Performing Afro-Cuba Kristina Wirtz, 2014-06-05 Visitors to Cuba will notice that Afro-Cuban figures and references are everywhere: in popular music and folklore shows, paintings and dolls of Santería saints in airport shops, and even restaurants with plantation themes. In *Performing Afro-Cuba*, Kristina Wirtz examines how the animation of Cuba's colonial past and African heritage through such figures and performances not only reflects but also shapes the Cuban experience of Blackness. She also investigates how this process operates at different spatial and temporal scales—from the immediate present to the imagined past, from the barrio to the socialist state. Wirtz analyzes a variety of performances and the ways they construct Cuban racial and historical imaginations. She offers a sophisticated view of performance as enacting diverse revolutionary ideals, religious notions, and racial identity politics, and she outlines how these concepts play out in the ongoing institutionalization of folklore as an official, even state-sponsored, category. Employing Bakhtin's concept of "chronotopes"—the semiotic construction of space-time—she examines the roles of voice, temporality, embodiment, imagery, and memory in the racializing process. The result is a deftly balanced study that marries racial studies, performance studies, anthropology, and semiotics to explore the nature of race as a cultural sign, one that is always in process, always shifting.

Full Circle Judith C. Radasch, 2014-10-02 A story of spiritual healing and of the restoration of physical and mental health, *Full Circle* narrates the story of author Judith C. Radasch's life, chronicling her fascinating and eventful journey. Beginning with her birth in 1943, Radasch shares the details of her life—the good, the bad, and the ugly. She tells how she healed miraculously from the trauma of childhood rape and provides tantalizing glimpses of Harvard Business School, the '80s Wall

Street market rally, temporary insanity, and true love. Full Circle tells a personal story about the power of science and faith working in concert to bring about miraculous healing as those two threads became fully integrated late in Radasch's life. Praise for Full Circle A compelling account of the strength and determination that led a nine-year-old victim of rape through decades of single motherhood to educational and career achievements beyond one's imagination to peace and happiness in retirement. --Dan Stickler, Judy's Companion and Husband in Retirement and the Beneficiary of Her Healing Judy shares her compelling story of personal growth and healing with a rare openness. Persistence, risk taking, mental acuity, and a steadily positive spirit lead her through profound fears to genuine fulfillment. --Joy Waldman Pendergast, Artist, Businesswoman, Friend

Constantine explores the government's misinformation campaigns about its black-ops.

Criminal Investigation Ronald Becker, 2009 *Criminal Investigation*, Third Edition, takes an integrated approach to the investigation process. This introductory text explores how contributors to criminal investigation—and its resulting prosecution—are more effective when they understand and appreciate their role on the team, what role other team members play, and how it all comes together. Readers will learn how investigations are connected to a team that is much larger than those charged with the investigations of a crime. The end result is a solid foundation in criminal investigation.

Digital Dilemmas Cristina Venegas, 2010-01-19 The contentious debate in Cuba over Internet use and digital media primarily focuses on three issues—maximizing the potential for economic and cultural development, establishing stronger ties to the outside world, and changing the hierarchy of control. A growing number of users decry censorship and insist on personal freedom in accessing the web, while the centrally managed system benefits the government in circumventing U.S. sanctions against the country and in controlling what limited capacity exists. *Digital Dilemmas* views Cuba from the Soviet Union's demise to the present, to assess how conflicts over media access play out in their both liberating and repressive potential. Drawing on extensive scholarship and interviews, Cristina Venegas questions myths of how Internet use necessarily fosters global democracy and reveals the impact of new technologies on the country's governance and culture. She includes film in the context of broader media history, as well as artistic practices such as digital art and networks of diasporic communities connected by the Web. This book is a model for understanding the geopolitical location of power relations in the age of digital information sharing.

The Portable Island R. Behar, L. Suárez, 2008-10-27 Cubans today are at home in diasporas that stretch from Miami to Mexico City to Moscow. Back on the island, watching as fellow Cubans leave, the impact of departure upon departure can be wrenching. How do Cubans confront their condition as an uprooted people? *The Portable Island: Cubans at Home in the World* offers a stunning chorus of responses, gathering some of the most daring Cuban writers, artists, and thinkers to address the haunting effect of globalization on their own lives.

José Martí, the United States, and Race Anne Fountain, 2017-05-02 Essential reading for those who increasingly appreciate the enormous importance of Martí as one of the nineteenth century's most influential and most original thinkers.--John Kirk, coeditor of *Redefining Cuban Foreign Policy* Fountain's wide-ranging, keen-eyed, and meticulously researched analysis covers the gamut of race relations that Martí's work probed.--Esther Allen, translator of *José Martí: Selected Writings* An engaging, comprehensive, and well-balanced book on Cuba's national hero José Martí. Anne Fountain's chapters on Martí's vision of blacks are an indispensable source of information for anyone interested in the topic.--Jorge Camacho, author of *José Martí: las máscaras del escritor* A national hero in Cuba and a champion of independence across Latin America, José Martí produced a body of writing that has been theorized, criticized, and politicized. However, one of the most

understudied aspects of his work is how his time in the United States affected what he wrote about race and his attitudes toward racial politics. In the United States Martí encountered European immigrants and the labor politics that accompanied them and became aware of the hardships experienced by Chinese workers. He read in newspapers and magazines about the oppression of Native Americans and the adversity faced by newly freed black citizens. Although he'd first witnessed the mistreatment of slaves in Cuba, it was in New York City, near the close of the century, where he penned his famous essay *My Race*, declaring that there was only one race, the human race. Anne Fountain argues that it was in the United States that Martí--confronted by the forces of manifest destiny, the influence of race in politics, the legacy of slavery, and the plight and promise of the black Cuban diaspora--fully engaged with the specter of racism. Examining Martí's complete works with a focus on key portions, Fountain reveals the evolution of his thinking on the topic, indicating the significance of his sources, providing a context for his writing, and offering a structure for his works on race. Anne Fountain is professor of Spanish and Latin American studies at San José State University and the author of *José Martí and U.S. Writers*.

The Tourism Encounter Florence Babb, 2010-08-30 In recent decades, several Latin American nations have experienced political transitions that have caused a decline in tourism. In spite of—or even because of—that history, these areas are again becoming popular destinations. This work reveals that in post-conflict nations, tourism often takes up where social transformation leaves off and sometimes benefits from formerly off-limits status. Comparing cases in Cuba, Mexico, Nicaragua, and Peru, Babb shows how tourism is a major force in remaking transitional nations. While tourism touts scenic beauty and colonial charm, it also capitalizes on the desire for a brush with recent revolutionary history. In the process, selective histories are promoted and nations remade. This work presents the diverse stories of those linked to the trade and reveals how interpretations of the past and desires for the future coincide and collide in the global marketplace of tourism.

Ramos, 2018-08-18 This volume contains the proceedings of the 11th International Conference on Structural Analysis of Historical Constructions (SAHC) that was held in Cusco, Peru in 2018. This book is organized according to the following topics: assessment and intervention of archaeological heritage, history of construction and building technology, advances in inspection and NDT, innovations in field and laboratory testing applied to historical construction and heritage, new technologies and techniques, risk and vulnerability assessments of heritage for multiple types of hazards, repair, strengthening, and retrofit of historical structures, numerical modeling and structural analysis, structural health monitoring, durability and sustainability, management and conservation strategies for heritage structures, and interdisciplinary projects and case studies. Dark Beyond Darkness James G. Blight,janet M. Lang,2017-12-22 In Dark Beyond Darkness, James Blight and Janet Lang, among the world's foremost authorities on the Cuban missile crisis, synthesize the findings from their thirty-year project on the most dangerous moment in recorded history. Authoritative, accessible, and written with their usual flair and wit, DBD is the first book to take readers deeply inside the experience and calculations of Fidel Castro, who was willing to martyr Cuba if his new Russian ally would nuke the U.S. and destroy it. Blight and Lang have established that in October 1962, the world was on the brink of Armageddon, and that we escaped by luck. Their history is scary but unimpeachably accurate: we just barely escaped the cold and the dark in October 1962. Their history also comes with a warning: we are currently at risk not only of Armageddon-fast, in a war between superpowers, but Armageddon-in-Slow-Motion (the result a climate catastrophe following a regional nuclear war), and from Armageddon, Oops! (a conflict sparked by an accident, which is misinterpreted, and ends in nuclear war). Drawing on the insights of poets, musicians and novelists, as well as climate scientists and agronomists, they show the terrible risk we run by refusing to abolish nuclear weapons.
