensive clearinghouse of unusual stories involving the aura and accomplishment of scoring an ace. Readers will find out how duffers call upon unusual good luck charms and customs from foreign countries to ensure their swinging success. *Hole in One!* is the perfect book for all golfers who love the game, whether they're accomplished players or rank amateurs.

Enchantment and Despair Calvin Wall Redekop, 2016-01-18 Deadly drought, near fatal accidents, blizzards, grasshopper plagues, choking dust storms, endless days of relentless toil for measly crop yields enchanting big skies, an endless undulating prairie, the spine-tingling cry of midnight coyotes, the self-satisfaction of scratching sustenance from the earth ... This is the Montana of Calvin Wall Redekop's childhood, a place at once what the neighbors labeled "the most awful forsaken place God had ever created" and a magical world for a wide-eyed boy. These background forces of hardship and wonder constituted Redekop's earliest memories and in the retrospective vision of these remembrances he finds the subtle basis for his subsequent personal development and orientation. The mutual interdependence in the homesteading community encountered in *Enchantment and Despair: A Montana Childhood 1925 - 1937* helped Redekop see the significance and power of cooperative human ventures, and recognize the importance of the environment in human survival: awareness the author

has acted upon throughout his life. Readers will be transported back in time by this vivid account of another age and, like its author, pass through despair to find themselves enchanted.

Watering Hole Matt Connor,2003 What is Leadership? Dr. Richard Berry presents a thought-provoking depiction of current leadership theories as myths because of the effort to exclude or conceal the meaning and value of emotion. This would suggest that current leadership theory is incomplete due not only to the absence of emotions but independent thought and intuition as well. Lieutenant Colonel Allen West a husband, father of two, and a military officer with an impeccable service record including a previous award for valor had his military career ended prematurely when he undertook extraordinary measures to protect the lives of his men. He was serving in Tikrit, Iraq, the home of the late Sadaam Hussein and dead center of what we all know today as the Sunni Triangle. He was not wounded, killed in action, or taken prisoner, but instead charged with felony offenses by the United States Army for mistreating an Iraqi detainee, who was believed to have information that was going to kill American soldiers. This book documents what the effects of leadership can be when the power of the human spirit is allowed to flourish at the individual, group and organizational levels.

Tales From AHole Road** Tim Stevich,2019-02 When Christine and Tim Stevich decided to renovate a unique old house they had lived in for over a decade, located outside a small, rural town, they thought they had made the right decision. After renovating it into their dream home, they celebrated and settled down to enjoy their quiet new lifestyle. Unfortunately, some in their community had a different idea. With no warning or reason, people from the area began shouting at them from the

road, honking at all hours of the night, and even creeping onto their property to look through the windows. Soon, hostile interactions with these people turned into a daily occurrence, and they began to fear for their safety. As the harassment grew uglier and more persistent, the Stevichs turned to the police and town council, only to find them unsympathetic and unable to restore peace to their neighborhood. They were alone and trapped in an unfathomable hell. This is the horrifying story of one couple's experience with ongoing and vicious harassment. It recounts the daily assaults they endured, the methods they used to cope and defend themselves, and ultimately, how their terrible ordeal came to an end. To anyone who has or continues to face a similar situation, this book stands as a rallying call to do anything you can to secure your peace.

The Biggest Hole in the Iron Curtain Levente Batizy,2019-07-09 The Batizy family was Eastern European nobility during the thirteenth to twentieth centuries and continued to lead comfortable lives even as the importance of aristocracy faded. Then, the unimaginable happened. These centuries of happy, committed citizenship would all seemingly fade away in an instant as communism took over. Driven from their home after the 1956 Hungarian revolution against communist rule failed, the Batizys found themselves starting over, seeking and creating a new dream: the American dream. The Biggest Hole in the Iron Curtain: The Batizy Story is Levente Batizy's sweepi.

The Hole Truth Bill Felber,2019 Ever wonder whether Tiger Woods in his prime would have beaten Bobby Jones, Ben Hogan, or Jack Nicklaus in their primes? And could any of them have beaten Babe Zaharias? Obviously, if Bobby Jones were returned to life and health and then given his old hickory-shafted mashie, persimmon-headed driver, and rubber-core ball in a match against Jordan Spieth, the outcome would be foreordained. But what if the impact of the training, equipment, courses, and traveling conditions could be neutralized in order to create a measurement? Now for the first time, questions are answered about the relative abilities of the greatest players in the history of professional golf. In The Hole Truth Bill Felber provides a relativistic approach for evaluating and comparing the performance of golfers while acknowledging the game's changing nature. The Hole Truth analyzes the performances of players relative to their peers, creating an index of exceptionality that automatically factors the changing nature of the game through time. That index is based on the standard deviation of the performances of players in golf's recognized major championships dating back to 1860. More than two hundred players are rated in comparison with one another, more than sixty of them in detail with profiles providing context on their ranking. For the dedicated golf fan, The Hole Truth is an engaging way to see in the numbers where their favorite golfers rank across eras and where current players like Rory McIlroy and Inbee Park compare to the game's greats.
