

Labor Of Love The Invention Of Dating

Anna Malinowska, Michael Gratzke

Labor of Love Moira Weigel, 2016-05-17 “An occasionally amusing and often provocative look at the work of wooing . . . [A] lively tour of changing romantic mores.” —The Economist “Does anyone date anymore?” Today, the authorities tell us that courtship is in crisis. But when Moira Weigel dives into the history of sex and romance in modern America, she discovers that authorities have always said this. Ever since young men and women started to go out together, older generations have scolded them: That’s not the way to find true love. The first women who made dates with strangers were often arrested for prostitution; long before “hookup culture,” there were “petting parties”; before parents worried about cell phone apps, they fretted about joyrides and “parking.” Dating is always dying. But this does not mean that love is dead. It simply changes with the economy. Dating is, and always has been, tied to work. Lines like “I’ll pick you up at six” made sense at a time when people had jobs that started and ended at fixed hours. But in an age of contract work and flextime, many of us have become sexual freelancers, more likely to text a partner “u still up?” Weaving together over one hundred years of history with scenes from the contemporary landscape, *Labor of Love* offers a fresh feminist perspective on how we came to date the ways we do. This isn’t a guide to “getting the guy.” There are no ridiculous “rules” to follow. Instead, Weigel helps us understand how looking for love shapes who we are—and hopefully leads us closer to the happy ending that dating promises.

Love Lives Carol Dyhouse, 2021-02-11 The story of how women's lives, loves, and dreams have been re-shaped since 1950, the year of Walt Disney's *Cinderella* and a time when teenage girls dreamed of marriage, Mr Right, and happy endings... *Cinderella* stories captured the imagination of girls in the 1950s, when dreams of meeting the right man could seem like a happy ending, a solution to life's problems. But over the next fifty years women's lives were transformed, not by the magic wand of a fairy godmother, nor by marrying princes, but by education, work, birth control - and feminism. However, while widening opportunities for women were seen as progress, feminists were regularly caricatured as man-haters, cast in the role of ugly sisters, witches or wicked fairies in the fairy-tale. This book is about the reshaping of women's lives, loves and dreams since 1950, the year in which Walt Disney's film *Cinderella* gave expression to popular ideas of romance, and at a time when marriage was a major determinant of female life chances and teenage girls dreamed of Mr Right and happy endings. It ends with the runaway success of Disney's *Frozen*, in 2013 - a film with relevance to very different times. Along the way, it illuminates how women's expectations and emotional landscapes have shifted, asking bold

questions about how women's lives have been transformed since 1950. How have women's changing life experiences been mirrored in new expectations about marriage, intimacy, and family life? How have new forms of independence through education and work, and greater control over childbearing, altered women's life ambitions? And were feminists right to believe that sexual equality would improve relationships between men and women?

Finding Love After Loss Marti Benedetti, Mary A. Dempsey, 2021-10-11 Guides readers through the emotions and practical concerns of finding love after the death of a partner. Romantic love, in all its permutations, forms one of the most fascinating of human interactions. It also can be one of life's thorniest challenges, especially in a world where relationships often unfold online and, recently, where a pandemic barred face-to-face contact with people outside one's immediate household. Among those seeking romance in increasing numbers is a group that stands apart: the women who, slammed by the death of a spouse, bravely pursue new love. *Finding Love After Loss: A Relationship Roadmap for Widows* goes to the trenches to interview widows who have embarked, nervously but with hope, on this quest. Their frank and revealing interviews, along with wisdom from relationship experts, provide guidance to other women trying to navigate the relationship scene when their last date might have been decades ago. Where do widows find new partners? How much should they share in their online profile? What do they tell their friends and family? What about getting naked for the first time with a new man? Who pays when the bill appears at a restaurant? More than any time in U.S. history, the country's widows are seeking another chance at romance. The sheer number of widows—11 million, with an average age in the fifties—makes them a formidable force. They are living longer and have broader views on sex and money. Yet it is difficult for them to find their footing. Many of them have been away from the courtship arena for decades. They may make their return to dating with children and in-laws in tow. They are confused by the new rules and unclear on the expectations but convinced that they are capable of loving again. This book, written by a widow and a co-author who dated a widower, details just how powerful, sometimes daunting, and exhilarating the journey to new love can be. It also unveils the extraordinary ways that widows are reshaping the romance landscape: by tossing traditional marriage vows by the roadside, by skipping marriage entirely, or even by committing to a new partner but living apart. This isn't your grandmother's widowhood scene, not by a long shot. *Finding Love After Loss* examines the crazy, sad, and even zany contributions that people left behind by the death of a partner bring to new relationships. At the same time, it reveals both the amazing resilience of women who have lived through great loss and the irresistible pull of human connection.

High Maintenance Women Lisa Portolan, 2023-03-08 A modern-day women's manifesto: a look at how love, romance, and the digital domain police women's behaviours. Be the cool girl and get the guy. Otherwise you're ... Too fat or too thin; too clever or too stupid; too free or too restricted. You need to be Pretty but relatable, not difficult, not demanding - yes, virtually invisible. Play down your attributes, your wants, your needs and most definitely, don't be high maintenance! The

term “high-maintenance” is part of everyday speech, and usually refers to a woman who places a high value on her personal image, wants or needs. Often uttered within the context of dating, the implication is the woman in question is too much hard work. Rarely, if ever, do we come across the term “high-maintenance man”. On a daily basis women are deliberately portraying themselves as “low-maintenance”, “chill” and “cool”. Hidden behind these seemingly insignificant, even innocuous words, is something far more sinister. They tend to describe the multitude of ways women reign themselves in to appease men. The “high-maintenance” woman is too much to handle – confirming known stereotypes that women are expected to be quiet, subservient, opinion-less, and always amenable. That they shouldn’t be difficult. This rhetoric is dangerous. It teaches women around the world, and distressingly, the next generation that they need to play into a male stereotype of what a woman should be – and that’s smaller, and less than. This is a call to arms to women. To take up as much space as you like. To be as clever, as madeup, as dull, as vibrant, as curious, or as difficult as you choose. To live wildly. To occupy and embrace different spaces. This is your moment to be, yes, high maintenance. Embrace it

The Materiality of Love Anna Malinowska, Michael Gratzke, 2017-09-27 Drawing on love studies and research in material cultures, this book seeks to re-examine love through materiality studies, especially their recent incarnations, new materialism and object-oriented philosophy, to spark a debate on the relationship between love, objects and forms of materializing affection. It focuses on love as a material form and traces connections between feelings and materiality, especially in relation to the changing notion of the material as marked by digital culture, as well as the developments in understanding the nature of non-human affect. It provides insight into how materiality, in its broadest sense, impacts the understanding of the meanings and practices of love today and reversely, how love contributes to the production and transformation of the material world.

The Lonely Hunter Aimée Lutkin, 2022-02-08 When can we say we’ll be single forever—and that’s okay? One woman questions our society’s pathologizing of loneliness in this crackling, incisive blend of memoir and cultural reporting. “The Lonely Hunter challenged everything I assumed about the nature of loneliness and what it means to lead an authentic life.”—Doree Shafrir, author of *Thanks for Waiting* and *Startup: A Novel* ONE OF THE BEST BOOKS OF THE YEAR: *Cosmopolitan* One evening, thirtysomething writer Aimée Lutkin found herself at a dinner party surrounded by couples. When the conversation turned to her love life, Lutkin stated simply, “I don’t really know if I’m going to date anyone ever again. Some people are just alone forever.” Her friends rushed to assure her that love comes when you least expect it and to make recommendations for new dating apps. But Lutkin wondered, Why, when there are more unmarried adults than ever before, is there so much pressure to couple up? Why does everyone treat me as though my real life won’t start until I find a partner? Isn’t this my real life, the one I’m living right now? Is there something wrong with me, or is there something wrong with our culture? Over the course of the next year, Lutkin set out to answer these questions and to see if there really was

some trick to escaping loneliness. She went on hundreds of dates; read the sociologists, authors, and relationship experts exploring singlehood and loneliness; dove into the wellness industrial complex; tossed it all aside to binge-watch Netflix and eat nachos; and probed the capitalist structures that make alternative family arrangements nearly impossible. Chock-full of razor-sharp observations and poignant moments of vulnerability, *The Lonely Hunter* is a stirring account of one woman's experience of being alone and a revealing exposé of our culture's deep biases against the uncoupled. Blazingly smart, insightful, and full of heart, this is a book for anyone determined to make, follow, and break their own rules.

Families and Technology Jennifer Van Hook, Susan M. McHale, Valarie King, 2018-10-01 This timely reference takes a rigorous look at the myriad ways technology, from smartphones to dating apps to social media, is affecting family life and opening new areas for study. The book features cross-disciplinary perspectives on current trends in the role of technology in couple and family contexts. It focuses on the roles of parents in monitoring children's screen time, of technology in relationship formation, and of technology in changing family dynamics. Nuanced coverage considers the emerging conflicts and paradoxes associated with digital family life—closeness versus isolation, children versus parents as experts, and privacy versus surveillance. Contributors also identify new research opportunities as family roles and structures continue to evolve and technology becomes a greater lens for family studies. Among the topics covered: How parents manage young children's mobile media use Adolescents as the family technology innovators Online dating: changing intimacy one swipe at a time Technology in relational systems: roles, rules, and boundaries Television "effects" on international family change Interplay between families and technology: future investigations Families and Technology is a valuable resource for researchers and students in the fields of family studies, sociology, marriage and family therapy, social welfare, public health, and psychology. The book also appeals to policymakers and human services personnel dedicated to better understanding the impact of rapidly spreading technologies on families around the globe.

How to Not Die Alone Logan Ury, 2022-02 Drawing from years studying psychology and relationships, a behavioral scientist turned dating coach, in this data-driven, step-by-step guide, shows you how to find, build and keep the relationship of your dreams.

Algorithmic Intimacy Anthony Elliott, 2022-10-11 Artificial intelligence not only powers our cars, hospitals and courtrooms: predictive algorithms are becoming deeply lodged inside us too. Machine intelligence is learning our private preferences and discreetly shaping our personal behaviour, telling us how to live, who to befriend and who to date. In *Algorithmic Intimacy*, Anthony Elliott examines the power of predictive algorithms in reshaping personal relationships today. From Facebook friends and therapy chatbots to dating apps and quantified sex lives, Elliott explores how machine intelligence is working within us, amplifying our desires and steering our personal preferences. He argues that intimate relationships today are threatened not by the digital revolution as such, but by the orientation of various life strategies

unthinkingly aligned with automated machine intelligence. Our reliance on algorithmic recommendations, he suggests, reflects a growing emergency in personal agency and human bonds. We need alternatives, innovation and experimentation for the interpersonal, intimate effort of ongoing translation back and forth between the discourses of human and machine intelligence. Accessible and compelling, this book sheds fresh light on the impact of artificial intelligence on the most intimate aspects of our lives. It will appeal to students in the social sciences and humanities and to a wide range of general readers.

Self-Evaluation And Psychotherapy In The Market System Kalman Glantz, J. Gary Bernhard, 2018-02-21 Self-Evaluation and Psychotherapy in the Market System examines the ways in which the competitive, hierarchical nature of today's market system contributes to the issues that many clients bring to therapy. Instead of seeing a lack of self-esteem as the root of clients' problems, Glantz and Bernhard argue that self-evaluation—the struggle to achieve a high opinion of self—exacerbated by the market system, leads to stress and endless self-involvement. Beginning with an explanation of the connection between the market system and self-evaluation, this volume then goes on to describe an approach to therapeutic treatment designed to free clients from the negative effects of the market system by moving away from self-evaluation altogether. This is a must-read for therapists looking for a new approach to treating clients left questioning their place in a society that encourages competition and self-involvement.

Want Me Tracy Clark-Flory, 2021-02-16 One of NPR's Best Books of the Year A New York Times New & Noteworthy Book Want Me is complicated, fun, shocking, and heart-warming all at once. —Jessica Valenti, New York Times bestselling author of *Sex Object* Intimate, challenging, and so very smart. Want Me is a gift. —Rebecca Traister, New York Times bestselling author of *Good and Mad* Tracy Clark-Flory grew up wedged between fizzy declarations of girl power and the sexualized mandates of pop culture. It was broken glass ceilings and Girls Gone Wild infomercials. With a vague aim toward sexual empowerment, she set out to become what men wanted--or, at least, understand it. In her moving, fresh, and darkly humorous memoir, she shares the thrilling and heartbreaking events that led to discovering conflicting truths about her own desire, first as a woman coming of age and then as a veteran journalist covering the sex beat. Tracing her experiences on adult film sets, at fetish conventions, and during an orgasmic meditation retreat (to name just a few), Clark-Flory weaves in statistics and expert voices to reckon with our views on sexual freedom. Want Me is about looking for love, sex, and power as a woman in a culture that is freer than ever, yet defined by unprecedented pressures and enduring constraints. This is a first-hand example of one woman who navigated the mixed messages of sexual expectation, only to discover the complexity of her own wants and our collective need to change the limitations of that journey.

Screen Love Tom Roach, 2021-02-01 In work, play, education, and even healthcare, we are using social media during COVID-19 to approximate normal life before the pandemic. In Screen Love, Tom Roach urges us to do the opposite. Rather

than highlight the ways that social media might help reproduce the pre-pandemic status quo, Roach explores how Grindr and other dating/hookup apps can help us envision a radically new normal: specifically, antinormative conceptions of selfhood and community. Although these media are steeped in neoliberal relational and communicative norms, they offer opportunities to reconceive subjectivity and ethics in ways that defy normative psychological and sexual paradigms. In the virtual cruise, Roach argues, we might experience a queer sociability in which participants are formally interchangeable avatar-objects. On Grindr and other m4m platforms, a model of selfhood championed in liberal-humanist traditions—an intelligent, altruistic, eloquent, and emotionally expressive self—is often a liability. By teasing out the queer ethical and political potential of an antisocial, virtual fungibility, Roach compels readers to think twice about media typically dismissed as sordid, superficial, and narcissistic. Written for students, professors, and nonacademics alike, *Screen Love* is an accessible, provocative, and at times subversively funny read.

Violence Brad Evans, Natasha Lennard, 2018-12-04 Through a series of penetrating conversations originally published in the New York Times and the Los Angeles Review of Books, Brad Evans and Natasha Lennard talk with a wide range of cutting edge thinkers—including Oliver Stone, Simon Critchley, and Elaine Scarry—to explore the problem of violence in everyday life, politics, culture, media, language, memory, and the environment. To bring out the best of us, writes Evans, we have to confront the worst of what humans are capable of doing to one another. In short, there is a need to confront the intolerable realities of violence in this world. These lively, in-depth exchanges among historians, theorists, and artists offer a timely and bracing look at how the increasing expression and acceptance of violence—in all strata of society—has become a defining feature of our times. Many of us live today with a pervasive sense of unease, worried that our own safety is at risk, or that of our loved ones, or that of people whose bad circumstances appear to us through networked media. Violence feels ever-present. Natasha Lennard and Brad Evans help us to analyze those feelings, talking with a wide range of thinkers in order to gain insight into the worst of what humans do, and challenging us to imagine a world in which violence is no longer a given. Their book is full of surprising insights and intelligent compassion.--Sarah Leonard, co-editor of *The Future We Want: Radical Ideas for the New Century* In *Violence*, Brad Evans and Natasha Lennard have created, alongside their interview subjects, a kaleidoscopic exploration of the concept of violence, in terrains expected and not, in prose taut and unexpectedly gorgeous. Their philosophical rigor provides the reader with an intellectual arsenal against the violence of the current moment.--Molly Crabapple, author of *Drawing Blood* We would be wise to read this collection with a similar eye toward service, and in so doing, open ourselves up to the rare mercy of no longer having to stand on our own.--Alana Massey, author of *All The Lives I Want* The range of interviews with leading academics, to filmmakers and artists, is impressive, at once immediate and relevant, but also profoundly philosophical. More essentially, though, the conversations underline the need and suggest ways to resist and organize in a visionary way, in the extraordinary times we live in.--Razia Iqbal, BBC

News Notable contemporary thinkers and creators give their individual perspectives in this compelling look at violence. . . . A provocative volume that challenges humanity to correct its runaway course toward an increasingly violent future by learning from its violent past.--Kirkus Reviews The purpose of the work is to challenge humanity to create more meaningful solutions when it comes to these kinds of violence--or at least to name violence without inadvertently inciting even more anger. . . . passion roars through every chapter . . . This book delivers on what it promises, which is an achievement. --Alison Gately, The Los Angeles Review of Books If you wish to read the intellectualization of violence, Violence is a phenomenal anthology. . . . Brad Evans and Natasha Lennard, the interviewers and the 'authors' of the anthology, have done a remarkable job in bringing together perceptive and intelligent contributors from various fields to scout the reaches of violence. Their piercing questions brought out brilliant responses from the interviewees.--L. Ali Khan, New York Journal of Books Violence: Humans in Dark Times is an intriguing beginning to a much-needed sustained intellectual and aesthetic response to the horrors of modern times.—Zoe Vorsino

Seeking Love in Modern Britain Zoe Strimpel, 2020-03-05 Seeking Love in Modern Britain charts the emergence of the modern British single through an account of the dating industry that sprang up to serve men and women. It shows how - amid a period of unprecedented sexual and social change - 'the single' became a key unisex identity and lifestyle. From around 1970, a growing, cottage-style matchmaking industry in Britain was offering the romantically solo a choice between computer dating firms, such as Dateline or Compudate, introduction agencies and the lonely hearts pages of Private Eye, Time Out and others. Zoe Strimpel reveals how this rapidly expanding landscape of services was catering to a new breed of single people, and how - by the late 1990s - singleness had become the culturally mainstream, wholly expected part of the romantic life cycle that it is today. Refuting the widespread idea that the Internet invented modern dating, this book uses an eclectic and engaging range of first-person accounts and snapshots from the time to show that the story of contemporary romance, mediated courtship and singleness began in a time long before Tinder.

How to Fall in Love with Anyone Mandy Len Catron, 2017-06-27 "A beautifully written and well-researched cultural criticism as well as an honest memoir" (Los Angeles Review of Books) from the author of the popular New York Times essay, "To Fall in Love with Anyone, Do This," explores the romantic myths we create and explains how they limit our ability to achieve and sustain intimacy. What really makes love last? Does love ever work the way we say it does in movies and books and Facebook posts? Or does obsessing over those love stories hurt our real-life relationships? When her parents divorced after a twenty-eight year marriage and her own ten-year relationship ended, those were the questions that Mandy Len Catron wanted to answer. In a series of candid, vulnerable, and wise essays that takes a closer look at what it means to love someone, be loved, and how we present our love to the world, "Catron melds science and emotion beautifully into a thoughtful and thought-provoking meditation" (Bookpage). She delves back to 1944, when her grandparents met in a coal

mining town in Appalachia, to her own dating life as a professor in Vancouver. She uses biologists' research into dopamine triggers to ask whether the need to love is an innate human drive. She uses literary theory to show why we prefer certain kinds of love stories. She urges us to question the unwritten scripts we follow in relationships and looks into where those scripts come from. And she tells the story of how she decided to test an experiment that she'd read about—where the goal was to create intimacy between strangers using a list of thirty-six questions—and ended up in the surreal situation of having millions of people following her brand-new relationship. "Perfect fodder for the romantic and the cynic in all of us" (Booklist), *How to Fall in Love with Anyone* flips the script on love. "Clear-eyed and full of heart, it is mandatory reading for anyone coping with—or curious about—the challenges of contemporary courtship" (The Toronto Star).

The Dangers of Gifts from Antiquity to the Digital Age Alexandra Urakova, Tracey A. Sowerby, Tudor Sala, 2022-09-09 This is the first volume that examines dangerous gift-giving across centuries and disciplines. Bringing to the fore the subject that features as an aside in gift studies, it offers new insights into the ambivalent and troubled history of gift-giving. Dangerous, violent, and self-destructive gift-giving remains an alluring challenge for scholars almost a hundred years after Marcel Mauss's landmark work on the gift. Globally, the notion of toxic and fateful gifts has haunted mythologies, folklores, and literatures for millennia. This book problematizes what stands behind the notion of the 'dangerous gift' and demonstrates how this operational term may help us to better understand the role and place of gift-giving from antiquity to the present through a series of case studies ranging from ancient Zoroastrianism to modern digital dating. The book develops a complex historical, cross-cultural, and multi-disciplinary approach to gift-giving that invites comparisons between various facets of this phenomenon through time and across societies. The book will interest a wide range of scholars working in anthropology, history, literary criticism, religious studies, and contemporary digital culture. It will primarily appeal to university educators and researchers of political culture, pre-modern religion, social relations, and the relationship between commerce and gifts.

The State of Families Jennifer Reich, 2020-12-29 *The State of Families: Law, Policy, and the Meanings of Relationships* collects essential readings on the family to examine the multiple forms of contemporary families, the many issues facing families, the policies that regulate families, and how families—and family life—have become politicized. This text explores various dimensions of the family and uses a critical approach to understand the historical, cultural, and political constructions of the family. Each section takes different aspects of the family to highlight the intersection of individual experience, structures of inequality—including race, class, gender, sexuality, disability, and immigration—and state power. Readings, both original and reprinted from a wide range of experts in the field, show the multiple forms and meanings of family by delving into topics including the traditional ground of motherhood, childhood, and marriage, while also exploring cutting edge research into fatherhood, reproduction, child-free families, and welfare. Taking an interdisciplinary approach to

the family, *The State of Families* offers students in the social sciences and professionals working with families new ways to identify how social structure and institutional practice shape individual experience.

The Digital Environment Pablo J. Boczkowski, Eugenia Mitchelstein, 2021-08-17 Understanding digital technology in daily life: why we should think holistically in terms of a digital environment instead of discrete devices and apps. Increasingly we live through our personal screens; we work, play, socialize, and learn digitally. The shift to remote everything during the pandemic was another step in a decades-long march toward the digitization of everyday life made possible by innovations in media, information, and communication technology. In *The Digital Environment*, Pablo Boczkowski and Eugenia Mitchelstein offer a new way to understand the role of the digital in our daily lives, calling on us to turn our attention from our discrete devices and apps to the array of artifacts and practices that make up the digital environment that envelops every aspect of our social experience. Boczkowski and Mitchelstein explore a series of issues raised by the digital takeover of everyday life, drawing on interviews with a variety of experts. They show how existing inequities of gender, race, ethnicity, education, and class are baked into the design and deployment of technology, and describe emancipatory practices that counter this—including the use of Twitter as a platform for activism through such hashtags as #BlackLivesMatter and #MeToo. They discuss the digitization of parenting, schooling, and dating—noting, among other things, that today we can both begin and end relationships online. They describe how digital media shape our consumption of sports, entertainment, and news, and consider the dynamics of political campaigns, disinformation, and social activism. Finally, they report on developments in three areas that will be key to our digital future: data science, virtual reality, and space exploration.

Sex and the City and Us Jennifer Keishin Armstrong, 2019-05-07 The bestselling author of *Seinfeldia* offers a fascinating retrospective of the iconic and award-winning television series, *Sex and the City*, in a “bubbly, yet fierce cultural dissection of the groundbreaking show” (Chicago Tribune). This is the story of how a columnist, two gay men, and a writers’ room full of women used their own poignant, hilarious, and humiliating stories to launch a cultural phenomenon. They endured shock, slut-shaming, and a slew of nasty reviews on their way to eventual—if still often begrudging—respect. The show wasn’t perfect, but it revolutionized television for women. When Candace Bushnell began writing for the *New York Observer*, she didn’t think anyone beyond the Upper East Side would care about her adventures among the Hamptons-hopping media elite. But her struggles with singlehood struck a chord. *Beverly Hills, 90210* creator Darren Star brought her vision to an even wider audience when he adapted the column for HBO. Carrie, Miranda, Charlotte, and Samantha launched a barrage of trends, forever branded the actresses that took on the roles, redefined women’s relationship to sex and elevated the perception of singlehood. Featuring exclusive new interviews with the cast and writers, including star Sarah Jessica Parker, creator Darren Star, executive producer Michael Patrick King, and author Candace Bushnell, “Jennifer Keishin Armstrong brings readers inside the writers’ room and into the scribes’ lives...The writing is fizzy and funny, but she still manages an in-

depth look at a show that's been analyzed for decades, giving readers a retrospective as enjoyable as a \$20 pink cocktail" (The Washington Post). *Sex and the City* and *Us* is both a critical and nostalgic behind-the-scenes look at a television series that changed the way women see themselves.
