

Fashion And Feminism Essay

Ilya Parkins, Elizabeth M. Sheehan

Fashion Ilya Parkins, Maryanne Dever, 2020-05-21 Inspired by a rapidly changing fashion landscape, *Fashion: New Feminist Essays* offers historical and contemporary studies that reveal the relationships between fashion with gender, sexuality, race, and age. Fashion is a rich terrain for feminist scholars in the twenty-first century. Explicit engagements with feminist and queer politics, critical interventions by industry outsiders across digital platforms, diversifying images of stylish bodies, and ongoing discussions of the ethics and sustainability of fashion production: all of these point to an urgent need to reappraise the relationship of fashion to feminism and other justice-seeking movements. The essays in this collection take up fashion as a feminist critical tool that uniquely holds together the lived and represented body with larger cultural structures. Contributors unearth surprising new lines of connection between gender, sexuality, race, age, and religion in their relationship to capitalism, both historically and in the present. Bringing together established and emerging scholars, and perspectives from gender studies, history, sociology, philosophy, and literary studies, *Fashion: New Feminist Essays* traces the far-reaching impact of this most feminized of forms, underscoring the significance of fashion studies for understanding the politics of culture. This book was originally published as a special issue of the *Australian Feminist Studies* journal.

Cultures of Femininity in Modern Fashion Ilya Parkins, Elizabeth M. Sheehan, 2012-04-10 An interdisciplinary collection illuminating how fashion shaped concepts and practices of femininity and modernity

Fashion under Fascism Eugenia Paulicelli, 2025-01-09 Looking at the dark history of Italian fashion by focusing on the impact of 1930s Fascism, this is the second edition of Eugenia Paulicelli's classic text. In *Fashion under Fascism*, Paulicelli explores the subtle yet sinister changes to the seemingly innocuous practices of everyday dress and shows why they were such a concern for the state. Importantly, she also demonstrates how these developments impacted on the global dominance of Italian fashion today. Alongside interviews with major designers, such as Fernanda Gattinoni and Micol Fontana, this newly expanded revised edition includes updated material on gender and masculinity, the role of uniforms in standardizing individuality, race and colonial Italy, and the reception of 1930s cinema. It sheds new light on the complicated relationship between style and politics and is an essential read for all those interested in the history of fashion, politics, national identity and the culture of fascism.

Fashion, Women and Power Denise N. Rall, 2021-12-10 This book addresses the relationships between fashion, women

and power. One of the constants within the book is to question the enduring relationship between women and dress and how these inform and articulate the ways in which women remain represented as either suitable or not for public office and their behaviour is informed through dress when they are in power. The book critiques the interplays between politics, power, class, race and expectation in relation to the everyday practice of getting dress and the more performative and symbolic function of dress as embodiment. As never before, women are in positions of political power, and find themselves facing the maelstroms of mass media regarding their fashion, their deportment, and their right to govern. The contributors offer a wide set of perspectives on women and their roles, and their fashions when taking up powerful positions in Australia, New Zealand, United Kingdom and the United States. From the United Kingdom, the historical issues surrounding the movement towards 'rational dress' for women seeking their rights to vote and exercise are interrogated. The volume also explores viewpoints from East Asia, such as the constricting role for 'common' women upon entering the Imperial family in Japan. From the United States come the troublesome media stories engulfing two significant American Democratic First Ladies, Hillary Rodham Clinton and Michelle Obama. From New Zealand, the media reports on Prime Minister Jacinda Ardern upon her motherhood while serving in the office and on her clothing during the 2019 Christchurch massacre comprise a much-needed contribution to the literature on women, politics and dress. Further, the role of dress in politics broadly as a form of resistance, will be examined in Australia from recent skirmishes over 'appropriate dress' with ex-prime minister Julia Gillard and other Australian female politicians. The role of women and what their fashion selections mean continues via considerable debate during worldwide events. Finally, the theme of resistance and social media continues with an examination of protest dressing in the recent street battles in Hong Kong to how young Asian women have been influenced by the social media campaigns to encourage wearing the veil in Indonesia, to Asian women negotiating femininity in political dress. Primary readership will be among researchers, scholars, educators and students in the fields of fashion, dress studies, women and gender studies and media and history. It will be of particular value as at graduate level and as a supplementary resource. There may be some general appeal to those with an interest in the women or cultures at the centre of the discussions.

Fashion as Communication Malcolm Barnard, 2013-10-18 What kinds of things do fashion and clothing say about us? What does it mean to wear Gap or Gaultier, Milletts or Moschino? Are there any real differences between Hip-Hop style and Punk anti-styles? In this fully revised and updated edition, Malcolm Barnard introduces fashion and clothing as ways of communicating and challenging class, gender, sexual and social identities. Drawing on a range of theoretical approaches from Barthes and Baudrillard to Marxist, psychoanalytic and feminist theory, Barnard addresses the ambivalent status of fashion in contemporary culture.

Modern Spanish Women as Agents of Change Jennifer Smith, 2019 This volume brings together cutting-edge research on modern Spanish women as writers, activists, and embodiments of cultural change, and honors Maryellen

Bieder's invaluable scholarly contributions. The critical analyses are situated within their specific socio-historical context, and shed new light on nineteenth- and early twentieth-century Spanish literature, history, and culture.

The Color of Fashion Caroline Young, 2022-04-19 The Color of Fashion is a stunning book with fascinating stories of fashion woven throughout history with COLOR. Whether it's mellow yellow, in the pink, feeling blue, or green with envy, COLOR is so entwined with our emotions that there are countless expressions and song lyrics devoted to it. But what meaning does color have in what we wear? What does a green dress convey when worn to a cocktail party, what significance does a white trouser suit have when worn by a female politician, and why does a woman in red command attention? The Color of Fashion delves into the significance of color in dress and explores how the symbolism has shifted over time. Think of how black transitioned from a color of mourning to the ultimate in elegance, how millennial pink has defined the Instagram generation, and beige, once a sophisticated favorite of Chanel, now reflects the normcore subculture. Featuring images of iconic colorful moments in fashion history - including Jennifer Lopez in green Versace, Alexandra Ocasio-Cortez in white tailoring and Audrey Hepburn in that Little Black Dress - this book is an essential read for fashion lovers everywhere.

Fashion Talks Shira Tarrant, Marjorie Jolles, 2012-09-01 Essays on the politics of everyday style.

Is Fashion a Woman's Right? Carolyn Beckingham, 2005-05-01 Addresses the evidence for the belief that enjoyment of fashion is necessarily inconsistent with feminist values, from a feminist point of view. This book begins by establishing that many feminists hold this belief, and argues that disagreeing does not mean claiming that feminism was unnecessary or that it is rendered redundant by social mores.

The International Politics of Fashion Andreas Behnke, 2016-07-07 This book seeks to address and fill a puzzling omission in contemporary critical IR scholarship. Following on from the aesthetic turn in IR, critical and 'postmodern' IR has produced an impressive array of studies into movies, literature, music and art and the way these media produce, mediate, and represent international politics. By contrast, the proponents of the aesthetic turn have overlooked fashion as a source of

knowledge about global politics. Yet stories about the political role of fashion abound in the news media. Margaret Thatcher used dress to define her political image, and more recently the fascination with Michelle Obama, Carla Bruni and other women in similar positions, and the discussions about the appropriateness of their wardrobes, regularly makes the news. In Sudan, a female writer and activist successfully challenged the government over her right to wear trousers in public and in Europe, the debate on women's headscarves has politicised a garment item and turned it into a symbol of fundamentalism and oppression. In response, the contributors to this book investigate the politics of fashion from a variety of perspectives, addressing theoretical as well as empirical issues, establishing the critical study of fashion and its protagonists as a central contribution to the aesthetic turn in international politics. The politics of fashion go beyond these examples of the uses and abuses of textiles and fabrics for political purposes, extending into its very 'grammar' and vocabulary. This book will be a unique contribution to the field and will be of interest to students and scholars of international relations, critical IR theory and popular culture and world politics.

Patriots Against Fashion A. Maxwell, 2014-08-05 During the era of the French revolution, patriots across Europe tried to introduce a national uniform. This book, the first comparative study of national uniform schemes, discusses case studies from Austria, Bulgaria, England, France, Germany, Hungary, Italy, the Netherlands, Spain, Sweden, Turkey the United States, and Wales.

Understanding Fashion Scandals Annamari Vänskä, Olga Gurova, 2023-12-28 All publicity is good publicity? Perhaps not. In recent years, multiple local and global fashion brands have been called out for cultural appropriation, racism, misogyny, and even flirting with fascism. *Understanding Fashion Scandals* is the first book to explore this changing landscape of contemporary fashion through case studies showing how 'shock value' lost its currency. The book focuses on the changes since the late-1970s and early 1980s, when brands like Calvin Klein and Benetton first used controversy as a promotional tool to build their brand identity, to the contemporary industry where avoiding social media backlash is critical to survival. Analyzing the tactics brands including Burberry, Dior, Dolce & Gabbana and Prada adopt to avoid or mitigate scandals, Vänskä and Gurova map the fashion industry's journey towards cultural sustainability.

The Politics of the Essay Ruth-Ellen B. Joeres, Elizabeth Mittman, 1993 *The Politics of the Essay* is that rare scholarly work that provides both a history of this relatively new field and of its formal characteristics and inspires its readers to want to participate in the making of this history. --Signs The first in-depth study of the relationship between women and essays. Employing gender, race, class, and national identity as axes of analysis, this volume introduces new perspectives into what has been a largely apolitical discussion of the essay. Includes an original essay by Susan Griffin.

Faulkner's Fashion Christopher Rieger, 2023-12-14 The first book-length study of clothing and dress across William Faulkner's novels and short stories. Clothing is one of the most important and pervasive material items throughout William

Faulkner's fiction. *Faulkner's Fashion* analyzes the writer's use of clothing from a variety of critical approaches, considering how clothing and dress intersect with race, class, and gender across Faulkner's works. It also considers clothes as material objects, using Thing Theory and Object Oriented Ontology to illuminate the role clothing plays as an object in conjunction with its multiple layers of symbolic meaning to both the wearer and the observer. *Faulkner's Fashion* reveals how much attention Faulkner pays to garments and fashion in his own life and in his fiction, arguing that dress is often a means of characterization for Faulkner, while it also connects his narrative representations of gender, sexuality, class, poverty, race, and modernity.

The End of Fashion Adam Geczy, Vicki Karaminas, 2018-11-01 Attitudes to fashion have changed radically in the twenty-first century. Dress is increasingly approached as a means of self-expression, rather than as a signifier of status or profession, and designers are increasingly treated as 'artists', as fashion moves towards art and enters the gallery, museum, and retail space. This book is the first to fully explore the causes and implications of this shift, examining the impact of technological innovation, globalization, and the growth of the internet. *The End of Fashion* focuses on the ways in which our understanding of fashion and the fashion system have transformed as mass mediation and digitization continue to broaden the way that contemporary fashion is perceived and consumed. Exploring everything from the rise of online shopping to the emergence of bloggers as power elites who have revolutionized the terrain of traditional fashion reportage, this volume anatomizes a world in which runway shows now compete with live-streaming, digital fashion films, Instagram, and Pinterest. Bringing together original, cutting-edge contributions from leading international scholars, this book is essential reading for students and scholars of fashion and cultural studies, as well as anyone interested in exploring the dramatic shifts that have shaken the fashion world this century – and what they might say about larger changes within an increasingly global and digital society.

Teaching fashion. An introduction Romana Andò, 2020 This collection of contributions was created to prove both the complexity of the contemporary fashion system as well as the richness and openness of an interdisciplinary approach to the field, that is the same that inspires the Master programme in Fashion Studies at Sapienza, University of Rome. All the authors – either scholars or professionals in their fields – are deeply involved in this educational project and they have conceived each contribution as a pedagogic tool for supporting students in better understanding the social, cultural, economic, technological, creative, environmental aspects of fashion. Therefore, this collection aimed at providing readers with a kaleidoscopic approach, a multitude of voices and perspectives; a set of blended methodologies as well as theories that try to address the challenges of the permanent and accelerating transformations of the fashion system. To understand the future of fashion we have to foster creative as well as critical thinking, working on the knowledge we got from the past and identifying changes in advance, in order to be ready – and prepared – for the challenges that are in front of us.

Fashion in European Art Justine De Young, 2017-05-30 Fashion reveals not only who we are, but whom we aspire to be. From 1775 to 1925, artists in Europe were especially attuned to the gaps between appearance and reality, participating in and often critiquing the making of the self and the image. Reading their portrayals of modern life with an eye to fashion and dress reveals a world of complex calculations and subtle signals. Extensively illustrated, *Fashion in European Art* explores the significance of historical dress over this period of upheaval, as well as the lived experience of dress and its representation. Drawing on visual sources that extend from paintings and photographs to fashion plates, caricatures and advertisements, the expert contributors consider how artists and their sitters engaged with the fashion and culture of their times. They explore the politics of dress, its inspirations and the reactions it provoked, as well as the many meanings of fashion in European art, revealing its importance in understanding modernity itself.

The Aesthetic Economy of Fashion Joanne Entwistle, 2009-10-01 Fashion is bound up with promoting the 'new', concerned with constantly changing aesthetics. The favoured styles or looks of a season arise out of the work of a vast range of different actors who collectively produce, select, distribute and promote the new ideals, before moving on to next season. How, then, are fashionable commodities stabilized long enough for them to be selected, distributed and sold? Since there are few studies that actually examine the work that goes on inside the world of fashion, we know little about these processes. This book addresses this gap in our knowledge by examining how aesthetic products are defined, distributed and valued. It focuses attention on the work of some of the market agents, particularly model agents or 'bookers' and fashion buyers, shaping the aesthetics inside their markets. In analysing their work, Entwistle develops a theoretical framework for understanding the distinctive features of aesthetic marketplaces and the aesthetic calculations within them.

Fashion, Disability, and Co-design Grace Jun, 2024-04-18 Constricting styles and limited clothing choices can restrict a person with a disability from fully participating in social communities, employment and gatherings that have an unspoken dress code. Design has the power to change this. *Fashion, Disability, and Co-design* shows how collaborative, inclusive design techniques can produce garments and accessories that increase social inclusion. Grace Jun outlines practical techniques to help designers create their own inclusive collections, with detailed examples from interviews with professionals. 14 illustrated case studies show how engagement with disability communities to co-design clothing and accessories can lead to functional, wearable solutions for people of all abilities without compromising style.
