Postapocalyptic Fiction and the Social Contract Claire P. Curtis, 2010-07-17 Postapocalyptic Fiction and the Social Contract: 'We'll Not Go Home Again' provides a framework for our fascination with the apocalyptic events. The popular appeal of the end of the world genre is clear in movies, novels, and television shows. Even our political debates over global warming, nuclear threats, and pandemic disease reflect a concern about the possibility of such events. This popular fascination is really a fascination with survival: how can we come out alive? And what would we do next? The end of the world is not about species death, but about beginning again. This book uses postapocalyptic fiction as a terrain for thinking about the state of nature: the hypothetical fiction that is the driving force behind the social contract. The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian, a Lockean, or a Rousseauian lens, including *Lucifer's Hammer* by Larry Niven and Jerry Pournelle, *Alas, Babylon* by Pat Frank, *Malevil* by Robert Merle, and *Into the Forest* by Jean Hegland. The latter half of the book examines Octavia Butler's postapocalyptic Parable series in which a new kind of social contract emerges, one built on the fact of human dependence and vulnerability.

Postapocalyptic Fantasies in Antebellum American Literature John Hay, 2017-10-05 This book examines the widespread use of postapocalyptic fantasies in American literary texts in the early nineteenth century.

Contemporary Women's Post-Apocalyptic Fiction Susan Watkins, 2020-02-29 This book examines how contemporary women novelists have successfully transformed and rewritten the conventions of post-apocalyptic fiction. Since the dawn of the new millennium, there has been an outpouring of writing that depicts the end of the world as we know it, and women writers are no exception to this trend. However, the book argues that their fiction is distinctive. Contemporary women's work in this genre avoids conservatism, a nostalgic mourning for the past, and the focus on restoring what has been lost, aspects key to much male authored apocalyptic fiction. Instead, contemporary women writers show readers the ways in which patriarchy and neo-colonialism are intrinsically implicated in the disasters they envision, and offer qualified hope for a new beginning for society, culture and literature after an imagined apocalyptic event. Exploring science, nature and matter, the posthuman body, the maternal imaginary, time, narrative and history, literature and the word, and the post-secular, the book covers a wide variety of writers and addresses issues of nationality, race and ethnicity, as well as gender and sexuality.

The Post-Apocalyptic Novel in the Twenty-First Century H. Hicks, 2016-04-08 Since the beginning of the twenty-first

century, major Anglophone authors have flocked to a literary form once considered lowbrow 'genre fiction': the post-apocalyptic novel. Calling on her broad knowledge of the history of apocalyptic literature, Hicks examines the most influential post-apocalyptic novels written since the beginning of the new millennium, including works by Margaret Atwood, David Mitchell, Cormac McCarthy, Jeanette Winterson, Colson Whitehead, and Paolo Bacigalupi. Situating her careful readings in relationship to the scholarship of a wide range of historians, theorists, and literary critics, she argues that these texts use the post-apocalyptic form to reevaluate modernity in the context of the new century's political, economic, and ecological challenges. In the immediate wake of disaster, the characters in these novels desperately scavenge the scraps of the modern world. But what happens to modernity beyond these first moments of salvage? In a period when postmodernism no longer defines cultural production, Hicks convincingly demonstrates that these writers employ conventions of post-apocalyptic genre fiction to reengage with key features of modernity, from historical thinking and the institution of nationhood to rationality and the practices of literacy itself.

American Cities in Post-Apocalyptic Science Fiction Robert Yeates, 2021-11-15 Visions of the American city in post-apocalyptic ruin permeate literary and popular fiction, across print, visual, audio and digital media. *American Cities in Post-Apocalyptic Science Fiction* explores the prevalence of these representations in American culture, drawing from a wide range of primary and critical works from the early-twentieth century to today. Beginning with science fiction in literary magazines, before taking in radio dramas, film, video games and expansive transmedia franchises, Robert Yeates argues that post-apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues. Examining how the post-apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century, this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible. Chapters present media-specific analyses of these texts, situating them within their historical contexts and the broader history of representations of urban ruins in American fiction. Original in its scope and cross-media approach, *American Cities in Post-Apocalyptic Science Fiction* both illuminates little-studied texts and provides provocative new readings of familiar works such as *Blade Runner* and *The Walking Dead*, placing them within the larger historical context of imaginings of the American city in ruins.

The Child in Post-Apocalyptic Cinema Debbie Olson, 2015-03-06 The child in many post-apocalyptic films occupies a unique space within the narrative, a space that oscillates between death and destruction, faith and hope. *The Child in Post-Apocalyptic Cinema* interrogates notions of the child as a symbol of futurity and also loss. By exploring the ways children function discursively within a dystopian framework we may better understand how and why traditional notions of childhood are repeatedly tethered to sites of adult conflict and disaster, a connection that often functions to reaffirm the "rightness" of past systems of social order. This collection features critical articles that explore the role of the child character in post-

apocalyptic cinema, including classic, recent, and international films, approached from a variety of theoretical, methodological, and cultural perspectives.

Apocalypse Revisited: A Critical Study on End Times Melis Mulazimoglu Erkal, 2019-01-04 This volume was first published by Inter-Disciplinary Press in 2015. Mankind's fascination with the Apocalypse is not new. Starting from the Hindu notions of Kali Yuga to 2012 Phenomenon, Apocalypse has been a part of our lives in the form of a cultural formation, natural threat, fictional entity, ideological construct, political fear or catastrophic end. Apocalyptic discourses underline how one culture perceives and reflects pain, trauma, loss and fear as well as indicating the ability to face and get ready for disaster. This inter-disciplinary and academic study aims to discuss the end of the world in multiple contexts where the popularity of apocalypse always reigns. In the scope of this work, readers will see the multi-dimensional nature of the Apocalypse referring more to progress rather than end or beginning, an in-between situation, a becoming, a formation; local yet global phenomenon; a product of fantasy plus a constructed reality; both an object of consumption and life consuming mechanism, an ideological presence in the absence of larger meta-narratives.

Post-Apocalyptic Culture Teresa Heffernan, 2008-12-04 In *Post-Apocalyptic Culture*, Teresa Heffernan poses the question: what is at stake in a world that no longer believes in the power of the end? Although popular discourse increasingly understands apocalypse as synonymous with catastrophe, historically, in both its religious and secular usage, apocalypse was intricately linked to the emergence of a better world, to revelation, and to disclosure. In this interdisciplinary study, Heffernan uses modernist and post-modernist novels as evidence of the diminished faith in the existence of an inherently meaningful end. Probing the cultural and historical reasons for this shift in the understanding of apocalypse, she also considers the political implications of living in a world that does not rely on revelation as an organizing principle. With fascinating readings of works by William Faulkner, Don DeLillo, Ford Madox Ford, Toni Morrison, E.M. Forster, Salman Rushdie, D.H. Lawrence, and Angela Carter, *Post-Apocalyptic Culture* is a provocative study of how twentieth-century culture and society responded to a world in which a belief in the end had been exhausted.

Apocalyptic Narratives Hauke Riesch,2021-04-30 Linking literature from the sociological study of the apocalyptic with the sociology and philosophy of science, *Apocalyptic Narratives* explores how the apocalyptic narrative frames and provides meaning to contemporary, secular and scientific crises focussing on nuclear war, general environmental crisis and climate change in both English- and German-speaking cultural contexts. In particular, the book will use social identity and representation theories, the sociologies of risk and Lakatos' philosophy of science to trace how our cultural background and

apocalyptic tradition shape our wider interpretation, communication and response to contemporary global crisis. The set of environmental and other challenges that the world is facing is often framed in terms of apocalyptic or existential crisis. Yet apocalyptic fears about the near future are nothing new. This book looks at the narrative connections between our current sense of crisis and the apocalyptic. The book will be of interest to readers interested in environmental crisis and communication, the sociology and philosophy of science, and existential risk, but also to readers interested in the apocalyptic and its contemporary relevance.

Breaking the Curse Alex DiFrancesco, 2024-06-04 A tour de force of narrative nonfiction, a reimagining of the self-help genre, and a brave memoir about mystical forces, trauma, trans life, and how we must heal ourselves to survive. For readers of memoirs by Elliot Page (Pageboy) and Elissa Washuta (White Magic), and fans of writers like Carmen Maria Machado, Samantha Hunt, and Chavisa Woods. In *Breaking the Curse*, Alex DiFrancesco takes their own crushing experiences of assault, addiction, and transphobic violence as the starting point for a journey to self-reclamation. Reeling in the aftermath of a rape that played out as painfully in public as in private, DiFrancesco begins to pursue spirituality in earnest, searching for an ancestral connection to magic as a form of protection and pathway to transformation. Propelled by a knowledge of the spiritual role of the transgender person in society, Alex winds through Cleveland and Brooklyn and Philly—from rehab and pagan AA meetings and friends' spare mattresses to tarot readers and books about Italian witchcraft to daily ritual, prayer, altar-making, and folk tradition. In so doing, they begin to not only piece together a way to heal but also call into existence a life that finally feels worth living. *Breaking the Curse* weaves spells, blasphemous novenas, and personal memories to imagine a new memoir form. Speaking about trauma does not always take its power away, DiFrancesco reminds us, but one can write their truth so that the hurt no longer fills the whole horizon. 'I see this world as few others do,' writes Alex DiFrancesco, and thank goodness for that. In their memoir, *Breaking the Curse*, DiFrancesco offers readers a mesmerizing vision of this world and the workings of trauma, gender identity and magic within it. A spell-binding work. —Molly Roden
