**Four Views on Christian Spirituality** Bruce A. Demarest, 2012-05-08 How do Christians cultivate a vibrant and Christ-centered spirituality that's rooted in biblical clarity? Spiritual formation--the cultivation of a relationship with God--lies at the heart of what it means to be a Christian in the body of Christ. But with the rise of diverse spiritual practices, from Zen meditation to out-of-body experiences, the idea of spirituality has become watered down by postmodern culture. Christian spirituality, on the other hand, embraces devotion to the triune God, abiding in Christ, the pursuit of holiness, and the cultivation of virtues. But what exactly falls within the scope Christian spirituality? This volume of the Counterpoints series focuses on the Church's search for spiritual identity, meaning, and significance as interpreted by four of the major Christian

traditions: Eastern Orthodoxy – represented by Bradley Nassif Roman Catholic – represented by Scott Hahn Progressive Protestant – represented by Joseph Driskill Evangelical – represented by Evan Howard The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.

**Pantokrator** Trevor Curnow, 2009-03-26 Although most people think of Greek philosophy as “Western”, its religion is commonly referred to as “Eastern”. For those who have not spent time in countries where Orthodox Christianity is the dominant religion, it can seem exotic and alien. Even those who visit these countries can come away with little understanding of it. *Pantokrator: an Introduction to Orthodoxy* helps those unfamiliar with Orthodoxy to become acquainted with the history of the Orthodox Church, what it teaches, how it is structured, and how it differs from other churches. There is also a brief guide to the architecture and internal design and decoration of Orthodox churches. Because monasticism plays an important role in the life of the Orthodox Church, an account is given of the monastic life. This is illustrated with reference to how that life is lived on Mount Athos, an enclave within Greece run entirely by monks. The history and organisation of the Holy Mountain, as Athos is called, is explained in general terms with a more detailed account of one of its monasteries, Pantokrator.

*The South Slav Conflict* Raju G.C Thomas, H. Richard Frim, 2021-12-12 First Published in 1996. In identifying the causes of such a national and international failure in conflict management, *The South Slav Conflict* becomes a valuable case study in comparative politics and international relations. Edited by Raju G.C. Thomas and H. Richard Frim and, is unique among these by virtue of its thoroughly interdisciplinary approach to the causes and consequences of the war. The book’s great strength begins with its forthright assertion that no serious attempt to explain the current cycle of genocide and revenge among Serbs, Croats, and Bosnians can avoid the inherent complexity of the factors that transformed Yugoslavia from one of the most pluralist of European communist states into a theater of human misery.

*The History of Families and Households: Comparative European Dimensions* Silvia Sovic, Pat Thane, Pierpaolo Viazzo, 2015-11-30 The history of family and households has been the subject of intensive research for over a generation. In the 1970s Peter Laslett and others set the agenda with a strong emphasis on geographical differences between northern and southern, eastern and western Europe. Others have challenged this view, pioneering different approaches. This volume takes stock of the field, focussing particularly on family history in South-East Europe in comparison with the rest of Europe. The

authors consider what European families have in common, their regional and local differences and changes over time, using the rich and fascinating variety of sources and methods used by family historians today. Contributors include: Guido Alfani, Judit Ambrus, Mirjana V. Bobić, Siegfried Gruber, Peter Guzowski, Violetta Hionidou, Daniela Lombardi, Beatrice Moring, Silvia Sovič, Pat Thane, Alice Velková, Marta Verginella, and Pier Paolo Viazzo.

*Symbolism, or exposition of the doctrinal differences between Catholics and Protestants; as evidenced by their symbolical writings: ... translated from the German, with a memoir of the author; preceded by an historical sketch of the state of Protestantism and Catholicism in Germany for the last hundred years*, by J. B. Robertson Johann Adam Moehler, 1843

**Loyal to the Republic, Pious to the Church** Dimitris Paradoulakis, 2022-07-11 This volume deals with matters of public religious expression and aspects of interconfessionality in the case of the Greek Orthodox clergyman and scholar Gerasimos Vlachos (1607–1685) from Candia, Crete. The book proceeds to an interpretative approach to Gerasimos Vlachos' ideological, political and religious identity in all the phases of his life. As the principal factor of the work is promoted Vlachos' perception of his contemporary trans- and interconfessional tendencies and cross-cultural relations firstly within the 17th-century Venetian Republic and secondly in the wider European and Ottoman sphere. Dimitris Paradoulakis aims to interpret the scholar's attitude towards his contemporary theological controversies, the Venetian concept of socio-political tolerance and confessional conciliation, and Vlachos' personal perception on matters of multiconfessional coexistence and freedom of worship.

An Introduction to World Politics Richard Oliver Collin, Pamela Martin, 2012 In today's world, students need to know that there is more to politics than just politics. This clearly written text introduces students to world politics as a combination of comparative politics and international relations in an increasingly interconnected globe and explores topics that are sometimes left out of the equation: health care; the status of children; changing roles of women in the developing world; and the interplay among population growth, resources, the environment, and sustainable development. Designed specifically for introductory-level students, the book balances theory with authentic insights and examples that provide a compelling window into the struggles of citizens worldwide.

*Ecumenical Christian Dialogues and the Catechism of the Catholic Church* Jeffrey FSC. Gros, 2006

*Truth Is a Synthesis: Catholic Dogmatic Theology* Mauro Gagliardi, 2020-08-06 In everyday parlance, synthesis is synonymous with short. Here, Mauro Gagliardi uses synthesis as it has been applied to the Hypostatic Union in Christ: the “Synthetic Union” of the two natures in one Person. All of dogmatic theology is presented from this et-et (both-and), Christocentric approach in *Truth is a Synthesis: Catholic Dogmatic Theology*. The volume presents for beginners a comprehensive, organic view of the Catholic faith. *Truth is a Synthesis* spotlights, in a respectful yet clear way, the different views about Christian Dogmatics held by our separated brethren, both Protestant and Orthodox. As he explores the

implications of the et-et nature of theology, Gagliardi reveals the underlying unity of both Fundamental and Dogmatic theology “Professor Gagliardi’s book is in every way a magnum opus, both from the qualitative and the quantitative standpoint.”—Cardinal Gerhard L. Müller

**Slaving Zones** Jeff Fynn-Paul, Damian Alan Pargas, 2018-01-03 Listen to podcast on “Slaving Zones, Contemporary Slavery and Citizenship: Reflections from the Brazilian Case”. In *Slaving Zones: Cultural Identities, Ideologies, and Institutions in the Evolution of Global Slavery*, fourteen authors—including both world-leading and emerging historians of slavery—engage with the ‘Slaving Zones’ theory. This theory has recently taken the field of Mediterranean slavery studies by storm, and the challenge posed by the editors was to see if the ‘Slaving Zones’ theory could be applied in the wider context of long-term global history. The results of this experiment are promising. In the Introduction, Jeff Fynn-Paul points out over a dozen ways in which the contributors have added to the concept of ‘Slaving Zones’, helping to make it one of the more dynamic theories of global slavery since the advent of Orlando Patterson’s *Slavery and Social Death*.

**Young Catholic America** Christian Smith, Kyle Longest, Jonathan Hill, Kari Christoffersen, 2014-02-04 Best Review at the Catholic Press Association Convention Studies of young American Catholics over the last three decades suggest a growing crisis in the Catholic Church: compared to their elders, young Catholics are looking to the Church less as they form their identities, and fewer of them can even explain what it means to be Catholic and why that matters. *Young Catholic America*, the latest book based on the groundbreaking National Study of Youth and Religion, explores a crucial stage in the life of Catholics. Drawing on in-depth surveys and interviews of Catholics and ex-Catholics ages 18 to 23—a demographic commonly known as early emerging adulthood—leading sociologist Christian Smith and his colleagues offer a wealth of insight into the wide variety of religious practices and beliefs among young Catholics today, the early influences and life-altering events that lead them to embrace the Church or abandon it, and how being Catholic affects them as they become full-fledged adults. Beyond its rich collection of statistical data, the book includes vivid case studies of individuals spanning a full decade, as well as insight into the twentieth-century events that helped to shape the Church and its members in America. An innovative contribution to what we know about religion in the United States and the evolving Catholic Church, *Young Catholic America* is the definitive source for anyone seeking to understand what it means to be young and Catholic in America today.

*Religious Orthodoxy and Popular Faith in European Society* Ellen Badone, 2021-02-09 By examining the ongoing tension between popular and official religion in Europe, this collection of essays contributes significantly to the continuing effort to understand the religious experience of ordinary people. Ranging from the Mediterranean to northern Europe and including both Roman Catholic and Eastern Orthodox traditions, the ethnographic contexts evoked in these essays enable us to see people actively and creatively shaping their religious domain, sometimes in collaboration with official ritual specialists, often in open rebellion against them. The use of folklore texts and extensive narrative quotations, combined with an approach

highlighting key symbols such as pilgrimages and festas, provides a common theoretical orientation throughout the book one that considers how religious discourses are formed by social disciplines and relationships of power and subordination. This volume includes *Spirits and the Spirit of Capitalism* by Jane Schneider, *The Priest and His People: The Contractual Basis for Religious Practice in Rural Portugal* by Caroline B. Brettell, *The Struggle for the Church: Popular Anticlericalism and Religiosity in Post-Franco Spain* by Ruth Behar, *Pilgrimage and Popular Religion at a Greek Holy Shrine* by Jill Dubisch, *Breton Folklore of Anticlericalism* by Ellen Badone, *Stories of Power, Powerful Stories: The Drunken Priest in Donegal* by Lawrence J. Taylor, and *Reflections on the Study of Religious Orthodoxy and Popular Faith in Europe* by Stanley Brandes.

*Transformations of Post-Communist States* W. Kostecki, K. Zukrowska, B. Goralczyk, 2000-04-07 Post-communist transformation differs from any previous experience of societies in transition by its scope, speed, international framework and complicity. It contains elements of democratization, marketization, nation building, and the creation of a new international environment in the framework of globalization. The contributors give an 'internal' perspective of these highly complicated processes in a comparative form and using a multidisciplinary approach.
