Short-Stories Masterpieces: French, Russian, Swedish, From the Balkans, British Various Authors, 2011-01-01 The inflexible realist in fiction can be faithful only to what he sees; and what he sees is inevitably colored by the lens of his real self. For the literary observer of life there is no way of falsifying the reports which his senses, physical and moral, make to his own brain. If he wishes, he may make alterations in transcribing for his readers, but in so doing he confesses to himself a departure from truth as he sees it. Pure realism, then, demands of its apostle both a faithful observation of life and a faithful statement of what he sees. True, the realist uses his artist's privilege of selecting those facts of life which seem best suited to picturing his characters in their natures, their persons, and their careers, for he knows that many irrelevant, confusing, and contradictory things happen in the everyday lives of everyday men. So in point of practice his realism is not so uncompromising as his theories sound when baldly stated. How near any great artist's transcriptions of life approach to absolute truth will always be a question, both because we none of us know what is final truth, and because realists, each seeing life through his own nature, will disagree among themselves just as widely as their temperaments, their predispositions, and their experiences vary. Thus we are left to the common sense for our standards, and to this common

sense we may with some confidence appeal for a judgment. Guy de Maupassant was a realist. "The writer's eye," he says in *Sur l'Eau*, "is like a suction-pump, absorbing everything; like a pickpocket's hand, always at work. Nothing escapes him. He is constantly collecting material; gathering up glances, gestures, intentions, everything that goes on in his presence—the slightest look, the least act, the merest trifle." But Maupassant was more than a realist—he was an artist, a realistic artist, frank and wise enough to conform his theories to his own efficient literary practice. He saw as a realist, selected as an artist, and then was uncompromising in his literary presentation. Here at the outstart another word is needed: Maupassant was also a literalist, and this native trait served to render his realism colder and more unsympathetic. By this I mean that to him two and three always summed up five—his temperament would not allow for the unseen, imponderable force of spiritual things; and even when he mentions the spiritual, it is with a sort of tolerant unbelief which scorns to deny the superstitious solace of women, weaklings, and zealots. It was this pervading quality in both character and method which has caused his critics to class him as a disciple of naturalism in fiction. However, Maupassant's pessimism was not so great that he could not dwell upon scenes of joy; but a preacher of hope he never was, nor could have been. Maupassant led so individual a life, was so unnormal in his tastes, and ended his career so unusually, that common sense decides at once the validity of this one contention: his realism was marvellously true in details, but less trustworthy in its general results. His pictures of incidents were miracles of accuracy; his philosophy of life was incomplete, morbid, and unnatural.
