**Friction Is Fiction: the Future of Content, Media and Business** Gerd Leonhard, 2009-12-05 Futurist Gerd Leonhard ([www.mediafuturist.com](http://www.mediafuturist.com)) shares his thoughts on the Future of Content, Media and Business. 'Friction is Fiction' presents a constantly updated compilation of Gerd's best essays, writings and most popular blog posts. The central meme is that the Internet has completely disrupted the traditional notion of generating higher income by simply taking advantage of possible friction points and hurdles within transactions or business processes, i.e. by controlling the 'people formerly known as consumers'. The Future is all about winning the trust, and turning attention into revenues. PS: because of the cost of on-demand production, this 4-color version is unfortunately rather expensive (but nice); please look for the \$20 B&W version here on Lulu if you want to save some \$. **Flying The Big Jets (4th Edition)** Stanley Stewart, 2014-09-30 Flying the Big Jets presents the facts that people want to know about the world of the big jets. How does a large aircraft fly? How long is the take-off run at maximum weight? How much fuel is carried on a transatlantic flight? How do the radios work? What aircraft maintenance is required? How often are the tyres changed? What is the life style of a pilot? The answers to these and a thousand other questions are given in sufficient detail to satisfy the most inquisitive of readers. Chapter by chapter the reader is taken gently from the basics of the big jets to the sophistication of the 'glass cockpit' in preparation for the pilot's seat on a Boeing 777 flight from London to Boston. Flying the Big Jets is a comprehensive book that reveals as never before the every-day working environment of the modern long-haul airline pilot. Written by a pilot with over 15,000 flying hours on heavy jets during a 30-year career in commercial aviation, this title is a comprehensive text book taking the reader into the 'glass cockpit' of a Boeing 777. It is also a guide to the principles of flight, the art of navigation and meteorology, and an appreciation of the role played by Air Traffic Control in modern airline operations. An absorbing read for that next long-haul flight. WINGSPAN

Keeping a Good Man Down Chuck Dozier, 2018-03-27 This book is a dramatic look at marriage disappointments from a males perspective. Most men are fundamentally good, and they can resist the temptations of infidelity when given a choice. The challenges of dealing with a wife that constantly pushes them to the margins of his life can often be too much for some men to bear. Norman found himself the object of desire for a beautiful young flight attendant. He had several encounters

with her in different places. He even had lunch with her in his own hometown, but he didn't know the woman. His last encounter with her was in his hotel room late one night on a road trip to Phoenix. His wife found out that he had invited the woman into his hotel room. She accused him of cheating and threw him out of the house, but he insisted he was innocent. With divorce looming, the only way he could prove his innocence was to find her and have her confront his wife with the facts. He had no idea who she was, where she was from, or how to find her. He was desperate to find the mystery woman named Pricilla, who was the only person who could save his marriage.

**The Nervous Flyer's Handbook: Your Portable Flight Coach** Kate L. Fellows, 2009-11 Finally, a resource for nervous and fearful flyers from someone who can relate. Written by an expert passenger and former nervous flyer, this portable flight coach provides honest, realistic and time-tested ways to manage flight (and possibly even enjoy the experience). The Nervous Flyer's Handbook will help you: - Understand that your feelings about flight are normal - Put your nervousness or fear into perspective - Think about flight in new ways - Prepare for a flight in order to minimize any additional stressors - Understand the basics and get through each phase of flight - Plan effective, distracting activities and coping techniques - Manage special issues that might come up. Don't let your nervousness about flight take priority over visiting loved ones, taking that vacation, or an important business trip. The Nervous Flyer's Handbook is here to encourage and coach you along - for all of your future flights. Kate Fellows has been a domestic and international reluctant frequent flyer for over 20 years, with well over five hundred flights worth of experience. For many of those years, she struggled with an intense fear of flying, but was determined to not let that stop her from visiting family and taking business trips. Finding most fear-of-flying resources from pilots and psychologists either too technical, unrealistic or generic, Kate started writing down her own perspectives, coping techniques and other ideas about the flight experience. Her pile of notes grew with each flight, and she found that re-reading these before and during each flight greatly reduced her fear of flying. Today Kate flies confidently and with ease, and those notes have evolved into this book, which she hopes can benefit other passengers in the same way. Kate lives with her family in Washington state.

*Nonfiction Matters* Stephanie Harvey, 2023-10-10 When we open the gates to nonfiction inquiry, we open our thinking  
and expect the unexpected, making reading discoveries, research discoveries, and writing discoveries on our way. *Nonfiction  
Matters* offers teachers the tools to help students explore nonfiction and dig deep to reach more complete understanding of  
the real world and report these insights in a compelling manner. Stephanie Harvey shows how students can read expository  
text, engage in research, and write authentic nonfiction that is captivating, visual, and full of voice. The inquiry projects she  
describes require in-depth learning: topic selection, question development, research exploration, reading for content,  
organization, synthesis, writing to convey meaning, and presenting findings—all skills that develop independent thinkers who  
know how to make decisions, solve problems, and apply their knowledge insightfully. Full of practical suggestions to help you  
bring nonfiction into your curriculum, *Nonfiction Matters*: presents strategies for understanding expository text and  
conducting meaningful research; offers ideas for organizing and writing accurate, effective nonfiction from idea to finished  
presentation; advances the importance of teacher modeling and guided practice in instructional delivery; provides a list of  
inquiry tools and resources—both print and electronic; suggests ways to facilitate project-based learning and assess the

projects as they develop; includes bibliographies of nonfiction children's books by subject and genre and lists of recommended magazines. Why is nonfiction almost a guaranteed success? The key to teaching with nonfiction is passion, for children are passionate inquirers, and nonfiction fuels their curiosity and their demand for knowledge and understanding of the world.
