**Kevin Chang, Wayne Chen**

*Reggae Routes* Kevin Chang, Wayne Chen, 1998 Jamaican music can be roughly divided into four eras, each with a distinctive beat - ska, rocksteady, reggae and dancehall. Ska dates from about 1960 to mid-1966, rocksteady from 1966 to 1968, while from 1969 to 1983 reggae was the popular beat. The reggae era had two phases, 'early reggae' up to 1974 and 'roots reggae' up to 1983. Since 1983 dancehall has been the prevalent sound. The authors describe each stage in the development of the music, identifying the most popular songs and artists, highlighting the significant social, political and economic issues as they affected the musical scene. While they write from a Jamaican perspective, the intended audience is 'any person, local or foreign, interested in an intelligent discussion of reggae music and Jamaica.'

**Women in Jamaican Music** Heather Augustyn, 2020-06-09 As the ubiquitous Jamaican musician Bob Marley once famously sang, half the story has never been told. This book covers the female contribution to Jamaican music and its subgenres through dozens of interviews with vocalists, instrumentalists, bandleaders, producers, deejays and supporters of the arts. Relegated to marginalized spaces, these pioneering women fought for their claim to the spotlight amid oppressive conditions to help create and shape Jamaica's musical heritage.

**Introduction to Jamaica** Gilad James, PhD,1997 Jamaica is a tropical island nation located in the Caribbean Sea, south

of Cuba and west of Haiti. The country is composed of three counties: Cornwall, Middlesex, and Surrey, with Kingston being the capital city. It has a population of approximately 2.7 million people and has a diverse mix of ethnic groups, including African, East Indian, Chinese, and European. Jamaica has a rich and complicated history, having been inhabited by native Arawak and Taino peoples before being colonized by Spain and eventually Britain. The island was a major producer of sugarcane and was heavily reliant on slave labor brought over from Africa. This history has greatly influenced Jamaican culture, which is known for its music, cuisine, and distinct dialect of English known as Jamaican Patois. Despite facing economic struggles and political corruption, Jamaica remains a popular tourist destination, known for its beautiful beaches, lush rainforests, and friendly locals.

To this end, an analysis of the phonological, grammatical and lexical peculiarities that occur in Reggae music in Jamaica will be performed. First, the author will commence with the historical background of Jamaican Creole and explain how and why it has developed and what role Standard English and even different African languages have played concerning its formation over centuries. Afterwards, the focus will be on the role of Standard English and Jamaican Creole in Jamaica. Basically, he will explain in what situations Standard English and Jamaican Creole are used, where they might be rather inappropriate and mistimed to use and mention the phenomenon of code-switching. Next up, different linguistic features of Jamaican Creole will be analysed – phonological, grammatical and lexical ones. After having exemplified those features, we will take a closer look at different songs of the Reggae genre by three of the most famous Reggae artists Bob Marley, Peter Tosh and Buju Banton where different linguistic features of Jamaican Creole can be found in their songs in great quantities. Finally, the results of the typical linguistic features that have been mentioned and the occurrences of certain linguistic features in the analysed songs will be compared in order to have an overview over what features are realized in Reggae songs.

**The Discourse of Protest, Resistance and Social Commentary in Reggae Music** Elizabeth Turner, 2021-09-30 A comprehensive, engaging and timely Bakhtinian examination of the ways in which the music and lyrics of Pacific reggae, aspects of performance, a record album cover and the social and political context construct social commentary, resistance

and protest. Framed predominantly by the theory and philosophy of Russian literary theorist Mikhail Bakhtin, this innovative investigation of the discourse of Pacific reggae in New Zealand produces a multi-faceted analysis of the dialogic relationships that create meaning in this genre of popular music. It focuses on the award-winning EP *What's Be Happen?* by the band Herbs, which has been recognised for its ground-breaking music and social commentary in the early 1980s. Herbs' songs address the racism and ideology of the apartheid regime in South Africa and the relationship between sport and politics, as well as universally relevant conflicts over race relations, the experiences of migrants, and the historic and ongoing loss of indigenous people's lands. The book demonstrates the striking compatibility between Bakhtin's theorisation of utterances as ethical acts and reggae music, along with the Rastafari philosophy that underpins it, which speaks of resistance to social injustice, of ethical values and the kind of society people seek to achieve. It will appeal to a cross-disciplinary audience of scholars in Bakhtin studies; discourse analysis; popular cultural studies; the literary analysis of popular music and lyrics, and those with an interest in the culture and politics of Aotearoa New Zealand and the Pacific region. *Reggae Explosion* Chris Salewicz, Adrian Boot, 2001 From the earliest emergence in the 1950s of the fiercely competitive sound systems, fighting sonic battles in downtown Kingston, the story of Jamaican music is traced through ska, the birth of reggae, dub, roots reggae and the impact of Bob Marley to the new, harder-edged developments that have emerged since the 1980s, including dancehall, ragga and jungle.

**Time and memory in reggae music** Sarah Daynes, 2013-07-19 On the basis of a body of reggae songs from the 1970s and late 1990s, this book offers a sociological analysis of memory, hope and redemption in reggae music. From Dennis Brown to Sizzla, the way in which reggae music constructs a musical, religious and socio-political memory in rupture with dominant models is vividly illustrated by the lyrics themselves. How is the past remembered in the present? How does remembering the past allow for imagining the future? How does collective memory participate in the historical grounding of collective identity? What is the relationship between tradition and revolution, between the recollection of the past and the imagination of the future, between passivity and action? Ultimately, this case study of 'memory at work' opens up a theoretical problem: the conceptualization of time and its relationship with memory.
