Roger Collins

Spain Roger Collins, 1998 Spain's opulent mixture of cultures and religions have left it rich with notable sites for the traveler to explore. Roger Collins presents a clear guide to over 100 major Roman, Celtiberian, Islamic, and Christian archaeological areas of interest dating from the Roman Empire to the eleventh century. From the Arab Walls of Madrid to the Roman hippodrome in Toledo, and from the palace complex of Seville to the Islamic fortress in Malaga, Spain is a thorough and convenient guide. Arranged alphabetically, and with chronological and geographical appendices for quick and easy reference, this illustrated guide also includes essential information on forums, temples, theaters, villas, castles, and churches. An introduction surveys Spain's history from the Neolithic period to the Middle Ages, and extensive descriptions of sites help make learning about or traveling to Spain comprehensible and enjoyable.

Church, State, Vellum, and Stone Therese Martin, Julie Harris, 2005-12-01 The sixteen essays in this volume were written to honor John Williams's contributions to the study of medieval Spanish art and architecture. Contributors from the fields of Art History, History, and Archaeology were chosen to demonstrate Williams's wide-ranging influence as scholar and teacher. Thus, the collection represents current research by scholars from five countries, providing an interdisciplinary, international, and even intergenerational view of the work being done in Spanish medieval History and Art History today. With contributions by Achim Arbeiter, Simon Barton, Ann Boylan, James D'Emilio, Angela Franco, Julie A. Harris, Peter K. Klein, Therese Martin, Eileen P. McKiernan González, Pamela Patton, David Raizman, Bernard F. Reilly, Diane Reilly, Rocío Sánchez Ameijeiras, José Luis Senra, and Kenneth B. Wolf.

Al-Andalus/España Manuela Marín, 2009 ¿Pertenece la historia de al-Andalus a la historia de España? ¿Qué relaciones cabe establecer entre ellas? Una fuerte corriente historiográfica puso el acento, en el siglo XX, en la hispanización de al-Andalus, convertido así en «España musulmana» y habitado por españoles que, por azares de la historia, eran musulmanes. En tiempos más recientes, esa tradición, de marcado carácter esencialista, se ha visto superada por interpretaciones que sitúan a al-Andalus en un contexto más definido por elementos magrebíes y orientales que por los propiamente hispánicos. En este libro se plantea una revisión de la historiografía española, francesa y portuguesa sobre la historia de al-Andalus, desde una mirada crítica que abarca otros temas igualmente centrales para la comprensión de un fenómeno histórico que ha generado y continúa generando polémica. En torno a la reivindicación o la repulsa de lo andalusí se han creado paradigmas

culturales de gran potencia, se han marcado líneas divisorias y áreas de contacto o de conflicto. Todo ello no puede eliminarse de un plumazo, o contemplarse con una mirada desdeñosa: forma parte de un pasado que todavía hoy solivianta a muchos, mientras que atrae a otros, lo que quiere decir que su actualidad sigue vigente.

The Visual Culture of al-Andalus in the Christian Kingdoms of Iberia Inés Monteira,2024-10-11 This book addresses the reception of Islamic visual culture by the northern Iberian kingdoms, by systematically comparing works of art from both sides and fleshing out their historical context. This study includes figurative and iconographic motifs, architectural forms, and even the spolia from constructions and Arabic inscriptions that were embedded in Christian buildings. The Islamic visual culture of al-Andalus was often transformed as it was recreated by Christian hands, bringing to the fore various nuances in the relationship between the two religious communities. Artistic transfer was conditioned by social coexistence between Christians and Muslims—both in the caliphate al-Andalus and in the northern realms—and military conflict. To approach the different ways in which Andalusi visual culture was received in the northern kingdoms, while embracing the vast diversity of case studies available, this book is divided into three thematic sections: Reinterpretation, Appropriation, and Artistic Transfers. This book will be of interest to scholars working in art history, visual culture, and medieval studies.

The Archaeology of Iberia Margarita Diaz-Andreu,Simon Keay,2013-12-02 For many archaeologists, Iberia is the last great unknown region in Europe. Although it occupies a crucial position between South-Western Europe and North Africa, academic attention has traditionally been focused on areas like Greece or Italy. However Iberia has an equally rich cultural heritage and archaeological tradition. This ground-breaking volume presents a sample of the ways in which archaeologists have applied theoretical frameworks to the interpretation of archaeological evidence, offering new insights into the archaeology of both Iberia and Europe from prehistoric time through to the tenth century. The contributors to this book are leading archaeologists drawn from both countries. They offer innovative and challenging models for the Paleolithic, Neolithic, Copper Age, Bronze Age, Iron Age, Roman, Early Medieval and Islamic periods. A diverse range of subjects are covered including urban transformation, the Iron Age peoples of Spain, observations on historiography and the origins of the Arab domains of Al-Andalus. It is essential reading for advanced undergraduates and those researching the archaeology of the Iberian Peninsula.

Iglesias tardoantiguas y altomedievales en la península ibérica Ma. de los Ángeles Utrero Agudo,María de los Ángeles Utrero Agudo,2006 El estudio de la arquitectura eclesiástica tardoantigua y altomedieval ha adolecido, por un lado, de una

escasa comprensión arqueológica de su construcción y, por otro, del desconocimiento del marco social, económico o geográfico en el que vio la luz. Siguiendo una metodología arqueológica en el estudio de los alzados (arqueología de la arquitectura) este libro presenta una secuencia evolutiva de las iglesias tardoantiguas y altomedievales y las sistematiza según una tipología formal y cronológica.

Toledo El País-Aguilar,2012-04-19 Toledo, nuestro patrimonio visto al detalle. La ciudad imperial ofrece sobrados motivos para una visita: sus itinerarios monumentales, sus museos, sus rincones pintorescos conservan numerosos vestigios de las tres culturas que habitaron sus calles. Y a pocos kilómetros de la capital del Estado. Esta guía acompaña al viajero por el laberinto árabe de su trazado y le muestra todo lo que no debe perderse de la ciudad. Proporciona, además, información práctica sobre: * Dónde comer y alojarse * Artesanía * Excusiones por los alrededores * Oferta cultural más relevante de la ciudad

Early Medieval Europe, 300-1000 Roger Collins,2017-09-16 In this classic textbook history of early medieval Europe, Roger Collins provides a succinct account of the centuries during which Europe changed from being an abstract geographical expression to a new culturally coherent, if politically divided, entity. This comprehensive new edition explores key topics such as the fall of the Roman Empire, the rise of both Christianity and Islam, the Vikings, and the expansion of Latin Christian culture into eastern Europe. Clear and insightful, this is an invaluable guide to an important era in the history of both Europe and the wider world. This is an ideal companion for students of History or European Studies taking modules on Early Medieval Europe or Europe in Late Antiquity. In addition, this is a useful reference work for postgraduate students, scholars and teachers of early medieval Europe. New to this Edition: - Fully updated, augmented and revised to take account of the latest scholarship and research on all aspects of the period it covers - Greater emphasis given to social and economic considerations, the peripheries of Europe, the rise and impact of Islam, art, architecture, books and the spread of learning - Extensively rewritten to make it more accessible for students

Queen as King Therese Martin,2006-10-31 Queen as King traces the origins of San Isidoro in León as a royal monastic complex, following its progress as the site changed from a small eleventh-century palatine chapel housed in a double monastery to a great twelfth-century pilgrimage church served by Augustinian canons. Its most groundbreaking contribution to the history of art is the recovery of the lost patronage of Queen Urraca (reigned 1109-1126). Urraca maintained yet subverted her family's tradition of patronage on the site: to understand her history is to hold the key to the art and architecture of San Isidoro. This new approach to San Isidoro and its patronage allows a major Romanesque monument to be understood more fully than before.

Caliphs and Kings Roger Collins,2014-01-28 CALIPHS AND KINGS: SPAIN, 796-1031 The last twenty-five years have

seen a renaissance of research and writing on Spanish history. Caliphs and Kings offers a formidable synthesis of existing knowledge as well as an investigation into new historical thinking, perspectives, and methods. The nearly three-hundred-year rule of the Umayyad dynasty in Spain (756-1031) has been hailed by many as an era of unprecedented harmony and mutual tolerance between the three great religious faiths in the Iberian Peninsula - Christianity, Judaism, and Islam - the like of which has never been seen since. And yet, as this book demonstrates, historical reality defies the myth. Though the middle of the tenth century saw a flowering of artistic culture and sophistication in the Umayyad court and in the city of Córdoba, this period was all too shortlived and localized. Eventually, twenty years of civil war caused the implosion of the Umayyad regime. It is through the forces that divided - not united - the disparate elements in Spanish society that we may best glean its nature and its lessons. Caliphs and Kings is devoted to better understanding those circumstances, as historian Roger Collins takes a fresh look at certainties, both old and new, to strip ninth- and tenth-century Spain of its mythic narrative, revealing the more complex truth beneath.

Historia de la arquitectura española Bernard Bevan, 2021-05-01 Este libro se publicó originalmente en inglés en 1938 y su primera versión española apareció en 1950. La presente edición refundida pretende volver a poner a disposición de estudiantes y estudiosos uno de los textos más interesantes que se han escrito sobre la historia de la arquitectura española. Fruto de un estudio directo no sólo de las obras maestras más populares, sino de los pequeños edificios poco conocidos, el libro contiene un brillante compendio de los conocimientos que se tenían a finales e los años 1930 sobre la arquitectura española, así como una visión crítica profunda y original. El historiador británico dedica el merecido espacio a los monumentos más destacados de la arquitectura musulmana, a las catedrales castellanas de estilo francés y a las obras de Juan de Herrera; y también estudia con especial detenimiento los períodos prerrománico, románico y mudéjar, las majestuosas catedrales de Cataluña, las grandes fortalezas que dieron nombre a Castilla, el estilo plateresco y el barroco en sus diversas facetas. Es de elogiar la intención del autor al buscar la conexión entre la arquitectura y la historia de España, el afán de rodear la obra de arte de su ambiente propicio, de su circunstancia. En este aspecto, el libro es ejemplar y logra hacernos vivir la arquitectura dentro de su contexto, extrayendo de los hechos históricos las motivaciones artísticas, por lo que nos ha dejado una pintura clara y sencilla de la arquitectura dentro de la historia española. Esta edición incluye la nota necrológica del autor escrita por su colega John Bury, una bibliografía ampliada por el profesor Fernando Vela Cossío y un epílogo de la profesora Ana Esteban Maluenda sobre las vicisitudes de la edición original. Las dos últimas aportaciones forman parte de las labores de investigación del Departamento de Composición Arquitectónica de la ETSAM, que ha colaborado en la edición y publicación de este libro.

Sacra loca toletana J. Carlos Vizuete Mendoza, Julio Martín Sánchez, 2008 El Seminario de Identidad, Cultura y Religiosidad Popular de la facultad de Humanidades de Toledo se dedica, entre otras cosas, al estudio de los espacios

sagrados. Aquí se aborda un tema tan amplio como el del espacio sagrado limitado a un solo lugar, la ciudad de Toledo y su entorno, analizado desde el punto de vista de la historia, la arqueología, la historia del arte y la antropología, a cargo de especialistas en el tema, de la ciudad y de fuera de ella-

Geometría y proporción en la arquitectura prerrománica asturiana Lorenzo Arias, 2008 La presente obra estudia un aspecto monográfico de la Arquitectura Prerrománica Asturiana (s. IX-X). Supone una reflexión sobre la forma arquitectónica del Prerrománico Asturiano, desde el ángulo de la relevante importancia que tienen las ideas de orden y proporción como fuentes de belleza, así como su sujeción a concepciones geométricas y a reglas de modulación y relaciones petrológicas.

El puente del tiempo César Morales, 2014-01-22 Un viaje que atravesará el tiempo y el espacio. Madrid, 2012. Raquel, una joven arqueóloga, deberá descifrar un enigmático mensaje escrito hace mil trescientos años para esclarecer las causas del accidente en el que ha muerto un compañero de excavación. Ayudada por Berta, su mejor amiga, indagará en antiguos conocimientos en una búsqueda desesperada por descubrir la verdad. Durante esta investigación, su relación de amistad se pondrá a prueba cuando se cuele en sus vidas Pablo, un desconocido con extrañas intenciones. Mientras, una poderosa organización heredera de una antigua tradición sefardí hará todo lo posible para impedírselo. Hispania, siglo VIII. Un niño hispano, un joven bereber, un médico judío y un noble abad visigodo, custodios de un maravilloso objeto del que depende el futuro de un reino, huyen de la ira del emir Muza ibn Nusair. Durante su fuga, el heterogéneo grupo será testigo de cómo las huestes árabes y norteafricanas se apoderan de la Península, algo que cambiará el destino de sus habitantes para siempre. César Morales construye, con la magia de los antiguos alquimistas, una narración apasionante, una combinación perfecta de historia, arqueología, astrofísica y leyenda con una novedad: el lector más curioso puede acompañar a los protagonistas de esta novela y vivir su propia aventura a través de los códigos QR que se incluyen en estas páginas. Una búsqueda paralela por encontrar un tesoro maldito codiciado desde hace siglos. Reseñas: « El puente del tiempo está dispuesta a revolucionar el mundo editorial. Un libro de aventuras nacido de la pasión por viajar y conocer las huellas del pasado». Natalia Garcés, Spend in Magazine. «Apasionado por la historia y viajero, César Morales ha escrito su novela con un planteamiento interactivo, ya que propone a los lectores una nueva forma de leer la novela y de disfrutar con ella. Fernando Caballero, El Norte de Castilla. «Viajes e historia combinados con aventura e intriga. Todos estos ingredientes son los ejes sobre los que el economista palentino César Morales -ahora también escritor- ha construido su primera novela, titulada El puente del tiempo». Laura Burón, Diario Palentino. «Toledo, Nueva York, Amberes o Bruselas y enclaves como Santa María de Melque o la ciudad perdida de Vascos... Un viaje hacia el saber que terminará por transformar a sus protagonistas». María

Fernández, ABC. «Una trama en la que encontramos enigmas, asesinatos, historia, leyendas, arqueología y astrofísica. Un entretenido cóctel que se completa con la novedosa propuesta de lectura». Blog Me gustan los libros
