Prose Quotations from Socrates to Macaulay Samuel Austin Allibone,1880

Escape into Fantasies Ericka Rogers,2022-08-31 The title is inspired by the author's experiences in life and how she wanted to escape into a world of fantasy. Fantasy, in the opinion of the author, is a highly functioning imagination which includes extremely vivid pictures. In such a fantasy, the imagination can run wild to the point where the mind believes the events are true. The events in the short stories, poems, and or quotes are merely 99% imagination, leaving 1% truth. The title also reflects how the author has reflected on life experiences to the point of how things may have gone or could have

occurred from a fantasy perspective. Each collection of short stories may have an alternate ending in a future setting. The words of the title resemble all our needs to leave the reality that we're living in and escape to our alternate world. The fantasy world is one where one can control every aspect and event. The book also represents an urban outlook into the world, which transitions into a cultural shock of limitless possibilities. Some of the limitless possibilities include finding love in taboo interest.

**Music Borrowing and Copyright Law** Enrico Bonadio, Chen Wei Zhu, 2023-10-19 This ground-breaking book examines the multifaceted dynamics between copyright law and music borrowing within a rich diversity of music genres from across the world. It evaluates how copyright laws under different generic conventions may influence, or are influenced by, time-honoured creative borrowing practices. Leading experts from around the world scrutinise a carefully selected range of musical genres, including pop, hip-hop, jazz, blues, electronic and dance music, as well as a diversity of region-specific genres, such as Jamaican music, River Plate Tango, Irish folk music, Hungarian folk music, Flamenco, Indian traditional music, Australian indigenous music, Maori music and many others. This genre-conscious analysis builds on a theoretical section in which musicologists and lawyers offer their insights into fundamental issues concerning music genre categorisation, the typology of music borrowing and copyright law's ontological struggle with musical borrowing in theory and practice. The chapters are threaded together by a central theme, ie, that the cumulative nature of music creativity is the result of collective bargaining processes among many 'musicking' parties that have socially constructed creative music authorship under a rich mix of generic conventions.

**Quotationary - The A-Z Book of Quotations** Nasser Amiri, 2024-06-27 Compiled over many years by Nasser Amiri, this is by far the most comprehensive collection ever compiled of carefully selected quotations from the world's great philosophers, writers, historians, musicians and thinkers. Quotationary is a source of inspiration for every writer, book-lover and thinker. It contains the thoughts of many of the finest minds since ancient man started to express his wit and wisdom in aphoristic form. It is inspirational, instructive, amusing and literary; alongside a dictionary and thesaurus it is a must-have purchase for any author, writer, journalist or anyone working with words.

Insanity and Genius Harry Eiss, 2014-06-02 In his book about the discovery of the structure of DNA, James Watson wrote, "So we had lunch, telling ourselves that a structure this beautiful just had to exist." Indeed, the quest most often asked by scientists about a scientific theory is "Is it beautiful?" Yes, beauty equals truth. Scientists know, mathematicians know. But the beauties, the truths of mathematics and science were not the truths that inspired the author as a child, and he intuitively knew that the truths he needed come from a different way of knowing, a way of knowing not of the world of logic and reason and explanation (though they have a value), but rather a way of knowing that is of the world expression, a world that enters the truths beyond the grasp of logic. That is what this book is all about. It is an exploration of the greatest minds of human existence struggling to understand the deepest truths of the human condition. This second edition updates the previous one, incorporating new publications on Van Gogh, recent discoveries in neurology, psychology, and the rapid developments in understanding DNA and biotechnology. We've come a long way already from that original discovery by Watson and his coauthor Francis Crick.

*The Other Evangelicals* Isaac B. Sharp, 2023-04-18 What's the first thing that comes to mind when you hear "evangelical"? For many, the answer is "white," "patriarchal," "conservative," or "fundamentalist"—but as Isaac B. Sharp reveals, the "big tent" of evangelicalism has historically been much bigger than we've been led to believe. In *The Other Evangelicals*, Sharp brings to light the stories of those twentieth-century evangelicals who didn't fit the mold, including Black, feminist, progressive, and gay Christians. Though the binary of fundamentalist evangelicals and modernist mainline Protestants is taken for granted today, Sharp demonstrates that fundamentalists and modernists battled over the title of "evangelical" in post-World War II America. In fact, many ideologies characteristic of evangelicalism today, such as "biblical womanhood" and political conservatism, arose only in reaction to the popularity of evangelical feminism and progressivism. Eventually, history was written by the "winners"—the Billy Grahams of American religion—while the "losers" were expelled from the movement via the establishment of institutions such as the National Association of Evangelicals. Carefully researched and deftly written, *The Other Evangelicals* offers a breath of fresh air for scholars seeking a more inclusive history of religion in America. **Christ of the Coal Yards** Harry Eiss, 2010-02-19 No one heard the shot. No one ever found the gun. It was Sunday, July 27, 1890. Vincent had recently finished *Wheatfield with Crows*, thought to be his final painting, one that he described as representing “vast fields of wheat beneath troubled skies,” one where he said in a letter he meant to send to Theo “I did not need to go out of my way to try to express cheerlessness and extreme loneliness.” The letter never got sent, but was found stuffed in his smock. That morning, as usual, he walked out into the wheat fields with his easel, brushes, tubes of color and folding stool, perhaps hoping to reach his destination before the gang of local boys and girls were up and able to tease him and throw tomatoes. Le Crau, a wide plain of ripe grain, fields of citron, yellow, tan, and ochre, spread out beneath the bright Provencal sun. It’s safe to assume he heard the cicadas singing loudly, the swiping swishes of the farmers’ scythes already cutting through the rich wheat stalks, the gusts of wind whispering through the olive branches. Driven and filled with energy for months, he had been quickly, with an assurance that overcame and perhaps even came from his doubts and struggles, putting his own dramatic visions on canvas after canvas. But today he did not go into the fields to paint, or, perhaps, in the beginning he did, perhaps in the morning that was his intention. No one will ever know. He said he brought the revolver to frighten off the crows. Possibly that was his original intention when he included it with his lunch of bread and milk. In the end it’s probably not relevant, except for the endless attempts to analyze him, to dig into his complex psyche, at once brilliant and yet impelled to self-destruction. The Ravoux family were sitting on the terrace of their café when he returned, a bit concerned because he was late, but not overly so. When he finally appeared, his walk was more uneven than usual, and he held his hand over his stomach. “Monsieur Vincent,” Mrs. Ravoux said, “we were worried, we are glad to see you come. Has anything bad happened?” “No, but I . . .” he left his reply unfinished as he passed inside. Mr. Ravoux followed him upstairs, where he found him sitting on his bed, facing the wall. “I wanted to kill myself.” This book is a critical examination of Vincent van Gogh that offers insights into his life, his religious beliefs, his relationships with women, and, of course, his paintings. It includes discussions of his letters, and responds to many of the previous works about him, dispelling some of the myths that have no foundation and pointing out how many of the claims made about him and many of the popular beliefs that have grown up around him are at best guesswork. It explores psychological, neurological, theological, philosophical, aesthetic, and historical paradigms for comprehending his enigmatic and enticing personality.

*Homintern* Gregory Woods, 2017-01-01 A landmark account of gay and lesbian creative networks and the seismic changes they brought to twentieth-century culture In a hugely ambitious study which crosses continents, languages, and almost a century, Gregory Woods identifies the ways in which homosexuality has helped shape Western culture. Extending from the trials of Oscar Wilde to the gay liberation era, this book examines a period in which increased visibility made acceptance of homosexuality one of the measures of modernity. Woods shines a revealing light on the diverse, informal networks of gay people in the arts and other creative fields. Uneasily called the Homintern (an echo of Lenin's Comintern) by those suspicious of an international homosexual conspiracy, such networks connected gay writers, actors, artists, musicians, dancers, filmmakers, politicians, and spies. While providing some defense against dominant heterosexual exclusion, the grouping brought solidarity, celebrated talent, and, in doing so, invigorated the majority culture. Woods introduces an enormous cast of gifted and extraordinary characters, most of them operating with surprising openness; but also explores such issues as artistic influence, the coping strategies of minorities, the hypocrisies of conservatism, and the effects of positive and negative discrimination. Traveling from Harlem in the 1910s to 1920s Paris, 1930s Berlin, 1950s New York and beyond, this sharply observed, warm-spirited book presents a surpassing portrait of twentieth-century gay culture and the men and women who both redefined themselves and changed history.

**The Canadian War on Queers** Gary Kinsman, Patrizia Gentile, 2010-03-01 From the 1950s to the late 1990s, agents of the state spied on, interrogated, and harassed gays and lesbians in Canada, employing social ideologies and other practices to construct their targets as threats to society and enemies of the state. In this path-breaking book, Gary Kinsman and Patrizia Gentile use official security documents and interviews with gays, lesbians, civil servants, and high-ranking officials to disclose not only the acts of state repression that accompanied the Canadian war on queers but also forms of resistance that raised questions about just whose national security was being protected and about national security as an ideological practice. This passionate, personalized account of how the state used the ideology of national security to wage war on its own people offers ways of understanding, and resisting, contemporary conflicts such as the so-called "war on terror."

*Transfiguration* Stephen Cheeke, 2016 *Transfiguration* explores the work of John Ruskin, Robert Browning, Dante Gabriel Rossetti, and Walter Pater, treating in particular the ways in which they engaged with the Christian content of their subject, and, in Pater's case, how the art of Christianity was contrasted with classical sculpture. Stephen Cheeke examines two related phenomena: idolatry (a false substitution, a sexual betrayal), and the poetics of transfiguration (to elevate or glorify subject matter not thought of as conventionally poetic, to praise). Central to the book is the question of the translation of religion into art and aesthetics, a process which supposedly undergirds the advent of the museum age and makes possible the idea of a 'religion of art' as a phenomenon of late century Aestheticism. Such a phenomenon is prepared for, however, through the engagement with Christian painting and classical sculpture in the work of these four writers. All four thought carefully about the ways in which a particular mimetic impulse of 'making-live' in artworks could be connected to religious experience. This meant exploring the nature of the link between seeing and believing--visualising in order to conceive, to verify, but also in the sense of being acted upon by the visible. All four wrote about the great power of artworks to transfigure the objects of their attention. In each case, there emerges the possibility of a secret sexual knowledge hiding within, or lying on the other side of the sensuous knowledge of aesthesis. All four wondered whether this was inherently hostile to Christianity, or whether it may, finally, be an accommodation within it.
