Orchestral "Pops" Music Lucy Manning, 2013-10-10 In this second edition of *Orchestral "Pops" Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral "pops" concerts that is comprehensive, informative, and current. Manning's emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of *Orchestral "Pops" Music* includes at least 1,000 new title listings. *Orchestral "Pops" Music: A Handbook* is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

Ennio Morricone Alessandro De Rosa, 2019-02-01 Master composer Ennio Morricone's scores go hand-in-hand with the idea of the Western film. Often considered the world's greatest living film composer, and most widely known for his innovative scores to *The Good, the Bad, and the Ugly* and the other Sergio Leone's movies, *The Mission*, *Cinema Paradiso* and more recently, *The Hateful Eight*, Morricone has spent the past 60 years reinventing the sound of cinema. In *Ennio Morricone: In His Own Words*, composers Ennio Morricone and Alessandro De Rosa present a years-long discussion of life, music, and the marvelous and unpredictable ways that the two come into contact with and influence each other. The result is what Morricone himself defines: beyond a shadow of a doubt the best book ever written about me, the most authentic, the most detailed and well curated. The truest. Opening for the first time the door of his creative laboratory, Morricone offers an exhaustive and rich account of his life, from his early years of study to genre-defining collaborations with the most important Italian and international directors, including Leone, Bertolucci, Pasolini, Argento, Tornatore, Malick, Carpenter, Stone, Nichols, De Palma, Beatty, Levinson, Almodóvar, Polanski, and Tarantino. In the process, Morricone unveils the curious relationship that links music and images in cinema, as well as the creative urgency at the foundation of his experimentations with absolute music. Throughout these conversations with De Rosa, Morricone dispenses invaluable insights not only on composing but also on the broader process of adaptation and what it means to be human. As he reminds us, Coming into contact with memories doesn't only entail the melancholy of something that slips away with time, but also looking forward, understanding who I am now. And who knows what else may still happen.

Italian Cinema William Hope, 2005 This book explores the evolution of Italian cinema over the last twenty years, with particular reference to modern masterpieces such as Tornatore's Oscar-winning *Nuovo cinema paradiso*. Reflections on the Music of Ennio Morricone Franco Sciannameo,2020-01-23 Reflections on the Music of Ennio Morricone: Fame and Legacy provides new contextualized perspectives on Ennio Morricone's position as a radical composer working at the cutting edge of music within the frame work of his cinematic compositions. The Italian composer has reached world fame as the creator of some 500 film scores and hundreds more arrangements for commercial recordings; however,

Sciannameo argues that Morricone's legacy must include his concert works, a catalogued list of more than 100 titles. By analyzing the composer's formative years as a music practitioner and his transition into the world of composing for the screen, Franco Sciannameo reconsiders the best of Morricone's popular compositions and reveals the challenging concert works which have been an intimate expression of Morricone's lifelong creative season. The Encyclopedia of Film Composers Thomas S. Hischak, 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book

brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

Carrying the Torch Steven Payne,2010-12-10 When I want to read a book, I write one. So wrote the 19th century politician and novelist Benjamin Disraeli - Washington Irving said something very similar - and its a maxim which Ive adopted as my own. Almost all of the writing Ive done over many years has been based on wanting to read a book on a particular subject - a book which research told me didnt currently seem to exist. Carrying the Torch, like all my other books to date, was born out of the desire to read a good book on an interesting subject: finding nothing available that quite matched up to my expectations, I decided to write it myself. I wanted a good, general book about the phenomenon of unrequited love in the worlds art, how important a theme it has been in novels, poems, music and film for so long, why artists keep coming back to it again and again, what it actually is, what it feels like and how it might be explained and so forth. I like to think that thats the book Ive written. All the world loves a lover and most people, whether they openly admit it or not (and that includes a great many men!) love a good love story: as I make clear in the book, it doesnt seem to matter if the story has a tragic or at least unhappy ending, we dont enjoy it any less and may even enjoy it all the more, as the popularity of weepies in book or film form attests.
