This encyclopedia features anecdotes and information on the development of a wide range of words, including slang, proverbs, animal and plant names, place names, nicknames, historical expressions, foreign language expressions, and phrases from literature. Approximately 2,500 new entries have been added to this edition, ranging from Aardsma to zounds.--BOOK JACKET.

**The Origin of Certain Place Names in the United States** Henry Gannett, 1902

Sex and Eroticism in Mesopotamian Literature Dr Gwendolyn Leick, 2013-01-11 Sex and Eroticism in Mesopotamian Literature is a new contribution to current debates about sex and eroticism. It gives an insight into Mesopotamian attitudes to sexuality by examining the oldest preserved written evidence on the subject - the Sumero-Akkadian cuneiform sources - which were written between the 21st and the 5th centuries B.C. Using these long-neglected and often astonishing data, Gwendolyn Leick is able to analyse Mesopotamian views of prostitution, love magic and deviant sexual behaviour as well as more general issues of sexuality and gender. This fascinating book sheds light on the sexual culture of one of the earliest literate civilisations.

**Sexy Origins and Intimate Things** Charles Panati, 1998 Where did the word love come from? Has there ever been a gay pope? How did Valentine's Day originate? From the lascivious to the romantic, from the hard-core to the scientific and the scholarly, this engaging and eye-opening compendium of little known facts about sex is both informative and endlessly entertaining.

**From Chains to Bonds** Doudou Diène, 2001 A collection of 38 papers from the Ouidah Conference held in September 1994 in Ouidah, Benin as the launching conference for UNESCO's international Slave Route Project.

**On Farting** V. Allen, 2010-05-24 This book presents waste as an aesthetic category that introduces an arsy-versy world where detritus is precious. This aesthetic is applied in the second part to etymology, poking through the 'paternal dungheaps'

of words, and tracing their origins not to Eden but to Babel, puns, and word play.

**Same and Other** Mai Palmberg,Maria Eriksson Baaz,2001 The idea of African Otherness has occupied a central role in discourses on cultural production in Africa, whether film, literature, music or the arts. These claims, articulated both by 'Western' and 'African' critics and consumers, means that particular criteria and standards are adopted in relation to cultural production in Africa. The claim to African Otherness is gaining new strength in the wake of globalization, but it is also increasingly challenged by a number of contemporary artists. This book deals with the question of relevance and meaning of the signifier in various fields of contemporary cultural production in Africa.

The World and All the Things upon It David A. Chang,2016-06-01 Winner of the Modern Language Association's Prize for Studies in Native American Literatures, Cultures, and Languages Winner of the American Historical Association's Albert J. Beveridge Award Winner of NAISA's Best Subsequent Book Award Winner of the Western History Association's John C. Ewers Award Finalist for the John Hope Franklin Prize What if we saw indigenous people as the active agents of global exploration rather than as the passive objects of that exploration? What if, instead of conceiving of global exploration as an enterprise just of European men such as Columbus or Cook or Magellan, we thought of it as an enterprise of the people they "discovered"? What could such a new perspective reveal about geographical understanding and its place in struggles over power in the context of colonialism? The World and All the Things upon It addresses these questions by tracing how Kanaka Maoli (Native Hawaiian people) explored the outside world and generated their own understandings of it in the century after James Cook's arrival in 1778. Writing with verve, David A. Chang draws on the compelling words of long-ignored Hawaiian-language sources—stories, songs, chants, and political prose—to demonstrate how Native Hawaiian people worked to influence their metaphorical "place in the world." We meet, for example, Kaʻiana, a Hawaiian chief who took an English

captain as his lover and, while sailing throughout the Pacific, considered how Chinese, Filipinos, Pacific Islanders, and Native Americans might shape relations with Westerners to their own advantage. Chang's book is unique in examining travel, sexuality, spirituality, print culture, gender, labor, education, and race to shed light on how constructions of global geography became a site through which Hawaiians, as well as their would-be colonizers, perceived and contested imperialism, colonialism, and nationalism. Rarely have historians asked how non-Western people imagined and even forged their own geographies of their colonizers and the broader world. This book takes up that task. It emphasizes, moreover, that there is no better way to understand the process and meaning of global exploration than by looking out from the shores of a place, such as Hawai'i, that was allegedly the object, and not the agent, of exploration.

*The State of the Language* Philip Howard, 1985 Is the English language in decline? Many people seem to think so--but Philip Howard isn't one of them. The Literary Editor of The Times of London, Howard takes a robust, commonsensical view of the changes that are happening in English. His is not the Panglossian attitude that all is necessarily for the best in the best of all possible languages, but he does feel that change is necessary--and healthy--in any living language. Howard here examines the language in its various branches and categories, such as grammar and pronunciation, spelling and punctuation, dialect and slang. He discusses the effect the new technologies, from cable TV to photocomposition, are having on the mother tongue, and he examines the new dialects that are coming into use. He navigates the back streets of euphemism and the broad, boring boulevards of cliché. He asks whether the language is actually changing as fast as we suppose, and, if so, why. Howard argues that as far as we can, we should strive to direct and control the changes in English in ways that increase its power. And where we can't help it, he says, we should lie back and enjoy its immense richness, which is unrivaled by any other language. Rather than have us wring our hands, Philip Howard entreats us, with his customary wit and erudition, to use our tongues in concert with our brains. About the Author: Philip Howard is the author of *New Words for Old*, *Weasel Words*, *Words Fail Me*, and, most recently, *A Word in Your Ear*.

**Madre: Perilous Journeys with a Spanish Noun** Elizabeth Bakewell, 2011 How could madre mean whore as much as virgin? What happens to the ninety-nine madres when one father enters the room and they become a group of padres? And why can't a bien educada woman in Mexico say the word madre without raising eyebrows? --
