**La gestión de los servicios deportivos municipales** Leonor Gallardo, 2004 En estos momentos la gestión deportiva está evolucionando a pasos gigantescos y es evidente que el peso del deporte se está desplazando en gran medida sobre la administración local. Aunque esto supone la constatación del gran momento que el deporte vive en los municipios españoles, no cabe duda que los próximos años serán complicados para la gestión deportiva en el ámbito local, ya que se acerca una fase donde los indicadores económicos y de calidad estarán presentes en cualquier acción de esta gestión. Este libro reúne todos los aspectos que inciden en el día a día del deporte municipal y clarifica cuáles pueden ser los posibles caminos del futuro de la gestión deportiva en la administración local. Presenta una propuesta para todos aquellos técnicos que en su labor diaria hacen posible que los ciudadanos se aproximen al deporte en general.

*Los contratos estatales* Édgar González López, 2024-05-21 No parece afortunada una contratación pública y unos procesos de selección que involucionan en extensión y complejidad, con normas confusas y muchas veces contradictorias. La dispersión de normas parece ser la costumbre actual, de tal manera que cada norma legal expedida incorpora, seguramente con propósitos loables, modificaciones al régimen de contratación, con un ambiente de inseguridad jurídica y de difícil entendimiento. En mi opinión estas reformas fraccionadas y parciales no han cumplido con los objetivos que perseguían ni han conseguido crear un mercado de fácil acceso para los administrados. Por el contrario, parece ser más común de lo deseado, obras inconclusas y un escenario propicio para la corrupción. La contratación compleja y difícil de entender solo conduce a mayores riesgos de los gestores públicos y a una atmósfera que incentiva la desviación de los recursos públicos. La complejidad de la contratación pública por las razones citadas, ha llevado a que se considere un tema propio de los abogados, cuando lo que se demanda son criterios técnicos, no necesariamente economicistas, que permitan la eficiencia en la gestión y en el cumplimiento de políticas públicas. En este marco, la obra pretende esclarecer y presentar nuestras

consideraciones sobre los principios y normas que gobiernan los procesos de selección de los contratos estatales, regulados por la Ley 80 del 1993 o con regímenes especiales, centrado en el derecho a la competencia, esto es, la igualdad de acceso y oportunidades, la transparencia-publicidad y la libertad de concurrencia. Lo anterior en la búsqueda de una mínima seguridad jurídica que conduzca a la eficiencia del proceso y de los cometidos buscados por las partes contratantes. El operador jurídico, la Administración y los potenciales oferentes pueden encontrar amplia información de las fuentes y tesis que orientan y se aplican a los procesos de selección, especialmente de carácter jurisprudencial. Así mismo, se incluye un tema de la mayor actualidad, como es los límites y características de la modificación del contrato, de escasa regulación legal pero de enorme importancia por sus implicaciones en la responsabilidad patrimonial, fiscal y penal de los servidores públicos.

Interventoría de proyectos y obras Julio César Sánchez Henao, 2010-01-01 Una actividad importante en Colombia, con respecto a la gestión organizativa en el proceso edificatorio, es la interventoría, que tiene que ver no solo con las obras sino en general con los proyectos, y que en el país ha venido ejerciéndose desde hace más de 50 años, tanto para las obras públicas como las obras privadas, sin importar si se trata de obra edilicia o civil. El libro sobre interventoría pretende

orientar acerca de los diferentes aspectos fundamentales que dicha actividad debe cubrir, no solo técnicos y administrativos, sino otros tan importantes como estos: uno de ellos, el aspecto legal, en el cual la interventoría es una labor parcialmente regulada y, aunque en algunas leyes se habla de su valor, se hace de forma incipiente para establecer pequeños parámetros, pero no existe una reglamentación clara y precisa que trate realmente sobre todos los principales temas relacionados con esta importante labor en Colombia. Por lo anterior es vital el estudio y definición de la interventoría, que lleven a los lectores a comprender su verdadera razón, su ámbito de aplicación, cuáles deben ser sus servicios, sus beneficios, sus alcances y, en forma muy especial, sus responsabilidades.

**Desarrollo organizacional** Fernando Achilles de Faria Mello,1983 Esta util obra presenta los elementos de un modelo organico que permite comprender y perfeccionar los procesos vitales de las organizaciones y tambien un enfoque sistematico, integrado e integrador, para afrontar problemas institucionales. El desarrollo organizacional es una nueva filosofia de la administracion que creo un campo de consultoria que cada vez se vuelve mas receptivo al trabajo serio de profesionales responsables (AU).
