The Lost Solar System of the Ancients Discovered John Wilson,1856

The lost solar system of the ancients discovered. [With] Appendix John Wilson (writer on astronomy.),1856

The Ancients Shand Stringham,2016-03-24 Six months ago, Colonel Barton Stauffer retired from activity duty to spend more time with his family. Now he has been reactivated and assigned to lead a team of time travelers in a top-secret research facility buried deep beneath Carlisle Barracks to survey the ancient prehistoric past stretching into antediluvian times, a period for which there are no written records. Our understanding of this time period is based entirely on conjecture, flavored by legend, mythology, oral history, and misunderstood archaeological activity and Stauffers team is out to find hard facts. The history of humanity is inextricably intertwined with our religious experience and tradition. What lies hidden or lost in the prehistoric past shrouds the truth about mans ancient origins, but extensive cities built of intricately carved monolithic stones prove the existence of early and extraordinarily advanced technologies. As Stauffer leads his team in search of proof of the great flood and of the legendary Hall of Records, hostile forces attempt to obliterate all evidence of humankinds ancient past, and only Stauffer and his team can stop them. The Ancients is the third book in the Barton Stauffer time travel trilogy, which began with Gettysburg Revisited and History Quest. In this third volume, Stauffer leads an elite team of time travelers and antiquarians who are tasked with protecting humanitys ancient historical record and keeping the repository of antediluvian artifacts of humanitys mysterious past safe from those who wish to destroy them, bringing to a dramatic conclusion the saga of mankind's exploration of the past using temporal technology.

The Disinformation Guide to Ancient Aliens, Lost Civilizations, Astonishing Archaeology & Hidden History The Disinformation Guide, 2013-04-01 This compendium of ancient mysteries and controversial knowledge is “an excellent briefing on the genre and its complexities” (Fortean Times). Where did “modern” civilization begin? What lies beneath the waves? Do myths describe interstellar impact? How’d they lift that stone? Was the Ark of the Covenant a mechanical device? Were there survivors of an Atlantean catastrophe? Who really discovered the “New” World? “Hidden history” continues to fascinate an ever wider audience. In this massive compendium, editor Preston Peet brings together an all-star cast of contributors to question established wisdom about the history of the world and its civilizations. Peet and anthology contributors guide us through exciting archeological adventures and treasure hunts, ancient mysteries, lost or rediscovered technologies, and assorted “Fortean,” using serious scientific studies and reports, scholarly research, and some plain old fringe material, as what is considered “fringe” today is often hard science tomorrow. Contributors include: Graham Hancock (Fingerprints of the Gods and Underworld), David Hatcher Childress (Lost Cities and Civilizations series), Colin Wilson (From Atlantis to the Sphinx), Michael Cremo (Forbidden Archeology), William Corliss (Ancient Infrastructures), Robert Schoch (Voyages of the Pyramid Builders), John Anthony West (Serpent in the Sky), Michael Arbuthnot (Team Atlantis), Erich Von Daniken (Chariots of the Gods), and many more.

The Lost Worlds of Ancient America Frank Joseph, 2012-04-22 Discover North America’s real prehistory through evidence of foreign influences at work centuries and millennia before the arrival of modern Europeans. While digging out a new basement near Los Angeles, homeowners accidentally unearth a 3,000-year-old Phoenician altar. A treasure-hunter in Ohio

finds more than he expected, when his metal detector locates an Eastern Mediterranean pendant from 1000 BC. Two caches of coins minted in Imperial Rome surface along the Ohio River. A Smithsonian Institution archaeologist excavating a Native American burial mound in Tennessee removes a stone emblazoned with a second century Hebrew inscription. These are just a few of the dramatic finds described in *The Lost Worlds of Ancient America*. They confirm that our continent was visited and influenced by visitors from Europe and the Near East hundreds, even thousands of years before its “official” discovery in 1492. As such, this startling, fresh proof of their powerful impact on the pre-Columbian New World offers us a different view of American origins that threatens to re-write mainstream textbooks. More than two dozen noted academics, researchers, and writers have contributed to this myth-shattering volume, including: Scott Wolter, a university-trained geologist, construction analysis company president, and author of *The Hooked X*, showcased on The History Channel Dr. John J. White, editor emeritus of the Midwestern Epigraphic Society’s quarterly *Journal* J. M. Allen, a former air-photo interpreter for Britain’s Royal Air Force Bruce Scofield, PhD, a world-class authority on Aztec astrology Dr. Arlan Andrews, Sr., a registered professional engineer with a forty-year career at White Sands Missile Range, AT&T Bell Labs, and the White House Science Office Wayne May, founder and publisher of *Ancient American* magazine.

Read the US governments own reports on German field propulsion saucers. Read how the post-war German KM-2 field propulsion rocket worked. Find out what happened to this technology after the war. Find out how the Canadians got saucer technology directly from the SS. Find out about the surviving Third Power of former Nazis. A Hitchhiker's Guide to Armageddon David Hatcher Childress, 2000-11 Childress takes us around the world and back in his trippy finale to the Lost Cities series. He is off on an adventure in search of the apocalypse and end times. He has flipped out, and more. Childress hits the road from the fortress of Megiddo, the legendary fortress in northern Israel where Armageddon is prophesised to start. Hitchhiking around the world, Childress takes us from one adventure to another, to ancient cities in the deserts and the legends of worlds before our own. Childress muses on the rising and falling of civilisations and the forces that have shaped mankind over the millennia, including wars, invasions and cataclysms. He discusses the ancient wars of the past, including evidence for ancient atomic wars, and relates the dim past with the present and dim future. With humour, philosophical insight, and wonder at the amazing world around us, Childress shows us the many traces of advanced civilisation in the past, and how we should look at them differently than modern scientists currently do.

Treasures of the Lost Races Rene Noorbergen, 2001-04 As he did in *Secrets of the Lost Races*, Rene Noorbergen probes the most recent archaeological finds to piece together the clues to the lost history of the earth in this, his latest book, *Treasures of the Lost Races*. A well known journalist and book author, Noorbergen is one of the few chroniclers of past civilizations who approaches with an open mind the existence of out-of-place artifacts (OOPARTS)--baffling relics that appear unexpectedly among ruins miles away from the civilization that produced them--with startling results.

Technology of the Gods David Hatcher Childress, 2000 *Technology of the Gods* lays out the mind-bending evidence that long-lost civilizations had attained and even exceeded our modern level of advancement. Westerners have been taught that humankind has progressed along a straight-line path from the primitive past to the proficient present, but the hard, fast

evidence (literally written in stone!) proves that the ancients had technologies we cannot even replicate today.

Stonehenge and the Great Pyramid Bonnie Gaunt, 1997 This first book on the sacred geometry of these two ancient and mystical sites, the Great Pyramid and Stonehenge, is a fascinating study of the geometry and inner mathematics encompassed by and encoded in these structures. Gaunt concludes that the numbers encoded into these ancient structures are modern man's tangible link with antiquity, and that together, Stonehenge and the Great Pyramid may be a window through which the secrets of the universe and the origins of creation can be glimpsed.

Creating the Soul Body Robert E. Cox, 2008-04-18 Outlines the principles and mechanics of the soul body, the spiritual vehicle that enables individual consciousness to survive the body's death • Shows that the ancient Vedic, Egyptian, Hebraic, and Pythagorean traditions shared and understood this spiritual practice • Reveals modern science as only now awakening to this ancient sacred science Ancient peoples the world over understood that individual consciousness is rooted in a universal field of consciousness and is therefore eternal, surviving the passing of the physical body. They engaged in spiritual practices to make that transition maximally auspicious. These practices can be described as a kind of alchemy, in which base elements are discarded and higher levels of consciousness are realized. The result is the creation of a vehicle, a soul body, that carries consciousness beyond physical death. These spiritual preparations are symbolized in the Vedic, Egyptian, and Hebraic traditions as a divine stairway or ladder, a step-by-step path of ascent in which the practitioner raises consciousness by degrees until it comes to rest in the bosom of the infinite, thereby becoming "immortal." This spiritual process explains the reincarnation of the Dalai Lama, for example, whose reincarnation is confirmed in infancy through physical and spiritual signs, indicating that the consciousness has been carried from one lifetime to the next. In *Creating the Soul Body*, Robert Cox maps the spiritual journey of consciousness behind this sacred science of immortality and reveals the practice of creating a soul body in detail. He also shows that this ancient spiritual science resembles advanced theories of modern science, such as wave and particle theory and the unified field theory, and reveals that modern science is only now awakening to this ancient science of "immortality."

The Shadow Government Len Bracken, 2002 This book presents the alarming evidence that nation-states actively engage in terror, and also passively allow terror to be visited upon their citizens. It is not just liberation movements and radical groups that deploy terrorist tactics for offensive ends. States use terror defensively to directly intimidate their citizens, and to indirectly attack themselves or harm their citizens under a false flag. Their motivation? To provide pretexts for otherwise unwanted wars, or to gain increased police powers. Statesmen have executed indirect terrorism in various ways, but most plots tend to involve the pretence of blind eyes, misdirection, and cover-ups that give the statesmen plausible deniability. The shrinking of the 'Lusitania', the bombing of Pearl Harbour, the October Surprise, the first World Trade Center bombing, the Oklahoma City bombing and other well-known incidents suggest that terrorism is often successfully used by states to take the

offensive against enemies at home and abroad. Was 9--11 such an indirect defensive attack? Len Bracken traces the clues circumstantially connecting a multi-armed hydra of oil interests, the CIA, FBI diplomats and statesmen to the September 11 attacks and examines whether they were engineered or allowed as a pretext for the war in Afghanistan. The subsequent anthrax attack targeting Democratic senators is considered in light of the controversial USA Patriot Acts rights-encroaching measures and the act's easy passage under conditions of terror. A shadow government appears to have covered the land like black ice.

The A.T. Factor Leonard G. Cramp, 2001 British aerospace engineer Cramp began much of his scientific anti-gravity and UFO propulsion analysis back in 1955 with his landmark book *Space, Gravity and the Flying Saucer* (out-of-print and rare). His next books *UFOs and Anti-Gravity: Piece for a Jig-Saw* and *The Cosmic Matrix: Piece for a Jig-Saw Part 2* began Cramp's in-depth look into gravity control, free-energy, and the interlocking web of energy that pervades the universe. In this final book, Cramp brings to a close his detailed and controversial study of UFOs and Anti-Gravity with what he calls the Advanced Time Factor, or the AT Factor. This fascinating collection of some of the UFO related works is presented here in an autobiographical format in response to popular enquiry. In this work the author points out that any preview of future events can logically be regarded as a form of time travel and this may occur in a vast cosmic matrix system in which all things have their shared existence. Drawing on his own experience, the author discovered that the elapsed time between preview of an event to its manifestation can also be variable and for co-ordination and tabulating purposes he has designated this as an advanced time factor.

The Lost Arcanum Navin Reuben Dawson, 2016-08-03 What if everything we thought we knew about our origins was a lie? The greatest hoax in the human history, devised to conceal an explosive ancient secret that could shake the world's religions to its very foundation? So begins a deadly quest of epic proportions to uncover a lost cache of esoteric wisdom, at the heart of which lies buried mankind's greatest untold secret. On the verge of solving a series of gruesome murders, CBI officer Jake Stevens is pulled from the investigation. Intrigued and curious, Jake seeks answers, eventually stumbling upon a link between the murders and his long-dead father to an ancient secret—The Lost Arcanum. The link propels him on a deadly quest through a labyrinth of secrets, hidden history and unseen truths scattered across the mysterious landscape of India. With Taneez as unexpected company, Jake realizes there are those who are conspiring to ensure the secret remains buried. Ensnarled in a treacherous game with a professional killer and a covert organization, they find themselves on a deadly collision course with forces of vengeance, greed, and unspeakable power. Will Jake and Taneez uncover the secret? Is the world ready for it?

Ley Lines and Earth Energies David Cowan, 2003 This exploration shows how natural forces affect our behavior, how they can be used to enhance our health and well being, and ultimately, how they bring us closer to penetrating one of the

deepest mysteries being explored.

The World's Sixteen Crucified Saviors Kersey Graves, 2001-09 The World's Sixteen Crucified Saviors has been out of print but sought after for many years. A small part of it was reprinted in *The Book Your Church Doesn't Want You to Read* in 1994. Many people are unaware that before Christianity there were 15 other religions that also had a savior who died for their sins, then arose from the dead.

Mind Control, World Control Jim Keith, 1997 Uncovers information on the technology, experimentation and implementation of mind-control technology. This text reveals aspects of this topic such as: early CIA experiments on Project MONARCH and RHICEDOM; the methodology and technology of implants; and mind-control assassins and couriers.
