Bottoming Out the Universe Richard Grossinger, 2020-04-07 An exploration into consciousness, the universe, and the nature of reality • Draws on transdimensional physics and biology, reincarnation and past-life memories, animal consciousness, multiple identities, thoughtforms, soul pictures, and paranormal phenomena like crop circles and poltergeists • Explores the riddle of personal identity and how it differs from consciousness • Reveals that consciousness is more than encompassing all that exists--it also speaks to what has yet to manifest Scientific orthodoxy views the universe as conceived of matter--protons, neutrons, electrons, down to the smallest particle, quarks. But, when you keep digging, what is "beneath" quarks? The scientific worldview does not take into account consciousness or life itself. How did consciousness become part of the material universe? Is it a by-product of brain chemistry or a constituent of reality? Or, to dig deeper, which is more fundamental: the existence of an objective physical universe or our subjective experience of it? In this investigation into consciousness, the universe, and the nature of reality, Richard Grossinger offers a wide-ranging foundation for reimagining the universe as based in consciousness rather than matter. He presents in-depth analysis of the standard scientific description of the universe, revealing the holes in its theories. Exploring the interpenetration of matter and all reality by consciousness, the author looks at reincarnation and past-life memories, examining famous and lesser-known but verifiable accounts. He then explores the nature and origin of consciousness, with accompanying explorations of animal consciousness,

the brain as a computer, multiple identities, thoughtforms, soul pictures, and paranormal phenomena like UFOs, faeries, and poltergeists. He also examines concepts from physics that combine elements of both consciousness and matter, such as collapsing waveforms and the uncertainty principle of quantum mechanics. Examining nonlocal and transpersonal modes of consciousness, Grossinger looks at the difference between consciousness and personal identity. He expands this discussion with reflections on Sethian cosmology, using Seth's own words and Jane Roberts's and John Friedlander's interpretations. He reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all: why there is "something" rather than "nothing." Skewering the materialist paradigm and placing consciousness alongside mass, gravity, and heat as an essential component of the universe, Grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency.

The Afterlife in Popular Culture Kevin O'Neill, 2022-06-17 *The Afterlife in Popular Culture: Heaven, Hell, and the Underworld in the American Imagination* gives students a fresh look at how Americans view the afterlife, helping readers understand how it's depicted in popular culture. What happens to us when we die? The book seeks to explore how that question has been answered in American popular culture. It begins with five framing essays that provide historical and intellectual background on ideas about the afterlife in Western culture. These essays are followed by more than 100 entries, each focusing on specific cultural products or authors that feature the afterlife front and center. Entry topics include novels, film, television shows, plays, works of nonfiction, graphic novels, and more, all of which address some aspect of what may await us after our passing. This book is unique in marrying a historical overview of the afterlife with detailed analyses of particular cultural products, such as films and novels. In addition, it covers these topics in nonspecialist language, written with a student audience in mind. The book provides historical context for contemporary depictions of the afterlife addressed in the entries, which deal specifically with work produced in the 20th and 21st centuries.

When Cancer Came Knocking Reverend Stephen Garrett, 2019-03-22 One in three people in North America will be directly affected by cancer in their lives, but how we deal with the emotional and spiritual impacts of the disease is rarely discussed. It's time that changed. Cancer hit the Garrett family as an unwelcome guest and shattered the life of the author's brother, Peter. In this raw and moving account of his brother's illness, Stephen Garrett looks at the emotional impact of the disease, and how its effects rippled far beyond the hospital walls. Each chapter reflects on part of Peter's six-year walk through the diagnosis and treatment of the disease, and includes reflections from loved ones as they navigated the changing family dynamic. It is an intimate and raw look at what happens during the struggle with cancer and ultimately the death of a treasured family member. This remarkable journey is part tribute to the author's brother and part reminder that the process of grieving is natural and personal. It seeks to reframe the concepts of grief and loss to help show death as a source of inspiration that can help us live a better, fuller, and more complete life. Peter's story is filled with humor, authenticity, love, and compassion, and stands as a firm reminder to value those around us while we can.

Little Voices Kiersten Parsons Hathcock, 2022-09-20 "Kiersten's story teaches us that narcissistic abuse and coercive and controlling relationships scramble even the deepest metaphysical intuition...by telling her first-person story in a vulnerable and raw way, Kiersten reminds us that narcissistic and abusive relationships have a unique architecture, and represent a gradual process of grooming, gaslighting, and indoctrination." —Dr. Ramani Durvasula, Narcissism Expert, Licensed Clinical Psychologist, and Bestselling Author "If you're wondering if intuition is real and if it can save your life, this book is for you." —Stephanie Arnold, Bestselling Author of 37 Seconds: Dying Revealed Heaven's Help—A Mother's Journey and star of Netflix's Surviving Death docuseries "Little Voices is a life-changing book! Not only will it make even the biggest skeptic believe in intuition, but it will also connect the dots for millions of abuse survivors." —Kelli Ellis, Celebrity Designer, Artist, and Author | HGTV | BRAVO TV | TLC | TDN As a skeptic and firm believer in science, Kiersten struggled with her newfound intuitive skills and the reason they were coming to light. She powered through fear to reach out to strangers and law enforcement with the messages she received. After receiving validation that what she was experiencing was real, helping families and law enforcement became a mission. It had to be—the kids were coming to her for help. One question remained: Why was this happening to her? And the answer was startling. The children were coming to help Kiersten as much as she was helping them. Before she could understand that, though, this happily married mother would have to stumble down a destructive path under a spell cast by a narcissistically abusive predator to learn to trust and use intuition to heal her childhood trauma—and escape a dangerous man she thought she loved. While Kiersten's late-in-life mediumship ability is

extraordinary, the wounds she'd buried that led her on a toxic path is a story many can relate to. *Little Voices* vividly inspires everyone to explore their own patterns, uncover their hidden pain, and trust their intuition in order to rise from the ashes.

The Making of a Psychic Heidi A. Jurka, 2023-10-20 Heidi A. Jurka escorts us on a captivating adventure of blissful consciousness expansion mixed with dire real-life challenges. Her intuitive glimmerings as a child living in the Hudson Valley in New York evolved to her becoming a professional psychic by her early 20's living in California. Heidi awakened bolt upright one morning to an absolute certainty that she must return to NY. She arrived just in time to attend unprecedented classes offered by Dr. Andrija Puharich, renowned parapsychologist, physicist, author and inventor in Ossining, NY. Puharich was most well known for bringing intuitive/telekinesis expert Uri Geller to the USA, whose skilled were studied, tested and ultimately validated at Stanford Research Institute by the CIA in 1973. As the classes continued Puharich interviewed Heidi about her own extensive psychic experiences. In 1977 she was invited to participate in mind-travel Faraday Cage sessions facilitated by Puharich. Dubbed one of his space kids, she was his assistant and study subject for over two years during important events including the Mind Link and the Pachita Project in Mexico City. She credits telepathy for her escape from the devastating fire at his home/lab in 1978. Heidi's lifelong journey of resiliency before and after these events along with amazingly positive and decisive synchronicities will keep her readers enthralled.

Hospice Palliative Home Care and Bereavement Support Lorraine Holtslander, Shelley Peacock, Jill Bally, 2019-07-17 This book provides an unique resource for registered nurses working in hospice palliative care at home and for the community, outside of acute care settings and also incorporates literature related to palliative care in acute health care settings, as part of the overall services and supports required. Very few resources exist which specifically address hospice palliative care in the home setting, despite the fact that most palliative care occurs outside acute care settings and is primarily supported by unpaid family caregivers. An overview of the concerns for individuals and families, as well as specific nursing interventions, from all ages would be an excellent support for nursing students and practicing registered nurses alike. The book structure begins with a description of the goals and objectives of hospice palliative care and the nursing role in providing excellent supportive care. Chapters include research findings and specifically research completed by the authors in the areas of pediatric palliative care, palliative care for those with dementia, and the needs of family caregivers in bereavement. Interventions developed by the editors are provided in this book, such as the "Finding Balance Intervention" for bereaved

caregivers; the “Reclaiming Yourself” tool for bereaved spouses of partners with dementia; and The Keeping Hope Possible Toolkit for families of children with life threatening and life limiting illnesses. The development and application of these theory-based interventions are also highlighted. Videos and vignettes written by family caregivers about what was helpful for them, provide a patient-and family-centered approach./div The book will benefit nursing students, educators and practicing registered nurses by providing information, theory, and evidence from research.

The Secret Yoga of the Vikings Steven A. Key, 2019-09-13 With their secretive poetic lore and even more mysterious pantheon of gods led by Odin the All-Father; Thor, the great Hammer-Striker; Loki, the Evil One, and Heimdal, the Cosmic Horn Blower, it is almost impossible not to love the Vikings. But there are even more fans of the multi-faceted yoga systems devised by the ancient Hindustani in India more than five thousand years ago. Steven A. Key makes the case that transcendental yoga has not only endured over the millennia, but that it has traveled in different forms of spiritual or religious expression in *The Secret Yoga of the Vikings*. Drawing on the writings of Joseph Campbell, the famous mythologist who hinted at a link between the cultures of the Eastern Hindus and the Northern Vikings, as well as other great thinkers, the author shows that yoga has influenced Buddhism, Christianity, and yes - even the tenth-century Vikings. Discover how a spiritual cult of anonymous Odin warriors who died long ago was likely responsible for the writing of the Poetic Edda itself as well as the role transcendental yoga played in the life of the Vikings.

The Face of the Iguana Patrick J. McKallick, 2018-05-28 In *The Face of the Iguana*, Patrick McKallick tells the dramatic stories of how fear-based beliefs, both cultish and religious affected his life, emotionally, physically and mentally and his eventual healing. This book is not just for all those abused by toxic belief systems, but also those recovering from addictions. The author relates touching stories of his painful abandonment by his troubled parents and his final internment in an orphanage. He tells dramatic and amusing anecdotes that preserved his sanity, and the utter desperation of his cunning and miraculous escape from a toxic, doomsday cult. We are taken on a journey of events as varied as hiding under the bed from his raging alcoholic father to descending into the depths of a 16th-century church's crypt where he gazed upon piles of human bones, the shock of which catapulted him unconsciously into a dark and ominous pit. We faithfully follow him as he describes the conclusion of the war in El Salvador and the mass fear and terror of the citizens of that country, to the comical circling of a vintage ocean liner in a beat up fishing boat with an old lady, a fisherman, and two young kids. This is not just a compilation of interesting stories, but clear guidance for anyone recovering from addictions including to fear-based belief systems and the ensuing guilt and anxiety. The author expertly provides revelations and insights into why we seek out toxic beliefs. Mr. McKallick reveals how his investigation of a surprising and astonishing field led to his incredible healing and liberation from the effects of PTSD. The author learnedly introduces evidential research that mitigated his anxiety due to abusive belief systems and the fear of death. He describes the ensuing collapse of this fear and the promise of an astonishingly beautiful after-life.
