Community Health Nursing Projects E. Diem, Alwyn Moyer, 2005 This text is suitable for students taking Community Health Nursing or for the beginning practitioner in the field of Community Health Nursing. It is designed to provide direction for small-scale community health projects, ranging from about two to eight months in length.

Frameworks for Advanced Nursing Practice and Research Rose Utley, Kristina Henry, Lucretia Smith, 2017-10-28 Uniquely organized to help readers find and select the best frameworks for their needs This resource illuminates the daunting task of understanding and applying philosophies, models, theories, and taxonomies in nursing practice and research at the masters or doctoral level. Distinguished by a unique organizational structure, the text is divided into two broad areas of practice/focus; individuals and families (Part II) and communities, populations, and systems (Part III). The frameworks in each area are organized conceptually into 17 chapters, many of which are interdisciplinary, thus not commonly found in nursing theory texts. This unique organizational structure enables readers to acquire both a broad overview of frameworks useful in nursing practice and research, and to focus on frameworks relevant to specific practice areas and concepts of interest. Frameworks for Advanced Nursing Practice and Research also provides foundational knowledge to enhance the nurse's understanding and appreciation of frameworks used in practice and research (Part 1). Application is woven throughout the text and culminates with chapters devoted to the application of frameworks for nurse educators, clinicians, leaders, and researchers. Learner-focused features of the text include application boxes highlighting published studies that have employed selected frameworks, thereby bringing theoretical content into practice. Each chapter also includes objectives, key terms, and a bulleted summary to enhance the learning experience. Key Features: Describes a broad spectrum of philosophies, models, theories, and taxonomies underpinning graduate-level nursing roles Uniquely organized by conceptual areas, thereby integrating nursing and non-nursing frameworks Facilitates easy comparison of frameworks within each conceptual area Delivers strategies for using theory and discusses integration of theory, research, and practice Includes application boxes highlighting published studies, objectives, key terms, and bulleted chapter summary.

Canadian Community as Partner Ardene Robinson Vollman, Elizabeth T. Anderson, Judith M. McFarlane, 2007-10-01 This is the Canadian adaptation of the Fifth Edition of the AJN award-winning Community as Partner text. Focusing on public health promotion practices in Canada, this text examines the contemporary public health nurse's role as a hands-on caregiver, community detective, and epidemiologist. Part One provides a Canadian perspective on community nursing practice and legal, ethical, and sociocultural considerations. Part Two presents the Community as Partner Model, and Part

Three contains case studies with Canadian examples. This edition places more emphasis on supportive environments for health, the five strategies of the Ottawa Charter, primary health care, and rural communities.

Global Health Nursing in the 21st Century Suellen Breakey, Inge B. Corless, Nancy L. Meedzan, Patrice K. Nicholas, 2015-03-16 THE FIRST BOOK TO PRESENT THE SUCCESSES, CHALLENGES, AND OPPORTUNITIES OF GLOBAL HEALTH NURSING This text is designed specifically for nurses and nursing students who have an interest in global health as a specialty, regardless of experience or education level. It reflects both the unique contributions of the nursing profession and of other disciplines, which is in keeping with the editors' perspective on how to bring about lasting change. The text

views global health through a nursing lens, but maintains this awareness and appreciation of interprofessionalism throughout. The editors and contributors have firsthand experience of the complex dynamics in achieving global health, and bring a wealth of knowledge to this important field, which has grown as a course and specialty. The text depicts the worldwide expansion of nursing partnerships between resource-rich and resource-limited countries, discusses challenges and obstacles, and provides cases and guidance on how to achieve global health. It will appeal to all nurses, from student nurses embarking on a global health experience to more experienced global health nurses who offer professional nursing expertise from around the world. The text responds to a recent WHO mandate, which seeks the input of nurses and midwives as part of an interprofessional team of key strategists for facilitating global health. The Lancet report is also an important document used throughout the text, and an interview with Dr. Julio Frenk, author of that report, is included. Social, political, cultural, economic, and environmental factors—including climate change—are integrated into determinants of global health. The text covers the foundations of global health, including the emerging concept of climate justice, the ethical context of global health, and the importance of interprofessional education. It addresses key issues of global health with a focus on poor and vulnerable individuals—particularly women and children—and those living in areas of conflict. In addition to describing notable accomplishments toward achieving global health, the book focuses on the need for increasing access to primary care, improving clinical practice through expanded education, and engaging interdisciplinary researchers in discovery of viable solutions. The book includes the perspectives of nurses and colleagues from other disciplines in both resource-rich and resource-limited countries. References provide resources for additional study, and PowerPoint slides and a test bank for instructors accompany the text. KEY FEATURES Case studies depict real-world experiences Presents firsthand knowledge of global health dynamics, challenges, and opportunities Provides a wealth of information from multiple perspectives Authored by contributors across a variety of clinical and academic roles who are experienced in global health nursing and global health Includes chapters written by nurses from both resource-limited and resource-rich countries
