Decentralised Governance Jean-Paul Faguet, Sarmistha Pal, 2023-09-13 For developing countries, decentralising power from central government to local authorities holds the promise of deepening democracy, empowering citizens, improving public services and boosting economic growth. But the evidence on when and how decentralisation can bring these benefits has been mixed. Under the wrong conditions, decentralised power can be captured by unrepresentative elites or undermined by corruption and the clientelistic distribution of public resources. The picture is complex, and we still do not understand enough about what factors can contribute to creating better local government, and to what effect. Decentralised Governance brings together a new generation of political economy studies that explore these questions analytically, blending theoretical insights with empirical innovation. Individual chapters provide fresh evidence from around the world, including broad cross-country data as well as detailed studies of Bangladesh, India, Pakistan, China, Indonesia, Ghana, Kenya and Colombia. They investigate the pros and cons of decentralisation in both democratic and autocratic regimes, and the effects of critical factors such as advances in technology, citizen-based data systems, political entrepreneurship in ethnically diverse societies, and reforms aimed at improving transparency and monitoring. This wide-ranging volume examines the conditions under which devolving power can intensify democratic competition, boost transparency, and improve local governance, providing examples of good and bad practice in both. It is essential reading for researchers investigating decentralised governance, development and democratisation, and for policymakers and practitioners drawing lessons for future reforms.

Paper Citizens Kamal Sadiq, 2008-12-02 In this groundbreaking work, Kamal Sadiq reveals that most of the world's illegal immigrants are not migrating directly to the US, but to countries in the vast developing world, where they are able to obtain citizenship papers fairly easily. Sadiq introduces documentary citizenship to explain how paperwork--often falsely obtained--confers citizenship on illegal immigrants. Across the globe, there are literally tens of millions of such illegal immigrants who have assumed the guise of citizens. Who, then, is really a citizen? And what does citizenship mean for most of the world's peoples? Rendered in vivid detail, Paper Citizens not only shows how illegal immigrants acquire false papers, but also sheds light on the consequences this will have for global security in the post 9/11 world.

Mapping Governance Innovations Sangita Dhal,Nachiketa Singh,Amir Mohammad Nasrullah,2024-08-21 This volume explores the nature, success, and challenges of governance innovations in South Asia. It compares innovations and reforms that have been undertaken specifically in Bangladesh, Bhutan, India, Nepal, Pakistan, and Sri Lanka. It examines how these South Asian nations have fared in promoting the values of good governance both at the national and local levels. The volume focuses mainly on three themes innovations and reforms in public administration, e-governance, public service delivery and innovations in local governance. It assesses how South Asian countries have sought to mitigate the challenges of governance and overcome the obstacles that characterized the transition from the old, traditional architecture of governance to the new and modern technologically enabled models of governance. Lucid and topical, this book will be of great interest to scholars of politics, public administration and governance, public policy, public management, international relations, development studies, and related social science disciplines.

Children Without a State Jacqueline Bhabha,2011 This text identifies three contemporary manifestations of stateless: legal statelessness, de facto statelessness and effective statelessness. The book provides a variety of examples, including chapters on Palestinian children in Israel including undocumented young people seeking higher education in the United States.

Strengthening Local Governance in Bangladesh Shuvra Chowdhury,Pranab Kumar Panday,2018-02-23 This book explores the impact of Bangladesh's Local Government Act of 2009 on the functioning of the local governments or Union Parishads (UP), with a particular emphasis on people's participation and accountability. Throughout the chapters, the authors review the existing legal framework of UP and its relation to social accountability, examine how much of the social participation is spontaneous and how much is politically induced, question the success of the Citizen's Charter and Right to Information acts as mechanisms for social accountability, and present suggestions to remedy some of the problems facing people's participation and accountability in the UP. This book fills existing gaps in the discourse by adding new information to the literature on development research and legal reforms in Bangladesh, specifically in how those legal reforms have led to strengthening or weakening people's participation in local government. The target audience for this book are students and researchers in Asian studies , international development studies, and public administration, as well as practitioners working in the local governments discussed.

The Religious and the Political Bryan S. Turner,2013-04-18 While the relationships between ethics and religion, and violence and politics, are of enduring interest, the interface between religion and violence is one of the most problematic features of the contemporary world. Following in the tradition of Max Weber's historical and comparative study of religions,

this book explores the many ways in which religion and politics are both combined and separated across different world religions and societies. Through a variety of case studies including the monarchy, marriage, law and conversion, Bryan S. Turner explores different manifestations of secularization, and how the separation of church and state is either compromised or abandoned. He considers how different states manage religion in culturally and religiously diverse societies and concludes with a discussion of the contemporary problems facing the liberal theory of freedom of religion. The underlying theoretical issue is the conditions for legitimacy of rule in modern societies experiencing global changes.

Routledge Handbook of Global Citizenship Studies Engin Isin, Peter Nyers, 2014-06-27 Citizenship studies is at a crucial moment of globalizing as a field. What used to be mainly a European, North American, and Australian field has now expanded to major contributions featuring scholarship from Latin America, Asia, Africa, and the Middle East. The Routledge Handbook of Global Citizenship Studies takes into account this globalizing moment. At the same time, it considers how the global perspective exposes the strains and discords in the concept of 'citizenship' as it is understood today. With over fifty contributions from international, interdisciplinary experts, the Handbook features state-of-the-art analyses of the practices and enactments of citizenship across broad continental regions (Africas, Americas, Asias and Europes) as well as deterritorialized forms of citizenship (Diasporicity and Indigeneity). Through these analyses, the Handbook provides a deeper understanding of citizenship in both empirical and theoretical terms. This volume sets a new agenda for scholarly investigations of citizenship. Its wide-ranging contributions and clear, accessible style make it essential reading for students and scholars working on citizenship issues across the humanities and social sciences.

Asian Yearbook of International Law, Volume 28 (2022) ,2024-12-02 Launched in 1991, the Asian Yearbook of International Law is a major internationally-refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective. It is published under the auspices of the Foundation for the Development of International Law in Asia (DILA) in collaboration with DILA-Korea, the Secretariat of DILA, in South Korea. When it was launched, the Yearbook was the first publication of its kind, edited by a team of leading international law scholars from across Asia. It provides a forum for the publication of articles in the field of international law and other Asian international legal topics. The objectives of the Yearbook are two-fold: First, to promote research, study and writing in the field of international law in Asia; and second, to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues. Each volume of the Yearbook contains articles and shorter notes; a section on Asian state practice; an overview of the Asian states' participation in multilateral treaties and succinct analysis of recent international legal developments in Asia; a bibliography that provides information on books, articles, notes, and other materials dealing with international law in Asia; as well as book reviews. This publication is important for anyone working on international law and

international relations.

Security-Based Approach to Development Upali M. Sedere, 2005 Security Based Approach to Development (SBA) is a new vision to development by addressing security and development issues simultaneously. It merges the global security issues with the Rights Based and Needs Based approaches. The book provides an in-depth analysis of Identity and Power. In today's context identity and security issues are two sides of the coin. SBA has recognized the issue of 'personal identification' as a pre-requisite to empowerment. Analysis attributes the deteriorating law-and-order, rigged elections, corruption, socioeconomic disparity, harboring of terrorists, lack of transparency and poor governance to lack of personal identification systems. The book stresses that unless the development investments and insecurity issues are addressed simultaneously the global development agenda will be further delayed.

The Rohingya Crisis Kawser Ahmed, Helal Mohiuddin, 2019-12-16 Myanmar's security forces have conducted clearance operations in the Rakhine State since August 2017, driving a mass exodus of ethnic Rohingyas to neighboring Bangladesh. In *The Rohingya Crisis: Analyses, Responses, and Peacebuilding Avenues*, Kawser Ahmed and Helal Mohiuddin address core questions about the conflict and its global and regional significance. Ahmed and Mohiuddin identify the defining characteristics of Rohingya identity, analyze the conflict, depict the geo-economic and geo-political factors contributing to the conflict, and outline peacebuilding avenues available for conflict transformation at the macro-, meso-, and micro-level. This book is recommended for students and scholars of anthropology, sociology, peace and conflict studies, political science, and Asian studies.

The World Bank Legal Review, Volume 7 Financing and Implementing the Post-2015 Development Agenda Frank Fariello, Laurence Boisson de Chazournes, Kevin E. Davis, 2016-09-06 The newly adopted post-2015 development agenda is centered on 17 sustainable development goals to be reached by 2030. This volume of the World Bank Legal Review looks at how law and justice systems can support the financing and implementation of these goals, including the role of the rule of law and economic and social rights. The contributors, including legal scholars, development practitioners, and financial experts, analyze the goals, explore ways in which they can be achieved, and examine ways that recent relevant law and justice programs have worked. A wide array of topics are covered, from the legal aspects of collecting and monitoring vital data, to improving legal identity programs, to creating innovative health care regulation, to legal and judicial reform, to providing private sector financing of public education projects to the provision of global public goods. Additionally, a special section on Europe looks at financial crisis management, enforcement of court decisions and the workings of the European Court of Justice. The opportunities and challenges of the 2030 agenda are many. This volume looks at both from multiple perspectives, demonstrating how sustainable development can go forward in a way in which everyone benefits.

Recounting the Memories of Bangladesh's Liberation War Smruti S. Pattanaik, 2024-02-08 This book encapsulates the creation of Bangladesh with stories of some of those who made it happen—from the perspectives of people who fought for recognition of Bangla as one of the state languages of Pakistan, those who brought the stories of war to life as it progressed through the Swadhin Bangla Betar Kendro, operations by valiant military men, sacrifices of Birangonas (women of valour) whose contribution to the liberation of Bangladesh has often been neglected, martyrs who laid down their lives for the birth of the nation, and those who worked among the freedom fighters and refugees and kept their morale high. The emergence of Bangladesh in 1971 shaped both the nation and its narratives that revolved around partition of the subcontinent earlier in 1947. The history of Bangladesh was rewritten from the people's perspective. The struggle of individuals and families who contributed to the liberation of Bangladesh is etched in blood and it is but natural that their perspectives would inform those interested in studying the history of liberation in a larger context. More than fifty years have passed since Bangladesh was liberated. Yet stories of individual suffering, sacrifices and contributions illustrate how people endured the repression inflicted by the Pakistan Army on them and yet fought gallantly. Three million were killed, 2 million were raped and 10 million became refugees in India. Bangladesh's liberation war also represents the struggle of a people to preserve their culture and identity. This book captures all these and much more, bringing in reminiscences of what 1971 represented to those who contributed directly to the war of liberation. The book will be of interest to scholars and researchers of politics and international relations, partition studies, South Asian studies and refugee and diaspora studies. The chapters in this book were originally published in Strategic Analysis.

International Handbook of Disaster Research Amita Singh, 2023-09-30 This handbook is a comprehensive source of information, analysis and directions in disaster studies. It goes beyond the oft-explored issues of management and science related to the topic and explores policies, governance, law and decision-making combined with the processes of implementation and enforcement, all the while integrating the latest science and technology updates related to the topic, such as artificial intelligence and early warning systems. It brings together studies which relate to sociology, politics and institutional economics, which work under the impact of resource availability, issues of leadership and international laws. Disasters are trans-boundary and disaster studies are trans-disciplinary. It is this aspect which would form the fulcrum of contributions and present a new, refreshing and innovative design for the handbook. The transformatory pedagogy which started with the Hyogo Framework for action 2005-2015 and The Sendai Framework for Disaster Risk Reduction 2015-2030 outlines seven clear targets and four priorities for action to prevent new and reduce existing disaster risks. The four priority areas around which the book would revolve are (i) Understanding disaster risk; (ii) Strengthening disaster risk governance to

manage disaster risk; (iii) Investing in disaster reduction for resilience and; (iv) Enhancing disaster preparedness for effective response, and to Build Back Better in recovery, rehabilitation and reconstruction.
