The Wind Band and Its Repertoire: Two Decades of Research As Published in the CBDNA Journal Michael Votta, Jr., For slightly over two decades, the College Band Directors National Association published the CBDNA Journal, a research outlet for all types of subjects of interest to the membership. Following cessation of activities in 2002, Michael Votta, Jr., the Journal's most recent editor, assembled representative articles on composers and their works, historical research and composition analysis investigations, and produced this fine collection of writings. As a source of well-constructed research by some of the country's leading musicians, it fills a much needed place in everyone's library.

Notes for Oboists Nora Anderson Lewis,2025 Notes for Oboists: A Guide to the Repertoire is an essential resource for professional, amateur, and student oboists that collects the important historical and analytical information for thirty-five of the best-known pieces composed for the instrument. These works span the eighteenth through the twenty-first century and include sonatas, concertos, chamber music, and works for solo oboe by a wide range of composers. Chapters will cover compositions such as Alessandro Marcello's Concerto in D Minor, Robert Schumann's Three Romances Op. 94, Francis Poulenc's Sonata for Oboe and Piano, Isang Yun's Piri for Oboe Solo, Reena Esmail's Jhula Jhule for Oboe and Piano, and thirty other treasures of the oboe repertoire. Writing in engaging and accessible prose supported by fact-filled analytical charts, Nora A. Lewis offers rich biographical information on individual composers, historical context for compositions (such as the circumstances for its development), as well as clear structural analyses to help oboists gain a deeper understanding of well-known repertoire. In offering both historical/biographical as well as musicological insight, Notes for Oboists connects performance studies with scholarship, allowing readers to build a more complete picture of the music and encourage them to approach other compositions in a similarly analytical manner.

Folk Music of Britain - and Beyond Frank Howes, 2015-12-22 Originally published in 1969. Until the latter half of the nineteenth century, it was thought that England, alone among the European countries, and unlike Scotland and Ireland

where collections of ballads and songs had already been published as early as the eighteenth century, had no important native tradition of music. The founding of the (English) Folk-Song Society in 1898, however, and the pioneering work of such collectors as Lucy Broadwood, the Reverend S. Baring-Gould and, later, Cecil Sharp uncovered a still flourishing folk culture. Since then interest in this subject has grown steadily, and the bibliography of publications of actual folk-songs and ballads is now huge. Frank Howes sets out a general and scholarly introduction, first examining in detail the history and origins of folk music and going on to show the nature and vast amount of the material, enforcing his arguments with a wealth of examples from around the world. His discussion of the differences of national idiom leads on to a comparison of British folk music with that of other European countries and America, in which he pays due attention to the Celtic and Norse traditions. Separate sections on balladry, carols, street cries, broadsides, sea shanties, nursery rhymes and instruments illustrate both the variety of folk music and the extent to which it permeates our national heritage.

Indian Tribes of the Upper Missouri Edited With Notes and Biographical Sketch Edwin Thompson

Denig, 2020-09-28 Origin.—But little traditionary can be stated by these Indians as authentic of their origin which would be entitled to record in history, though many singular and fabulous tales are told concerning it. As a portion of people, however, once inhabiting another district and being incorporated with another nation, their history presents a connected and credible chain of circumstances. The Assiniboin were once a part of the great Sioux or Dacotah Nation, residing on the tributary streams of the Mississippi; say, the head of the Des Moines, St. Peters, and other rivers. This is evident, as their language with but little variation is the same, and also but a few years back there lived a very old chief, known to all of us as Le Gros François, though his Indian name was Wah-he´ Muzza or the “Iron Arrow-point,” who recollected perfectly the time of their separation from the Sioux, which, according to his data, must have been about the year 1760.³ He stated that when Lewis and Clark came up the Missouri in 1805 his band of about 60 lodges (called Les Gens des Roches) had after a severe war

made peace with the Sioux, who at that time resided on the Missouri, and that he saw the expedition referred to near White Earth River, these being the first body of whites ever seen by them, although they were accustomed to be dealt with by the fur traders of the Mississippi. After their first separation from the Sioux they moved northward, making a peace with the Cree and Chippewa, took possession of an uninhabited country on or near the Saskatchewan and Assiniboin Rivers, in which district some 250 or 300 lodges still reside. Some time after the expedition of Lewis and Clark, or at least after the year 1777, the rest of the Assiniboin, at that time about 1,200 lodges, migrated toward the Missouri, and as soon as they found superior advantages regarding game and trade, made the latter country their home. One principal incident in their history which they have every reason to remember and by which many of the foregoing data are ascertained is a visitation of the smallpox in 1780 (see Mackenzie's travels), when they occupied the British territory. Even yet there are two or three Indians living who are marked by the disease of that period and which greatly thinned their population, though owing to their being separated through an immense district, some bands entirely escaped. Upon the whole it does not appear to have been as destructive as the same disease on the Missouri in 1838, which I will have occasion to mention in its proper place in these pages and which reduced them from 1,200 lodges to about 400 lodges.
