Hacking Life Joseph M. Reagle, Jr.,2020-02-18 In an effort to keep up with a world of too much, life hackers sometimes risk going too far. Life hackers track and analyze the food they eat, the hours they sleep, the money they spend, and how they're feeling on any given day. They share tips on the most efficient ways to tie shoelaces and load the dishwasher; they employ a tomato-shaped kitchen timer as a time-management tool.They see everything as a system composed of parts that can be decomposed and recomposed, with algorithmic rules that can be understood, optimized, and subverted. In *Hacking Life*, Joseph Reagle examines these attempts to systematize living and finds that they are the latest in a long series of self-improvement methods. Life hacking, he writes, is self-help for the digital age's creative class. Reagle chronicles the history of life hacking, from Benjamin Franklin's *Poor Richard's Almanack* through Stephen Covey's *7 Habits of Highly Effective People* and Timothy Ferriss's *The 4-Hour Workweek*. He describes personal outsourcing, polyphasic sleep, the quantified self movement, and hacks for pickup artists. Life hacks can be useful, useless, and sometimes harmful (for example, if you treat others as cogs in your machine). Life hacks have strengths and weaknesses, which are sometimes like two sides of a coin: being efficient is not the same thing as being effective; being precious about minimalism does not mean you are living life unfettered; and compulsively checking your vital signs is its own sort of illness. With *Hacking Life*, Reagle sheds light on a question even non-hackers ponder: what does it mean to live a good life in the new millennium?

Seduction Clement Knox, 2020-02-04 A brilliantly original history that explores the shifting cultural mores of courtship, told through the lives of remarkable women and men throughout history. If sex has generally been a private matter, seduction has always been of intense public interest. Whether the stuff of front-page tabloid news, the scandal of nineteenth-century American courts, or the stuff of literature across the eras, we are fascinated by stories of seduction and sex. In the first history of its kind, Clement Knox explores seduction in all its historical and cultural incarnations. Moving from the Garden of Eden to the carnivals of eighteenth-century Venice, and from the bawdy world of Georgian London to the saloons and speakeasies of the Jazz Age, this is an exploration of timeless themes of power, desire, and free will. Along the way we meet Mary Wollstonecraft, her daughter Mary Shelley, and her friend Caroline Norton, and reckon with their fight for women's rights and freedoms. We encounter Jack Johnson, the first black heavyweight champion of the world, who became entangled in America's labyrinthine and racialized seduction laws. We discover how tall tales of predatory vampires, hypnotists, and immigrants were mobilized by Nazis and nativists to help propel them to power. We consider how after seduction seemingly vanished from view during the Sexual Revolution, it exploded back into our lives as *The Game* became a multi-million bestseller, online dating swept the world, and the ongoing male fascination with manipulating women was exposed. In a big-thinking cultural history told through an extraordinary range of stories and sources, Knox explores how our ideas about desire and pursuit have developed in step with the modern world. This is a bold, modern charter of seduction,

from the birth of the Enlightenment to the explosion of romantic literature and right up to our contemporary moments of reckoning around “incel” culture and #MeToo.

Men Who Hate Women Laura Bates, 2021-03-02 The first comprehensive undercover look at the terrorist movement no one is talking about. *Men Who Hate Women* examines the rise of secretive extremist communities who despise women and traces the roots of misogyny across a complex spider web of groups. It includes eye-opening interviews with former members of these communities, the academics studying this movement, and the men fighting back. Women's rights activist Laura Bates wrote this book as someone who has been the target of many hate-fueled misogynistic attacks online. At first, the vitriol seemed to be the work of a small handful of individual men... but over time, the volume and consistency of the attacks hinted at something bigger and more ominous. As Bates went undercover into the corners of the internet, she found an unseen, organized movement of thousands of anonymous men wishing violence (and worse) upon women. In the book, Bates explores: Extreme communities like incels, pick-up artists, MGTOW, Men's Rights Activists and more The hateful, toxic rhetoric used by these groups How this movement connects to other extremist movements like white supremacy How young boys are targeted and slowly drawn in Where this ideology shows up in our everyday lives in mainstream media, our playgrounds, and our government By turns fascinating and horrifying, *Men Who Hate Women* is a broad, unflinching account of the deep current of loathing toward women and anti-feminism that underpins our society and is a must-read for parents, educators, and anyone who believes in equality for women. Praise for *Men Who Hate Women*: Laura Bates is showing us the path to both intimate and global survival.—Gloria Steinem Well-researched and meticulously documented, Bates's book on the power and danger of masculinity should be required reading for us all.—Library Journal *Men Who Hate Women* has the power to spark social change.—Sunday Times

Merrill Markoe's Guide to Love Merrill Markoe, 1998 When Merrill Markoe, successful comedian, two-time author, and four-time Emmy award-winner, looked back at her life's loves, she found a long track record with few successes. In this hilarious collection, Markoe walks ground that the average woman, lost in a sea of unsuccessful relationships, would never step on to present a bold, brazen, and brilliantly funny take on love and sex in the self-help world of the nineties.

Consent Alan Reed, Michael Bohlander, Nicola Wake, Emma Smith, 2016-10-14 This volume presents a leading contribution to the substantive arena relating to consent in the criminal law. In broad terms, the ambit of legally valid consent in extant law is contestable and opaque, and reveals significant problems in adoption of consistent approaches to doctrinal and theoretical underpinnings of consent. This book seeks to provide a logical template to focus the debate. The overall concept addresses three specific elements within this arena, embracing an overarching synergy between them. This edifice engages in an examination of UK provisions, with specialist contributions on Irish and Scottish law, and in contrasting these provisions against alternative domestic jurisdictions as well as comparative contributions addressing a particularised research grid for consent. The comparative chapters provide a wider background of how other legal systems' treat a variety of specialised issues relating to consent in the context of the criminal law. The debate in relation to consent principles continues for academics, practitioners and within the criminal justice system. Having expert descriptions of the wider issues surrounding the particular discussion and of other legal systems' approaches serves to stimulate and inform that debate. This collection will be a major source of reference for future discussion.

Control Seb Franklin, 2015-09-04 An examination of digitality not simply as a technical substrate but also as the logical basis for reshaped concepts of labor, subjectivity, and collectivity. Is there a cultural logic of what we have come to call the information age? Have the technologies and techniques centered on the computer provided not only tools but also the metaphors through which we now understand the social and economic formation of our world? In *Control*, Seb Franklin addresses the conditions of knowledge that make the concept of the "information economy" possible while at the same time obscuring its deleterious effects on material social spaces. In so doing, Franklin traces three intertwined threads: the relationships among information, labor, and social management that emerged in the nineteenth century; the mid-twentieth-century diffusion of computational metaphors; and the appearance of informatic principles in certain contemporary socioeconomic and cultural practices. Drawing on critical theory, media theory, and the history of science, Franklin names control as the episteme grounding late capitalism. Beyond any specific device or set of technically mediated practices, digitality functions within this episteme as the logical basis for reshaped concepts of labor, subjectivity, and collectivity, as well as for the intensification of older modes of exclusion and dispossession. In tracking the pervasiveness of this logical mode into the present, Franklin locates the cultural traces of control across a diverse body of objects and practices, from cybernetics to economic theory and management styles, and from concepts of language and subjectivity to literary texts, films, and video games.

Lost at Sea Jon Ronson, 2013-10-01 New York Times–bestselling author of *The Psychopath Test* Jon Ronson writes about the dark, uncanny sides of humanity with clarity and humor. *Lost at Sea*—now with new material—reveals how deep our collective craziness lies, even in the most mundane circumstances. Ronson investigates the strange things we're willing to

believe in, from robots programmed with our loved ones' personalities to indigo children to the Insane Clown Posse's juggalo fans. He looks at ordinary lives that take on extraordinary perspectives. Among them: a pop singer whose greatest passion is the coming alien invasion, assisted-suicide practitioners, and an Alaskan town's Christmas-induced high school mass-murder plot. He explores all these tales with a sense of higher purpose and universality, yet they are stories not about the fringe of society. They are about all of us. Incisive and hilarious, poignant and maddening, revealing and disturbing—Ronson writes about our modern world, and reveals how deep our collective craziness lies, and the chaos stirring at the edge of our daily lives.

Extremism and Radicalization in the Manosphere Deniese Kennedy-Kollar, 2024-06-03 This book presents an analysis of the male supremacist ideology of the internet-based subculture known as the manosphere and examines the process of radicalization to violent extremism that occurs within the group. The manosphere is the online subculture comprised of several distinct groups who share a basic gender ideology that is misogynistic and anti-feminist in the extreme. The manosphere celebrates a toxic hegemonic masculinity that encourages sexual violence and portrays violence as an understandable response to a feminized culture that denigrates manhood. Evidence has shown that several recent cases of murder, mass murder, and rape involved offenders who participated in this subculture prior to engaging in their crimes. Through the use of quotes gathered directly from the websites and message boards frequented by individuals within the subculture, this book offers an in-depth analysis of the ideology of the manosphere, and the common attitudes, values, and beliefs promoted within the various groups that comprise the subculture. It will also present a theoretical perspective that may shed light on what draws men to these groups and the processes by which they become radicalized to the far right and violent extremism. This book will be of interest to scholars and students in criminology, sociology, and political science, and others interested in examining the manifestation and effects of the manosphere on crime and criminal justice.

The Pepper Trader Geoff Bennett, 2006 Hidden high in the mountains of Java lies a graveyard surrounded by ancient trees and steeped in Hindu legend. In the middle of this sacred grove stands a tall memorial dedicated to the brave men of the German East Asia Squadron. The graves of ten U-boat sailors rest in the shadow of this mysterious white pillar. Who were these men? And why was a monument dedicated to their honour on the flank of a volcano in Indonesia? These were the questions Geoffrey Bennett asked himself when he chanced upon this remarkable site. He soon identified the man who built the memorial as Emil Helfferich, a young German entrepreneur who sailed to the Dutch East Indies in 1901 to make his

fortune in pepper. Helfferich befriended the legendary Graf Spee and his sailors when they visited Java. He cheered their exploits in the early months of World War I - victory at Coronel, the swashbuckling raids of Emden, their daring trek on camelback - and he mourned their inevitable demise. Through the eyes of Helfferich, Bennett recounts tales of the tropics, the wider world and the unseen hand that guided the young man's life and loves. The Pepper Trader takes the reader on a romantic journey from Helfferich's village in Germany to the exotic East Indies and back again to his native land. A memorable cast of real characters, mystical creatures and the Queen of the South Sea accompany the reader on this fascinating voyage. This true story is a unique account of long-forgotten events from the last century - and how they continue to affect us today. ABOUT THE AUTHOR Geoffrey Bennett was born in Ottawa, Canada, and has lived in six Canadian cities as well as Denver, Houston, Paris, Jakarta, Singapore and Bangkok. A student of engineering at the Royal Military College of Canada and geophysics at the University of British Columbia, Mr. Bennett has worked as an exploration geophysicist for thirty years, half of that time in Jakarta, Indonesia. In addition to five papers on geophysics, he has written The Jakarta Hike & Bike Trail Guide as well as several articles on birding, Scouting, canoeing and mountaineering.

Not All Dead White Men Donna Zuckerberg, 2018-10-08 Some of the most controversial and consequential debates about the legacy of the ancients are raging not in universities but online, where Alt-Right men's groups deploy ancient sources to justify misogyny and a return of antifeminist masculinity.
