**Talk to Me in Korean Workbook Level 2** TalkToMeInKorean, 2015 Talk To Me In Korean Level 2 is the second book in the Talk To Me In Korean textbook series. If you learned fundamentals of Korean, such as 'hello', 'thank you', and various essential grammar points with Level 1, Level 2 will build upon what you learned in Level 1 and help you develop the ability to

create longer sentences by introducing more grammar points and vocabulary. Since this book caters to those who are learning Korean without a teacher or formal lessons, review questions and exercises can be found in this book along with sample dialogues and reading material about Korean culture. Additionally, it focuses more on conversation and the spoken style of the language rather than the literary or academic style; therefore, you will be making sentences and having conversations in no time.

Multimodal Communication in Young Multilingual Children Jieun Kiaer,2023-01-18 This book explores young children's language acquisition in multilingual households through an original longitudinal study of the author's own children and interviews with members of other Korean-English families. The study investigates how multilingual children not only acquire multiple languages (verbal communication) but also acquire multiple strategies of non-verbal communication. In the process, it is also revealed that parents learn from children, collaboratively shaping the language of their family together in a manner that is between and beyond languages and cultures. The book explores the different types and frequency of non-verbal behaviours acquired by multilingual children and reveals how multilingual families use a range of multimodal resources to communicate effectively in a way that creates solidarity. The results of this longitudinal study are discussed within the paradigm of translanguaging and provide insight into an underrepresented multilingual population. With accompanying online videos, this book offers rich multimodal family interaction data for students and researchers interested in multilingualism, family language practices, and first and second language acquisition.
