Then Time Stands Still Mary Georgina de Grey, 2024-09-18 English archaeologist Dr. Amancia Harding has looked after her family for five years. Now it's time to take care of herself, and leading a team on a dig in Spain is the perfect way to propel her career forward. Her good intentions are threatened when she meets vineyard owner Max Serrano. Damaged by war in Ukraine and a tragic event in his past, Max has given up on relationships and taken refuge in making wine, but the attraction he feels to Amancia forces him to confront painful issues. Ambitious and fiery in character, can either accept that compromise is sometimes necessary to find happiness?

The Island Where Time Stands Still Dennis Wheatley, 2013-11-21 'Before there was James Bond, there was Gregory Sallust.' Tina Rosenberg, Salon.com The Island Where Time Stands Still is the ninth in Dennis Wheatley's bestselling Gregory Sallust series featuring the debonair spy Gregory Sallust, a forerunner to Ian Fleming's James Bond. On a pleasure cruise on the South Seas, Sir Pellinore Gwaine-Cust's yacht hits a coral reef and sinks in minutes. Only one survivor is washed to the safety of the shore: Gregory Sallust. But this is no ordinary Pacific island. When Gregory regains consciousness he finds himself among a Chinese community, ruled by descendants of the ancient Imperial House. Within days the throne becomes vacant, and Gregory joins an expedition to find the true heir - a hazardous search that takes him to San Francisco, and deep into the forbidden heart of China itself.

I Don't Need an Acting Class Milton Justice, 2021-11-01 I Don't Need an Acting Class explores critical aspects of the technique of acting, utilizing conversations via email with countless actors. Some are aspiring students, others are seasoned professionals. The conversations document the challenges these diverse actors face as they digest what they have learned in a class or rehearsal while exploring in practical terms how to use their growing technique. Milton Justice first began receiving emails from actors in 2008. In this book, Justice brings together email conversations between teacher and student, along with observations and commentary about acting technique and craft. Not all of the emails in the book are overly thought-out or complete. Quite the contrary, they are meant to capture the feeling of a living, breathing process as it happens. When an actor sends a teacher or director an email with a problem, be it a simple comment or confusion, it is evidence of a creative artist exploring new ground. Many years ago, Stella Adler sent Justice a letter in response to a panicked note he had written to her while lost in the weeds during rehearsals for a new play. She set a tone for him as she succinctly defined the problem and reminded him of its elegant solution. He was overwhelmed by the care she had given him. That letter still hangs over his desk, perfectly demonstrating the power of a written exchange between a teacher and a student.

The Textures of Time Michael G. Flaherty, 2011 What do we mean when we say, I made the time pass more quickly, or, I'm creating some 'me' time? In The Textures of Time, Michael Flaherty examines how we alter or customize our experience of time. His detailed analysis reveals different strategies we use to try to manipulate time, further describing and defining those strategies within six discrete time categories: Duration, Frequency, Sequence, Timing, Allocation, and Taking Time. Using in-depth interviews and analyzing responses through a sociological lens, Flaherty unearths folk theories and practices, which he calls time work, that construct circumstances in order to provoke desired forms of temporal experience. As such, time is not just inflicted on us; rather, its various textures result from our intervention, and/or from our efforts to create different forms of temporal experience. These first-person accounts also highlight ongoing tensions between agency and determinism in social groups. Ultimately, in keeping with his central thesis, Flaherty's lucid prose make this book a quick

read, and the strategies he describes reveal the profound and inventive ways we manage the clock.

Disability, Avoidance and the Academy David Bolt, Claire Penketh, 2017-07-14 Disability is a widespread phenomenon, indeed a potentially universal one as life expectancies rise. Within the academic world, it has relevance for all disciplines yet is often dismissed as a niche market or someone else's domain. This collection explores how academic avoidance of disability studies and disability theory is indicative of social prejudice and highlights, conversely, how the academy can and does engage with disability studies. This innovative book brings together work in the humanities and the social sciences, and draws on the riches of cultural diversity to challenge institutional and disciplinary avoidance. Divided into three parts, the first looks at how educational institutions and systems implicitly uphold double standards, which can result in negative experiences for staff and students who are disabled. The second part explores how disability studies informs and improves a number of academic disciplines, from social work to performance arts. The final part shows how more diverse cultural engagement offers a way forward for the academy, demonstrating ways in which we can make more explicit the interdisciplinary significance of disability studies – and, by extension, disability theory, activism, experience, and culture. *Disability, Avoidance and the Academy: Challenging Resistance* will interest students and scholars of disability studies, education studies and cultural studies.

Shalamar Book I William Bailey, 2010-07-19 There are many things that happen everyday right underneath our noses and we never seem to notice them. It could be money on the ground that we walk right over, a person sitting on a park bench that we walk past and not notice, or it could even be another world that exists within ours. The world of Shalamar is a good spirit world that co-exists within our world through a gateway protected by the Shalamarian Gate Keeper. Shalamar was created to assist good people in bad situations. Tyler finds his way to Shalamar and experiences many extraordinary adventures. He also learns some of the world's most valuable concepts such as friendship, loyalty, family, appreciation, and much more. When I thought of Shalamar, I wanted to create a world where children can go and not be bothered by everyday negativity or evil concepts.

Strong Experiences with Music Alf Gabrielsson, 2011-09-29 Nowadays we can be with music whenever and wherever we like. Never before has the scope of what is available been so great and varied. The mass media and the Internet have given us unlimited paths into the world of music. Just like music is varied and endless, so are our reactions to music. The very same piece of music can generate totally different reactions in different people, and a person can react quite differently to the same piece of music on different occasions. Individual factors – how you are feeling, how accustomed are you to listening to music, what your tastes are in music, what type of personality you are, and lots more besides – can play a major, sometimes completely decisive, role for how the reaction turns out. Similarly, the experience can be affected by the specific situation, for example where and when you hear the music (at home, in your car, at a concert, in the daytime, at night etc.), whether or

not the acoustics are good, and if you are on your own or together with others. The experience is thus determined by an interplay of factors in the music, in the individual, and in the situation. Developments in the brain sciences have been invaluable in helping researchers to understand just how the human brain deals with music. However, there is a major gap between what we can uncover using state of the art technology, and understanding just what music really means to us personally. While measuring brain or heart activity can reveal much about our physiological reactions, there is of course much more to music than this. *Strong Experiences in Music* is a groundbreaking new book, developed from a long-running study into the effects of music. It draws on over two decades of research, and almost 1000 participants, who describe, in their own words, their own unique, powerful, and personal experiences of music. The book will be a valuable resource for those in the fields of music psychology, music education, and musicology.

Seeing People Off Jana Beňová, 2017-05-22 *Winner of the European Union Prize for Literature. There is a liveliness and effervescence to Jana Benová's prose that is magnetic. Whether addressing the loneliness of relationships or the effectiveness of rat poison, her voice and observations call to mind the verve and sophistication of Renata Adler or Jenny Offill, while remaining utterly singular. Seeing People Off follows Elza and Ian, a young couple living in a humongous apartment complex outside Bratislava where the walls play music and talk, and time is immaterial. Drawing on her memories, everyday interactions, observations of post-socialist realities, and Elza's attraction to actor, Kalisto Tanzi, Seeing People Off is a kaleidoscopic, poetic, and deeply funny portrait of a relationship.

Middlebrow Cinema Sally Faulkner, 2016-03-31 Middlebrow Cinema challenges an often uninterrogated hostility to middlebrow culture that frequently dismisses it as conservative, which it often is not, and feminized or middle-class, which it often is. The volume defines the term relationally against shifting concepts of 'high' and 'low', and considers its deployment in connection with text, audience and institution. In exploring the concept of the middlebrow, this book recovers films that were widely meaningful to contemporary audiences, yet sometimes overlooked by critics interested in popular and arthouse extremes. It also addresses the question of socially-mobile audiences, who might express their aspirations through film-watching; and traces the cultural consequences of the movement of films across borders and between institutions. The first study of its kind, the volume comprises 11 original essays that test the purchase of the term 'middlebrow' across cultures, including those of Europe, Asia and the Americas, from the 1930s to the present day. Middlebrow Cinema brings into view a popular and aspirational - and thus especially relevant and dynamic - area of film and film culture. Ideal for students and researchers in this area, this book: Remaps 'Popular' and 'arthouse' approaches Explores British, Chinese, French, Indian, Mexican, Spanish 'national' cinemas alongside Continental, Hollywood, Queer, Transnational cinemas Analyses Biopic, Heritage, Historical Film, Melodrama, Musical, Sex Comedy genres.

Dialogues on Beckett Antoni Libera, Janusz Pyda, 2019-02-28 'Dialogues on Beckett' is a collection of 12 conversations about 12 plays by Samuel Beckett, discussions about the meaning of life and the universe between an agnostic and a Christian, based on a close reading of the text. It is also based on the thesis that Beckett's main concern in his plays is Christian theology or, more broadly, the religious interpretation of the world. All his plays are an argument with that interpretation; in particular, they question the idea of theodicy and the philosophy of consolation. The aim of 'Dialogues on Beckett' is to make the reader aware of this essential theme in the playwright's work, to interpret it in this light and to show his original approach to the subject. Beckett argues that we live in a post-Christian era. But for him this knowledge is no reason for joy; rather, it is a source of sadness, fear and even despair.

The Great Indoorsman Andrew Farkas, 2022-03 Foreword INDIES Gold Winner in Humor Many authors have traveled and explored the out-of-doors, both in life and then in their books, proving themselves stalwart, audacious, even heroic; Andrew Farkas is not among them. He is brave enough to admit that the outdoors isn't for him. Instead, in these essays Farkas reports on his bold explorations of a very different territory: the in-of-doors, the waiting rooms, kitchens, malls, bars, theaters, roadside motel rooms, and other places that feature temperature control, protection from rampaging predators, and a higher degree of comfort than can be found outside. Farkas discovers that, just as the mannered and wonderfully (gloriously) artificial indoors influences us greatly, our lives are also controlled much more by fiction than by anything "real." So come in out of the weather (it's always terrible) and join the Great Indoorsman on his adventures, where he makes fun of pretty much everything, most of all himself.
