Delitos contra el Patrimonio. Aspectos penales y criminológicos Luís Cáceres Ruiz,2006-06-07 Los delitos contra el patrimonio representan las dos terceras partes de todos las infracciones penales cometidas en España. ¿Cómo son esos delitos? ¿cuándo y dónde se realizan? ¿qué edad y sexo tienen sus autores? ¿actúan individualmente o en grupo? En esta obra se realiza una exposición de las distintas posturas doctrinales y un análisis de la jurisprudencia del Tribunal Supremo, confrontando el análisis jurídico con la realidad de cómo estos crímenes se producen. Para ello se han utilizado las distintas estadísticas oficiales del Ministerio del Interior, el Consejo General del Poder Judicial y la Fiscalía General del Estado y se ha realizado un estudio de más de mil sentencias penales con la intención de determinar las características que presentan en la realidad social los delitos contra el patrimonio.

Locuciones Latinas En Materia Juridica Noé Bustamante Bustamante,Noe Bustamante Bustamante,2012-11 El presente manuscrito es una compilación de diversas Locuciones Latinas en Materia Jurídica. No es una guía de Derecho. Tampoco una exposición doctrinaria de las locuciones plasmadas, sólo se busca mostrar sencillamente, algunas locuciones y vocablos visualizados en diversos textos, cuyos autores se exponen en la bibliografía, haciendo con mucho respeto hacia ellos. De inicio se muestra un capítulo de introducción, con lo que se busca explicar la importancia del contenido, se detalla una breve historia romana alusiva a los orígenes de la península italiana, los pueblos que conformaron la península itálica, sobre todo los pueblos que se establecieron en la región del Lazio, (centro-sur de Italia), los etruscos, (norte-centro de Italia) y los colonizadores griegos que se establecieron en el sur de Italia, todos ellos contribuyeron al crecimiento de Roma a partir de su fundación en el siglo VIII a.C. La obra de Rómulo y Remo, La Monarquía, La República, El Imperio (sus emperadores y

su ocaso); cómo surge el Derecho Romano, y el uso del latín en el derecho. Con la explicación breve en cada una de las locuciones y vocablos, (de las de mayor importancia), se busca explicar el sentido de las mismas, es decir, lo que pensaron y quisieron decirnos los antiguos jurisconsultos romanos. De manera general, se muestra brevemente la historia romana, la conformación del Derecho y las locuciones con una breve explicación.

El delito de organización criminal: fundamentos y contenido de injusto Zurita Gutiérrez, Alri,2020-09-19 El fenómeno de la organización delictiva no es nuevo pero sí característico de la sociedad globalizada del presente. De las varias figuras que contemplan nuestras legislaciones el delito de organización criminales, fuera del ámbito terrorista, la más relevante en el ámbito de la criminalidad organizada. Su capacidad de adaptación en la sociedad globalizada, sus características cualitativas y cuantitativas, su estructura rígida o vertical, el aprovechamiento de la permeabilidad delictiva... la convierten en una figura de especial interés teórico y práctico, donde la compleja estructura corporativa hace particularmente difícil divisar una figura clara a la cabeza de la organización. Las reformas penales de 2010 y 2015 moldearon la figura delictiva dándole una autonomía punitiva independiente si cumple con los requisitos del art. 570 bis CP. La presente obra estudia dogmáticamente los presupuestos de imputación, analiza su vinculación con tipos penales con los que podría existir solapamiento, propone una visión del objeto de protección en este delito y de la intervención delictiva, estudia las circunstancias que agravan o atenúan la pena y postula el carácter transnacional como agravante y la utilización del decomiso como herramienta en la lucha contra la criminalidad organizada con una aplicación especializada.

Child Grooming: el embaucamiento de menores en la era del Metaverso y la Inteligencia Artificial Alfredo Abadías Selma,2024-05-09 En un momento histórico de avances tecnológicos imparables, la humanidad dispone de grandes oportunidades y desafíos que debe gestionar. Así pues, en el presente estudio, partiendo de una introducción contextual se pretende llevar a cabo una profunda exégesis del artículo 183 del Código penal español, que castiga el delito de embaucamiento de menores o «child grooming». Se realiza un estudio dogmático con apuntes criminológicos de los elementos estructurales del delito que indicamos con el sustento de la doctrina científica más actual y especializada, así como con la aportación de la jurisprudencia más relevante y representativa. Todo ello persigue, como corolario, la aportación de una serie de conclusiones y propuestas, algunas de lege ferenda, para regular un delito que podemos afirmar que posiblemente ha pasado demasiado desapercibido ante la última y polémica reforma de los delitos contra la libertad sexual. Además, y como contenido editorial diferencial y pionero en esta materia se incorpora una serie de consideraciones entorno a la problemática que comporta la inteligencia artificial en este ámbito delictivo.

El desistimiento en la tentativa y el delito imposible Gianni Egidio Piva Torres,2020-02-03 El Desistimiento en la Tentativa y el Delito Imposible; obra que cuenta con ocho capítulos denominados: Fundamentación del desistimiento;

Desistimiento y política criminal; Oportunidad para poder desistir; Efecto del desistimiento; Voluntad en el desistimiento; Desistimiento de la tentativa acabada e inacabada; Delito imposible; y, Teorías aplicables al delito imposible. Capítulos que como diría Hegel, comprenden la profunda ciencia, y el verdadero sentido de un libro, que nos ha permitido entender y comprender la maravilla de la dogmática penal, ya que la pluma de Gianni Egidio Piva Torres, es magistral al abordar temas complejos de una manera objetiva y con una estructura lógica por no decir perfecta, ya que como veremos en el capítulo primero, referente a la fundamentación del desistimiento, el autor parte desde la definición de desistimiento, topando las teorías sobre la impunidad del desistimiento, político criminales, jurídicas, de ausencia de voluntad, de la nulidad, de falta de perseverancia, de la presunción, premiales, de la disminución de la intensidad de la voluntad criminal, del fin de la pena, y finalmente nos expone la situación actual del problema y la jurisprudencia existente. The Global Practice of Forensic Science Douglas H. Ubelaker, 2015-02-16 The Global Practice of Forensic Science presents histories, issues, patterns, and diversity in the applications of international forensic science. Written by 64 experienced and internationally recognized forensic scientists, the volume documents the practice of forensic science in 28 countries from Africa, the Americas, Asia, Australia and Europe. Each country's chapter explores factors of political history, academic linkages, the influence of individual cases, facility development, types of cases examined, integration within forensic science, recruitment, training, funding, certification, accreditation, quality control, technology, disaster preparedness, legal issues, research and future directions. Aimed at all scholars interested in international forensic science, the volume provides detail on the diverse fields within forensic science and their applications around the world.

Conflicts of Criminal Jurisdiction and Transfer of Proceedings in the EU Alejandro Hernández López, 2022-11-21 Framework Decision 2009/948/JHA on the prevention and settlement of conflicts of exercise of jurisdiction in criminal proceedings established an ad hoc procedure for settling conflicts of criminal jurisdiction based on the mutual exchange of information and the establishment of direct consultations between the competent authorities with a view to reaching consensus on an effective solution. However, neither common legally binding criteria for deciding the best jurisdiction nor specific rules for the transfer of proceedings (which can occur after parallel proceedings have been identified) were established in this instrument, or in any other instrument adopted by the EU to date. This book analyses the current EU legal framework on conflicts of jurisdiction and transfer of criminal proceedings, paying special attention to its numerous shortcomings and loopholes from a fundamental rights and due process of law perspective. The book begins with an assessment of the various principles and grounds used by Member States for claiming criminal jurisdiction. Secondly, de lege lata EU procedure on the settlement of conflicts of criminal jurisdiction, as well as its implementation in Spain and Italy, are thoroughly examined. After discussing the main principles and fundamental rights at stake, the author proposes two

alternative and original *de lege ferenda* models for the prevention and settlement of conflicts of criminal jurisdiction and transfer of criminal proceedings, exploring the different possibilities offered by the EU's primary law.

The Reception of Positivism in Spain José Franco-Chasán, 2023-11-24 Pedro Dorado Montero was one of Spain's most relevant authors. He contributed to modern Criminal law and Penology with a very unique theory: the Protective Law for Criminals. In a time when neoclassical penal theories and new positivist theories clashed, Dorado Montero's proposal served as a bridge between the criminal law conceptions of the 19th and 20th centuries. In order to explore his role in the introduction of positivism within Spain and the subsequent success of this trend, this book addresses several aspects. The first three analyzed are his scholarly career, the historical and international context in which he lived, and the various European and other international influences he was exposed to. On this basis, two major points are then discussed. Firstly, Dorado Montero has been traditionally included within the movement known as *correccionalismo*. However, his legal-philosophical and criminal thought indicates otherwise. It seems to lie closer to positivism than to neoclassical positions. This research aims at challenging the accuracy of the 'eclectic' label which traditional historiography has applied to him. In turn, Dorado Montero described a reality in which every moral value and legal representation was a mere product of mankind's imagination. Man is responsible for the elaboration of morals, law and culture in his own mind. Thus, for him, there were as many moral and legal orders as there were human beings on the planet. Such a claim is polemic even today. Unsurprisingly, the author received criticism from both neoclassical and positivist schools. Thus, the existence of a 'Doradian positivism' is explored. Despite the growing interest in these topics over the last few decades, Dorado Montero has somehow been overlooked - even though his *Derecho protector de los criminales* described the criminal law of the future as well, one that will have to face the new neurological, medical, psychological and genetic challenges of our time.

The Metaphysics of Detective Marlowe Mircea Mihaies, 2013-12-20 Raymond Chandler's role in the reshaping of hard-boiled literature can hardly be exaggerated. He shattered the dogmas of a genre content to be popular, and paved the way for a noble, complex and aristocratic destiny. He implemented his revolutionary vision by radical changes in style, manner, and character construction. Like his hero, Philip Marlowe, he was fascinated with the metaphysical features of existence: honor, pride, loneliness, disenchantment, futility, failure, horror, boredom, alienation, rebellion, fear, moral paralysis. In *The Metaphysics of Detective Marlowe*, Mircea Mihaies reexamines the major contradiction of Chandler's hero: though in the service of truth, he is often forced to realize that truth is sordid, repulsive, malicious, aggressive, and rapacious. Out of this baffling position, a new American genre and type of hero have emerged.

Criminal Law in Italy Astolfo Di Amato, Federica Fucito, 2020-10-20 Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this book provides a practical analysis of criminal law in Italy. An introduction presents the necessary background information about the framework and sources of the criminal justice system, and then proceeds to

a detailed examination of the grounds for criminal liability, the justification of criminal offences, the defences that diminish or excuse criminal liability, the classification of criminal offences, and the sanctions system. Coverage of criminal procedure focuses on the organization of investigations, pre-trial proceedings, trial stage, and legal remedies. A final part describes the execution of sentences and orders, the prison system, and the extinction of custodial sanctions or sentences. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for criminal lawyers, prosecutors, law enforcement officers, and criminal court judges handling cases connected with Italy. Academics and researchers, as well as the various international organizations in the field, will welcome this very useful guide, and will appreciate its value in the study of comparative criminal law.

The Matrix of Derivative Criminal Liability Gabriel Hallevy, 2012-04-23 Derivative criminal liability includes inchoate offenses (criminal attempt, conspiracy, preparatory offenses, etc.), complicity (joint perpetration, perpetration through another, incitement, solicitation, accessoryship, etc.), organized crime, natural and probable consequences liability, post-crime aid, enterprise liability, terrorism and terrorist infrastructure, and many more forms of criminal liability, clearly making it a major pillar of modern criminal law. Although derivative criminal liability affects countries worldwide, there is still no general legal theory that covers this issue. The objective of the present book is to develop a comprehensive, general, legally sophisticated, and at the same time practical theory of derivative criminal liability. The book emphasizes the practicality of the theory to enable courts, lawyers, legislators, attorneys, students, and academics to apply it in their daily professional occupations.

Transformations in Criminal Jurisdiction Micheál Ó Floinn, Lindsay Farmer, Julia Hörnle, David Ormerod KC, 2023-08-24 Can traditional approaches to criminal jurisdiction adapt to the new global reality of the digital era? In this innovative book, leading experts in criminal, international and internet law unite to address this fundamental question. They consider how jurisdictional regimes are orientated around concepts of territoriality and extraterritoriality, how these categories are increasingly blurred in the digital era, and how a range of jurisdictional transformations are occurring in the process. Part I presents novel doctrinal, empirical and theoretical perspectives on criminal jurisdiction, exploring how states are shaping and reimagining jurisdictional concepts in the crafting and interpretation of criminal offences, and the ramifications of increasing jurisdictional concurrency in state practice. Part II focuses on the investigative and enforcement powers of the state to assess how these issues are transforming traditional understandings of jurisdictional rules and boundaries, the challenges and opportunities that these present for law enforcement authorities, and the sorts of constraints and safeguards that may be necessary as a result. The picture that emerges is a world of jurisdictional rules in a state of flux,

which demands the diversity of legal perspectives presented in this book for documenting, rationalising and moving beyond the transformations that are taking shape in modern statecraft.

Treatise on International Criminal Law Kai Ambos,2014-01-09 Since the adoption of the Rome Statute of the International Criminal Court in 1998, international criminal law has rapidly grown in importance. This three-volume treatise on international criminal law presents a foundational, systematic, consistent, and comprehensive analysis of the field. Taking into account the scholarly literature, not only sources written in English but also in French, German, Italian, Portuguese, and Spanish, the book draws on the author's extensive academic and practical work in international criminal law. This second volume offers a comprehensive analysis of the core international crimes, namely, genocide, crimes against humanity, war crimes, and aggression. It also assesses relevant treaty crimes. It examines in detail the problem of *concurso delictorum* and the law of sentencing, offering proposals for the development of a more consistent sentencing regime. The full three-volume treatise will address the entirety of international criminal law, re-stating and re-examining the fundamental principles upon which it rests, the manner it is enacted, and the key issues that are shaping its future. It will be essential reading for practitioners, scholars, and students of international criminal law alike.
