Rain Flower Kotra Siva Rama Krishna, Williams was a thirty years aged clever, rich and educated businessman. Something he had seen in their old palace made him lost his mental balance. He became mild mad, just remained staring ahead blankly. He had been admitted in Black Ant Mental Care where he was entrusted to Rose who was the practicing psychiatrist there. Rose could make Williams to come to his senses but he forgot everything that happened before that incident. Rose and her senior Charles strongly opined, forcing Williams to remember either that particular incident he had seen in the old palace or about his past before that incident would have serious damaging consequences to him. Therefore preference has been given only to keep Williams mental balance. During the treatment Rose and Williams fall in love and Rose later became Williams' wife. But Williams was not completely out of his problem. Rose herself knew and warned by her senior Charles also, if ever Williams remembered that particular incident he had seen in their old palace it sure would have very serious effect on him. As there was constant threat of Williams remembering that particular incident at any moment and Williams suffering periodical mental imbalance, Rose sacrificed her career and devoted herself to her husband. As the time gone by, a situation has come that Rose has to make Williams to remember that particular incident and by putting him in deep hypnosis Rose made him to remember it. It made him remembered all of his past also. But as Rose worried, as feared all the while, it had the expected effect on him. **Peter Watts Is An Angry Sentient Tumor** Peter Watts, 2019-11-12 With over fifty unpredictable, scathing, hilarious, and more-than-occasionally moving essays about science, politics, family, pop culture, religion and more, Peter Watts — Hugo Award-winning author, former marine biologist, and “angry sentient tumor” (via Annalee Newitz, author of *Autonomous*) — shows why he is the savage dystopian optimist whom you can't look away from ... even when you probably should. [STARRED REVIEW] “Irreverent, self-deprecating, profane, and funny, showcasing a Hunter S. Thompson-esque

studied rage and dissatisfaction with the status quo combined with the readability and humor of John Scalzi.” —Booklist Which of the following is true? Peter Watts is banned from the U.S. Watts almost died from flesh-eating bacteria. A schizophrenic man living in Watts’s backyard almost set the house on fire. Watts was raised by Baptists who really sucked at giving presents. Peter Watts said to read this book. Or else. With Watts's infamous penchant for blunt, honest, and deep reflection, these retrospective essays provide a view inside his head and even into his heart.

**Fast Future** David D. Burstein, 2013-02-12 A millennial examines how his generation is profoundly impacting politics, business, media, and activism They’ve been called trophy kids, entitled, narcissistic, the worst employees in history, and even the dumbest generation. But, argues David Burstein, the millennial generation’s unique blend of civic idealism and savvy

pragmatism will enable us to overcome a deeply divided nation facing economic and environmental calamities. With eighty-million millennials (people who are today eighteen to thirty years old) coming of age and emerging as leaders, this is the largest generation in U.S. history, and, by 2020, its members will represent one out of every three adults. They are more ethnically and racially diverse than their elders and have begun their careers at a time when the recession has set back the job market. Yet they remain optimistic about their future and are deeply connected to one another. Drawing on extensive interviews with his millennial peers and compelling new research, Burstein illustrates how his generation is simultaneously shaping and being shaped by a fast-paced and fast-changing world. Part oral history, part social documentary, *Fast Future* reveals the impact and story of the millennial generation—in its own words.

**Push the Button** Elizabeth Rodwell, 2024-01-05 In *Push the Button*, Elizabeth Rodwell follows a battle over what interactivity will mean for Japanese television, as major media conglomerates took on independent media professionals developing interactive forms from new media. Rodwell argues that at the dawn of a potentially transformative moment in television history, content conservatism has triumphed over technological innovation. Despite the ambition and idealism of Japanese TV professionals and independent journalists, corporate media worked to squelch interactive broadcast projects such as smartphone-playable television and live-streamed and open press conferences before they caught on. Instead, interactive programming in the hands of major TV networks retained the structure and qualities of most other television and maintained conventional barriers between audiences and the actual space of broadcast. Despite their lack of success, the innovators behind these experiments nonetheless sought to expand the possibilities for mass media, national identity, and open journalism.
