Biblical Themes Rev. Dr. James K. Stewart, 2016-07-15 A BIBLE STUDY RESOURCE Dr. Stewart takes a bold new approach to Bible Study in his new book BIBLICAL THEMES. While most studies engage in the reinforcing of Christian dogma, Biblical Themes will give the reader a deeper understanding of Gods plan for the nation of Israel. You will learn just what Jesus meant and how the Pharisees understood the statement if these [the crowd] should hold their peace these stones would immediately cry out (Luke 19:40). This was not an off hand, meaningless statement. It was a declaration. In the Old Testament God set stones apart as a witness heap. You will learn the real reason why Abraham was willing to sacrifice Isaac and why God commanded him not to kill his son thereby abolishing human sacrifice. Dr. Stewart has chosen a wide variety of topics, people and places for you to explore thereby enriching your Biblical knowledge. In order to make for a lively Bible Study, a series of questions follow each topic. This is not a resource for the faint of heart as it deals with subject matter clergy prefer to ignore. Dr. Stewarts eye for detail sheds light on Gods never-ending love for creation and overwhelming desire to one day reign over a kingdom built on love. As in his first book, The Bible According to Jim, all exegetical work is done in Hebrew and Greek and not a series of English translations. If you want to enjoy a work that will truly engage you then this is the resource for you. You will also be engaged by the questions that follow each topic. Dr. Stewart guarantees they will make for a lively Bible Study.

Garlands, Conkers and Mother-Die Roy Vickery, 2010-09-02 Plants have had symbolic as well as practical meanings and uses since the beginning of human civilisation. This vivid account introduces readers to a rich variety of British and Irish plant folklore, drawing on Roy Vickery's own unsurpassed archives collated over forty years, and a wide range of historical and contemporary literature. Unlike other books which re-use material collected in the Victorian era, this book is based on new material collected by the author, and shows that while some of the wilder superstitions have faded we still cling to the symbolic importance of plants. Putting conkers in wardrobes keeps moths away, and parsley - the Devil's plant - only germinates if sown on Good Friday. A potato in the bed helps do away with cramp and in Cornwall crawling under a bramble bush was considered a cure for blackheads. From plants that foretold births and deaths, to herbal remedies, planting and harvesting rituals, friendship bushes and festive garlands this is a book of rich and living social history and folklore.
