Reptiles of the NSW Murray Catchment Damian Michael, David Lindenmayer, 2010 This is an easy-to-use field guide to identifying the 80 reptile species currently known to occur in the Murray catchment area of New South Wales. Illustrated with high quality color photographs, the book describes the key distinguishing features of each reptile and includes details on habitats and conservation status. Uniquely, it has a detailed chapter on how to conserve reptiles and manage key habitats, providing landholders and natural resource agencies with the knowledge to help conserve reptiles in agricultural farming landscapes. The up-to-date distribution maps are based on 10 years of extensive surveys and research on reptiles in the Murray catchment. The final chapter includes a section on similar looking species to further enable readers to accurately and quickly identify difficult species. Reptiles of the NSW Murray Catchment promotes a broad appreciation of reptiles in the region, and is a must-have for natural history enthusiasts. Key features * A complete account of all reptile species known to occur in the Murray catchment * New information on how to identify each species, where they occur in the Murray catchment and what habitats they use * Up-to-date distribution maps for each species

Macroeconomics R. Glenn Hubbard, Anne M. Garnett, Philip Lewis, Anthony Patrick O'Brien, 2014-09-01 Macroeconomics is the most engaging introductory economics resource available to students today. Using real businesses examples to show

how managers use economics to make real decisions every day, the subject is made relevant and meaningful. Each chapter of the text opens with a case study featuring a real business or real business situation, refers to the study throughout the chapter, and concludes with An Inside Look—a news article format which illustrates how a key principle covered in the chapter relates to real business situations or was used by a real company to make a real business decision. Solved problems in every chapter motivate learners to confidently connect with the theory to solve economic problems and analyse current economic events.
