Inspiring Walt Disney: The Animation of French Decorative Arts Wolf Burchard, 2021-12-06 Pink castles, talking sofas, and objects coming to life: what may sound like the fantasies of Hollywood dream-maker Walt Disney were in fact the figments of the colorful salons of Rococo Paris. Exploring the novel use of French motifs in Disney films and theme parks, this publication features forty works of eighteenth-century European design—from tapestries and furniture to Boulle clocks and Sèvres porcelain—alongside 150 Disney film stills, drawings, and other works on paper. The text connects these art forms through a shared dedication to craftsmanship and highlights references to European art in Disney films, including nods to Gothic Revival architecture in *Cinderella* (1950); bejeweled, medieval manuscripts in *Sleeping Beauty* (1959); and Rococo-inspired furnishings and objects brought to life in *Beauty and the Beast* (1991). Bridging fact and fantasy, this book draws remarkable new parallels between Disney's magical creations and their artistic inspirations.

The Life and Times of Ward Kimball Todd James Pierce, 2019-01-17 Besides Walt Disney, no one seemed more key to the development of animation at the Disney Studios than Ward Kimball (1914–2002). Kimball was Disney's friend and confidant. In this engaging, cradle-to-grave biography, award-winning author Todd James Pierce explores the life of Ward Kimball, a lead Disney animator who worked on characters such as Mickey Mouse, Donald Duck, Jiminy Cricket, the Cheshire Cat, and the Mad Hatter. Through unpublished excerpts from Kimball's personal writing, material from unpublished interviews, and

new information based on interviews conducted by the author, Pierce defines the life of perhaps the most influential animator of the twentieth century. As well as contributing to classics such as Snow White and the Seven Dwarfs and Pinocchio, from the late 1940s to the early 1970s, Kimball established a highly graphic, idiosyncratic approach to animation alongside the studio's more recognizable storybook realism. In effect, Ward Kimball became the only animator to run his own in-studio production team largely outside of Walt Disney's direction. In the 1950s and 1960s, he emerged as a director and producer of his own animation, while remaining inside Disney's studio. Through Kimball, the studio developed a series of nonfiction animation programs in the 1950s that members of Congress pointed to as paving the way for NASA. The studio also allowed Kimball's work to abandon some ties to conventional animation, looking instead to high art and graphic design as a means of creating new animated forms, which resulted in films that received multiple Academy Award nominations and two awards. Throughout his life, Kimball was a maverick animator, an artist who helped define the field of American animation, and a visionary who sought to expand the influence of animated films.
