

Jim Sparks The Keepers

Len Kasten

The Keepers Jim Sparks, 2008

The Keepers Jim Sparks, 2003-12 Jim Sparks's account of a decade of encounters with intelligent alien beings provides one of the richest and most detailed documentations of all abduction history. His recall is altogether conscious, without the benefit of hypnosis, relaxation exercises, or any other use of non-ordinary states of consciousness for the exploration of buried memories. Nor are his memories contaminated by the popular literature, which he has steadfastly avoided reading. He has the passion, curiosity and self-doubt of an authentic, truthful voice. He has been told by the Visitors that they are concentrating their contact now upon ordinary people like Jim, because agreements with Earth's leaders regarding the timely release of information about their presence here have been violated. His first-hand reports of sperm extraction, breeding programs, shape-shifting and thought-activated transport are astonishing, as is his personal journey from anger at the invasion to gratitude for the opportunity to be a part of saving the Earth from self-destruction. This book is a keeper.

The Total Novice's Guide To UFOs T. L. Keller, 2015-11-06 "You are to be commended on such a great publication and I am humbled that you would even consider adding a few lines from one of my books, --Paul Hellyer Former Canadian Minister of National Defense ". . . this brilliantly produced book not only serves as a superb introduction to the subject but covers some fascinating and important new material for the aficionados." --Timothy Good, Leading Authority on UFOs and Best-selling Author "I offer my gratitude to you, not only for the "heavy" copy of your book, but also the "light" that the content provides. You and your colleagues can be congratulated for your excellent summary of the history, and probable significance, of the ET presence on Earth. Love & light, --R. Leo Sprinkle, Ph.D., Famed Hypnotherapist and Consultant to Linda Moulton Howe "Also of interest is a chapter that discusses the "Skunk Works" (the advanced aircraft manufacturing division of Lockheed), and the shocking statements made by its former president, Ben Rich. These statements, which were confirmed by the author who was present at Rich's March 23, 1993 UCLA presentation . . . Readers of this book would do well to consider the staggering implications of Rich's comments, and their potential transportation and clean energy applications for this world." --Michael Schratt, Military Aerospace Historian, Artist and Reviewer, Open Minds magazine ARE UFOs REAL? FINALLY, A GUIDE FOR THOSE WITH OPEN MINDS This is the revised and expanded 2nd edition (2015) of the original book written for the novice and for the more knowledgeable as well. 60+ new, color illustrations. Light at the End of the Tunnel Paul Hellyer, 2010 Argues that the human species is headed for extinction in the near future, and presents three principal elements the author believes are needed to put the Earth on the road to recovery, including the availability of reliable sources of energy to replace fossil fuels, a world culture of cooperation, and a monetary and banking system that gives government the financial flexibility to make the transition from an oil economy to something quite different.

The Money Mafia Paul T. Hellyer, 2014-10-01 Exposing perceived fault lines in our banking and financial systems and explaining how unemployment could be cut in half in two years and worldwide prosperity restored, this book argues the existence of exotic energy sources to replace fossil fuels and consequently recommends an immediate end to fracking and offshore drilling for oil. It further urges an immediate worldwide mobilization to replace the energy source in every car, truck, tractor, ship, airplane, and house on Earth in seven years in a desperate effort to save the planet from further overheating. The book blasts government secrecy, and more than 65 years of supposed lies and disinformation, and demands full disclosure of what they know about visitors from other realms and their technology and the extent of their collaboration, including any treaties that may have been signed by them. With more than 65 years of participation in and observation of political and economic systems—beginning with the Great Depression, extending through World War II, the postwar era of hope for a better life, the Cold War, the subjugation of democracy by oligarchy, and the subtle but continuous militarization of America—Paul T. Hellyer analyzes what he believes has gone wrong with the world and its economy and suggests radical measures to introduce a universal culture of peace and cooperation.

Enjoy Free Energy and Life Throughout the Universe Nicholas Paul Ginex, 2024-05-15 The surreptitious actions of

the CIA Shadow Government has suppressed our civilization by keeping secret one of the greatest scientific advancements for more than half a century – the knowledge and use of zero-point energy. To have all countries use free energy will give humanity a new world and the opportunity to enjoy living entities throughout the universe.

Talking to the Reptilians-A Report from Brazil Chico Pentead (Kraakar Shem),2010-07-28 The alien contact experiences of a Brazilian teacher.Starting with UFO vigils, he goes deeper and deeper into the alien contact.Finally an alien tells him he is the reincarnation of an alien,too:a reptilian one.This and other Brazilian alien contact cases are shown in this book.Non-fiction.

Hope Restored: An Autobiography by Paul Hellyer Paul Hellyer,2018-09-07 This powerful book argues that the human species is at a tipping point when it is forced to choose between a New World Order fascist government committed to rapid depopulation or a world of peace and justice. Hellyer demonstrates that God is alive, well and everywhere, and that humanity's choice is between the Dark and the Light. To follow the Light means giving up atomic weapons, replacing the oil economy with clean zero-point energy developed by Americans in the 1960s, having governments create 34 percent of all new money for public purposes rather than borrowing it from the 62 elite banking families, a reconciliation of the two main branches of Islam, and a just settlement of the Israeli-Palestinian dispute to bring peace to the Middle East. Finally it will be necessary for all countries, races, and faiths, especially young people, to forgive past atrocities and work together in common purpose to save the heritage they have in common.

Someone Else's Face in the Mirror Carla Bluhm,Nathan Clendenin,2009-04-30 In 2005, surgeons in France removed part of the face from a cadaver and grafted it onto the head of a 38-year-old woman grossly disfigured by a dog attack. Three years later, in December, 2008, surgeons at the Cleveland Clinic announced they had performed the first U.S. face transplant. Although modern culture is accustomed to pushing medicine and the human body beyond all limits, the world's first partial face transplant and the seven that have followed have caused a stir that still reverberates globally. This book begins with the story of Isabelle Dinoire, the recipient of the first face transplant, and chronicles her surgery and battles with tissue rejection. Its scope widens with a look at how surgical teams, including three U.S. transplant teams, are in a global race to perform the first full face transplant, and at how medical history has led up to this point—with prior successful transplants ranging from body parts as simple as cornea to those as neurologically complicated as the heart, a hand, and a penis. The most novel among these surgeries—the face transplant—conjures up particular and expansive psychological issues. Authors Bluhm and Clendenin show how transplant recipients struggle with functional issues including a lifetime of anti-rejection drugs, a danger highlighted by the recent death of the second face transplant patient, in China. But just as challenging in the case of face transplant is the psychological effect on—and potential threat to—identity. Who are you, if suddenly your face—or a significant portion of it—is not what you were born with? What is it like to look in the mirror, and

see a face that is not the one you have always had? Dinoire lamented, It will never be me. That statement is an absolute simplification of the identity issues a face transplant can create, explain the authors. Bluhm and Clendenin show how, across history and media, humankind—via medicine, literature, film, and other media—has dreamed of a day when face transplants would be possible. With so many disfigurements occurring among the military in Iraq, and experimental face transplants too expensive for implementation in the private sector, it is likely that the U.S. military will take the reins and further face transplant techniques as quickly as possible to serve injured personnel.

SECRET CONTACT: JOURNEY BEYOND THE DREAMS Joan Bridgeman, 2014-04-15 In her 70s, author Joan Bridgeman realized that the vivid dreams she was having were actually memories of encounters with other-dimensional beings. She is among hundreds of thousands of people who have been contacted by intelligences from beyond Earth. This thought-provoking account of her personal experiences with extraterrestrials will fascinate anyone curious about the presence of alien beings.

Artificial Intelligence Can Benefit Mankind Nicholas P. Ginex, 2020-08-18 Artificial Intelligence (AI) is an exceptional tool that increases production output of goods and services but its automated capabilities have caused the loss in jobs affecting the livelihood of millions of American workers. A great concern is the direction in the use of AI that affects the mental and physical health of the public. Some billionaires are using AI to surreptitiously control the thoughts of people and are developing ways to vaccinate people for biological control as well. This book provides a path, a solution that will be very challenging, but entirely warranted by using AI to give every American an opportunity to use their gifts and enjoy a quality of life that has never before been achieved for an entire people of one country.

La Manipulación de la Élite Mundial Paul Hellyer, 2023-09-21 “Descubre las fallas detectadas en nuestros sistemas bancario y financiero y cómo se podría reducir a la mitad el desempleo en dos años y restablecer la prosperidad en todo el mundo”. Este libro expone las fallas detectadas en nuestros sistemas bancario y financiero y explica cómo se podría reducir a la mitad el desempleo en dos años y restablecer la prosperidad en todo el mundo. Argumenta la existencia de fuentes de energía exóticas para sustituir a los combustibles fósiles, insta a una movilización mundial inmediata para sustituir la fuente de energía en cada coche, camión, tractor, barco, avión y casa de la Tierra en siete años, en un esfuerzo desesperado por salvar al planeta de un mayor sobrecalentamiento. El libro arremete contra el secretismo gubernamental y contra más de 65 años de supuestas mentiras y desinformación, y exige que se revele todo lo que saben sobre los visitantes de otros mundos y su tecnología, así como el alcance de su colaboración, incluidos los tratados que puedan haber firmado.

Angels, Aliens and Prophecy Betsey Lewis, 2012-03-12 Reviews This book is amazing and I have been reading it non-stop! Betsey's knowledge and intellect of UFOs/Aliens and the paranormal has quite simply floored me. Anthony Sanchez, Author of UFO Highway, Conference Organizer of SACUFOCON Angels, Aliens and Prophecy is astonishing! I can hardly put

it down. Best-selling Author of *The Tujunga Canyon Contacts* and renowned Earth Mysteries Investigator Ann Druffel One of the better books I have read of late as it draws upon the author's wealth of knowledge and ability to tie all the elements together--aliens, religious visions, alien abductees, time travel, parallel universes and prophecy. This special book brings up many fascinating questions, but provides many tantalizing answers to the mysteries in our world that most books in this genre fail to do. Posted on Amazon Books Awesome reading! Thank You. *Dori - Florida About Angels, Aliens and Prophecy* Betsey Lewis, intuitive, earth mysteries investigator and host of *Rainbow Visions Radio Show* since 2009, explores the mysterious connection between angels and aliens since recorded history, and the startling prophecies given by these beings in her new book, *Angels, Aliens and Prophecy*. Is it possible ancient aliens and time travelers have changed time lines and events? Absolutely, says Lewis who investigated these enigmatic subjects for the past forty years. In 1983, Lewis uncovered surprising information about her UFO encounters from the hypnosis session conducted by renowned UFO investigator Ann Druffel, included in the book. A secret was given to Lewis as a child, but erased from her memory until recently. She reveals the secret, her startling predictions for 2012 and beyond, and the connection between angels and aliens.

Where the Sky Touched the Earth Don Lago, 2017-02-01 The landscapes of the American Southwest—the Grand Canyon, Monument Valley, the Sedona red rocks—have long filled humans with wonder about nature. This is the home of Lowell Observatory, where astronomers first discovered evidence that the universe is expanding; Meteor Crater, where Apollo astronauts trained for the moon; and Native American tribes with their own ancient, rich ways of relating to the cosmos. With the personal, poetic style of the very best literary nature writing, Don Lago explores how these landscapes have offered humans a deeper sense of connection with the universe. While most nature writing never leaves the ground, Lago is one of the few writers who has applied it to the universe, seeking ties between humans and the astronomical forces that gave us birth. Nowhere else in the world is the link between earth and sky so powerful. Lago witnesses a solar eclipse over the Grand Canyon, climbs primeval volcanos, and sees the universe in tree rings. Through ageless Native American ceremonies, modern telescopes, and even dreams of flying saucers, Lago, who is not only a poet but a true philosopher of science, strives to find order and meaning in the world and brings out the Southwest's beauty and mystery.

They Would Be Gods Anthony K. Forwood, 2011

Unsolved Extraterrestrial Mysteries David Southwell, Sean Twist, 2007-12-15 Explores extraterrestrial sightings and alien abductions.

The Secret History of Extraterrestrials Len Kasten, 2010-11-11 Explores the role of ETs in the military, government, technology, history, and the coming new age • Surveys contact with ETs, abductions, alien technology and exopolitics, genetic tampering by ETs, and the history behind the Nazis and UFOs • Contains interviews with Jesse Marcel, Michael Salla, Paul LaViolette, Robert Bauval, Helen Wambach, and others at the forefront of the ET-derived New Science movement

The extraterrestrial presence on Earth is widening and, as we enter the Aquarian Age, will be admitted officially, causing shock and an urgent universal need to understand the social and technological changes derived from our space brothers. A primer for the explosive advances humanity will experience scientifically and spiritually in the coming years, this compendium explores the ET phenomenon and its influence on humanity past and present. The book surveys contact with ETs and abduction accounts, unexplained public and undisclosed military technology from aliens including anti-gravity devices, exopolitics (the influence of ETs in human affairs), the Iraqi Stargate, the Hybrid Project of alien interbreeding by abduction, Nazi ties to UFOS and their secret underground base in Antarctica, government cover-ups of alien interactions including Roswell, and the transformation triggered by the Hale-Bopp comet. Based on interviews with people who are witnessing the coming changes as well as those visionaries who are actually bringing them about--including John Mack, Major Jesse Marcel, Paul LaViolette, Robert Bauval, Michael Salla, and Helen Wambach--this book sketches out a breathtaking vision of the planetary revolution just around the corner.

Walking Through Walls and Other Impossibilities Milton E Brener, 2011-06-09 The goal of the aliens among us is not the study of Earth for purely academic purposes. It is something more vital to the aliens and more portentous for us. The picture that emerges from much research makes sense of several aspects of the alien presence, previously quite puzzling. They apparently are a dying race inhabiting a dying planet. They have undoubtedly mastered physical forces and phenomena of which we have not even dreamed. But it has come at a terrible cost. Their emotional life has been all but lost, existing only as a faint remnant from a long distant past. They may pity our hopelessly primitive technology, but they envy us our robust emotional life. Like all living things everywhere they live for the perpetuation of their genes. They do not hate us, nor do they seek our destruction. They seek to create a race of hybrids, combining their scientifically superior minds with our rich emotional makeup. The ridicule of the entire subject by the government and other forces, fearful of upheaval in our society, has aggravated the suffering of those chosen and victimized by the aliens, who apparently seek, ineptly sometimes, to minimize it. The author combines this scholarly approach with an almost folksy narrative style to make *Walking Through Walls* a very readable and approachable treatise on the phenomena... as good as any book on the subject and far more skillfully written than most, including those Brener has referenced most frequently, Bud Hopkins' *Intruders* and Philip Corso's *The Day after Roswell*. -Blue Ink Review
