Robert Sommer

Dachauer Prozesse Ludwig Eiber, Robert Sigel, 2007

Victims and Survivors of Nazi Human Experiments Paul Weindling, 2014-12-18 While the coerced human experiments are notorious among all the atrocities under National Socialism, they have been marginalised by mainstream historians. This book seeks to remedy the marginalisation, and to place the experiments in the context of the broad history of National Socialism and the Holocaust. Paul Weindling bases this study on the reconstruction of a victim group through individual victims' life histories, and by weaving the victims' experiences collectively together in terms of different groupings, especially gender, ethnicity and religion, age, and nationality. The timing of the experiments, where they occurred, how many victims there were, and who they were, is analysed, as are hitherto under-researched aspects such as Nazi anatomy and executions. The experiments are also linked, more broadly, to major elements in the dynamic and fluid Nazi power structure and the implementation of racial policies. The approach is informed by social history from below, exploring both the rationales and motives of perpetrators, but assessing these critically in the light of victim narratives.

From Clinic to Concentration Camp Paul Weindling, 2017-04-28 Representing a new wave of research and analysis on Nazi human experiments and coerced research, the chapters in this volume deliberately break from a top-down history limited to concentration camp experiments under the control of Himmler and the SS. Instead the collection positions extreme experiments (where research subjects were taken to the point of death) within a far wider spectrum of abusive coerced research. The book considers the experiments not in isolation but as integrated within wider aspects of medical provision as it became caught up in the Nazi war economy, revealing that researchers were opportunistic and retained considerable autonomy. The sacrifice of so many prisoners, patients and otherwise healthy people rounded up as detainees raises important issues about the identities of the research subjects: who were they, how did they feel, how many research subjects were there and how many survived? This underworld of the victims of the elite science of German medical institutes and clinics has until now remained a marginal historical concern. Jews were a target group, but so were gypsies/Sinti and Roma, the mentally ill, prisoners of war and partisans. By exploring when and in what numbers scientists selected one group rather than another, the book provides an important record of the research subjects having agency, reconstructing responses and experiential narratives, and recording how these experiments – iconic of extreme racial torture – represent one of the worst

excesses of Nazism.

Das Konzentrationslager Dachau Angelika Königseder, 2008

Medizin und Nationalsozialismus Robert Jütte, Wolfgang U. Eckart, Hans-Walter Schmuhl, 2012-02-01 Der Forschungsbericht kommentiert die kaum noch überschaubare Literatur zu Medizin und Nationalsozialismus. In knappen Strichen werden die Wege der wissenschaftlichen Annäherung an diesen Themenkomplex nachgezeichnet und Meilensteine, aber auch Desiderate der Forschung benannt. Zentrale Themen sind die NS-Gesundheitspolitik und die ihr zugrundeliegende Weltanschauung, das Gesundheitswesen und die medizinische Forschung im Dritten Reich, die medizinische Praxis in der Zeit vor und während des Zweiten Weltkriegs sowie der Brüche und Kontinuitäten nach 1945. Die Untersuchung schließt Österreich (nach 1938) mit ein. Damit liegen erstmals eine Orientierung über den erreichten Stand sowie ein Wegweiser für zukünftige Forschungen auf diesem Gebiet vor. Das Buch wendet sich an alle, die sich für das Thema Medizin und Nationalsozialismus interessieren: an fortgeschrittene Studierende der Fächer Medizin, Pharmazie, Pflegewissenschaften und der Geschichtswissenschaften sowie der Nachbardisziplinen (z. B. Volkskunde, Ethnologie), ebenso an Ärztinnen, Ärzte und Wissenschaftsjournalisten, die ihr Wissen auf diesem Gebiet vertiefen und selbst forschen wollen.

KL Nikolaus Wachsmann, 2015-04-14 The “deeply researched, groundbreaking” first comprehensive history of the Nazi concentration camps (Adam Kirsch, The New Yorker). In a landmark work of history, Nikolaus Wachsmann offers an unprecedented, integrated account of the Nazi concentration camps from their inception in 1933 through their demise, seventy years ago, in the spring of 1945. The Third Reich has been studied in more depth than virtually any other period in history, and yet until now there has been no history of the camp system that tells the full story of its broad development and the everyday experiences of its inhabitants, both perpetrators and victims, and all those living in what Primo Levi called “the gray zone.” In KL, Wachsmann fills this glaring gap in our understanding. He not only synthesizes a new generation of scholarly work, much of it untranslated and unknown outside of Germany, but also presents startling revelations, based on many years of archival research, about the functioning and scope of the camp system. Closely examining life and death inside the camps, and adopting a wider lens to show how the camp system was shaped by changing political, legal, social, economic, and military forces, Wachsmann produces a unified picture of the Nazi regime and its camps that we have never

seen before. A boldly ambitious work of deep importance, KL is destined to be a classic in the history of the twentieth century. Praise for KL A Wall Street Journal Best Book of 2015 A Kirkus Reviews Best History Book of 2015 Finalist for the National Jewish Book Award in the Holocaust category "[A] monumental study . . . a work of prodigious scholarship . . . with agonizing human texture and extraordinary detail . . . Wachsmann makes the unimaginable palpable. That is his great achievement." —Roger Cohen, The New York Times Book Review "Wachsmann's meticulously detailed history is essential for many reasons, not the least of which is his careful documentation of Nazi Germany's descent from greater to even greater madness. To the persistent question, "How did it happen?," Wachsmann supplies voluminous answers." —Earl Pike, The Plain Dealer (Cleveland)

Menschenversuche und Wiedergutmachung Stefanie Michaela Baumann, 2010-10-01 Jahrzehntelang kämpften Opfer von KZ-Menschenversuchen auf beiden Seiten des Eisernen Vorhangs um Entschädigung und Anerkennung. Dabei blieben die osteuropäischen Überlebenden anders als ihre westeuropäischen Leidensgenossen lange Zeit von allen Leistungen ausgegrenzt. Dies änderte sich erst durch die internationale Aufmerksamkeit für das Verfolgungsschicksal der Gruppe polnischer Frauen, die als Ravensbrücke-Lapins bekannt wurden. Ihr Fall trug maßgeblich dazu bei, dass die radikale Ausgrenzung osteuropäischer NS-Verfolgter allmählich aufweichte. Die Studie untersucht am Beispiel der Opfer nationalsozialistischer Humanexperimente die Bedeutung des Ost-West-Konflikts und medialer Inszenierungen für die Politik der Wiedergutmachung.

The Concentration Camp Brothel Robert Sommer, 2025-05-06 Discover the chilling untold story of sexual forced labor in Nazi concentration camps In his seminal work, *The Concentration Camp Brothel*, Robert Sommer reveals the hidden horrors of sexual forced labor within the SS camp system, a subject long overshadowed and seldom acknowledged in the discourse on the Holocaust. Through his rigorous examination of over seventy archives and poignant interviews with more than thirty survivors, including former visitors of camp brothels, Sommer paints a vivid and harrowing picture of the atrocities committed. This book is the first to offer a comprehensive exploration of the establishment, operation, and profound impact of brothels in Nazi concentration camps. Sommer's research meticulously details the brothels' integration into the concentration camp system, their role in the Nazi exploitation of bodies for control and profit, and the complex reactions of the prisoner society to these establishments. He explores the desperate survival strategies employed by the women forced into sexual labor and the chilling motivations of their exploiters. The book also places the tragedy of camp brothels in the broader context of sexual violence under Nazi rule, making a critical connection between these acts of exploitation and the overall history of the Holocaust. This updated English edition incorporates new findings and perspectives since the original German publication in 2009, providing a more comprehensive understanding of the subject. The foreword by Annette F. Timm adds further context and contemporary analysis, enhancing the book's relevance and depth.

Entgrenzte Erinnerung Anne-Berenike Rothstein, Stefanie Pilzweiger-Steiner, 2020-09-21 Der Sammelband beleuchtet (multi-)mediale und digitale Strategien zur Vermittlung der nationalsozialistischen Verbrechen und führt Forschungsprojekte und -ansätze aus dem akademischen Bereich mit Beiträgen zu medialen Projekten aus den Bereichen Kommunikation, Ausstellung, Bildung und Archiv aus der Gedenkstättenarbeit zusammen. Den bedeutsamen erinnerungskulturellen Wandel aufnehmend, reflektieren die Aufsätze Möglichkeiten und Grenzen der Medialisierung und Digitalisierung. Auf der Grundlage von Gedächtnisforschung, Digital Memory Studies, Intermediality und Media Studies werden u.a. die Modifikationen des Gedächtnisbegriffes, das Verhältnis von realem und virtuellem Raum, von kollektiver und individualisierter Rezeption und des Generationenwandels diskutiert und anhand aktueller medialer (u.a. künstlerischer, didaktischer) Umsetzungen exemplifiziert.

Der Traum vom Schlaf im 20. Jahrhundert Hannah Ahlheim, 2018-06-04 Der Schlaf: seit Jahrtausenden Gegenstand von Mythen, Erzählungen und Bildern. Der Mensch verschläft ein gutes Drittel seines Lebens. Die Zeit, die wir im Schlaf

verbringen, ist eine unbewusste, unproduktive und untätige, aber auch eine lebensnotwendige und herbeigesehnte Zeit. Wie geht nun eine Gesellschaft, in der wissenschaftliches Verstehen, Rationalität und Effizienz eine zentrale Rolle spielen, mit einem so widerspenstigen Phänomen wie dem Schlaf um? Hannah Ahlheims Studie über die Entwicklung des »Schlafwissens« in Deutschland und den USA seit dem späten 19. Jahrhundert verbindet konsequent die Geschichte einer Wissenschaft mit der Geschichte der modernen Gesellschaft. Sie zeigt, dass nicht nur das Bild vom schlafenden Körper, der träumenden Seele bzw. dem träumenden Gehirn ein anderes geworden ist. Die Arbeit mit dauerwachen Maschinen, aufgeweichte Grenzen zwischen Tag und Nacht, Fortschritte der Wissenschaft, die Entwicklung von synthetischen Schlafmitteln und die Erfahrungen des Krieges stellten neue Anforderungen an die alltägliche Organisation des Schlafens und beförderten die Angst vor dem Verlust des Schlafs.

Grundwissen Geschichte, Theorie, Ethik der Medizin Ortrun Riha, 2013-02-08 Auf Empfehlung des Wissenschaftsrats wurde der Querschnittsbereich Geschichte, Theorie, Ethik der Medizin als benotetes Pflichtfach für Medizinstudierende in der ärztlichen Approbationsordnung verankert. Damit sollen einerseits die historischen, geistigen und kulturellen Grundlagen der Heilkunde verstärkte Aufmerksamkeit gewinnen; andererseits wird dem gestiegenen öffentlichen Interesse an medizin- und bioethischen Fragen Rechnung getragen.

Medizinische Fachgesellschaften im Nationalsozialismus Matthias Krischel, Mathias Schmidt, Dominik Groß, 2016 In den letzten Jahren hat sich die medizinhistorische Forschung verstärkt mit der Aufarbeitung der Geschichte verschiedener medizinischer Fachgesellschaften in der Zeit des Nationalsozialismus beschäftigt. Dabei stehen der Umgang mit jüdischen Kollegen und Mitgliedern, die Gleichschaltung oder Selbstgleichschaltung, die inhaltliche Ausrichtung des jeweiligen Faches sowie die Karrierekontinuitäten führender Mitglieder nach dem Ende des Dritten Reiches ebenso im Fokus wie der Umgang mit der eigenen Geschichte und die Aufarbeitung nach 1945. Der vorliegende Sammelband möchte einen weitgespannten und fundierten Überblick über laufende Projekte und aktuelle Ergebnisse geben und diese in vergleichender Perspektive für zukünftige Forschungen erschließen.

Das Zeugenhaus Christiane Kohl, 2014-11-17 Opfer und Täter unter einem Dach: Schuld und Sühne 1945 Im November 1945 beginnt in Nürnberg der Prozess gegen die hohen Repräsentanten der NS-Diktatur. Eine Villa am Stadtrand dient als Gästehaus für Zeugen der Anklage sowie der Verteidigung. Auf engstem Raum treffen Schuldige, Mitläufer, Opfer und solche, die sich immer arrangieren, aufeinander. Christiane Kohl recherchierte die ungeheuerlichen Vorgänge im Haus und erzählt hautnah von der dramatischen Verstrickung jedes Einzelnen in jenem Augenblick, als die Welt über Deutschland zu Gericht saß.
