Legend of the Rainbow Warriors Steven McFadden, Ven. Dhyani Ywahoo, 2005-07-13 Legend of the Rainbow Warriors is a journalist's account of one of the core myths of America, and an electrifying exploration of how that myth is playing out in real time. One dominant myth is formed by advertising images of vast, luxurious wealth-the myth of materialism. Another myth is conjured in the bloody, sorrowful images that pervade movies, music and computer games-the myth that the world is hate-filled and chaotic beyond redemption. The Legend of the Rainbow Warriors offers a spiritual alternative of hope and real possibility based upon respect, freedom and responsibility. As drawn from dozens of historical accounts, the Legend of the Rainbow Warriors relates that when the Earth becomes desperately sick, people of all colors and faiths will unite, and rise to face the overwhelming challenges with insight, honesty, caring, sharing, and respect. Veteran writer Steven McFadden weaves the myths and the headlines together seamlessly in a rich work of literary journalism that is adroitly crafted, eye-opening, and soul-inspiring.

Sink the Rainbow! John Dyson, Joseph Fitchett, 1986-01-01 Describes the sinking of the Greenpeace ship Rainbow Warrior, and discusses the political repercussions when French government officials admitted responsibility

New Zealand in World Affairs IV 1990-2005 Roderic Alley, New Zealand Institute of International Affairs, 2007 At the beginning of 1990, the Berlin Wall had just fallen, few believed that there was any serious threat to the environment, 9/11 was just any date, the Pacific was seen largely as an idyllic and stable region and Iraq was just another Middle Eastern state. By 2005 Iraq meant two wars ; the 'Cold War' had been replaced by the 'war on terror'; East Timor, Bougainville, Fiji and the Solomons were all synonyms for strife and instability in the region ; and sustainability, global warming and climate change were everyday topics. New Zealand in World Affairs IV surveys the period 1990-2005, provides a record of New Zealand's major international preoccupations, describes how they were officially handled and makes assessments of how effectively the challenges were interpreted and acted upon. This authoritative collection of essays, the fourth in a series commissioned by the New Zealand Institute of International Affairs, completes a survey of New Zealand's foreign relations since World War II.

The Light-Green Society Michael Bess, 2003-11-15 The accelerating interpenetration of nature and culture is the hallmark of the new light-green social order that has emerged in postwar France, argues Michael Bess in this penetrating new history. On one hand, a preoccupation with natural qualities and equilibrium has increasingly infused France's economic and cultural life. On the other, human activities have laid an ever more potent and pervasive touch on the environment, whether through the intrusion of agriculture, industry, and urban growth, or through the much subtler and more well-intentioned efforts of ecological management. The Light-Green Society limns sharply these trends over the last fifty years. The rise of environmentalism in the 1960s stemmed from a fervent desire to save wild nature-nature conceived as a qualitatively distinct domain, wholly separate from human designs and endeavors. And yet, Bess shows, after forty years of environmentalist agitation, much of it remarkably successful in achieving its aims, the old conception of nature as a separate sphere has become largely untenable. In the light-green society, where ecology and technological modernity continually flow

together, a new hybrid vision of intermingled nature-culture has increasingly taken its place.

Our Poisoned Planet Oliver Trager, 1989 Examines environmental issues through the words and images of the nation's leading editorial writers and cartoonists.

Linguistic Identities through Translation Maria Sidiropoulou, 2021-11-22 This book addresses the need for a systematic approach to the study of identities. It explores the potential of drawing conclusions about linguistic identities through analysis of source and target versions of texts. It focuses on English-Greek translation contexts and brings in evidence from other language pairs. It investigates systematic variation in three genres (press, EU and literary/theatre translation contexts) to trace signs of intercultural difference inscribed in text that may be part of the source or target identity. It, thus highlights the potential of translation to enlighten research on identity and contributes insights into interdisciplinary projects on intercultural difference. This book has a consciousness-raising intention, in that it seeks to enhance linguistic identity awareness and shed light on its development.

Brierly's Law of Nations Andrew Clapham, 2012-08-09 This concise book is an introduction to the role of international law in international relations. Written for lawyers and non-lawyers alike, the book first appeared in 1928 and attracted a wide readership. This new edition builds on Brierly's scholarship and his idea that law must serve a social purpose. Previous editions of The Law of Nations have been the standard introduction to international law for decades, and are widely popular in many different countries due to the simplicity and brevity of the prose style. Providing a comprehensive overview of international law, this new version of the classic book retains the original qualities and is again essential reading for all those interested in learning what role the law plays in international affairs. The reader will find chapters on traditional and contemporary topics such as: the basis of international obligation, the role of the UN and the International Criminal Court, the emergence of new states, the acquisition of territory, the principles covering national jurisdiction and immunities, the law of treaties, the different ways of settling international disputes, and the rules on resort to force and the prohibition of aggression.

Mammoth Books presents Terrorist Attacks and Clandestine Wars Jon E. Lewis, 2012-07-26 7/7 Is the government covering up evidence of bungling by the intelligence services before the 7/7 bombings in London? 9/11 Did George Bush stage the 9/11 attack, or at least purposefully allow for it to occur so he could generate support to invade Afghanistan for

reasons linked to the oil industry? And was Flight 93 shot down on the order of the White House before it could reach its target? Or was it really al-Qaeda acting alone? HAARP It is said that HAARP camouflages the most destructive weapon ever created. Is it really possible that this is what this 33-acre site is concealing? The Lockerbie Bombing Initially it was assumed that Libya had a clear motive for the Lockerbie bombing, revenge for the 1986 US Air Force raid on the cities of Tripoli and Benghazi. But the truth is inevitably far more complex. The Madrid Train Bombings What is the truth behind this atrocity in Spain? Oklahoma City Bombings Is the fact that the FBI failed to investigate McVeigh's connections with the Militias, and the fact that they held back 3,000 pages of documents enough to prove the Oklahoma City bombing was orchestrated by them? Pearl Harbor Did President Franklin D. Roosevelt conspire to bring about the attack on US forces at Pearl Harbour? The Port Chicago Explosion What was the real cause of this explosion? The Rainbow Warrior French DGSE agents alleged to have sunk this Greenpeace ship. How much of this is true, and if it is, why did they do it? Roberto Calvi In 1982 God's banker was found dead, swinging from Blackfriars Bridge in London. As Calvi had been under enormous pressure it was assumed he had killed himself. But twenty years on, the case was reopened and revaluated, producing somewhat different findings. The Sovereign Military Order of Malta Does the Order moonlight as an intelligence broker? TWA Flight 800 Why did this plane explode over the Atlantic?

Kursk Peter Truscott, 2003-10-07 A gripping account of the Russian Navy's greatest peace-time disaster, the sinking of the nuclear submarine Kursk. On August 12, 2000, the Russian Navy experienced a devastating catastrophe as the nuclear-powered Kursk submarine, manned by a 118-member crew, sank to the bottom of the Barents Sea. Peter Truscott examines Russia's failure to respond to the crisis and explains this tragedy in Kursk, providing countless interviews with relatives of the crew and experts. The result is a fascinating, vivid recreation of the terrible final hours of the crew as they waited in vain for rescue--an illustration of human courage, human failing, and the tragic repercussions.

Nuclear Weapons Free Zones Exequiel Lacovsky, 2021-03-08 This book explores the conditions under which Nuclear Weapons Free Zones (NWFZs) can be established. It analyzes four hypotheses that explain the factors contributing to the formation of NWFZs, building upon realist, constructivist and liberal theories from international relations. Through structured focused comparison, the book presents and compares the emergence of NWFZs in Latin America, the South Pacific, Southeast Asia, Africa, Central Asia, and the Middle East, which is a prospect for a NWFZ. The book argues that NWFZ projects depend on the following conditions: the security interest of regional states in avoiding nuclear threats, preexisting regional institutions and regional economic cooperation, leadership by a core of regional powers and shared interest in spreading non-proliferation norms. Democracy is not a necessary condition, but democratization can help overcome barriers presented by hesitant or opposed regional governments. As too many of the mentioned necessary conditions are lacking in the Middle East, a NWFZ project, thus, will be possible only after major political changes. This book will be of much interest to students of nuclear proliferation, arms control, security studies and International Relations.

Principles and Politics in Contemporary Britain Mark Garnett, 2013-10-28 This book shows the importance of political ideas in policy-making and demonstrates the extent to which pragmatic considerations preclude the imposition of rigid ideological programmes. It charts the decline of the postwar British 'consensus', the changing face of both the Conservative and Labour parties under the long shadow of Thatcherism, and the growing emergence of single issue policies such as environmentalism and feminism. With an extensive bibliography and suggested seminar and essay topics, Principles and Politics can be used on any course which focuses on contemporary British politics as well as having general appeal to those interested in looking at the contemporary political and ideological debate in the context of wider issues and trends. This second edition is completely revised and updated.

Environmental Protection Sue Elworthy, Jane Holder, 1997-06 This book is targeted to students studying environmental law as well as legal academics, researchers, and undergraduates from other disciplines, including economics, political science, and natural sciences.

Journeys to New Zealand Aotearoa Kalman Dubov, 2021-12-05 I visited New Zealand twice, in December 2017, and in March 2020. Both instances were while I was on the cruise ship, the magnificent Amsterdam, Holland America Lines flagship. This book reflects on my time in New Zealand during the first visit. The second visit was a time of increasing awareness of the dangers of Covid-19, soon causing many countries to close their ports to visitors. My review and analysis of New Zealand begin with its geography, reviewing the micro-continent, now reflecting but the remnant of a larger and now non-existent landmass. I focus on New Zealand's three main islands, its geography, flora, and fauna. I then discuss the arrival of the Maori, a controversial topic, with most scholars agreeing to the 1280 CE year when they arrived on these islands. An alternate view claims the Maori arrived here many centuries earlier, though no evidence validates this claim. Regardless of

when they arrived, the Maori retain their own culture, cuisine, dress and way of living. Modern New Zealand's history begins with the arrival of the famed English explorer James Cook in 1769, followed by English settlers. The arrival of Europeans changed the country and the way the Maori related to each other as well as to the new European arrivals. The Musket Wars saw the first change. These were wars fought between the Maori, with added lethality of using European weaponry. That consequence of the wars prompted the signing of the Waitangi Treaty, which many Maori chieftains agreed to in exchange for receiving Crown protection and citizenship. This Treaty, however, was in two versions: an English and another in Maori, resulting in the debate of what the Maori actually agreed to, and if they surrendered sovereignty by signing the document. The Treaty and its provisions are today the subject of controversy, with the government agreeing to compensations for Maori losses. Some of those losses resulted from confiscations during the New Zealand Wars when rebellious Maori were suppressed and the land was taken from them. I also review the different wars fought by New Zealand, first as a British colony, and later as an independent Commonwealth. New Zealanders are proud of their connection to the 'Mother Country.' When Britain was involved in the conflict, New Zealand immediately stood at her side, committing soldiers in her defense. I also review the French attack on the Rainbow Warrior, a Greenpeace ship, an act sanctioned by the highest echelon of the French government. New Zealand was shocked by the reticence of Western world powers against this attack. The fact New Zealand stood alone in the face of this attack on its territory made it realize it had to adopt its own political agenda. Perhaps because New Zealand stood alone in the aftermath of this French attack on its soil bolstered its leadership to declare a national anti-nuclear policy. That policy resulted in harsh rhetoric and distance from the United States, though the ANZUS Treaty was not abrogated as a result. New Zealand today remains a member of the Five Eyes, consisting of a consortium of English-speaking countries that gathers and shares intelligence. New Zealand has a small but active Jewish community, primarily in Auckland and Wellington. I visited the Auckland Jewish community and was able to assess the country's relationship with the State of Israel. The section on My Visit reflects visiting Waitangi House in the Bay of Islands, Tauranga, Rotorua as well as Auckland. New Zealand is a beautiful country and I was enriched by visiting and becoming aware of its history, traditions, and people. I hope that the pandemic will be history to once again sail the waters and visit this distant land.
