*Pie in the Sky Successful Baking at High Altitudes* Susan G. Purdy, 2005-05-31 Do your cakes collapse, soufflés slump, cookies crumble, and fruit pies fail? For those living at high altitude, baking can be a challenge at best, or a total disaster. More than thirty-four of the fifty United States, plus many Canadian regions, have cities and towns at altitudes of more than 2,500 feet, yet there are hardly any cookbooks that address the special needs of these local bakers. Until now. Award-winning cookbook author Susan G. Purdy has finally written the first-ever foolproof guide to high-altitude baking. Purdy has actually gone there and done that, staying as long as it took to bake these recipes to perfection at five different locations -- and elevations -- across the country. In *Pie in the Sky*, Purdy leaves behind old conversion tables, disproves many oft-repeated calculations and adjustments, and presents reliable recipes in their entirety for each altitude. She takes out the tinkering and guarantees success at any height. In addition, she explains the hows and whys, gives tips and hints for problems specific to every altitude, and generally demystifies the subject of atmospheric obstacles that cause favorite recipes to flop. Whether they live in the eastern mountains or the far west, in Boston, Massachusetts; Boone, North Carolina; or Santa Fe, New Mexico; home bakers as well as experienced chefs will love the wide range of easy-to-make treats including Mile-High Lemon Meringue Pie, Coconut Cake with Coconut Icing, Paradise Peak Chocolate Soufflé, Vail Lemon-Poppy Seed Loaf, Celestial Challah, and Sour Cream Streusel Coffee Cake. Every recipe was tested at sea level (Connecticut), 3,000 feet (North Carolina and Virginia), 5,000 feet (Idaho and Colorado), 7,000 feet (New Mexico), and 10,000 feet (Colorado) and can be used at these elevations or any points in between.

**Pie in the Sky** Remy Lai, 2019-05-14 A poignant, laugh-out-loud illustrated middle-grade novel about an eleven-year-old boy's immigration experience, his annoying little brother, and their cake-baking hijinks! Perfect for fans of Raina Telgemeier and Gene Luen Yang! A Parents Magazine Best Kids Book of the Year! A New York Public Library Best Book of the Year! An NPR Best Book of the Year! A Horn Book Best Book of the Year! A Kirkus Best Book of the Year! Recipient of FIVE starred reviews! *Pie in the Sky* is like enjoying a decadent cake . . . heartwarming and rib-tickling. —Terri Libenson, bestselling author of *Invisible Emmie* When Jingwen moves to a new country, he feels like he's landed on Mars. School is torture, making friends is impossible since he doesn't speak English, and he's often stuck looking after his (extremely irritating) little brother,

Yanghao. To distract himself from the loneliness, Jingwen daydreams about making all the cakes on the menu of Pie in the Sky, the bakery his father had planned to open before he unexpectedly passed away. The only problem is his mother has laid down one major rule: the brothers are not to use the oven while she's at work. As Jingwen and Yanghao bake elaborate cakes, they'll have to cook up elaborate excuses to keep the cake making a secret from Mama. In her hilarious, moving middle-grade debut, Remy Lai delivers a scrumptious combination of vibrant graphic art and pitch-perfect writing that will appeal to fans of Shannon Hale and LeUyen Pham's *Real Friends*, Kelly Yang's *Front Desk*, and Jerry Craft's *New Kid*. A Junior Library Guild selection! Seamlessly mixes together equal parts of humor, loss, identity, discovery, and love to create a delicious concoction of a story. . . illustrated beautifully with Lai's insightful drawings. —Veera Hiranandani, Newbery Honor-winning author of *The Night Diary* \* The humor [is] akin to that of Jeff Kinney's popular "Wimpy Kid" series . . . the perfect mixture of funny and emotionally resonant. —School Library Journal, starred review \* "Perfect for fans of Gene Luen Yang and Victoria Jamieson." —Shelf Awareness, starred review This title has common core connections.

**BakeWise** Shirley O. Corriher, 2008-10-28 The James Beard Award-winning, bestselling author of CookWise and KitchenWise delivers a lively and fascinating guide to better baking through food science. Follow kitchen sleuth Shirley Corriher as she solves everything about why the cookie crumbles. With her years of experience from big-pot cooking at a boarding school and her classic French culinary training to her work as a research biochemist at Vanderbilt University School of Medicine, Shirley looks at all aspects of baking in a unique and exciting way. She describes useful techniques, such as brushing your puff pastry with ice water—not just brushing off the flour—to make the pastry higher, lighter, and flakier. She can help you make moist cakes; shrink-proof perfect meringues; big, crisp cream puffs; amazing pastries; and crusty, incredibly flavorful, open-textured French breads, such as baguettes. Restaurant chefs and culinary students know Shirley from their grease-splattered copies of CookWise, an encyclopedic work that has saved them from many a cooking disaster. With numerous “At-a-Glance” charts, BakeWise gives busy people information for quick problem solving. BakeWise also includes Shirley's signature “What This Recipe Shows” in every recipe. This scientific and culinary information can apply to hundreds of recipes, not just the one in which it appears. BakeWise does not have just a single source of knowledge; Shirley loves reading the works of chefs and other good cooks and shares their tips with you, too. She applies not only her expertise but that of the many artisans she admires, such as famous French pastry chefs Gaston Lenôte and Chef Roland Mesnier, the White House pastry chef for twenty-five years; and Bruce Healy, author of Mastering the Art of French Pastry. Shirley also retrieves lost arts from experts of the past such as Monroe Boston Strause, the pie master of 1930s America. For one dish, she may give you techniques from three or four different chefs plus her own touch of science—“better baking through chemistry.” She adds facts such as the right temperature, the right mixing speed, and the right mixing time for the absolutely most stable egg foam, so you can create a light-as-air génoise every time. Beginners can cook from BakeWise to learn exactly what they are doing and why. Experienced bakers find out why the techniques they use work and also uncover amazing pastries from the past, such as Pont Neuf (a creation of puff pastry, pâte à choux, and pastry cream) and Religieuses,

adorable “little nuns” made of puff pastry filled with a satiny chocolate pastry cream and drizzled with mocha icing. Some will want it simply for the recipes—incredibly moist whipped cream pound cake made with heavy cream; flourless fruit soufflés; chocolate crinkle cookies with gooey, fudgy centers; huge popovers; famed biscuits. But this book belongs on every baker's shelf.

*Under a Mackerel Sky* Rick Stein, 2013-09-12 'All men should strive to learn before they die what they are running from, and to, and why' Rick Stein's childhood in 1950s rural Oxfordshire and North Cornwall was idyllic. His parents were charming and gregarious, their five children much-loved and given freedom typical of the time. As he grew older, the holidays were filled with loud and lively parties in his parents' Cornish barn. But ever-present was the unpredicable mood of

his bipolar father, with Rick frequently the focus of his anger and sadness. When Rick was 18 his father killed himself. Emotionally adrift, Rick left for Australia, carrying a suitcase stamped with his father's initials. Manual labour in the outback followed by adventures in America and Mexico toughened up the naive public schoolboy, but at heart he was still lost and unsure what to do with his life. Eventually, Cornwall called him home. From the entrepreneurial days of his mobile disco, the Purple Tiger, to his first, unlikely nightclub where much of the time was spent breaking up drink-fuelled fights, Rick charts his personal journey in a way that is both wry and perceptive; engaging and witty. Shortlisted for the Specsavers National Book Awards 2013

Filled with as many evocative photographs and stories as easy-to-follow recipes, Mississippi Vegan is an ode to the transporting and ethereal beauty of the food and places you love.

**Henrietta: Promises in the Sky!** Carol F. Tuntland, 2020-05-10 Irene Henrietta Bork was born in 1917 during World War I on a homestead on the prairies of southeastern North Dakota. As the granddaughter of two immigrant families, she grew up appreciating the opportunities she had in the United States, and was always interested in history, politics, and the happenings in North Dakota. She married Fay Sanders, and together, they raised four children. One of them was Holly, who had Down syndrome. While Holly had challenges, she excelled in certain areas - and the family always pushed her to reach her potential. Irene admired Eleanor Roosevelt, Helen Hayes, Jacqueline Kennedy, Hillary Clinton, and Michelle Obama and was more liberal than conservative in her views. She was a remarkable woman interested in the world until her death at age ninety-six in 2013. Written by Irene's daughter, Carol F. Tuntland, this life story recalls the hopes, challenges, adversities, and triumphs of the first-born granddaughter of German immigrants - and also serves as an important record of what life was like from the end of World War I and into the twenty-first century.
