DERECHO ADMINISTRATIVO RAFAEL I AUTOR MARTINEZ MORALES,1991

La constitucionalización del derecho administrativo. El derecho administrativo para la paz. (Tomo II) Alberto Montaña Plata,Andrés Fernando Ospina Garzón,2018-02-07 esencia misma de todo el derecho es la convivencia pacífica Sin embargo, la redundancia apunta a preguntarse cómo el Derecho administrativo puede contribuir. de la mejor manera, en la construcción de la paz para Colombia, Pero la obra resuelve otro problema: la polisemia de la paz, Por esta razón, el libro se construye en tres partes, que ponen de relieve cada una de las concepciones de la paz: como orden público (campo, ciudades, cárceles, etc.): como buenas relaciones entre la administración y los administrados (participación, simplificación de trámites, moralidad, transparencia, etc) y como respuesta eficaz a las expectativas sociales (salud, vivienda, educación, etc.). Porque el cese al fuego se negocia, pero la paz se construye, es la constitucionalización del Derecho administrativo la que ha permitido, en estos veinticinco años de vigencia de la Constitución de 1991, que podamos pensar en la construcción de las condiciones de paz para Colombia. Esta es una obra original que propone reformas importantes en todos los campos del Derecho administrativo e incluye artículos de destacados profesores colombianos y extranjeros.

El despacho aduanero en México Dra. Nohemí Bello Gallardo,2024-06-07 Una manifestación del comercio exterior en México es la entrada y salida de mercancías al y del territorio nacional. Estos actos se llevan a cabo en y por los lugares autorizados por el representante del Ejecutivo Federal. Uno de esos lugares son las aduanas, donde deben realizarse un conjunto de actos y formalidades por autoridades y particulares, conocido como despacho de mercancías. Este escrito tiene como propósito dar a conocer las distintas normativas jurídicas que son aplicables para efectuar el despacho de mercancías, así como los resultados de la investigación en donde se evidencian las ventajas y desventajas del despacho de mercancías, así como las simetrías y asimetrías que existen entre la operación aduanera y el marco normativo vigente. Este material académico y de investigación puede ser de utilidad, y favorecer el aprendizaje, a los estudiantes de licenciatura y los niveles

superiores, así como a docentes e investigadores inmersos en el entorno aduanero

Las Transformaciones de la administración pública y del derecho administrativo, las. Tomo I. Constitucionalización de la disciplina y evolución de la actividad administrativa Jorge Iván Rincón Córdoba, 2020-03-02 Las particularidades del derecho administrativo y de la administración pública como objeto de estudio solo pueden comprenderse si se observa su constante evolución. Esta obra aborda precisamente las transformaciones de estos conceptos, que se enmarcan en una dialéctica constante entre lo tradicional y lo nuevo, pues el obrar administrativo responde a unas exigencias históricas, económicas y políticas concretas, pero a su vez solo puede comprenderse si se es consciente de las construcciones teóricas que han ayudado a su mejor comprensión. Así las cosas, es importante establecer la forma como el derecho administrativo se relaciona con otras disciplinas jurídicas y no jurídicas, la concepción de la administración desde una dimensión orgánica, y cómo las diferentes actividades que ésta asume han evolucionado para responder a los retos actuales que se generan con las nuevas tecnologías, la incertidumbre, las dinámicas del mercado y los fenómenos de internacionalización y globalización.

Análisis económico del derecho del comercio exterior de México Miguel Ángel Medina Romero, 2025-04-11 El campo interdisciplinario del derecho y la economía constituye un sólido referente analítico que está contribuyendo a entender mejor el papel de las instituciones jurídicas en el desarrollo económico así el impacto que las normas legales tienen en el comportamiento de las personas. El propósito de este libro es plantear un análisis económico del derecho, desarrollando aplicaciones concretas en el ámbito del derecho del comercio exterior de México. ¿En qué consiste el análisis económico del derecho del comercio exterior de México, y cuáles son sus fundamentos teóricos, bases metodológicas y utilidad? El supuesto contenido en esta obra refiere que este tipo de análisis apunta a que el desempeño del comercio exterior de México y, por tanto, la influencia de éste sobre la actividad económica general gravitan en la pertinencia y eficacia de su marco legal. En consecuencia, el derecho del comercio exterior constituye el fundamento de las transacciones y movimientos comerciales, lo que lo convierte en una base fundamental del crecimiento económico de México. El análisis económico del derecho, en tanto marco teórico-conceptual y metodológico propuesto, permite avanzar un gran trecho en el entendimiento de que muchas instituciones legales están constituidas sobre una lógica económica, por lo que se torna factible, pertinente y útil estudiar económicamente el marco jurídico en aras de avanzar en el entendimiento del papel que efectivamente juegan las normas comerciales en el sistema económico. Y en esa tarea, precisamente, la presente obra ofrece una útil contribución, por lo que se espera que esta investigación pueda servir como referencia a abogados, economistas, administradores, legisladores y analistas de políticas, entre otros profesionistas y estudiosos en general, para comprender, de una manera accesible, el desarrollo del análisis económico del derecho del comercio exterior en México. La motivación de la decisión en vía administrativa y en vía judicial Édgar José Moya Millán,2020-02-01 El derecho a la tutela judicial efectiva comprende el derecho de los justiciables a obtener una decisión fundada en derecho, así como el derecho a conocer las razones de las decisiones, sean estas en sede administrativa o judicial, esto es, una decisión motivada. El justiciable o el administrado tienen la posibilidad de considerar que la solución que se le ha dado al caso concreto cumple con el análisis interpretativo racional del ordenamiento jurídico y que no es producto o consecuencia de la arbitrariedad del Juez o del ente gubernativo, según sea el caso. El presente trabajo tiene como objeto hacer un análisis sobre la motivación de la decisión en vía administrativa y en vía judicial, como un derecho a la tutela judicial del justiciable, consagrado en legislaciones y en Cartas Políticas Fundamentales; mediante el desarrollo de este tema se pretende dar un pequeño aporte a los Jueces, abogados, estudiantes de derecho, funcionarios de la administración pública y justiciables. Derecho administrativo estructural Andrés Garrido del Toral,2002 Es un trabajo que posee lógica y estructura adecuada; inicia con interesantes consideraciones sobre Administración Pública y Derecho Administrativo, en especial en cuanto a las correspondencias entre una y otra; para dar paso a señalar los efectos del federalismo en la Administración Pública. Describe y analiza las formas de organización administrativa en México, la centralizada y la desconcentrada, que el autor llama intermedia y la descentralizada.

La Contratación Pública Internacional José Antonio Moreno Molina ,Rodolfo Cancino Gómez,2018-03-16 One of the areas that best reflect the process of training, development and consolidation of a global administrative law is, without any

doubt, that of public procurement. In effect, public contracts have been subject in recent years to important legislation and international agreements, as well as to the jurisprudence of bodies with international jurisdiction that have established general principles, and to administrative actions, among others, to settle disputes between States or other parties in dispute. The book analyzes this novel as important international law of public procurement and the rules that establish the WTO GPA, the Model Law of the United Nations or the rules of the World Bank and the OECD, as well as trade agreements that negotiate and subscribe the states so that their public and private companies can have access to the markets of goods and services of other states. Public procurement in the European Union-Mexico Free Trade Agreement (TLCUEM) is analyzed and, in addition, Mexican law and European Union law on public contracts, which is already in the fourth generation of norms in the matter, that have come to culminate an evolution that has consecrated a very complete set of substantive and procedural rules that discipline so much the phases of preparation and adjudication of the public contracts as those of execution and resolution of the same. The Directive of the European Union 2014/24 on public procurement contemplates innovative measures in order to simplify, modernize and improve the efficiency of the rules and contractual procedures and its forecasts aim that buyers use better public contracts in support of objectives common social issues, such as protecting the environment, promoting innovation and social inclusion. In this regard, it should be noted that the recommendation of the Commission of the European Union 2017/1805, of 3 October 2017, on the professionalization of public procurement, obliges all Member States to develop and implement long-term professionalization strategies term for public procurement, adapted to their needs, resources and administrative structure. Given the new scheme of international public procurement, all countries must adopt and replicate these policies of training, training, updating and specialization. of the legal operators of the public administration.

The Mexican Legal System Francisc Avalos, 1992-05-26 This reference guide to the laws and legal literature of Mexico has been designed carefully by a reference librarian for researchers who do not read or speak Spanish. This basic sourcebook provides answers to the questions that are asked most frequently: Which is the relevant code? Where can the text of the code be found? What secondary material is available? Which material is available in English? This up-to-date guide should be useful as a reference in college, university, law, government, and public libraries and in companies that do business with Mexico. It could also be used in courses dealing with Mexican law and business. An introduction briefly describes Mexico's legal system and provides some historical background. Then the bibliography points to primary and secondary material of importance and is annotated partially. Entries are organized under forty-one subject categories with subdivisions pointing to the laws, the sources for the text of the laws, secondary materials from periodicals, and books and monographs. All Spanish

titles are given first in Spanish and then in English. An appendix gives a directory of publishers. Author and subject indexes are included.
