Sport and Film Seán Crosson, 2013-07-18 The sports film has become one of commercial cinema's most recognizable genres. From classic boxing films such as *Raging Bull* (1980) to soccer-themed box-office successes like *Bend It Like*

Beckham (2002), the sports film stands at the interface of two of our most important cultural forms. This book examines the social, historical and ideological significance of representations of sport in film internationally, an essential guide for all students and enthusiasts of sport, film, media and culture. Sport and Film traces the history of the sports film, from the beginnings of cinema in the 1890s, its consolidation as a distinct fiction genre in the mid 1920s in Hollywood films such as Harold Lloyd's *The Freshman* (1925), to its contemporary manifestation in Oscar-winning films such as *Million Dollar Baby* (2004) and *The Fighter* (2010). Drawing on an extensive range of films as source material, the book explores key issues in the study of sport, film and wider society, including race, social class, gender and the legacy of 9/11. It also offers an invaluable guide to 'reading' a film, to help students fully engage with their source material. Comprehensive, authoritative and accessible, this book is an important addition to the literature in both film and media studies, sport studies and cultural studies more generally.

The Routledge Companion to Media and Poverty Sandra L. Borden, 2021-07-19 Comprehensive and interdisciplinary, this collection explores the complex, and often problematic, ways in which the news media shapes perceptions of poverty. Editor Sandra L. Borden and a diverse collection of scholars and journalists question exactly how the news media can reinforce (or undermine) poverty and privilege. This book is divided into five parts that examine philosophical principles for reporting on poverty, the history and nature of poverty coverage, problematic representations of people experiencing poverty, poverty coverage as part of reporting on public policy and positive possibilities for poverty coverage. Each section provides an introduction to the topic, as well as a broad selection of essays illuminating key issues and a Q&A with a relevant journalist. Topics covered include news coverage of corporate philanthropy, structural bias in reporting, representations of the working poor, the moral demands of vulnerability and agency, community empowerment and citizen media. The book's broad focus considers media and poverty at both the local and global levels with contributors from 16 countries. This is an ideal reference for students and scholars of media, communication and journalism who are studying topics involving the media and social justice, as well as journalists, activists and policy makers working in these areas.

Justice Reinvestment Chris Fox, Kevin Albertson, Kevin Wong, 2013-06-03 Rising prison numbers on both sides of the Atlantic are cause for concern. Justice Reinvestment is a major movement in criminal justice reform in the US that is also attracting lots of interest in the UK. Justice Reinvestment is an approach to addressing the penal crisis that uses the best available evidence to re-direct resources to more effective rehabilitation of offenders and better 'prehabilitation'. It takes a more holistic view of criminal justice and is particularly concerned to address the community dimensions of offending and re-offending. The authors highlight competing models of Justice Reinvestment and argue for a more radical version in which criminal justice reform is seen as part of a wider social justice reform programme. This is the first substantial publication on Justice Reinvestment and shows that 'Justice Reinvestment' has huge potential to re-shape the criminal justice system. It will be essential reading for undergraduate and post-graduate students with an interest in criminal justice reform. Practitioners and policy-makers working in the criminal justice system in the US and the UK will also value the fresh perspective it brings to criminal justice reform and its breadth of coverage including insights into the penal crisis, different models of Justice Reinvestment, the use of criminal justice data and research evidence in re-designing criminal justice services and new approaches to commissioning.

Cracked James Davies, 2021-11-15 A "thought-provoking" look at the psychiatric profession, the overprescribing of pharmaceuticals, and the cost to patients' health (Booklist). In an effort to enlighten a new generation about its growing reliance on psychiatry, this illuminating volume investigates why psychiatry has become the fastest-growing medical field in history; why psychiatric drugs are now more widely prescribed than ever before; and why psychiatry, without solid scientific justification, keeps expanding the number of mental disorders it believes to exist. This revealing volume shows that these issues can be explained by one startling fact: in recent decades psychiatry has become so motivated by power that it has put the pursuit of pharmaceutical riches above its patients' wellbeing. Readers will be shocked and dismayed to discover that psychiatry, in the name of helping others, has actually been helping itself. In a style reminiscent of Ben Goldacre's *Bad Science* and investigative in tone, James Davies reveals psychiatry's hidden failings and how the field of study must change if it is to ever win back its patients' trust.

Practice in Mental Health-Substance Use David B. Cooper,2018-12-20 The Mental Health-Substance Use series provides clear guidance for professionals on this complex and increasingly recognised field. It concentrates on the concerns, dilemmas and concepts that impact on the life and well-being of affected individuals and those close to them, as well as the future direction of practice, education, research, services, intervention, and treatment. This final book in the series provides the basis of best practice for offering effective interventions to affected individuals and their families, exploring the effects of various substances, both controlled and proscribed, and the impact of substance use in schizophrenia. Therapeutic interventions such as Eye Movement Desensitisation and Reprocessing (EMDR) and dialectical behaviour therapy are discussed, as are relapse prevention and the specific needs of groups such as older people and young adults. Associated topics such as individuals within the criminal justice system, and brain injury (the symptoms of which often mimic mental health-substance use) complete this highly comprehensive guide. The volumes in this series are designed to challenge concepts and stimulate debate, exploring all aspects of the development in treatment, intervention and care response, and the adoption of research-led best practice. They are essential reading for mental health and substance use professionals, students and educators.

Cheap on Crime Hadar Aviram,2015-02-06 After forty years of increasing prison construction and incarceration rates, winds of change are blowing through the American correctional system. The 2008 financial crisis demonstrated the unsustainability of the incarceration project, thereby empowering policy makers to reform punishment through fiscal prudence and austerity. In Cheap on Crime, Hadar Aviram draws on years of archival and journalistic research and builds on social history and economics literature to show the powerful impact of recession-era discourse on the death penalty, the war on drugs, incarceration practices, prison health care, and other aspects of the American correctional landscape.

Sex Scandals, Gender, and Power in Contemporary American Politics Hinda Mandell,2017-04-17 Examining how gender impacts political sex scandals in the United States, this book explains how political sex scandals contribute to the mistrust of government and identifies why these events have serious consequences for our political system. The increasing tabloidization of politics and focus on politicians involved in sex scandals is both problematic and important. When a major political sex scandal occurs, it occupies as much as 25 percent of all news coverage in the United States. Even if people may deny it, they enjoy consuming and talking about political sex scandals. Written by a former journalist who has frequently explored the intersections of politics, sex, and gender in the United States, Sex Scandals, Gender, and Power in Contemporary American Politics investigates how political sex scandals contribute to the mistrust of government and why these events have great significance in our frenzied media environment. The book makes use of comprehensive descriptive data (including statistics) to explain how political sex scandals are a representation of society's broader gender dynamics,

conveying subtle messages about power and morality. It addresses the roles of men and women in political sex scandals over time, the increasing tabloidization of politics, and the often-overlooked consequences of sex scandals for the political system. Author Hinda Mandell also documents how scandals' multiple negative effects for the politicians themselves and for society include turning politics into a spectator sport, contributing to the mistrust of government, the questioning of politicians' competence and judgment as a group, and politicians' diminishing effectiveness in office.
