The Rise of the Dutch New Right Merijn Oudenampsen, 2020-09-13 In the past 20 years, a wave of right-wing populist movements has swept over Europe, changing the face of European politics. The Netherlands has been one of the more iconic countries to partake in this shift. Known internationally as an emblem of progressivism and tolerance, the country soon became a frontrunner in the revival of nationalist and anti-immigrant sentiment. This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right. The emergence of Dutch populism, this book shows, formed an integral part of a broader conservative tendency, identified as the Dutch New Right. In the US and the UK, the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of

the 1960s. The Dutch swing to the right, this book argues, formed a belated iteration of the New Right backlash that occurred overseas. This text will be essential reading for students and scholars in the fields of European Studies and Political Science, and Dutch politics and society more specifically.

Rethinking the Color Line Charles A. Gallagher, 2022-01-20 *Rethinking the Color Line* helps make sense of how race and ethnicity influence aspects of social life in ways that are often made invisible by culture, politics, and economics. Charles A. Gallagher has assembled a collection of readings that are theoretically informed and empirically grounded to explain the dynamics of race and ethnicity in the United States. Students will be equipped to confidently navigate the issues of race and ethnicity, examine its contradictions, and gain a comprehensive understanding of how race and ethnic relations are embedded in the institutions that structure their lives. User-friendly without sacrificing intellectual or theoretical rigor, the Seventh Edition has been thoroughly updated to reflect the current debates and the state of contemporary U.S. race relations.

The Tyranny of Silence Flemming Rose, 2016-05-10 Journalists face constant intimidation. Whether it takes the extreme form of beheadings, death threats, government censorship or simply political correctness—it casts a shadow over their ability to tell a story. When the Danish newspaper Jyllands-Posten published the cartoons of the prophet Muhammad nine years ago, Denmark found itself at the center of a global battle about the freedom of speech. The paper's culture editor, Flemming Rose, defended the decision to print the 12 drawings, and he quickly came to play a central part in the debate about the limitations to freedom of speech in the 21st century. In *The Tyranny of Silence*, Flemming Rose writes about the people and experiences that have influenced his understanding of the crisis, including meetings with dissidents from the former Soviet Union and ex-Muslims living in Europe. He provides a personal account of an event that has shaped the debate about what it means to be a citizen in a democracy and how to coexist in a world that is increasingly multicultural, multireligious, and multiethnic.

Authoritarianism in All its Guises Daniel Burston, Kurt Jacobsen, 2025-03-31 *Authoritarianism in All its Guises* provides an interdisciplinary assessment of contemporary experiences of authoritarianism. Drawing on psychoanalysis and critical theory, contributors from a range of academic backgrounds consider authoritarianism as it manifests in a range of movements and contexts. The chapters investigate, interrogate, and, in some cases, clash creatively and revealingly over the meanings of contemporary experiences of authoritarianism across the political spectrum. The issues raised here not only compel us to come to grips with and clarify what constitutes modern authoritarianism but also what defines the Left in this stubbornly neoliberal age. *Authoritarianism in All its Guises* will be essential reading for academics and students of psychoanalysis, political and social psychology, sociology, history, and media and cultural studies.

The Flight of the Intellectuals Paul Berman, 2010-04-27 Twenty years ago, Ayatollah Khomeini called for the assassination of Salman Rushdie—and writers around the world instinctively rallied to Rushdie’s defense. Today, according to writer Paul Berman, “Rushdie has metastasized into an entire social class”—an ever-growing group of sharp-tongued critics of Islamist extremism, especially critics from Muslim backgrounds, who survive only because of pseudonyms and police protection. And yet, instead of being applauded, the Rushdies of today (people like Ayan Hirsi Ali and Ibn Warraq) often find themselves dismissed as “strident” or as no better than fundamentalist themselves, and contrasted unfavorably with representatives of the Islamist movement who falsely claim to be “moderates.” How did this happen? In *THE FLIGHT OF THE INTELLECTUALS*, Berman—“one of America’s leading public intellectuals” (*Foreign Affairs*)—conducts a searing examination into the intellectual atmosphere of the moment and shows how some of the West’s best thinkers and journalists have fumbled badly in their efforts to grapple with Islamist ideas and violence. Berman’s investigation of the history and nature of the Islamist movement includes some surprising revelations. In examining Hassan al-Banna, the founder of the Muslim Brotherhood, he shows the rise of an immense and often violent worldview, elements of which survives today in the brigades of al-Qaeda and Hamas. Berman also unearths the shocking story of al-Banna’s associate, the Grand Mufti of Jerusalem, who collaborated personally with Adolf Hitler to incite Arab support of the Nazis’ North African campaign. Echoes of the Grand Mufti’s Nazified Islam can be heard among the followers of al-Banna even today. In a gripping and stylish narrative Berman also shows the legacy of these political traditions, most importantly by focusing on a single philosopher, who happens to be Hassan al-Banna’s grandson, Oxford professor Tariq Ramadan—a figure widely celebrated in the West as a “moderate” despite his troubling ties to the Islamist movement. Looking closely into what Ramadan has actually written and said, Berman contrasts the reality of Ramadan with his image in the press. In doing so, *THE FLIGHT OF THE INTELLECTUALS* sheds light on a number of modern issues—on the massively reinvigorated anti-Semitism of our own time, on a newly fashionable turn against women’s rights, and on the difficulties we have in discussing terrorism—and presents a stunning

commentary about the modern media's peculiar inability to detect and analyze some of the most dangerous ideas in contemporary society.

SIHA Journal: Women in Islam (Issue Four) SIHA SIHA,2018-12-29 Women in Islam explores the complexities of gender relations in Muslim communities in the Horn of Africa and beyond, engaging critically with the social, political and cultural challenges associated with the intersection of Islam and gender. With an eclectic selection of essays, academic papers, opinion pieces and personal narratives punctuated with poetry and art, the journal seeks to spark creative and forward-looking discussions on how to effectively improve the status of women in Muslim societies. Women in Islam is published annually by SIHA, the Strategic Initiative for Women in the Horn of Africa. The fourth issue of Women in Islam is filled with critical analysis, personal stories, and cultural highlights from the Muslim world. The theme of the dossier is women's sexuality, one of the greatest social taboos: articles in this section uncover the complex web of obsession and repression that surrounds female sexuality in Muslim cultures. Further articles address social injustice and legal reform around the world, while others highlight inspiring stories - a women's cycling club in Sudan, and how a young Somali woman followed her dream of becoming a mechanic. With poetry, reviews, and stunning artwork throughout, Women in Islam 4 is essential reading.

Reflections on Reason, Religion, and Tolerance Klass Grinell,2015-06-07 This is an attempt to reflect on Islam as it appears in the context of Fethullah Gulen's teachings, an influential Turkish-Muslim scholar who inspired a movement of education and interfaith dialogue. Grinell's extensive study of Islam and of Gulen allows him to pinpoint a unique expression of values and beliefs that could alter the typical understanding of Islam and Muslims in the West. He draws upon his previous studies of the Gulen Movement and comparatively places Gulen in a wider context of faith and society. What is the concept of knowledge in Islam as understood by Gulen? How is faith and service to people connected? Is Gulen after building a sultanate? Does the Gulen movement have a (hidden) political agenda? How traditional or modern is Gulen? These are some of the questions Grinell attempts to answer from his perspective. As a humanistic researcher on Islam, Grinell believes we definitely have something to learn from Islam.

Commitment and Complicity in Cultural Theory and Practice B. Firat,S. De Mul,S. Van Wichelen,Sarah De Mul,Sonja Van Wichelen,2009-05-21 An international line-up of scholars examines the role of the intellectual in the twenty-first century, looking at the gap between contemporary cultural theory and cultural practice, and asking whether knowledge and methodologies in the humanities can intervene in everyday politics and vice-versa.

Free Speech Timothy Garton Ash, 2016-01-01 One of the great political writers of our time offers a manifesto for global free speech in the digital age. Never in human history was there such a chance for freedom of expression. If we have Internet access, any one of us can publish almost anything we like and potentially reach an audience of millions. Never was there a time when the evils of unlimited speech flowed so easily across frontiers: violent intimidation, gross violations of privacy, tidal waves of abuse. A pastor burns a Koran in Florida and UN officials die in Afghanistan. Drawing on a lifetime of writing about dictatorships and dissidents, Timothy Garton Ash argues that in this connected world that he calls cosmopolis, the way to combine freedom and diversity is to have more but also better free speech. Across all cultural divides we must strive to agree on how we disagree. He draws on a thirteen-language global online project--freespeechdebate.com--conducted out of Oxford University and devoted to doing just that. With vivid examples, from his personal experience of China's Orwellian censorship apparatus to the controversy around Charlie Hebdo to a very English court case involving food writer Nigella Lawson, he proposes a framework for civilized conflict in a world where we are all becoming neighbors.

The Assassination of Theo van Gogh Ron Eyeran, 2008-08-28 Explores the motives, mass media attention and narrative interpretation of the November 2004 murder of Dutch filmmaker Theo van Gogh.

Writing Muslim Identity Geoffrey Nash, 2012-01-26 The relationship between Islam and the West is one of the most urgent and hotly debated issues of our time. This book is the first to offer a comprehensive overview of the way in which Muslims are represented within modern English writing, ranging from the novel, through memoir and travel writing to journalism. Covering a wide range of texts and authors, it scrutinises the identity 'Muslim' by looking at its inscription in recent and contemporary literary writing within the context of significant events like the Rushdie Affair and 9/11. Examining the wide range of writing internationally that takes Islam or Islamic cultures as its focus, the author discusses the representation of Muslim identity in writing by non-Muslim writers, former Muslim 'native informants', and practising Muslims.

The Fear of Insignificance C. Strenger, 2011-02-14 This book shows how, after the fall of the Berlin Wall in 1989, the Gospel of the free market became the only world-religion of universal validity. The belief that all value needs to be quantifiable was extended to human beings, whose value became dependent on their rating on the various ranking-scales in

the global infotainment system.

Autonomy, Oppression, and Gender Andrea Veltman, 2014 This collection of new essays by leading scholars examines philosophical issues at the intersection of feminism and autonomy studies. Contributors advance central debates in autonomy theory by examining basic components, normative commitments and applications of autonomy, with particular attention to issues of gender and oppression.

The Multimedia Encyclopedia of Women in Today's World Mary Zeiss Stange, Carol K. Oyster, Jane E. Sloan, 2013-01-09 This e-only volume expands and updates the original 4-volume Encyclopedia of Women in Today's World (2011), offering a wide range of new entries and new multimedia content. The entries reflect such developments as the Arab Spring that brought women's issues in the Islamic world into sharp relief, the domination of female athletes among medal winners at the London 2012 Olympics, nine more women joining the ranks of democratically elected heads of state, and much more. The 475 articles in this e-only update (accompanied by photos and video clips) supplement the themes established in the original edition, providing a vibrant collection of entries dealing with contemporary women's issues around the world.
