I Used to be a Miserable F*ck John Kim, 2019-02-28 Men are not born men - and becoming a man means a hell of a lot more than getting a six pack and an office with a view. Sometimes we all need to rethink exactly who we are and what we want to be. Deep in post-divorce soul searching, therapist John Kim did just that. He came to an astonishing realisation: he was a miserable f*ck who might just be to blame for the problems in his life. And thus began his reinvention - a period of self-reflection and self-scrutiny. He started to unpack his emotions, his drives, his successes and his failures to help him stop acting like a boy and start living like a man. And this book tells you exactly what he learned. With his signature no-nonsense approach that will make you laugh and make you think, Kim takes you on a rough-and-tumble ride of exploration and discovery. This book is self-help in a shot glass - covering all the essential topics, from vulnerability and posturing to health and relationships. It will help women understand men, and men understand themselves.

The Once and Future Worker Oren Cass, 2018-11-13 “[Cass’s] core principle—a culture of respect for work of all kinds—can help close the gap dividing the two Americas....” - William A. Galston, The Brookings Institution The American worker is in crisis. Wages have stagnated for more than a generation. Reliance on welfare programs has surged. Life expectancy is falling as substance abuse and obesity rates climb. These woes are not the inevitable result of irresistible global and technological forces. They are the direct consequence of a decades-long economic consensus that prioritized increasing consumption—regardless of the costs to American workers, their families, and their communities. Donald Trump’s rise to the presidency focused attention on the depth of the nation’s challenges, yet while everyone agrees something must change, the Left’s insistence on still more government spending and the Right’s faith in still more economic growth are recipes for repeating the mistakes of the past. In this groundbreaking re-evaluation of American society, economics, and public policy, Oren Cass challenges our basic assumptions about what prosperity means and where it comes from to reveal how we lost our way. The good news is that we can still turn things around—if the nation’s proverbial elites are willing to put the American worker’s interests first. Which is more important, pristine air quality, or well-paying jobs that support families? Unfettered access to the cheapest labor in the world, or renewed investment in the employment of Americans? Smoothing the path through college for the best students, or ensuring that every student acquires the skills to succeed in the modern economy? Cutting taxes, expanding the safety net, or adding money to low-wage paychecks? The renewal of work in America

demands new answers to these questions. If we reinforce their vital role, workers supporting strong families and communities can provide the foundation for a thriving, self-sufficient society that offers opportunity to all.

Measuring the Impact of Dyslexia Carol Hayes, 2020-07-08 *Measuring the Impact of Dyslexia* shows the considerable benefits of recognising and celebrating the skills of those with information processing differences, explains their unique brain organisation and shows how they can excel as contributing members of society with proper support and guidance. It offers a balanced and research-based perspective to living with this condition, highlighting the huge number of children leaving school with low literacy levels, as a result of undiagnosed information processing differences. Full of critically reflective questions, case studies and interviews with those affected by dyslexia, this text encourages educators of children and young people with dyslexia to challenge their own perceptions by understanding the links between low literacy and anti-social behaviour, poor health, unemployment and limited educational attainment, and includes helpful pointers for improving practice and outcomes. This accessible and readable text is aimed at students, practitioners, researchers and experienced professionals in a range of disciplines to enhance CPD. It is particularly relevant for students working on both taught and research based masters degrees, especially programmes related to specific learning difficulties.

The Philosophy of Autism Jami L. Anderson, Simon Cushing, 2012-11-16 This book examines autism from the tradition of

analytic philosophy, working from the premise that Autism Spectrum Disorders raise interesting philosophical questions that need to be and can be addressed in a manner that is clear, jargon-free, and accessible. The goal of the original essays in this book is to provide a philosophically rich analysis of issues raised by autism and to afford dignity and respect to those impacted by autism by placing it at the center of the discussion.

The Marriage You Want Sheila Wray Gregoire, Dr. Keith Gregoire, 2025-03-11 We all want a marriage that feels like home. We long for a partner who is there for us through all of life's challenges and griefs, who is in on all our inside jokes, who delights in the family we've built together, who looks with hope toward the future with a shared faith and an arm firmly around our shoulders. But how do we get there? What actually works in the real world and honors the picture of marriage found in Scripture? Based on the findings of their meticulous research, Sheila Wray Gregoire and Dr. Keith Gregoire dispel the pervasive myths about what makes a happy marriage. Rather than relying on gender stereotypes, they look at what actually creates intimacy, emotional health, and connection, asking deeper questions that lead to real healing and growth in your relationship with your spouse. With enlightening stories, survey results, and practical tools, this book will help readers create a marriage they love. And with the evidence-based, Scripture-honoring advice in this book, that just may be closer than you imagine.

U.S. Military Intervention in the Post-Cold War Era Glenn J. Antizzo, 2010-06 In this readily accessible study, political scientist Glenn J. Antizzo identifies fifteen factors critical to the success of contemporary U.S. military intervention and evaluates the likely efficacy of direct U.S. military mediation today -- when it will work, when it will not, and how to undertake such action in a manner that will bring rapid victory at an acceptable political cost. Antizzo then tests his abstract criteria by using real-world case studies of the most recent fully completed U.S. military interventions -- in Panama in 1989, Iraq in 1991, Somalia in 1993--94, and Kosovo in 1999. Finally, he considers how the development of a Somalia Syndrome affected U.S. foreign policy and how the politics and practice of military intervention have continued to evolve since the terrorist attacks of September 11, 2001, giving specific attention to the current war in Afghanistan and the larger War on Terror.

Anthropology and Ethnography are Not Equivalent Irfan Ahmad, 2021-01-14 In recent years, crucial questions have been raised about anthropology as a discipline, such as whether ethnography is central to the subject, and how imagination, reality and truth are joined in anthropological enterprises. These interventions have impacted anthropologists and scholars at large. This volume contributes to the debate about the interrelationships between ethnography and anthropology and takes it to a new plane. Six anthropologists with field experience in Egypt, Greece, India, Laos, Mauritius, Thailand and Switzerland critically discuss these propositions in order to renew anthropology for the future. The volume concludes with an Afterword

from Tim Ingold.

The Road to Russia Bernard Edwards, 2002-01-01 Bernard Edwards, the formidable naval historian, has researched the fate of Convoys PQ13 and PQ17 bound from Iceland to Northern Russia as well as the westbound Convoy QP13. Attacked relentlessly by aircraft and U-boats, the former lost a total of thirty ships while QP13 ran into a British minefield off Iceland, losing seven vessels. The Road to Russia is an important addition to the bibliography of this bitterly fought campaign.

Office Gynecology David Chelmow, Nicole W. Karjane, Hope A. Ricciotti, Amy E. Young, 2019-01-31 This case-based guide covers 100 gynecologic problems commonly encountered in office practice settings, from the simple to the complex. It encourages evidence-based care and incorporates up-to-date guidance on evaluation and management in office practice. Clinical problems are discussed in a clear, case-based format. The book integrates current guidelines and recommendations, supplemented with carefully-researched and vetted expert opinion for situations for which no guidelines exist. Each gynecologic problem is assessed through a brief case presentation followed by an in-depth discussion with visual aids. Question and answer sections feature teaching points. Cases and discussions are detailed enough to guide practice, yet remain focused and concise, with each case designed to be read in the time available when seeing a patient in clinical practice. An invaluable reference guide for gynecologists, family physicians, internal medicine providers, and other women's health care providers who offer office-based gynecologic care.

Transborder Lives Lynn Stephen, 2007-06-13 Lynn Stephen's innovative ethnography follows indigenous Mexicans from two towns in the state of Oaxaca—the Mixtec community of San Agustín Atenango and the Zapotec community of Teotitlán del Valle—who periodically leave their homes in Mexico for extended periods of work in California and Oregon. Demonstrating that the line separating Mexico and the United States is only one among the many borders that these migrants repeatedly cross (including national, regional, cultural, ethnic, and class borders and divisions), Stephen advocates an ethnographic framework focused on transborder, rather than transnational, lives. Yet she does not disregard the state: She assesses the impact migration has had on local systems of government in both Mexico and the United States as well as the abilities of states to police and affect transborder communities. Stephen weaves the personal histories and narratives of indigenous transborder migrants together with explorations of the larger structures that affect their lives. Taking into account U.S. immigration policies and the demands of both commercial agriculture and the service sectors, she chronicles how migrants experience and remember low-wage work in agriculture, landscaping, and childcare and how gender relations in Oaxaca and the United States are reconfigured by migration. She looks at the ways that racial and ethnic hierarchies

inherited from the colonial era—hierarchies that debase Mexico’s indigenous groups—are reproduced within heterogeneous Mexican populations in the United States. Stephen provides case studies of four grass-roots organizations in which Mixtec migrants are involved, and she considers specific uses of digital technology by transborder communities. Ultimately Stephen demonstrates that transborder migrants are reshaping notions of territory and politics by developing creative models of governance, education, and economic development as well as ways of maintaining their cultures and languages across geographic distances.

Counseling John F. MacArthur, Wayne A. Mack, Master's College Faculty, 2017-03-07 Gain a knowledge of counseling methods that are practical and consistent with Christian theological convictions. What do the Scriptures say about counseling? What is the biblical basis for using Scriptures in counseling? What does it mean to think biblically about counseling-related issues? At the root of this book is the confidence that Christ and his Word are not only sufficient for effectively handling the personal and interpersonal challenges of life but are superior to the resources found in the world. The practice of psychological counseling is a ministry and should not belong only to the realm of humanistic and secular theories of the mind. Written to pastors, elders, deacons, seminary students, and laypeople; well-known pastor John MacArthur and contributors present a system of biblical truth that brings together people, their problems, and the living God. This kind of counseling is based on the convictions that: God's Word should be our counseling authority. Counseling is a part of the basic discipling ministry of the local church. God's people can and should be trained to counsel effectively. Counseling: How to Counsel Biblically provides biblical guidelines to counsel people who are struggling. The contributors represent some of America's leading biblical teachers and counselors, including: Ken L. Sarles, David Powlison, Douglas Bookman, David B. Maddox, Robert Smith, William W. Goode, and Dennis M. Swanson.

Relative Effectiveness of Alternative Microfinance-driven Poverty Alleviation Programs in Bangladesh Dr.

Tamgid Ahmed Chowdhury, 2014-06-26 In general, the effectiveness of microfinance-driven poverty-alleviation programs run by Government Organizations (GOs) and Non-Government Organizations (NGOs) in developing countries, such as Bangladesh, is assessed by repayment rates, the number of beneficiaries, the area coverage, the amount of loans disbursed, the cost of operations, profitability, and the financial sustainability of the projects. This study argues that these methods are quite restrictive since none of them reflect the perceptions of poor people concerning the effectiveness of such projects. Development agencies such as GOs and NGOs have never been compared on the basis of service delivery effectiveness (a process-based comparison); nor have they ever been compared on the basis of their relative contribution to raising the living standards of the poor (an outcome-based comparison). Both types of comparison are crucial to poverty reduction. The main reason behind the absence of such comparisons is the unavailability of the appropriate parameters that could be used for such analysis. For the process-based comparison, this study develops and validates a two-dimensional multi-item service delivery effectiveness scale through construct, convergent, discriminant and nomological validity. The scale captures different aspects of effectiveness in the delivery of services. These aspects are termed the 'credibility dimension' and the 'focus towards beneficiaries dimension' of service delivery in poverty-alleviation programs. For the output-based comparison, this study also develops and validates a 'multidimensional poverty model' to compare the effectiveness of GOs and NGOs in contributing to the economic, social, political, and cultural elements in the lives of the poor. The methodology is based on 930 samples collected from 12 districts and 107 randomly chosen villages in Bangladesh during September–December 2009.
